Departmental Announcements

Tracy Richardson will be graduating on December 13 with a BBA in Management.

PLEASE HAVE A HAPPY AND SAFE HOLIDAY!!

Erich Bergiel
December 22
The Chair’s Corner

A DAC meeting was held on Thursday, December 11, 2008. Below are the major issues discussed during this meeting.

- An open records request was filed by a group of students to see summaries of the course evaluations. These summaries will soon be posted on the web.

- Many of the RCOB Endowment Accounts have lost a significant amount of their value. Thus, many will payout at less than we are used to and some will not payout at all next year.

- In discussions with Student Services, we have been told that if students lose their courses for failure to pay, there is no expectation of the student being placed back into the courses. Thus, at the beginning of drop/add, I will be adjusting caps on all classes to our normal limits. During the drop/add period, students are free to drop or add courses as they wish (assuming there is room and they have the prerequisite). However, we will not spend the first week of classes granting overrides. This process has becoming a “circus” over the past couple of years. We will try to stress to students to register when they are supposed to and to pay fees when they are supposed to.

Please let me know if you have any questions.

Tom G.
