

Important Announcement

Current and Prospective Undergraduate Students:

The Department of Psychology has switched from the BA degree to a BS degree. We are phasing out the BA degree as students currently enrolled graduate. If you have recently declared your major, you will automatically fall under the BS degree. If you are a major and have taken several courses, **please see your advisor to determine what the best option would be for you.** For example, if you have not started your Foreign Language, which is required under the BA, you may wish to switch to the BS. If you do choose to switch, you will have courses in Area F that you will need to take that will replace the 6-hour Foreign Language requirement. Again, **be sure to check with your advisor.**
