Survey Data – Near Completer Survey and/or Completer Survey

Please review the program survey data from the method in which the program collects the data annually. This includes the **near completer survey** and perhaps the **program completer survey** data. Specifically from the near completer survey, what are candidates suggesting, based on their perceptions of the program, and in what ways will the program remain the same or be modified for continuous improvement? When is the survey distributed? What is the response rate and/or number of responses? Do you see differences within the program based on student perceptions this year?

Include this review/analysis in your Closing the Loop summary findings.

In addition, please add this exact question to your “near completer survey” for the very next survey that is distributed within your program and all future surveys.

How likely are you to recommend this program to others?

This is the “net promoter score” (overall satisfaction and loyalty to the brand).

This metric will be included in our institutional scorecard.

Make this a scale of 1-10 so students can indicate 10 = highly recommend and 1 = would not recommend
