1 OVERVIEW

1.1 edTPA Process

1. As you navigate through the edTPA process, you will need to complete the following steps to successfully transfer and submit your edTPA portfolio using Tk20 as an Integrated edTPA Platform Provider System.

1) Review policies and register for the appropriate edTPA assessment on edTPA.com.

2) Log in to Tk20 and complete your edTPA portfolio in the Portfolios tab. If you do not see an edTPA portfolio in your account, contact your campus Tk20 Unit Administrator.

3) Validate your authorization key in the first tab of your edTPA portfolio.

4) After uploading all required documents and audio/video clips as defined in the edTPA handbook, click “Submit”* or “Transfer to Pearson.”

   * “Submit” is specifically for students who are not being scored by Pearson.

5) Keep track of your edTPA portfolio status by clicking on “Track My edTPA Transfer.”

6) Within the Pearson system: When you have confirmed that all parts of your assessment are ready to be submitted, submit your assessment using the Pearson ePortfolio system on edTPA.com. You will receive an email notification confirming that your assessment has been submitted. Once the submission has

---

Begin the transfer from Tk20 to Pearson *at least 5 days before* your planned submission date to allow yourself adequate time to review your files in the Pearson system and submit your assessment for scoring. Please be sure to allow up to 48 hours for the portfolio to be transferred. Please refer to the Pearson edTPA website for more information about the transfer and submission processes.
been completed, your assessment is ready to be scored. No additional actions are required.

2 USING EDTPA WITH TK20

2.1 Reviewing Policies & Registering

In order to submit your portfolio for edTPA and have your portfolio officially scored by Pearson, you must register with Pearson on edTPA.com (Note: This can be accomplished within your Tk20 edTPA portfolio by clicking “Get My edTPA Authorization Key” or by going to edTPA.com). If you have any questions about this process, please contact Pearson edTPA Customer Support.

1. Please refer to the Professional Responsibilities section in the edTPA Handbook at www.edTPA.com for important information you need to know about permissions, confidentiality, and other requirements.

2. Go to the Register page on the edTPA website and review the important information in the links in the Before You Register section.

3. Then, click the Next button and continue clicking Next until all specific registration requirements have been reviewed.

4. After reviewing the instructions for Candidates using an Integrated edTPA Platform Provider System, click the Register Now button to begin the registration process in the Pearson edTPA registration system.

5. Complete the registration process by following the instructions in the Pearson edTPA registration system.

6. Verify that the assessment in the Pearson edTPA registration system is the same as the assessment that you are building in Tk20. Each assessment must have the exact same name in both systems.

For example:

• Elementary Literacy is NOT THE SAME as Elementary Literacy – Washington
• Elementary Education is NOT THE SAME as Elementary Literacy

*If you have any questions regarding which assessment you should be completing, please contact your institution.

7. After completing the registration, click the Choose a Portfolio Platform System link in the Pearson System.

8. Select edTPA Platform Provider to indicate that you are using Tk20 to build your edTPA portfolio. Refer to the “Transferring Your Portfolio From an Integrated System” document on the Pearson edTPA site for instructions on obtaining an Authorization Key from Pearson. The Authorization Key is required for transferring your portfolio from Tk20 to the Pearson ePortfolio System.
2.2 Viewing the edTPA Portfolio in Tk20

To view portfolio:

1. Click on the Portfolios tab located at the top of the page.

2. Click the link for the edTPA portfolio you wish to open, as shown in Figure 1.

3. Within the portfolio, you will see a series of tabs organized by the tasks included in your edTPA handbook.

   Figure 1

   Figure 2 shows the following:
   - In the first tab, you can view and download the PDF version of your edTPA handbook.
   - In the subsequent tabs (Task 1, Task 2, and Task 3), you will see the requirements for each sub-task.
   - You can also download templates for Context for Learning information, as well as Planning, Instruction, and Assessment Commentary Forms in Word document format.
2.3 Attaching Artifacts to your edTPA Portfolio in Tk20

After you view the portfolio details and understand what is required, you can begin attaching your artifacts. Under each tab in the portfolio, you will see placeholders to attach all task parts.

To upload documents and attach to your edTPA portfolio:

1. Click on Select next to each sub-task, as shown in Figure 3

![Figure 3](image)
2. Click on **Select Files** to search for files located on your computer for each respective sub-task. Alternatively, in **Figure 4** you will notice that you can select files located on your computer and "Drag and drop" them in the artifact.

![Figure 4](image)

**Notes:**

- When you name your files, there are no required file naming conventions; however, you are strongly encouraged to be as descriptive as possible. **DO NOT** use special characters in your titles (i.e. !@#$%&*.,<>).
- Do not include any identifying information (names or institution) in your files.
- Assessors should be able to easily identify the contents of each file.
- The name of your artifact defaults to the name of the sub-task followed by a numeral.

3. When uploading videos (in Task 2), you must follow the **User Guidelines for Video Upload**.

**Notes:**

- Be sure you have compressed your video files before you begin uploading and attaching them to your edTPA portfolio in Tk20.
- **Each video file must be compressed to a file size of 100MB or less, unless otherwise advised by your institution.**

4. Some task parts require more than one file to be attached. In such cases, repeat step 2 (above) to add additional files to the artifact.

5. Once you have attached the required number of files for that specific artifact/sub-task, click on “**Save**” to attach the artifact to your edTPA portfolio. You will see the artifact has been attached in the list of required artifact placeholders. Once you have saved, changes made are visible to your assessor.
6. Once all artifacts have been successfully attached with the appropriate number of files (as listed in the Evidence Charts of your edTPA handbook), you may make one of two decisions:

a. “Transfer to Pearson” - This option will submit your portfolio to the Pearson system so you can enter it for official scoring (see section 2.7 below). This option will simultaneously submit your portfolio for review by assessors at your institution.

b. “Submit” - This option will only submit your portfolio to your institutional assessors, and will not transfer it to Pearson for official scoring (Note: this option does not require a valid authorization key).

Figure 5
2.4 Transferring to Pearson from Tk20

After you have registered for your edTPA assessment on edTPA.com and obtained your authorization key:

2. In the first tab, you will see a field to enter your authorization key. Enter your authorization key in the field and select **Validate/Reserve Key with Pearson** (Figure 6).

3. Once you have uploaded all necessary documents to each required sub-task, validated your authorization key, and completed the steps listed above, click **Transfer to Pearson**.

**Note:**
This is a one-time validation. Once your authorization key has been validated, you will not need to enter it again in Tk20 unless you create a new registration on edTPA.com for the same assessment or another assessment. If your authorization is marked as invalid, please contact Pearson edTPA Customer Support.
4. When your edTPA portfolio has been processed and transferred to Pearson, check the status of the portfolio by clicking on **Track My edTPA Transfer**. Upon successful transfer, Pearson will send you an email prompting you to login to the Pearson system to verify the contents of your edTPA portfolio and submit for official scoring.

![Figure 7](image7.png)

5. You must now log in to the Pearson ePortfolio System on edTPA.com or by clicking Track My edTPA Transfer to review your transferred portfolio and label the uploaded files as instructed in order to submit the portfolio for official scoring.

![Figure 8](image8.png)

### 2.5 Recalling a Portfolio for Revision and Re-Transfer

When verifying the contents of your edTPA portfolio in the Pearson system, you may find that additional revisions are required if you have missed a piece of documentation or uploaded the incorrect file to an individual task.

Recalling a portfolio does not remove the transferred portfolio from the Pearson system. It is not an “undo” process. The “recall” process allows you to re-open a portfolio in Tk20 in order to make changes and re-transfer to Pearson. When you re-transfer the portfolio to Pearson, your previously transferred portfolio is replaced with the latest version of the portfolio available in Tk20.
2.5.1

You may recall your portfolio in Tk20, make any necessary revisions, and re-transfer the portfolio to Pearson by completing the following steps:

1. Navigate to the **Portfolios tab** within Tk20.
2. Click the title of the portfolio you are trying to recall.
3. Click the **Recall from Pearson** button

![Figure 9](image)

2.5.2

To make modifications to existing artifacts (sub-tasks) attached to your edTPA portfolio:

1. Access your edTPA portfolio from the **Portfolios tab**.
2. Click on the tab that contains the artifact(s) you wish to modify.

![Figure 10](image)
3. Select the artifact (sub-task) you wish to modify.

Figure 11

4. You may upload a revised file by clicking on **Select Files** to search for the file located on your computer, or you can select files located on your computer and “Drag and drop” them in the artifact.

Figure 12

Note: If the revised file has the same name as the original file, then you may be prompted to overwrite the current upload, as shown below.

products2.tk20.com says:

A file under this file name is already on the database. If you would like to overwrite this file with your current upload, click ok. This action cannot be undone.
5. You may remove a file by selecting the X button.

![Figure 14](image)

6. When you are finished adding and/or removing files, click “Update” to attach the artifact to your edTPA portfolio.

7. Once all revisions have been made and saved, you can click “Transfer to Pearson” in your edTPA portfolio. Upon successful transfer, the contents of the portfolio in the Pearson system will be updated.

![Figure 15](image)

8. You must log in to the Pearson ePortfolio System on edTPA.com or by clicking “Track My edTPA Transfer” to review your transferred portfolio and label the uploaded files as instructed in order to submit the portfolio for official scoring.

Log in to the Pearson ePortfolio System and follow the submission instructions in order to have your portfolio officially scored by Pearson.
2.6 Transcoding Failures

1. During the transfer process, Pearson converts all the files you have provided. If there are any errors, you will receive an email informing you which files are causing errors. Errors may be caused due to corrupt files or an unrecognized file format.

   edTPA has specific file type requirements for documents, audio, and video files. Refer to the evidence charts at the end of the edTPA handbooks for a description of the requirements.

2. If your files and/or artifacts do not meet edTPA standards, you will receive the following message in Tk20:

   ![Message](image.png)

   Figure 16
3. If you have a document file that cannot be transcoded properly or has an invalid file type, convert the file to a PDF and re-upload. If you have an audio or video file that will not transcode properly, reformat your file using a video transcoding or compression tool and re-upload. Refer to the Pearson edTPA site for additional Tips and Guides for Candidates.

To make the necessary edits defined by Pearson:

1. Access your edTPA portfolio from the Portfolios tab.
2. To re-open your portfolio for editing in Tk20 and make revisions, click “Recall from Pearson.” Clicking this button does not automatically change the status or contents of your portfolio in the Pearson system.

![Recall from Pearson](image17)

Figure 17

3. Revise your portfolio using the steps listed in section 2.5.2 of this guide.
4. Once all identified files causing errors have been revised and updated in the respective artifacts, you can click “Transfer to Pearson.”

![Transfer to Pearson](image18)

Figure 18

5. Upon successful transfer, Pearson will contact you via email to verify the contents of your edTPA portfolio and submit for official scoring in the Pearson system.
6. **You must log in to the Pearson ePortfolio System on edTPA.com or by clicking “Track My edTPA Transfer”** to review your transferred portfolio and label the uploaded files as instructed in order to submit the portfolio for official scoring.

Log in to the Pearson ePortfolio System and follow the submission instructions in order to have your portfolio officially scored by Pearson.
2.7 Review and Submit Your Portfolio on edTPA.com

In order to have your portfolio officially scored by Pearson, you must review and submit your portfolio using the Pearson ePortfolio System on edTPA.com.

A video tutorial called “Submitting your assessment with the Pearson ePortfolio system” on the Pearson edTPA site has been created to assist you with this process. If you have any questions about this process, please contact Pearson edTPA Customer Support.

After a successful transfer, log into the Pearson ePortfolio system. You must now review the files that have been transferred for each Task and Part in the edTPA assessment.

1. For each Part in each Task, click Review Transfer.

2. Review each file that has been transferred by clicking on the file icon in the Pearson ePortfolio System.

3. Refer to the edTPA FAQ on the Pearson edTPA site if you have trouble reviewing or previewing your files.

4. Click on Add Label to label each file as required (e.g., Lesson 1 Clip 1, Student 1). For more information about labeling, please review the information for “Candidates using an integrated edTPA platform provider system” in the “Using the Pearson ePortfolio system—candidates” document on the Pearson edTPA site.
5. After confirming that each of your files has been properly transferred and labeled, check **Ready to Submit**.

![Figure 21](image1)

6. The Status column and graphs will indicate when everything has a status of **Ready to Submit**. Note that the button labels will change from **Review Transfer** to **View** after being marked as **Ready to Submit**.

![Figure 22](image2)

7. If everything has NOT been marked Ready to Submit, the **Submit Portfolio for Scoring** button will be grayed out.

Please repeat steps 2 through 6 for each of your files that do not have a status of **Ready to Submit**.

![Figure 23](image3)
8. When everything is **Ready to Submit**, the **Submit Portfolio for Scoring** button will be available.

Click this button when you are ready to submit your portfolio to Pearson for official scoring.

9. The first of three validation and agreement screens will pop up.

Review your registration information in the Submission Validation screen.
Click **Continue** to confirm that your registration information is correct.
Click **Update Registration Information** if you need to change the information.
Click **Cancel** to cancel out of the submission process.

10. Read the Submission Agreement.
Check the box to acknowledge the agreement.
Click **Continue**.

11. Review the Final Submission Agreement.
Check the box to indicate that you understand the agreement.
Click **Submit**.

**NOTE:** If you click **Submit** in this box, you will not be able to cancel out of the submission process. Your portfolio will be officially submitted to Pearson for scoring.
12. Finally, click **OK** to close the dialog box.

![Figure 28](image)

13. You will also receive a confirmation via email when your portfolio has been submitted to Pearson for official scoring.

![Figure 29](image)
