

*A Social Leadership Journey*

Presenter Jeri Shaffer, Sociology major

Mentored by Dr. N. Jane McCandless

This work includes an examination of one woman's journey into and through poverty. Utilizing Pierre Bourdieu's habitus, social and cultural capital, along with the ABC-X model, the author will provide a detailed analysis of how moving from poverty to leadership unfolds and then argue that instead of eradicating people in poverty, we should consider them for leadership positions.
