

Bachelor of Science in Computer Science

University of West Georgia

Computer Science (CS) Projected Course Rotation and Pre-Requisite Flowchart Fall 2018 - Spring 2020

The following table indicates which courses the Department plans to offer over the next four semesters. Students are expected to be mindful of this course rotation and seek academic advisement in the Department each semester to ensure graduation in a timely manner.

Fall 2018	Spring 2019	Fall 2019	Spring 2020
CS1000	CS1000	CS1000	CS1000
CS1020	CS1020	CS1020	CS1020
CS1030	CS1030	CS1030	CS1030
CS1301	CS1301	CS1301	CS1301
CS1302	CS1302	CS1302	CS1302
CS2100	CS2100	CS2100	CS2100
CS3110	CS3151	CS3110	CS3151
CS3152	CS3202	CS3152	CS3202
CS3201	CS3212	CS3201	CS3212
CS3211	CS4225	CS3211	CS4225
CS3230	CS4982	CS3230	CS4982
CS3270		CS3270	
CS3280		CS3280	

Additional Courses: The Department may offer additional courses (e.g., CS 4985 - Special Topics) depending on available faculty and student interest.

Summer Semesters: Depending on available funding, faculty, and student interest, the Department may offer a limited number of courses during the Summer semester. Typical summer courses may include CS 1000, 1020, 1030, 1300, 1301, and 1302.

The following flow chart describes the pre-requisite structure for Computer Science (CS) courses required for the degree. It also indicates projected course offerings based on the above rotation.

CS Course Pre-Requisite Flow Chart with Projected Course Offerings
