

Coding for a Better Community

A Hackathon for Teens, Aged 13-17

Coding teams will design and develop mobile apps in response to problems within the local community. Problems will be presented by community members the day of the event. Mentors will be on hand to support teams. The day will close with an exhibit where all teams showcase their work.

Saturday, February 23
10:00 a.m. – 5:00 p.m.

Biology Building, TEAL Room
University of West Georgia

\$10 per participant
