<p><b>GOAL 1: Enhance Learning</b></p>			
<p><b>GOAL 2: Support Information Accessibility</b></p>			
<p><b>GOAL 3: Increase Customer Focus</b></p>			
<p><b>GOAL 4: Ensure Continuous Innovation</b></p>			
<p><b>GOAL 5: Effectively and Efficiently Plan and Manage IT Operations</b></p>			

**Goals from the Current IT Strategic Plan**

**Enhance Learning:** The University will provide an environment for learning and development empowered by technology. Users will have access to informational, educational, and research resources both inside and outside the classroom. Delivery of academic services will be enhanced by the use of appropriate technology. The University will seek to identify and increase the benefits accrued by the use of technology for instruction, learning and the delivery of research materials.

**Support Information Accessibility:** The University will develop and maintain a robust, secure, and flexible infrastructure that allows efficient and reliable access to information and accurate data for learning, research, and decision-making. Services are expected to be ubiquitous, to enhance the user's ability to accomplish work, and to present no obstacles for accomplishment. Services should be provided routinely to all users: faculty, staff, and students.

**Increase Customer Focus:** The University will employ IT to encourage and support an operational environment in which characteristics of its customers - students, faculty, staff, and the West Georgia community – are identified, their needs are understood, relationships and expectations are effectively managed, and quality assurance is fostered for high-quality services and support. The University will enhance processes associated with establishing, servicing and retaining relationships with students, faculty, staff, alumni, vendors, the University System of Georgia, and the Community.

**Ensure Continuous Innovation:** The University will anticipate, plan, and implement information and instructional technology capabilities and solutions in a manner that provides the greatest overall benefit to the communities served by the State University of West Georgia.

**Effectively and Efficiently Plan and Manage IT Operations:** The University will provide an IT operational environment where collaboration and communication are given priority, resources are matched with services, costs are effectively managed, resource alternatives are explored, appropriate funds are provided, resources are shared and used to their maximum potential and services are continually improved

**Representation and Term of Office (until when)**
