2014-2015 Goals	Progress	Further Action	Data Used to Inform Responses	Strategic Imperative
Goal 1. Improve teacher candidates' planning and implementation of differentiated instruction as measured by at least a 2% improvement in the rating on differentiation items of Teacher Keys as scored by faculty supervisors and cooperating teachers for Block III's Spring 2015 scores (using Tomlinson's definition of differentiation).				Student Success
"Goal 2 Improve teacher candidates' ability to understand and apply knowledge of English-language grammar and vocabulary development as measured an improvement from our previous years' score or to meet or exceed the state's average students' scores on item 5 of the GACE exam. "				Academic Success

Dispositions Rubric

In most cases, ECED interns were rated either proficient (3) or exemplary (4) by both cooperating teachers (CT) and university supervisors (US). There were no dispositions items for which 25% or more of the students were rated less than proficient. If you would like to know the names of the few individual students who were rated below “proficient” please request a separate report through COEdata@westga.edu.

Intern Keys*

Of the 79 candidates assessed in Block III (ECED 4284) for fall 2014, 55% were rated by cooperating teachers as proficient or exemplary in all categories. Of the 70 total candidates assessed in Block IV (ECED 4286) for spring 2015, 74% were rated as proficient or exemplary by cooperating teachers in all categories. If you would like to see the student level reports for individuals who were rated below proficient in any category, please request a custom report from coedata@westga.edu.

The chart below provides information about the Intern Keys criterion ratings by cooperating teachers in which over 25% of fall 2014 Block III students were rated either unacceptable or developing. The lower numbers are the percentages of spring 2015 Block IV students who earned Unacceptable or Developing scores. Clearly, there was improvement in all categories for this cohort, with the greatest improvement in criterion 6.2. Here there was a decrease of 22.98% of students earning Unacceptable and/or Developing scores.
