2014-2015 Goals	Progress	Further Action	Data Used to Inform Responses	Strategic Imperative
The Health and Physical Education program will help student success by enabling them as a group to increase their total scores on the GACE content exam, having the average of the total scores at or above the state mean in every area.				Student Success
The Health and Physical Education program faculty will contribute to at least 5 regional and/or national presentations during the 2014-2015 academic year. These presentations will take place at the SHAPE America Southern District Convention in Atlanta, or at the SHAPE America national convention and exposition in Seattle.				Academic Success
Health and Physical Education program faculty and students will be engaged in partnerships at the state and regional levels. Students and faculty will participate in a local state workshop hosted by Georgia AHPERD in the fall semester. Students and faculty will also participate in a regional conference hosted by SHAPE America in the spring semester.				Successful Partnerships
The health and physical education has delineated specific tasks for each of the four faculty members affiliated with the program. These tasks are specifically related to the program assessment system. Each faculty member is responsible for collecting and uploading a specific data set in Tk20 at the appropriate time each semester.				Operational Efficiency

Assessment Results

Learning Outcome Report*

Mean scores are reported for each assessment used for each specified criterion.

There were no course-based assessments or observations for the 2014-2015 academic year.

Dispositions Rubric

In most cases, PHED interns were rated either proficient (3) or exemplary (4) by both cooperating teachers (CT) and university supervisors (US). There were no dispositions items for which 25% or more of the students were rated less than proficient. However, one criterion came close. Professionalism: Punctuality had 21.05% of students rated as Developing (2). If you would like to know the names of the individual students who were rated below “proficient” please request a separate report through COEdata@westga.edu.

Intern Keys*

There were no pre-internship candidates rated on the Intern Keys for fall 2014. Of the 5 total candidates assessed in Internship (PHED 4686) for spring 2015, 40% were rated as proficient or exemplary by cooperating teachers in all categories. Therefore, 60% received Developing or Unacceptable ratings in at least one category. If you would like to see the student level reports for individuals who were rated below proficient in any category, please request a custom report from coedata@westga.edu.
