

Workshop on Inquiry in Science and Education
led by Dr. Donald Wink with Jeong-Hye Hwang, University of Illinois at Chicago

This 1 ½ day workshop will include sessions to discuss how to use inquiry in its different modes, including different teaching strategies, the use of design strategies for student projects, and the overlap of student inquiry with authentic science practice. Ideas of how to use inquiry teaching in assessment of student learning will be presented. Hands-on work from science and mathematics will be used to illustrate certain concepts, theories, and teaching methods.

Schedule:

Tuesday, June 5: 9.00 a.m. – 4.00 p.m;

Wednesday, June 6: 9.00 a.m. – 12.00 p.m.

If you wish to attend this workshop, please e-mail Dr. Sharmistha Basu-Dutt at sbdutt@westga.edu.
