**Detailed Syllabus: Part 2 → Kapitel 6**

**Note on learning the vocabulary:** The vocabulary at the back of the chapter is extensive, and I do not expect you to know all of it. I do expect you to know all the vocabulary used in the pictorial introductions throughout the chapter as well as in the Bildgeschichten. I also expect you to be attentive to the words that come up several times in class because of questions asked and because of activities that we talk about a lot. Take notes. Write things down when I write them on the board or have on powerpoints. I give you an abbreviated list of the verbs from the chapter below. You definitely should know these. Check their meanings on page 223. Remember you need to know more than the infinitive form of the verbs. You will also need to be able to use the verb in the present and present perfect tenses. Doing the homework for each day is part of your preparation and will generally help you learn more in class. That applies to the workbook homework as well, even though I'll only take the workbook up on exam days.

N.B. POP quizzes will be unannounced but taken verbatim from the assigned homework. Announced quizzes count double.
