It's your responsibility to check the course webpage regularly for homework assignments, announcements, and a lecture log (useful when you miss a class and when reviewing for an exam).
- COURSE TOPIC: Analytic geometry in three-dimensional space. Partial derivatives. Multiple integrals. Vector analysis.
- HOMEWORK: Homework will be assigned almost every class. Although it will **not** be collected and graded, you are strongly encouraged to do all of the problems in order to completely master the materials studied in class, and to prepare for group works, quizzes and exams.
- QUIZ: On Mondays, we will have 10-minute quizzes. It usually covers the materials from the previous week. The questions on the quizzes will be mostly of the “quickie” variety which can be answered on the spot, without much calculations. If you attend the lectures and are diligent in doing the homework assignments, you should have no problems with the quizzes. **Missed quizzes cannot be made up for any reason**, and instead, **two lowest scores will be dropped** at the end of the semester.
- HOUR EXAM: There will be **three** one-hour exams. Missed hour exams may be made up **prior** to the actual test date if the student has a **provable excuse** such as an official university field trip or doctor's note. Somebody's wedding or gathering with a boy/girl friend after several months are **not** appropriate excuses.
 - Exam #1 on Mon., Feb. 11
 - Exam #2 on Mon., Mar. 10
 - Exam #3 on Mon., Apr. 14
- FINAL EXAM: The final exam is scheduled for **Friday, May 2, 11 am-1 pm**.
