

Invisible Wounds of War

Psychological and Cognitive Injuries,
Their Consequences, and Services to Assist Recovery

TERRI TANELIAN AND LISA H. JAYCOX, EDITORS

Sponsored by the California Community Foundation

RAND

Center for Military Health Policy Research

A JOINT ENDEAVOR OF RAND HEALTH AND THE
RAND NATIONAL SECURITY RESEARCH DIVISION

This work was funded by a grant from the Iraq Afghanistan Deployment Impact Fund, which is administered by the California Community Foundation. The study was conducted jointly under the auspices of the Center for Military Health Policy Research, a RAND Health center, and the Forces and Resources Policy Center of the National Security Research Division (NSRD).

Contents

Preface	iii
Figures	xiii
Tables	xv
Summary	xix
Acknowledgments	xxxv
Abbreviations	xxxvii
Part I: Introduction, Current Policy Context, and Historical Perspective	1
CHAPTER ONE	
Introduction	3
Signature Wounds	3
Unique Features of the Current Deployments	5
Changes in Military Operations, Including Extended Deployments	5
Higher Rates of Survivability from Wounds	6
Traumatic Brain Injuries	6
Caring for Invisible Wounds	7
The Current Policy Context	9
The Purpose of the RAND Study	11
Scope of the Monograph	12
Organization of This Monograph	14
References	15
CHAPTER TWO	
The Wars in Afghanistan and Iraq—An Overview	19
What the Current Fighting Force Looks Like	19
Troops Deployed to OEF/OIF	21
The Conflicts in Perspective	21
What Makes the Conflicts in Afghanistan and Iraq Different?	22
Operation Enduring Freedom	23
Operation Iraqi Freedom	24

Casualties and Improvised Explosive Devices	25
The Military and Veterans Health Systems	27
Concluding Comments	29
References.....	30
Part II: The Nature and Scope of the Problem	33
CHAPTER THREE	
Prevalence of PTSD, Depression, and TBI Among Returning Servicemembers	35
Methods.....	35
Results.....	36
Screening for PTSD, Depression, and TBI in Epidemiological Surveys.....	36
Defining a Case.....	37
Mental and Cognitive Conditions Pre-Deployment.....	42
Mental and Cognitive Conditions in Theater.....	42
Mental and Cognitive Conditions Post-Deployment.....	43
Emergent Themes.....	47
Discussion.....	54
Consistencies and Inconsistencies Across Studies.....	54
Strengths and Limitations of the Existing Studies.....	55
Future Research Directions.....	57
Conclusion.....	58
References.....	82
CHAPTER FOUR	
Survey of Individuals Previously Deployed for OEF/OIF	87
Introduction	87
Methods.....	88
Eligibility and Sampling.....	88
Informed Consent	91
Interviews.....	91
Measures	91
Statistical Analysis.....	94
Results.....	96
Discussion.....	103
Strengths and Limitations	110
Conclusions	112
References.....	113

Part III: Immediate and Long-Term Consequences of Post-Traumatic Stress Disorder, Depression, and Traumatic Brain Injury 117

CHAPTER FIVE

Predicting the Immediate and Long-Term Consequences of Post-Traumatic Stress Disorder, Depression, and Traumatic Brain Injury in Veterans of Operation Enduring Freedom and Operation Iraqi Freedom 119

The Challenge of Predicting the Future 119

Goals and Scope of Our Discussion 120

Theoretical Perspectives on the Consequences of Mental Health and Cognitive Conditions 120

 The Stress-Diathesis Model 121

 Life-Span Developmental Perspectives 122

 An Integrated Model of the Consequences of Post-Combat Mental Health and Cognitive Conditions 123

Empirical Research on the Consequences of Post-Combat Mental Health and Cognitive Conditions 124

 Co-Morbidity and Other Mental Health Problems 125

 Suicide 128

 Physical Health and Mortality 131

 Substance Abuse 134

 Labor-Market Outcomes: Employment and Productivity 136

 Homelessness 140

 Marriage and Intimate Relationships 141

 Parenting and Child Outcomes 146

Summary and Recommendations 149

Recommendations for Future Research 150

Conclusions 152

References 153

Part IV: Economic Consequences 167

CHAPTER SIX

The Cost of Post-Deployment Mental Health and Cognitive Conditions 169

Introduction 169

 Prior Cost Estimates 172

The Cost of PTSD and Major Depression and the Benefits of Evidence-Based Care 175

 Background 175

 Motivation for the Microsimulation Approach 176

 Overview of the Microsimulation Framework 177

 Model Limitations 186

Model Results 189

Discussion 199

The Cost of Deployment-Related Traumatic Brain Injury in 2005 201

 Previous Estimates of the Cost of TBI 202

 Data and Assumptions Regarding Deployment-Related TBI and Costs..... 203

 Estimates of the Cost of Deployment-Related TBI in 2005..... 210

 Limitations..... 213

 Discussion 214

Conclusion 214

Appendix 6.A: Model Map 217

Appendix 6.B: Model Architecture, Assumptions, and Parameters..... 221

References..... 234

Part V: Caring for the Invisible Wounds 243

CHAPTER SEVEN

Systems of Care: Challenges and Opportunities to Improve Access to

High-Quality Care 245

Introduction 245

 Access and Quality Challenges..... 247

 Study Approach..... 248

Access to Mental Health Care for PTSD and Major Depression 250

 What Is the Gap in Access to Care? 250

 Overview of Health Service Systems 253

 What Structural Factors Impede or Facilitate Access to DoD Mental Health
 Services? 255

 What Structural Factors Impede or Facilitate Access to Mental Health Services
 Within the VA?..... 263

 Transitions and Coordination Across Systems Pose Challenges to Access and
 Continuity of Care..... 270

 State and Local Community Initiatives Aim to Fill Gaps in Access 274

 What Social, Cultural, and Personal Factors Impede or Facilitate Servicemembers’
 and Veterans’ Access to Mental Health Care? 275

Quality of Mental Health Care 282

 What Is High-Quality Evidence-Based Treatment for PTSD and Major Depression? .. 283

 What Organizational Models Support High-Quality Mental Health Care?..... 284

 To What Extent Are Quality Standards and Processes for Mental Health Care
 Supported in Systems of Care for Veterans and Military Servicemembers? 288

Summary of Critical Gaps 296

 Gaps in Access to Care and Care Quality for Active Duty Military Servicemembers ... 296

 Gaps in Access to Care and Care Quality for OEF/OIF Veterans 301

Special Issues for Traumatic Brain Injury 304

 Mild TBI..... 306

 Moderate and Severe TBI..... 310

 What Is High-Quality Care for TBI? 320

 Summary of Gaps and Recommendations for TBI Services 323

Appendix 7.A: Approach to Interviews with Administrators and Providers 327

Appendix 7.B: Summary of Focus Groups with Military Servicemembers
 and Spouses 329

Appendix 7.C: Evidence-Based Practices..... 335

Appendix 7.D: Studies of Mental Health Services Utilization Among Servicemembers... 391

Appendix 7.E: State and Local Mental Health Resources..... 398

References..... 404

Part VI: Conclusions and Recommendations 429

CHAPTER EIGHT

Treating the Invisible Wounds of War: Conclusions and Recommendations..... 431

Key Findings..... 433

 Prevalence of Mental Health Conditions and TBI 433

 Long-Term Consequences of Mental Health and Cognitive Conditions 436

 Costs..... 438

 Systems of Care 440

Strengths and Limitations..... 445

Recommendations 446

Treating the Invisible Wounds of War 452
