

# Master of Science in Applied Computer Science

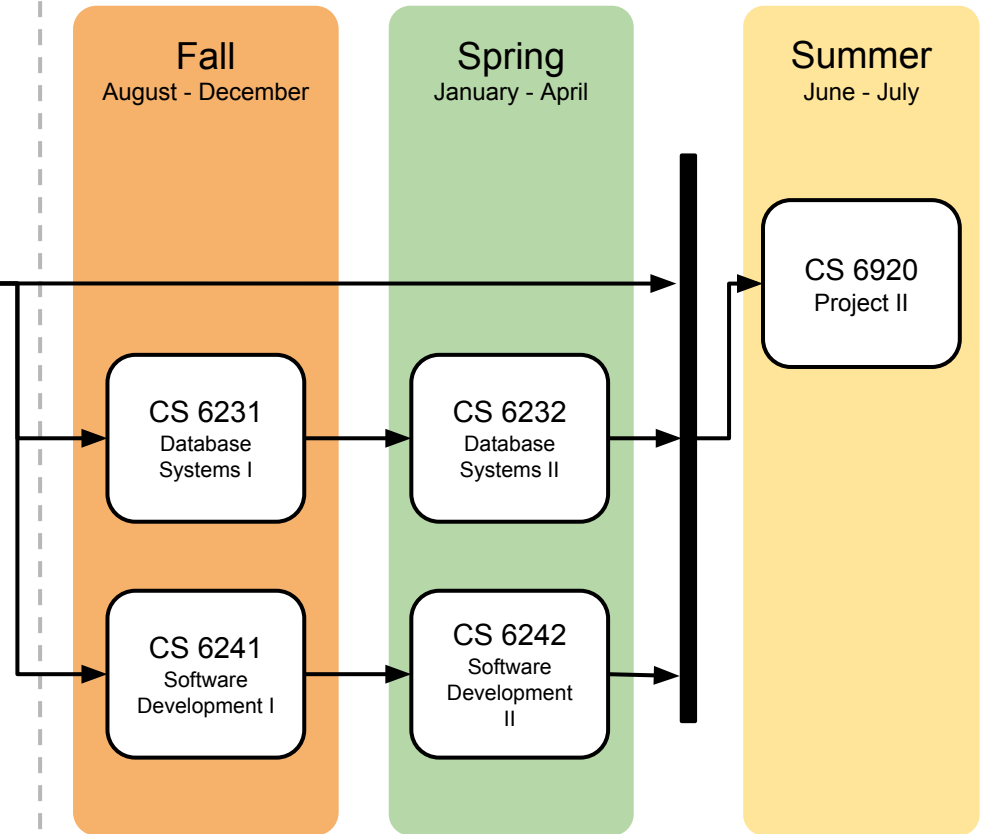

## Course Prerequisite Flowchart and Cohort Rotation

100% online program • 6 hours per semester • 24 months

### Cohort Year 1

### Cohort Year 2

#### NOTES:

- Arrows between courses are indicative of the course prerequisite structure (e.g., CS 6311 is a prerequisite to CS 6312). Multiple arrows leading to a solid bar indicate multiple courses must all be completed as prerequisites for the class following the solid bar (e.g., CS 6312 and CS 6252 are prerequisites to CS 6910 as well as CS 6261; similarly, CS 6910 and CS 6232 and CS 6242 are prerequisites to CS 6920).
- You can click on any course block in the chart to learn more about that course and access the online archive of course offerings.
- The Department will offer courses each semester to honor the cohort rotation shown above.
- **The program is designed to be completed in two years. Maximum duration for the program must not exceed three years.**
