**IMPORTANT  
READ BEFORE YOUR ADVISING APPOINTMENT**

**It is very important to note that you are responsible for selecting your course schedule.** Your advisor, however, is available to cross-check your course selections to ensure that they adhere to program requirements; to clarify program guidelines; and to assist you with questions you may have regarding course selections relative to your career aspirations.

To ensure an effective and efficient advising session, you are expected to bring a completed copy of this schedule worksheet to your appointment. **If you do not have a completed copy of the schedule worksheet, you will need to reschedule your appointment.**

Before completing the schedule worksheet, you should review the program requirements and track your progress via WolfWatch, noting courses that you have completed; courses that you are currently completing; and courses that you need to complete for both the major and minor.
