CONTENTS

THE BREVARD ZONE: A LITERATURE REVIEW by: Crawford and Kath.........................................................1

CHATTAHOOCHEE TUNNEL “ONE-YEAR UPDATE ON CONSTRUCTION by: Jones and Robison..............19

DETAILED GEOLOGIC MAPPING ALONG THE CHATTAHOOCHEE TUNNEL, COBB COUNTY,
GEORGIA by: Kath and Crawford ........................................................................................................25

CHARACTERIZATION OF VEINS AND ASSOCIATED ALTERATION IN A BEDROCK CORE
FROM THE BREVARD ZONE, COBB COUNTY, GEORGIA by: Burnley and Brocks ................39

STRUCTURAL STYLES ALONG THE CHATTAHOOCHEE TUNNEL, COBB COUNTY, GEORGIA
by: Raymer and Reineke.....................................................................................................................43

PETROGRAPHY OF ROCKS FROM THE CHATTAHOOCHEE TUNNEL, INNER BREVARD ZONE,
COBB COUNTY, GEORGIA by: Bedell, Roden, and Raymer...............................................................51

THE BRUNTON COMPASS AND GEOLOGICAL OBJECTS by: Babaie.....................................................55

ROAD LOG by: Crawford and Kath.........................................................................................................61

ACKNOWLEDGMENTS

Without the help and cooperation of many companies and individuals, this field trip would not
have been possible. The Georgia Geological Society gratefully acknowledges assistance and
cooperation of the following companies and institutions for donating time and resources:

Cobb County Water System
Jordan Jones and Goulding, Inc.
State University of West Georgia
Golder Associates, Inc.
Petrologic Solutions, Inc.
Qore Property Sciences, Inc.

The Georgia Geological Society would like to thank Golder Associates, Inc. and Petrologic
Solutions, Inc. for providing refreshments for the annual smoker.
