ROAD LOG: DAY 1 .....	55
ROAD LOG: DAY 2 .....	71
GEORGIA GEOLOGICAL SOCIETY PUBLICATIONS .....	88

## ACKNOWLEDGMENTS

As attested by the list of authors, numerous individuals have contributed to the success of this field trip and we wish to thank them all for their willingness to participate. They are: Matt Mittenthal, Dennis Harry, Richard Groshong, Tim Long, Tom Crawford, Carl Froede, Jerry Akridge, Jim Mayer, Terrance Garner, Deana Sneyd, Julie Bartley, Richard Sanders, John Congleton, Mike Higgins and Ralph Crawford. We appreciate the opportunity to visit the quarries operated by Florida Rock Industries and Vulcan Materials and the assistance of their staff in preparing for our visit; in particular C.T. Williams, and Charles Selman of Florida Rock and Tony Roberts and Ronnie Wilbanks of Vulcan. Permission to dine out on the outcrop along Allison Creek, Deer Head Cove was kindly given by Brian Blancett.

Overall logistics for the trip were coordinated by Tim Chowns while registration and preparation of the guidebook (both paper and digital formats) was ably carried out by Randy Kath. The newsletter was assembled and mailed by Burt Carter.

As last year, this year's social is once again supported by a generous donation from Florida Rock Industries.

**Enjoy the trip!**
