Charles talked about Evan Farber coming to the library on April 18.
He invited everyone to come and listen to Mr. Faber.

Charles had the plans for the renovation of the basement. He welcomed anyone to come by his office and look at them. He showed the librarians the carpet sample that will be put in the stairwell, second and third floors with the money that we would receive in May.

Betsy talked about the Universal Catalog preview. The USG Universal Catalog is available for Library Staff preview at <http://gilus.usg.edu>.

Mark explained that Dialog was running out of money. He is working a deal to pay off the contract, initiate another that will run from April to March '02 at the same rate. Bill, Myron and Michael need to get with Gail Smith and figure out which department are spending too much money. We can then begin to charge the departments for overages.
