

Project: Center for the Study of Social Dynamics (Qualitative Research Lab)

The Center for the Study of Social Dynamics will promote research enhancing the professional development of faculty and graduate students in the social sciences. The Center will also facilitate the development of proposals for external funding and strengthen the reputation of the College of Social Sciences as an innovative place for theory-based, scientific research. The Center will allow students in undergraduate and graduate programs to conduct extensive research projects that include testing instruments for data collection and conducting both qualitative-based and experimental research. Finally, the lab will provide a space for the teaching and learning of qualitative and experimental social science research methods.
