 Strategic Goals Through 2020

1. The Newnan Center will continue to serve the region by providing and strengthening its early childhood education, MBA, general education, and nursing programs, and seek to establish new programs in healthcare and other high need areas.
2. The new facility will optimize academic and student space, while maximizing opportunities for environmental sustainability and community engagement.
3. UWG-Newnan will be a vital asset to Coweta, South Fulton, Fayette and surrounding communities, providing relevant scholarly and cultural activities geared toward traditional and adult learners and their families.

Current Academic Programs

1. Undergraduate offerings include the core curriculum (includes some hybrid and online), the BSEd In Early Childhood Education, the BSN in Nursing, and select undergraduate business courses.
2. Graduate programs include the MBA, master’s degrees in Elementary Education and specialist degrees in Educational Leadership. Education programs are mostly online, but include face-to-face orientations, courses, and program support at the Newnan Center as applicable.
3. Continuing Education/Workforce Development programs include the Certified Nursing Assistant Program, software training, and summer camps.

Possible Future Programming

UWG plans to study the feasibility of bringing one or more the following programs to the Newnan Center. Programs are subject to market demand, faculty resources, and BOR and SACS approval.

1. Undergraduate degree in Business or Healthcare Management.
2. Undergraduate degree in Criminology, Sociology, Psychology, Biology, or Chemistry.
3. Undergraduate degree in Exercise and Health Science.
4. MPA with an emphasis in Healthcare Administration.
5. Master of Arts in Teaching and Master’s of Professional Community Counseling.
6. Continuing Education programs in other healthcare support areas and Microsoft Certification.
