Your Time Card and Accruals

Project View Time Card for Faculty

The Project View timecard for Faculty is to record the usage of Sick Leave. It records the total number of hours to be deducted from the accrual of the Sick Leave Accrual buckets.

On the 28th of each month the accrual process will be generated automatically by eTime. It will add to the Accrual bucket the amount of Sick Leave.

The recording of the Sick Leave to be taken will only be allowed if you have the amount within the Accrual bucket. If you do not have the time in the bucket, a message will be displayed to you when you try to enter the time on the time sheet.

For example, you need to take 16 hours of Sick leave but you only have 10 hours in your Sick Accrual. eTime will only allow you to use the 10 hours. eTime will display that you only have 10 hours and it will not allow you to save your timecard until you only enter the 10.

You must still adhere to the Board of Regents Policy (802.07.02 SICK LEAVE WITH PAY) regarding Sick Leave. This policy can be viewed at this website. http://www.usg.edu/regents/policymanual/800.phtml.

**Hourly View Timecard**

Hourly View – time is recorded as in and out punches of the actual hours worked

- BiWeekly (required to record in and out time) and Students

**Schedules in an Hourly View Timecard**

Only benefited Bi-Weekly employees will have a schedule. The schedule is to identify time the employee is to physically work. eTime will mark on the timecard any day and time based on the employee’s schedule that a punch is not recorded. The marking is a solid red box for the Hourly View Time card.
Hourly View Missed Punch

**IMPORTANT! Any timecards with a Missed Punch will not be paid.** eTime will not allow the Payroll Practitioner to Sign Off on any time card with a missed punch. Therefore, the time cannot be exported to be processed for payment.

Schedules are shown at the bottom right corner of the time card.

Rounding in an Hourly View Timecard

Rounding rules apply to both in and out punches. If a punch is recorded within the first 7 minutes of a 15 minute interval, the punch is rounded back to the interval start. If the punch occurs at 8 minutes or later, it rounds to the start of the next interval.

For example, if the interval starts at 8:00AM, any punch between 8:00AM and 8:07AM rounds back to 8:00AM. Any punch from 8:08AM to 8:14AM rounds forward to 8:15AM.

**HINT:** The timecard will always show the actual punch time, but double-clicking on the punch will open up a box that shows the rounded time.

If there is no schedule, the same rounding rules apply to both in and out punches. If a punch is recorded within the first 7 minutes of a 15 minute interval, the punch is rounded back to the interval start. If the punch occurs at 8 minutes or later, it rounds to the start of the next interval.
Edit the Punch

Add Comp Time

The University System of Georgia will now track Comp Time earned and taken on the Time card. Comp Time will now be calculated and applied based on the Overtime rules where an employee must physically work 40 hours before Comp Time will be calculated at Time and a half. The Tuesday following the end of the Pay Period the Comp Time will appear in the Comp Time bucket for you to begin using. After 20 weeks from the Tuesday the Comp Time was placed in the bucket, if the Comp Time has not been used, eTime will process the Comp Time to be paid in the upcoming pay period. Comp Time cannot exceed 60 hours. Once 60 hours has been reached overtime will be paid.

For example, the Pay Period is April 4 – April 17. Comp Time is earned on April 7 of 2 hours. During the week of April 4 – April 10, you physically worked 40 hours; therefore, the 2 hours for April 7 will be calculated at Time and a half giving 3 hours to be placed in the Comp Time bucket for you. You will not be able to use this 3 hours until Tuesday April 21 (Tuesday after the pay period end date of April 17) when it will be placed in the Comp Time bucket.

To record Comp Time Off on a partial day, insert a row on the day the Comp Time was taken. On this new row select the Pay Code for Comp Time Off. On this same row in the column of the day the Comp Time was taken, enter the total time that will be documented as Comp Time taken.

**Adjustments**

At some point Time Off may be missed and determined after Payroll has been processed. For example, an employee is sick and the Sick Pay Code was not recorded on the employee’s time card. You will need to email your Payroll Practitioner the information on the employee as to what date the time off occurred. The Payroll Practitioner will have to make a historical edit to the employee’s leave balance.

**Assigning Your Approval Authority to Another**

The assignment of your approval of timecards to another manager while you are unavailable will be performed through Manager Delegation. Through this delegation, managers can perform your tasks using their own user names and passwords. This process helps to keep business processes moving even when you are not there.
Reviewing your Enterprise eTIME functions

After you identify a situation that requires you to delegate your timekeeping and/or scheduling tasks to another manager, you should review your QuickNavs, menu options, and base group of employees to determine the functions you need the other manager to perform. The basic question that should be asked is “What exactly do I need another manager to do while I am unavailable?” The answer will determine the role you will define for that manager. Your eTime Systems Administrator at your campus will be able to help you to define a role that matches your specific needs.

Delegating your Tasks to Another Manager

1. Click the General Tab.

2. Click Actions.

3. Click Run Proxy Manager Delegation link.
4. The Create Delegation form will appear.
