University of West Georgia

The Ed.S. degree program in Professional Counseling and Supervision is a completely online program and is designed for practitioners who currently hold a master's degree in counseling or a master's degree in psychology, and are license and/or certification qualified. The degree requires completion of 27 semester hours and is designed to be completed in one year by students attending on a full-time basis (9 hours/semester, including summer). Prospective students who are not currently employed in a school or clinical mental health setting as counselors may be required to enroll in multiple internships as part of their degree program.
