The Oglethorpe Scholarship was established by Oglethorpe Power Corporation in 2011 to support students who are majoring in science or mathematics and who are students in the UTeach Program at the University of West Georgia. Scholarships are available annually to qualified UTeach students who have successfully completed either UTCH 3001 or STEM 3815 and are enrolled in at least one UTCH or STEM course for the following semester.

**Application Materials:** Students seeking to obtain an Oglethorpe Power Scholarship should turn in a completed application packet to the designated drop off zone in the UTeach lobby under the bubble wall. Please make sure that your application is in a sealed manila envelope.

**Selection:** Recipients must be an undergraduate UWG student majoring in chemistry, physics, biology, geosciences, or mathematics. Preference will be given to those who have a major with an energy-electricity focus. Recipients must have completed either UTCH 3001 or STEM 3815 with a B or better and be enrolled in at least UTCH 3002, STEM 3825, or STEM 3805 for the following semester. Recipients must have an overall GPA of a 3.0 or better.

**Award:** $200.00
