All completed applications will be reviewed. Applicants accepted into the program will be notified on June 16, 2017.

Free to accepted participants!

For questions contact Jessica Wilson at jwilson@westga.edu.

What do students do at CyberCamp?

UWG/AFA CyberCamp emphasizes fun, hands-on learning of cybersecurity principles that are relevant and applicable to everyday life. Developed by the Air Force Association (AFA), the camp curriculum covers new topics and hands-on activities each day, building up to an exciting, final team competition simulating real cybersecurity situations faced by industry professionals.

What will students learn at CyberCamp?

The importance of cyber safety and how to protect their personal devices and information from outside threats. They also will learn how to secure networks running on several different operating systems.

Who can attend?

Students enrolled in grades 9 to 12 for Fall of 2017. No previous experience is required.
