Go West. It changes everything.
Welcome to the University of West Georgia!

I’m glad you’ve decided to explore our campus. This is an exciting time at UWG! We’re honoring the past while forging a new West and with a vision of becoming the best comprehensive university in America – sought after as the place to work, learn, and succeed. Our number one priority is student success – your success. That means we’re always looking for ways to make your college experience more rewarding – and your education more valuable, both to you and to future employers.

At UWG, we are committed to transforming lives and changing perspectives. And we are passionate about promoting student growth and success – in the classroom and beyond.

We have students performing biomedical research, outranking private university debate teams, studying trees to evaluate historical sites, and submitting winning tee shirt designs for the Peachtree Road Race. Our cheerleaders win national competitions – over and over again. UWG students are studying overseas, developing local outreach programs, and building robots. They come from not only Georgia, but 44 other states and 75 other nations worldwide. And we continue to break records in enrollment and achieve national quality rankings.

Our faculty and staff are doing some pretty amazing things too. They’re visiting far-flung reaches of the world to give lectures, provide medical services, and educate the less fortunate. They’re publishing books, advising small businesses, and excavating archaeological sites. Our alumni have gone on to achieve remarkable successes, and they recognize and talk about the importance of a UWG education through their continued support. They’re newscasters, authors, international business leaders and teachers of the year. They’re Hollywood makeup artists, entrepreneurs, critical care nurses, and everything in between.

UWG’s commitment to building a better future extends beyond our classrooms as well. We pride ourselves on serving our communities through volunteer efforts and programs that enhance our region and its people and play an integral part in economic development. That’s why we are passionate about promoting student growth and success – in the classroom and beyond.

So take time to really look around campus today. Talk to faculty and staff about your opportunities at UWG. Meet other students who might be Going West with you in the fall. Ask questions and explore the options. Try UWG on for size and see how it feels to imagine yourself as a student here. Then feel free to come back, visit our website, or contact your personal admission representative.

Dr. Kyle Marrero
President of the University

Preview Day Schedule of Events
