Welcome

We are delighted to welcome you to the Graduate programs at the University of West Georgia, Tanner Health System School of Nursing (THS SON). You have selected this University and School of Nursing to pursue your education, and we are confident that you will find the programs of study both challenging and rewarding.

This handbook has been developed to provide University and THS SON information concerning various policies and guidelines. Please seek clarification from faculty members as necessary.

One of the strong points of these programs is the cadre of committed faculty. We believe that you will find the faculty to be caring, competent, and empathetic individuals willing to assist you in every way possible. Please feel free to call on any of us at any time. Our doors are always open, and we welcome your input and suggestions concerning the program.

Rights Clause of the THS SON Graduate Handbook:
The Tanner Health System School of Nursing reserves the right to amend, modify, add to, or delete our rules, policies, and procedures.
Mission

The University of West Georgia, Tanner Health System School of Nursing exemplifies academic excellence in a caring environment by providing quality undergraduate and graduate education to meet current and evolving health care needs within the global community (Approved 4/5/2010).

Vision

The Tanner Health System School of Nursing will be a leader in the scholarship of teaching and learning through the empowerment of graduates and colleagues who exhibit the ability and courage to create quality caring in health care and educational systems (Approved 5/7/12).

Statement of Philosophy and Assumptions

The faculty of the Tanner Health System School of Nursing believe and support the mission, purpose, and goals of the University of West Georgia. While offering both undergraduate and graduate academic programs, the Tanner Health System School of Nursing frames its philosophy within the theoretical structure of caring as the essence of nursing. The faculty are committed to creating a milieu for learning that fosters quality caring and believe that all persons are inherently worthy and deserve respect, justice, and equality regardless of gender, race, culture, sexual orientation, or socio-economic status. In pursuit of these beliefs, the faculty declare the following statements of our beliefs and assumptions:

Persons

Persons, including individuals, families, groups, communities, and populations are unique and dynamic as thinking, caring, feeling contributors to society with the right to make choices and assume responsibility for their choices. Persons are holistic, representing an integration of mind, body, and spirit. They have spiritual-social-cultural-ethical beliefs and values that influence the perception of self, others, and the world.

Environment

People construct meaning and develop knowledge through being in the world and interacting with the world. Environment includes persons, cultures, the health-care system and other aspects of the
constructed and natural world. A concern for the environment is essential due to the social, political and economic influences on health and the health-care system.

**Health**

Health is a dynamic and contextual state of being in which there is a balance of relationships, choices, and human potentials. The person’s perception of health is unique and self-determined within psychological, biophysical, socio-cultural, developmental and spiritual dimensions.

**Nursing**

Nursing is a distinct discipline focused on promoting optimal health through the formation of caring relationships across the lifespan while recognizing and respecting the uniqueness of recipients of care. Quality caring provides the foundation for nurses to deliver safe and person-centered care in a rapidly changing health care environment (Duffy, 2009).

**Teaching Learning**

Teaching-learning is a dynamic, reciprocal, lifelong process that nurtures and facilitates growth in all participants. Learning occurs through meaningful relationships characterized by connectedness, openness, and creativity. Teachers and learners share the responsibility for creating and maintaining an environment that nurtures these relationships (Duffy, 2009).

**Nursing Education**

The undergraduate program prepares graduates for professional nursing practice, future leadership roles, and advanced education. Education at the graduate level is designed to foster utilization of theoretical and empirical knowledge in advanced nursing practice. (Approved 11/22/2010)

**References**

University of West Georgia Tanner Health System School of Nursing. 2019-2020 Faculty Handbook. Carrollton, GA: Author.

**Quality Caring Framework**

The philosophy of the THS SON is based on the belief that caring collaborative relationships are the center of creating a culture of quality caring in nursing education and practice. Caring collaborative
relationships occur among teachers and learners, clients and nurses, and inter-professional healthcare team members. Within the structure of a conceptually based curriculum (Giddens et al., 2008), the process of living a caring science curriculum leads to achievement of program outcome goals centered on educating practitioners who can provide safe and person-centered care in a rapidly changing health care environment (Duffy, 2009).

The philosophy of the THS SON is based on an integration of Duffy’s (2009) Quality Caring Model and Hills and Watson’s (2011) Caring Science Curriculum Model. Both of these models place caring collaborative relationships at the center of the process of nursing education and practice and provide the framework for implementation of a curriculum based on caring.

The Quality Caring model explicates the relationship-centered and multi-dimensional aspects associated with providing quality health care (Duffy, 2009). Within this model, “relationships are at the heart of the health care process” (Duffy, p. 33) in order to promote positive outcomes for persons who are recipients of healthcare, for providers, and within the health care system. Adapted for the curriculum in the THS SON (see Appendix A), Duffy’s model provides a framework for caring as the center of a Process in which students are taught concepts relevant to nursing practice (Structure) resulting in achievement of the Program Goals (Outcomes). The construct of structure includes the key concepts within the curriculum related to Person, Nurse, Systems, and Profession. The construct process of care describes caring collaborative relationships, the primary focus of the model. Relationship centered professional encounters occur between/among clients and nurses; between/among nurses and other members of the health care team; and in education, between/among teachers and learners. Caring relationships promote the intermediate outcome of feeling cared for. The construct of program goals demonstrates the achievement of positive outcomes for the BSN, MSN, and Ed.D educational programs, the person (student), and the nursing profession and healthcare system.

The Caring Science curriculum model, integrated into the THS SON curriculum frameworks, (Hills & Watson, 2012) places caring collaborative relationships at the center of a curriculum designed to create a culture of caring within a nursing education program. The focus of the caring science curriculum model is on the development of caring relationships with students and the use of emancipatory pedagogy (student centered learning). According to Hills and Watson, nurse educators must “nurture this culture of caring if students are to graduate as competent caring nurses” (p. 129). In education, the caring relationships between teachers and learners fosters a sense of caring professionalism and acquisition of the crucial knowledge, skills and attitudes for nursing practice in the health care system. This is congruent with Duffy’s (2009) emphasis on the significance of relationships to quality nursing practice (UWG/THS SON Philosophy, 2012).

Ed.D Quality Caring Framework: A Caring Science Curriculum

Creating a Culture of Quality Caring

Ed. D Program Goals

- Demonstrate advanced nurse educator competencies to enact increasingly complex faculty and leadership roles.
- Facilitate curriculum design, development of courses, and evaluation of program and learner outcomes using evidence-based strategies.
- Function as a change agent, innovator, and leader with the continuous pursuit of quality improvement in the nurse educator role.
- Advance the scholarship of nursing education.
- Conduct, evaluate, and synthesize theoretically guided research to further pedagogical knowledge in nursing education.

PG: Program Goals
SREB: Southern Regional Education Board (2002)
Caring Groups

The Caring Science curriculum model (Hills & Watson, 2011) places caring collaborative relationships at the center of a curriculum designed to create a culture of caring within a nursing education program. The focus of the caring science curriculum model is on the development of caring relationships with students and the use of emancipatory pedagogy (student centered learning). According to Hills and Watson, nurse educators must “nurture this culture of caring if students are to graduate as competent caring nurses” (p. 129). In education, the caring relationships between teachers and learners fosters a sense of caring professionalism and acquisition of the crucial knowledge, skills and attitudes for nursing practice in the health care system. This is congruent with Duffy’s (2009) emphasis on the significance of relationships to quality nursing practice. (UWG/THS SON Philosophy, 2012).

Purpose of Caring Groups

“If caring is an idea that nursing practice and nursing education communities consistently use in describing the nature and function of nursing, then it would seem that caring would be a key area of study in nursing curricula…” Schoenhofer (2001)

The purpose of Caring Groups is to create a culture for experiencing and learning caring for nursing students in the UWG THS SON. According to Hills and Watson (2011), nurse educators must “nurture this culture of caring if students are to graduate as competent caring nurses” (p. 129). In education, the caring relationships between teachers and learners fosters a sense of caring professionalism and acquisition of the crucial knowledge, skills and attitudes for nursing practice in the health care system. This is congruent with Duffy’s (2009) emphasis on the significance of relationships to quality nursing practice. Opportunities are provided for students to participate in Caring Group in online and/or clinical settings. Students may be randomly assigned to small groups to work together to experience and learn caring through online activities outside of class.

- Caring has been a central focus of the curriculum in the nursing program at UWG for the past 20 years. The University of West Georgia implemented caring groups in 1994 as an experiential teaching/learning activity, providing the opportunity for students to experience and learn caring. Caring Groups are designed to be small group sessions in which students learn how to care for themselves, colleagues, patients, and the environment.
- Goals of Caring Group include: Learn to care for self and others, Identify caring and non-caring behaviors, Strengthen coping and group problem solving skills and have fun.
- Caring groups provides the opportunity for: Sharing personal experiences, Learning about self, Building relationships, and Becoming part of a team. This creates an atmosphere of support for students as they progress through the educational program.

Graduate Program Caring Groups

Caring Groups will be a component of all online graduate programs at the THS SON. Classes will be divided into Caring Groups to provide the opportunity for students to learn caring for self and others. If there is a
workgroup in the online course, the workgroup will also function as the caring group for the course. Students will be given guidance in learning self-care and in caring for their colleagues and others.

MSN program- The MSN students will be assigned to a Caring Group for the first year of the MSN program. The Caring Groups will be in NURS 6102: Role of Caring Healthcare Professional in the fall semester and in NURS 6104: Scholarly Inquiry and Data Analysis in the spring semester. For year two and beyond, students are encouraged to sustain caring groups as a means to promote caring for self and others. As one of the assignments in NURS 6102, students will complete a self-assessment and set goals related to self-care.

EdD program- Every semester, students will be assigned a workgroup as their caring group in all courses prior to the dissertation courses. During the dissertation phase of the program, students are encouraged to sustain caring groups as a means to promote caring for self and others.

**MSN Program Goals**

The purpose of the Master of Science in Nursing (MSN) program is to prepare registered nurses for advanced practice in the areas of health systems leadership and nursing education.

Graduates of the program will be able to:

1. Integrate scientific findings from nursing, biopsychosocial fields, genetics, public health, quality improvement, and organizational sciences for the continual improvement of nursing care across diverse settings.
2. Utilize leadership skills to promote ethical and critical decision making and effective working relationships.
3. Apply quality improvement and safety principles within an organization to improve educational and practice outcomes.
4. Translate scholarship into practice by applying research outcomes within educational and practice settings.
5. Employ client care and communication technologies to deliver quality care.
7. Serve as a member and leader of inter-professional teams to create caring and collaborative relationships.
8. Apply organizational, client-centered, and culturally appropriate concepts to enhance population-based care for individuals, families, and aggregates.

(Approved 03/15/2013 by Graduate Program Committee, Tanner Health System School of Nursing)

**EdD Program Goals**

The purpose of the EdD in Nursing Education (EdD) program is to prepare nurse educators for the 21st century.

The outcomes of the doctoral program are the following:
1. Demonstrate advanced nurse educator competencies to enact increasingly complex faculty and leadership roles.
2. Facilitate curriculum design, development of courses, and evaluation of program and learner outcomes using evidence-based strategies.
3. Function as a change agent, innovator, and leader with the continuous pursuit of quality improvement in the nurse educator role.
4. Advance the scholarship of nursing education.
5. Conduct, evaluate, and synthesize theoretically guided research to further pedagogical knowledge in nursing education.

(Approved 02/24/2011 by Graduate Program Committee, Tanner Health System School of Nursing)

**General Information and Resources**

In addition to this handbook, other resources will assist you in a successful journey through this program and the University of West Georgia (UWG)

**Graduate Catalog**

The University of West Georgia [Graduate Catalog](https://www.westga.edu/catalog/) contains a complete statement of academic policies and procedures, courses required for each program of study, retention and graduation requirements, and other essential items of information. Students can access the catalog via the following link: [UWG Catalog](https://www.westga.edu/catalog/). Students should keep a copy of the Catalog saved as a link for reference during their entire stay at the University of West Georgia.

**The University of West Georgia Student Handbook**

The University of West Georgia Student Handbook contains information concerning academics, student services, organizations and activities, and a campus directory. It also includes very important policies about student rights and responsibilities, conduct and discipline, grievance and appeals procedures, and financial aid requirements. Students can access the handbook at [http://www.westga.edu/handbook/](http://www.westga.edu/handbook/).

**The Scoop**

*The Scoop* is a UWG publication that provides basic information regarding registration each semester. *The Scoop* can be located via this link: [The Scoop](http://www.westga.edu/handbook/).

**Professional Nursing Associations**

**Georgia nurses association (GNA)/American nurses association (ANA).**

Graduate students are encouraged to join and participate in the professional nursing organizations of ANA and GNA. Through these organizations, nursing professionals deal with issues of concern such as improving standards of health care. ANA and GNA also foster high standards for nursing and promote professional development and economic welfare for nurses. The following are links to these organizations: [Georgia Nurses Association](http://www.gna.org) and [American Nurses Association](http://www.anb.org).
Georgia association for nursing education (GANE).
The purpose of the Georgia Association for Nursing Education is to promote excellence in nursing education within the state of Georgia. This purpose is carried out through its functions that include:
1. Assess the needs of Georgia nurse educators and nurses.
2. Initiate, stimulate and support nursing education at clinical and academic levels, both formally and informally, thereby addressing the healthcare needs of Georgia’s citizenry.
3. Participate in and promote nursing research at the local and state level that is designed to address nursing education and healthcare needs.
4. Collaborate with nursing and other professional groups to positively influence nursing education, nursing regulation and healthcare delivery.

The following is the link to the organization: Georgia Association for Nursing Education (GANE)

Georgia nursing leadership coalition (GNLC).
Our mission is to implement the recommendations of the Institute of Medicine’s Future of Nursing report by providing leadership and developing partnerships among and beyond nursing.
Vision: nursing will play an essential role in promoting the health of all Georgians.
Values: The GNLC is dedicated to the values of leadership and collaboration.
Leadership: The GNLC will create a means for nurses to work collectively to achieve the common goal of enhancing health care for all Georgians.
Collaboration: The GNLC will work with strategic partners across health care, education, government, and consumer organizations to implement health care changes statewide. The following is the link to the organization: Georgia Nursing Leadership Coalition (GNLC)

Pi Nu chapter of the honor society of nursing (Sigma theta tau international).
The Pi Nu Chapter of the Honor Society of Nursing, Sigma Theta Tau International was chartered in 2000 at the University of West Georgia to recognize superior academic achievement, academic integrity, and professional leadership potential. Eligible students should also foster high professional standards, encourage creative work, and strengthen commitment to the ideals and purposes of the profession. Graduate students are eligible for membership when they meet the following criteria:

1. Have completed at least one-half of the required nursing components of any program curriculum.
2. Have a cumulative grade point average of at least 3.0 on a 4.0 scale and are in the top 35% of their cohort.

The Pi Nu Chapter Executive Board reviews student candidates and inducts new members each spring by invitation. The THS SON encourages students to reach for academic excellence and participate in the advancement of nursing scholarship, leadership, and professionalism through membership in this organization. Please contact nursing faculty members for additional information or visit the Sigma Theta Tau website at https://www.nursingsociety.org/
American association of colleges of nursing (AACN).
The American Association of Colleges of Nursing (AACN) is the national voice for baccalaureate and graduate nursing education. AACN works to establish quality standards for nursing education; assists schools in implementing those standards; influences the nursing profession to improve health care; and promotes public support for professional nursing education, research, and practice. The following is the link to the organization: American Association of Colleges of Nursing (AACN)

National league for nursing.
Dedicated to excellence in nursing, the National League for Nursing is the premier organization for nurse faculty and leaders in nursing education. The NLN offers professional development, networking opportunities, testing services, nursing research grants, and public policy to its 40,000 individual and 1,200 institutional members. The following is the link to the organization: National League for Nursing (NLN)

Academic Advising

The THS SON employs a Graduate Studies Associate to assist all graduate students with academic advisement. The Graduate Studies Associate must be contacted by students to request any changes in plans of study or enrollment status. Graduate students can contact the Graduate Studies Associate via phone at 678-839-5115 or via email at eice@westga.edu Monday through Friday between 8am-5pm.

Graduate Writing Associate

The THS SON employs a part-time Graduate Writing Associate to assist graduate faculty and students with scholarly writing. The Graduate Writing Associate is available to all graduate students during the 1st year of their coursework. Students recommended by faculty for additional writing support will continue to work with the Graduate Writing Associate beyond the first year. Students and faculty can contact the Graduate Writing Associate via CourseDen (D2L) email or at diannew@westga.edu Monday through Friday between 8am-5pm.

Instructional Designer

The THS SON employs a full time Instructional Designer to assist faculty and students with online learning and technology issues. Students can contact the Instructional Designer for assistance with CourseDen, software, hardware, and online learning questions. The Instructional Designer may be contacted via, phone at 678-839-2430 or via e-mail at eakin@westga.edu Monday through Friday between 8am-5pm.

Library Resources

The home page for the library can be accessed via this link http://www.westga.edu/library/
Contact information for the THS School of Nursing Library Liaison can be found via this link: http://libguides.westga.edu/nursing

The following library support services are available to all UWG students:
1. Individualized research consultation by phone, email or in person from the Ingram Library Reference Desk:
2. Assistance with connecting to online databases available through Ingram Library or GALILEO, the statewide virtual library
3. Borrowing of materials from other libraries (at no charge to student) if UWG does not have what is needed, either through GIL Express System (USG libraries) or Interlibrary Loan (all other libraries)
4. Borrowing privileges at other USG Libraries upon presentation of valid UWG ID or other acceptable photo ID

Graduation Celebration

Each year the THS SON hosts a reception in close proximity to the spring and fall commencement ceremonies. The reception, organized by THS SON faculty and staff, is held to honor graduating nursing students of all levels and their families. Information regarding the time, location, and tickets of the reception is sent to students by a THS SON staff member approximately one or two months prior to the event.

Tanner Health System School of Nursing Committees

The THS SON requests student representation on all standing committees. Students serve as associate members and enjoy all the privileges of faculty committee members except that of voting. The student body shall elect student representatives from each of the various program levels to serve on the standing committees during the fall semester of each academic year. A representative from the Prelicensure BSN*, RN-BSN, MSN, and EdD programs will be selected for each of the following committees:

Graduate Program Committee (GPC)
Caring for Students Committee (CSC)
Caring for Faculty Committee (CFC)
Evaluating Committee (EC)
Technology Committee (TC)

Financial Assistance and Scholarship Information

Scholarship and other financial aid information for nursing students is available on the THS SON website at [https://www.westga.edu/academics/nursing/student-scholarships.php](https://www.westga.edu/academics/nursing/student-scholarships.php). Financial assistance is available through the University of West Georgia Financial Aid Office at 678-839-6421 or [https://www.westga.edu/finaid/](https://www.westga.edu/finaid/). All students needing assistance must complete a Financial Aid Form (FAFSA). This form is available online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov) starting in January of each year. Please note deadlines posted by the Financial Aid Office for completed applications to ensure full eligibility. The university is notified regarding students who meet requirements for federal and state monies in the spring of each year. The Financial Aid Office notifies students eligible for federal/state money.

Academic scholarship forms are also available in the Financial Aid Office in January for the following academic year’s distribution of funds. The UWG Scholarship Committee meets in March/April to allocate the available academic scholarship funds for the following academic year.
Specific funds allocated for nursing scholarships are also available on the basis of need. Students wishing to apply for these scholarships should complete a nursing scholarship form available through the THS SON website at https://www.westga.edu/academics/nursing/student-scholarships.php. The THS SON Scholarship Committee meets in the summer to allocate funds for the following academic year. Awards are not disbursed until after the add/drop period.

There are limited funds available for special emergency situations. Students needing this type of assistance should send a letter of explanation to the UWG Development Office regarding their circumstances and make an appointment with the Director in that department. Emergency funds may also be available through the THS SON. For more information regarding these funds, please call 678-839-6552.

**Nursing Faculty Loan Program**

The Nurse Faculty Loan Program (NFLP) is available to graduate and doctoral nursing students pursuing a career in nursing education. Upon graduating, up to 85% of the total amount borrowed can be forgiven if the educator teaches four years for a school of nursing in a full time equivalent capacity (ex. Two part-time clinical faculty positions could equate to full time). Since the program is a federal program, the educator is not limited to any one state for employment. These funds are available on a first come, first serve basis. Please see the MSN and EdD specific links on the THS SON website for further details.

**Technology Requirements and Assistance**

The THS SON values the use of technology. All of the nursing courses are supported by Brightspace by D2L, the learning management system (LMS) used by University System of Georgia, and referred to as CourseDen at UWG. CourseDen will be used for posting course materials, receiving and returning assignments, e-mail regarding course matters, and online testing. All courses are taught as online distance classes. Upon admission, students are expected to have computer skills including word processing, ability to perform computerized literature searches, email, and use of browser software to search the internet. They are also expected to have access to computers compatible with UWG. The student Microsoft campus agreement enables students to obtain free copies of the latest versions of specific Microsoft software.

1. Students should contact UWG Online for assistance with CourseDen and other online learning specific questions. The link for more information is https://uwgonline.westga.edu/students.php
2. Student technology requirements, general computer usage, and information and tutorials about e-mail and Ban Web are available online at the Information Technology Services (ITS) homepage, https://www.westga.edu/its/index.php
3. Students and faculty should use assigned UWG email addresses for all correspondence. E-mail communication regarding specific courses must be done via CourseDen.

**For technical issues, please refer to this list:**

1. Desire to Learn (D2L) & other distance education help:
   8:00 a.m. – 5:00 p.m., call 678-839-6248 or 1-855-933UWGO (8946) or access https://uwgonline.westga.edu/
Awards for Excellence and Achievement in Graduate Studies

The outstanding Graduate Student Awards program is held each year during the spring semester celebration and coordinated by the Caring for Students Committee (CSC). The aim of the program is to recognize outstanding graduating MSN and EdD students at the THS SON.

**Outstanding MSN student award.**
These awards are given to two graduating MSN students who exemplify the school's values of scholarship, leadership, and caring through their nursing practice and will be presented at the Spring Pinning/Hooding ceremony. One graduate from each MSN specialty track (Health Care Leadership and Education) may be identified and recommended by faculty for this award based on the following criteria.

These awards are given to the students who:

- Best exemplifies achievement of program outcomes.
- Bases their practice on a personal philosophy of nursing as caring.
- Demonstrates intellectual curiosity and excellence in academic scholarship.
- Writes effectively and exemplifies scholarly writing.
- Demonstrates leadership qualities and potential for accomplishment in the profession.

Submission requirements:
1. Completed nomination application form.
2. Nominees’ curriculum vitae/resume.

The Outstanding MSN Student Award will be selected by the Graduate Faculty of the THS SON.

**Outstanding EdD student award.**
The purpose of the Outstanding EdD Student Award is to recognize the contribution of an EdD in nursing education student who exemplifies high standards of leadership and scholarship in the field of nursing education.

This award is presented at the Spring Pinning/Hooding ceremony to a student who best exemplifies achievement of the program outcomes. The program outcomes are the following:

- Demonstrate advanced nurse educator competencies to enact increasingly complex faculty and leadership roles.
Facilitate curriculum design, development of courses, and evaluation of program and learner outcomes using evidence-based strategies.

Function as a change agent, innovator, and leader with the continuous pursuit of quality improvement in the nurse educator role.

Advance the scholarship of nursing education.

Conduct, evaluate, and synthesize theoretically guided research to further pedagogical knowledge in nursing education.

Eligibility requirements:
Must have completed (defended) a dissertation within one calendar year prior to the application deadline.

Submission requirements:
1. Completed nomination form
2. Nominee’s current curriculum vitae
3. Abstract of defended dissertation

The Outstanding EdD Student Award will be selected by the Graduate Faculty of the THS SON.

SW_3_25_19

University of West Georgia Academic Policies

Graduate students will abide by all University of West Georgia and Tanner Health System School of Nursing policies located within the graduate handbook.

UWG Graduate School Academic Policies regarding the items listed below can be located at the following link https://www.westga.edu/academics/gradstudies/academic-policies.php.
Grades and cumulative grade point average.

Student proficiency in graduate coursework is recorded by the following letter grades. The quality of work for most courses in a graduate program is indicated by the grades of A, B, C, and F.

- A – Superior Scholarship (4.00) (89.50-100)
- B – Average Performance (3.00) (79.50-89.49)
- C – Below Average or Unsatisfactory (2.00) (74.50-79.49)
- F – Failure (0.00) (below 74.50)

The cumulative grade point average in each USG institution will be calculated by dividing the number of hours scheduled in all courses attempted in which a grade of A, B, C, D, F, or WF has been received into the number of grade points earned on those hours scheduled. The cumulative grade point average will be recorded on the student’s permanent record. Institutional credit shall in no way affect the cumulative grade point average (BOR Policy 3.5.1.2).

The following symbols are approved by the Georgia Board of Regents for use in the cases indicated, but will not be included in the determination of the grade point average (BOR Policy 3.5.2).
Symbols not included in determining the grade point average.

I- This symbol indicates that a student was doing satisfactory work but, for non-academic reasons beyond his or her control, was unable to meet the full requirements of the course. The requirements for removal of an “I” are left to the respective institutions. However, if an “I” is not satisfactorily removed after three academic terms of residence, the symbol “I” will be changed to the grade “F” by the appropriate official.

IP- This symbol indicates that credit has not been given in courses that require a “CP” continuation of work beyond the term for which the student signed up for the course. This symbol cannot be substituted for an “I.”

K- This symbol indicates that a student was given credit for the course via a credit by examination program approved by the respective institution’s faculty (CLEP, AP, Proficiency, etc.). “K” credit may be provided for a course the student has previously audited if the institutional procedures for credit by examination are followed.

S- This symbol indicates that credit has been given for completion of degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. Exceptions to the use of this symbol for academic course work must be submitted to the USG chief academic officer for approval.

U- This symbol indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. Exceptions to the use of this symbol for academic course work must be submitted to the USG chief academic officer for approval.

V- This symbol indicates that a student was permitted to audit this course. Students may not transfer from audit to credit status or vice versa. Students may register, however, on a credit basis for a course that has previously been audited.

W- This symbol indicates that a student was permitted to withdraw without penalty. Withdrawals without penalty will not be permitted after the mid-point of the total grading period, including final examinations, except in cases of hardship as determined by the appropriate official of the respective institution.

WM- This symbol indicates a student was permitted to withdraw under the Board of Regents policy for military service refunds as provided in Board Policy. The use of this symbol indicates that this student was permitted to withdraw without penalty at any time during the term.

SW_11/12/18

Thesis and Dissertation Grading

Thesis and dissertation hours are graded with an S (satisfactory) or U (unsatisfactory) (BOR Policy 3.5.2).

Grade Requirement Policy

A minimum grade of B or S is required in all courses in the Master of Science in Nursing (MSN) and Doctorate in Nursing Education (EdD) program. Students who earn a grade of C, WF, or U in any two courses, who earn one U in 9019, or who earn an F in any one course, will be dismissed from the program. Students who earn a C, WF, or U may repeat that course one time only except for NURS 9019. Students who earn one U in NURS 9019, Comprehensive Exam, will be dismissed from the Doctorate in Nursing Education (EdD) program. SW_2/4/18

Missed and Late Assignment Policy

Students are expected to submit assignments by the deadline. Assignments will receive a deduction of 10% of the total assignment points possible for each day the assignment is late. Assignments will be accepted up to a
maximum of three days late, after which point a zero will be recorded for the assignment. In the event of an emergency that prevents timely submission of an assignment, students should notify the professor prior to the assignment deadline. Then, the professor will determine if the late policy can be waived and may ask for written document as evidence of the emergency. Consideration of the student’s total course performance to date will be a contributing factor in the determination.

SW_2/19/19

**Attendance Guidelines for Online Graduate Courses**

Course attendance/participation is a professional expectation for all students whether the setting is synchronous or asynchronous. For online graduate courses, attendance is indicated by logging into the online platform and accessing the course or by other actions as specified by the faculty member.

Success in online graduate courses is dependent on the active participation and engagement of the student throughout the course. Therefore, the online learning experience will be most effective when the student does the following:

1. Logs into the course at least three times weekly to ensure that they are current with course announcements, new course content, emails, and unread discussion posts.
2. Prepares for course assignments by completing all assigned readings and reviewing assignment expectations/grading rubrics beforehand.
3. Gives critical, but constructive feedback to fellow students in the course.
4. Assists the cohort in directing discussions towards thoughtful and meaningful discourse.
5. Maintains an open mind that allows for personal and professional growth.
6. Displays respect for self and others via a reciprocity of caring online.

SW_2/4/18

**Communication Policy**

Official UWG THS SON communication, including correspondence between faculty, staff, and students, regarding classes, schedules, and events, must be conducted within school of nursing sanctioned communication channels such as the following:

1. **MyUWG email** for official university communication between the university and the student
2. Course management system, **CourseDen (D2L) email**, for academic and clinical coursework between the faculty and the student.

Any correspondence or activity conducted outside these channels is not endorsed by UWG THS SON (THS SON Social Media Policy).

**MyUWG email:** University of West Georgia students are provided a **MyUWG email** account. The University considers this account to be an official means of communication between the University and the student. The purpose of the official use of the student email account is to provide an effective means of communicating important university related information to UWG students in a timely manner. It is the student’s responsibility to check his or her email (UWG Student Email Policy).

Students are expected to communicate with faculty using myUWG and CourseDen (D2L) email (see
Course Den (D2L) email below). Students are advised to check their MyUWG email account weekly (even between semesters) for important announcements and reminders. Emails regarding Academic Advisement and Clinical Documents must come from the MyUWG email account.

Course Management System, CourseDen (D2L) email: Students are expected to check their CourseDen (D2L) email on a regular basis, at least three-times a week. Email communication will be required in all graduate-level nursing courses. Communication with individual course instructors should take place within CourseDen (D2L) email. Please refer to individual course syllabi for specific instructions in relation to course communication.

The THS SON maintains a website at www.westga.edu/nursing. All THS SON faculty and staff email addresses are published on the website. The Graduate Student Handbook is located on the website and it is the student’s responsibility to read the handbook at the beginning of each academic year and to be aware of any changes or revisions to policies therein.

SW_2/19/19

Social Media Policy

I. Purpose
The UWG Tanner Health System School of Nursing (THSSON) values, supports, and recognizes that social media sites have become an important and influential means for positive communication and professional development. Social networking sites are, in essence, broad communities with a public audience. Therefore, the intent of this policy is to communicate clearly the expectations of all UWG Tanner Health System School of Nursing faculty, staff, and students regarding the appropriate use of social media.

II. Scope
These guidelines provide “best practices” and apply to all UWG Tanner Health System School of Nursing faculty, staff, and students regarding social media use, while affiliated with the Tanner Health System School of Nursing. To the extent it conflicts with minimum requirements set forth in UWG Procedure 10.2.3, UWG-Related Social Media Guidelines, and UWG Procedure 10.2.3 shall prevail.

III. Policy
These guidelines apply to all UWG Tanner Health System School of Nursing faculty, staff, and students who engage in social networking. These guidelines also apply to UWG Tanner Health System School of Nursing faculty, staff, and students who participate in social media sites for school related purposes, such as didactic and clinical interactions.

THSSON shall have one official social media account (registered with UWG) whose purpose is to promote an official presence of UWG. This account cannot speak on behalf of the entire university but represents THSSON. A link to the following statement shall be posted on all THSSON social media accounts:

“The University of West Georgia (UWG) welcomes the exchange of ideas about university programs, issues, events, and activities on social media websites. The material posted, however, does not necessarily represent the views or policies of the university. The university reserves the right to remove pages, posts, comments, or
other content from UWG social media sites that do not adhere to the university’s standards. The university may remove content that is deemed a violation of intellectual property rights or privacy laws, commercial or promotion of organizations or programs not related to or affiliated with the university, or otherwise in violation of applicable policy or law. By submitting content to any UWG social media site, users understand and acknowledge that this information is available to the public and that UWG may use this information for internal and external promotional purposes. Links to content or other Internet sites should not be construed as an endorsement of the organizations, entities, views, or content contained therein. UWG is not responsible for the content of those external websites. Also be aware that other participants may use posted information beyond the control of UWG. Users who do not wish to have information they have made available via these sites used, published, copied, and/or reprinted, should not post on the social media sites.” (UWG Procedure 10.2.3., UWG-Related Social Media Guidelines)

IV. Definitions
The definitions found in UWG Procedure 10.2.3 apply to these guidelines. For ease of reference, “Social Media” is defined as “forms of electronic communication (such as web sites for social networking and blogging) through which users create online communities to share information, ideas, photos, personal messages, and other content. Examples include but are not limited to: Blogs, Facebook, Flickr, LinkedIn, My Space, Podcasts, RSS Feeds, Second Life, Twitter, YouTube, Tumblr, Periscope, Yik Yak, Snapchat.”

V. Official UWG Tanner Health System School of Nursing Communication
UWG official School of Nursing communication, including correspondence between faculty, staff, and students, regarding classes, schedules, and events, must be conducted within school of nursing sanctioned communication channels such as the following:
1. MyUWG email for official university communication between the university and the student
2. Course management system for academic and clinical coursework between the professor and the student

Any correspondence or activity conducted outside these channels is not endorsed by UWG Tanner Health System School of Nursing.

VI. Guidelines for UWG Tanner Health System School of Nursing Social Media
A. Professionalism:
1. Be aware of your association with UWG Tanner Health System School of Nursing in social media sites as personal and professional lines are blurred.
2. It is recommended for THSSON faculty and staff to avoid initiating or accepting friend requests with currently enrolled students.
3. Ensure your profile and posted content is consistent with how you wish to present UWG Tanner Health System School of Nursing and yourself to colleagues, patients, and potential future employers. Maintain professional language and content at all times. It may be useful and necessary to block individuals who post unprofessional content.
4. Postings on social media sites are NEVER private and will be treated as if you verbally made the statement in a public place.
5. Refrain from stating personal opinions as being endorsed by UWG Tanner Health System School of Nursing. For your personal media site, you must use your personal email address, not your university email, as your means of identification.
6. If a faculty member, staff, or student acknowledges an association with UWG and/or THSSON in a personal online community, a disclaimer must be included that advises that they are not speaking officially on behalf of the school or university. Sample disclaimer: “The views and opinions expressed here are my own and do not represent the views of Tanner Health System School of Nursing or the University of West Georgia.”
7. Copyrighted or trademarked material should not be used without written consent from its owner before using these items on any social media site.
8. Use of UWG Tanner Health System School of Nursing logos on social media sites for sanctioned events must be approved by Tanner Health System School of Nursing administration.
9. Understand the legal ramifications and liability for what you post on social media sites as you can be sued for libel or slander. You are legally liable and responsible for what you post on your own social media site and the social media sites of others.
10. Know that taking pictures, audio taping, and/or videotaping of professors, staff, and/or students for social media use without written permission of the individual is prohibited, and may even be protected from disclosure by federal or state laws.
11. Do not develop a social media site that appears to represent the UWG Tanner Health System School of Nursing without administration approval from the Tanner Health System School of Nursing. Unprofessional or abusive language may also result in disciplinary action if it is so severe, pervasive, and objectively offensive that it denies or limits an individual’s ability to work, or to participate in or benefit from an educational program or activity at UWG.

B. Privacy & Safety:
1. Understand that postings on social media sites are NEVER private.
2. Do set your privacy settings as high as possible; do not settle with just the standard settings. Due to continuous changes within social media sites, it is advisable to monitor closely your privacy settings to optimize your privacy and safety.
3. Be aware that confidential, sensitive, and proprietary information must be protected at all times. Avoid sharing any identification numbers on your social media sites (ex. address, telephone numbers, date of birth, etc.)
4. Never post confidential, sensitive, or proprietary information about UWG THSSON faculty, staff, students, or anyone with whom one has contact with in their role as a UWG Tanner Health System School of Nursing faculty, staff, or student.
5. Be cognizant of the Health Insurance Portability and Accountability Act (HIPAA) on social media sites as violators are subject to prosecution as with any other HIPAA violation.

C. Social Media in Clinical Settings/Patient Contact:
1. At NO time shall patients and/or family members be photographed, audiotaped, or videotaped for ANY reason.
2. Do not post any information on social media about clinical experiences or about a clinical agency or its employees.
3. Maintain professional boundaries with patients and their families at all times while associated with the UWG Tanner Health System School of Nursing.

D. ALL nursing faculty, staff, and students are responsible for regularly reviewing the terms of this Social Media policy and for monitoring their own social media site(s).

VII. Violation of Social Media Policy
Violation of this Social Media Policy may result in disciplinary action up to and including dismissal from the school or termination of employment. Administration of the Tanner Health System School of Nursing will provide guidelines for the resolution of problems, conflicts, and consequences regarding violation of this policy.

Resources:
UWG Procedure 10.2.3., UWG-Related Social Media Guidelines.

Honor Code
An honor code is essential to the University of West Georgia as an agreement between students and the university to promote commitment to academic integrity. Academic and personal integrity is based upon values such as honesty, trust, fairness, respect and responsibility. In an environment that recognizes and honors these values, standards of academic excellence must be maintained. An atmosphere of academic integrity enhances ethical and moral development among college students. It is the responsibility of the community of UWG, including all students, faculty and staff, to uphold the inherent values of the Honor Code.

Please refer to the University of West Georgia Student Code of Conduct and the University of West Georgia Honor Code, which are located in the University of West Georgia Student Handbook. The link to the UWG Student Handbook is http://www.westga.edu/handbook/
THS SON Honor Code

As a student of the University of West Georgia in the Tanner Health System School of Nursing, I am a person of integrity, veracity, and honesty. I will uphold the moral and ethical principles of the University of West Georgia’s Tanner Health System School of Nursing, habitually engage in truthful speech, statements and actions, and be honorable in intentions and actions. I am a person of respect. I respect human dignity, worth, and the uniqueness of every individual. I will respect persons of all backgrounds without prejudice. I will strive to promote, advocate for, and protect the health, safety, and rights of those under my care. I am accountable for my own judgment and action, and responsible for my role as a student of the University of West Georgia’s Tanner Health System School of Nursing. I lead by example and I will never settle for achieving merely what is expected, but will strive for a standard of excellence that reflects dedication to the profession of nursing.

SW_2/4/18

UWG THS SON Standards of Procedures for Breaches of Academic Integrity

I. Policy
The University of West Georgia Honor Code policy is located within the University of West Georgia Student Handbook. This policy does contain Penalties for Breach of Academic Integrity.

II. Context/Scope
This procedure applies to all UWG THS SON graduate faculty regarding the Standards of Procedure for Breaches of Academic Integrity.

III. Purpose
The UWG THS SON values academic integrity and the purpose of this Standards of Procedure is to provide a systematic approach regarding the penalties for breaches of academic integrity. The University of West Georgia Student Handbook Penalties for Breach of Academic Integrity states:

Each incidence of academic dishonesty is subject to review and consideration by the instructor, and is subject to a range of academic penalties including, but not limited to failing the assignment and/or failing the course. The instructor will notify the Assistant or Associate Dean of the College/School or Library in which the alleged incident took place. The instructor is strongly encouraged to refer the alleged student to the Office of Student Conduct for review and possible student conduct sanctions per the process of adjudicating student conduct cases. Student Conduct sanctions range from verbal warning to suspension or expulsion depending on the magnitude of the offense and/or number of offenses. The incident becomes part of the student’s conduct record at UWG.

Academic penalties imposed by instructors may be appealed through a Grade Appeal. Sanction(s) imposed by the Office of Student Conduct may be appealed through the Student Conduct Appeals process (UWG Student Handbook, 2018-19, p. 7).

IV. Procedures
All UWG THS SON graduate faculty will use the Standards of Procedure for Breaches of Academic Integrity in all graduate courses. Forms of Academic Dishonesty as identified by section 2.00 under Conduct Regulations of the University of West Georgia Student Handbook include cheating, fabrication, plagiarism, and excessive collaboration. All UWG THS SON graduate faculty will complete a written Breach of Academic Integrity report for any student breach of academic integrity. The previously mentioned forms of misconduct are
subject to the following sanctions:

<table>
<thead>
<tr>
<th>Forms of Misconduct</th>
<th>Examples</th>
<th>Identification</th>
<th>Recommendations</th>
<th>Documentation</th>
</tr>
</thead>
</table>
| **Cheating**         | - Unauthorized access to unauthorized materials  
- Use of another student’s work  
- Taking an exam for another student OR having another student take an exam for a student  
- Using, attempting to use or aiding others in using unauthorized materials | - Course faculty sends documentation to program director and graduate dean  
- Review student file for past Breach of Academic Integrity reports  
- Student is notified via course email | - Consultation with the Program Director  
- Verbal warning  
- Lower grade or failing assignment grade (ex. paper, project or test)  
- Lower overall course grade  
- Failure of the course  
- Suspension or expulsion from the program | - Written Academic Integrity Violation Investigation report by course faculty  
- Report sent to student  
- Strongly encourage referral of student to UWG Office of Community Standards |
| **Fabrication**      | - Padding reference list  
- Direct quotation without citation  
- Use of thesaurus to change author’s words, with or without citation  
- Falsification of records  
- Fabrication of research or other results | - Course faculty sends documentation to program director and graduate dean  
- Review student file for past Breach of Academic Integrity reports  
- Student is notified via course email | - Consultation with the Program Director  
- Verbal warning  
- Lower grade or failing assignment grade (ex. paper, project or test)  
- Lower overall course grade  
- Failure of the course  
- Suspension or expulsion from the program | - Written Academic Integrity Violation Investigation report by course faculty  
- Report sent to student  
- Strongly encourage referral of student to UWG Office of Community Standards |
| **Plagiarism**       | - Direct quotation without quotation marks  
- Paraphrasing without citation  
- Self-plagiarism  
- Representing the words or ideas of another as one’s own | - Course faculty sends documentation to program director and graduate dean  
- Review student file for past Breach of Academic Integrity reports  
- Student is notified via course email | - Consultation with the Program Director  
- Verbal warning  
- Lower grade or failing assignment grade (ex. paper, project or test)  
- Lower overall course grade  
- Failure of the course  
- Suspension or expulsion from the program | - Written Academic Integrity Violation Investigation report by course faculty  
- Report sent to student  
- Strongly encourage referral of student to UWG Office of Community Standards |
### Excessive Collaboration
- Sharing student work
- Solicitation of others to complete an individual assignment

- Course faculty sends documentation to program director and graduate dean
- Review student file for past Breach of Academic Integrity reports
- Student is notified via course email

- Consultation with the Program Director
- Verbal warning
- Lower grade or failing assignment grade (ex. paper, project or test)
- Lower overall course grade
- Failure of the course
- Suspension or expulsion from the program

- Written Academic Integrity Violation Investigation report by course faculty
- Report sent to student
- Strongly encourage referral of student to UWG Office of Community Standards

### UWG THS SON Turnitin Policy and Procedure

#### I. Policy
The UWG THS SON values academic integrity and therefore all graduate faculty will use Turnitin for all major assignments in all graduate courses. Additionally, a Turnitin Syllabus Statement will be placed within each individual course syllabi.

#### II. Context/Scope
This policy applies to all UWG THS SON graduate faculty regarding the use of the originality tool, Turnitin.

#### III. Purpose
The UWG THS SON values academic integrity and the purpose of this policy is to provide guidelines for graduate faculty regarding the use of Turnitin, an originality tool that can be used to detect and prevent plagiarism in student assignments.

#### IV. Definition
a. Turnitin: For the purposes of this policy Turnitin is an originality tool that recognizes text that has been identified as closely matching other online resources, including student-submitted work and published articles; displays possible sources where that text is located; and indicates the percentage of a paper that is attributable to other sources. The tool will reduce accidental plagiarism by helping students understand quotation attribution and citations.

#### V. Procedures
All graduate faculty will use Turnitin for all major assignments in all graduate courses. Use of Turnitin for minor assignments are up to the discretion of the individual graduate faculty member. In addition, the following statement must appear on all graduate course syllabi within the THS SON Graduate programs:

**Turnitin syllabus statement**
In an effort to ensure academic integrity, the Tanner Health System School of Nursing vigorously affirms the importance of an Honor Code as defined by the THS SON Graduate Student Handbook. Therefore, in an effort to detect and prevent plagiarism, graduate faculty members at THS SON now use an originality tool called Turnitin to compare a student’s work with multiple online sources. Turnitin reports a percentage of similarity with multiple online sources and provides links to those specific sources. The tool itself does not determine whether or not a paper has been plagiarized. Instead, the individual faculty member must make that judgment.

Selected assignments in this course will be checked for originality using Turnitin.com. A Turnitin draft assignment submission folder will be available for the submission of all assignments in this course so you may practice your scholarly writing over the course of the semester. Also, you may submit to the Turnitin draft assignment submission folder as many times as possible and please review the originality report with each draft submission. According to the Turnitin site, when multiple submissions are submitted, only one Originality Report will be processed in a 24 hour period; reports "for second or subsequent submissions will require a 24 hour delay before the Originality Report begins processing." Lastly, once you submit your final assignment to the assignment submission folder (not the Turnitin draft assignment submission folder), your paper will be reviewed through Turnitin and an Originality Report will be generated with no resubmission/revisions allowed.

SW_2/4/2018

UWG THS SON Turnitin Student Information for Graduate Student Handbook

Turnitin is a similarity tool, which recognizes text identified as closely matching other online resources, including student-submitted work and published articles; displays possible sources where the text is located; and indicates the percentage of a paper that is attributable to other sources. The similarity tool will reduce accidental plagiarism by helping students understand quotation attribution and citations.

Course faculty will set up assignment submission folders in their courses to allow students to submit assignments. The information below is intended to help students use this resource.

**Submitting Turnitin assignments.**

Each graduate course will inform students of the use of Turnitin via a statement included in the course syllabus. Students are encouraged to submit assignments to the Turnitin draft assignment submission folder prior to the assignment due date in order to receive the Similarity Report as these reports can take up to 24 hours and an additional 24 hours for subsequent reports.

Course faculty will set up a Turnitin draft assignment submission folder allowing students to submit their assignments multiple times prior to their final assignment submission. This process offers students the opportunity to improve their scholarly writing before the final assignment submission. According to the Turnitin site, when multiple submissions are permitted, only one Similarity Report will be processed in a 24 hour period; reports “for second or subsequent submissions will require a 24 hour delay before the Similarity Report begins processing.” Once the final assignment is submitted via the course assignment submission folder, it will be stored in Turnitin global student paper repository.

**Viewing a Turnitin similarity report.**

The course faculty will make the Similarity Report accessible to students and they will be able to view it through the same link used to submit the Turnitin assignment. Be aware that it might take some time for a report
to be generated; it is not instantly available for review as soon as the assignment is submitted. If a student's assignment has matching text in the Similarity Report, it does not necessarily indicate plagiarism. Turnitin will flag quotes that the student has correctly referenced. Students need to review the report carefully and if the report was based on a draft, make the corrections before submitting the final assignment. Please consult this tutorial for additional information on how to view a Turnitin Similarity Report: The Similarity Report.

Training resources for students. UWG Online Turnitin Training resources. These UWG Online resources will cover reviewing the similarity report and feedback through Turnitin (please click on the link title “Other Services” and then scroll down and click on “Turnitin” for Turnitin resources). The THS SON also provides resources for online tools at their Technology Resources page as well as a video on Reviewing Turnitin Assignments.

SW_3/25/19

UWG THS SON Professional Attire Policy

The nursing student's attire influences the public's image of nursing and the University of West Georgia, Tanner Health System School of Nursing. The public's image of nursing may influence the effectiveness of nursing practice and should be considered as the nurse provides care. Likewise, the student's image of nursing is positively influenced when the student takes pride in her/his appearance. The responsibility for establishing guidelines for the nursing student's professional attire rests with the faculty of the Tanner Health System School of Nursing with suggestions from the clinical agencies. A student name pin should be worn any time a student is participating in a clinical and/or practicum activity. Nursing faculty will provide information regarding the name pin or the order form can be located online at https://www.westga.edu/academics/nursing/assets-nursing/docs/mcevers-name-badge-order-form-1252012-2.pdf

SW_3/25/19

UWG THS SON Grievance Policy

The faculty in the Tanner Health System School of Nursing at the University of West Georgia recognizes there are a variety of situations not related to grades that may occur during the educational process. Misunderstandings and disagreements may arise regarding issues such as academic matters, policies, conditions, teaching-learning activities, course content, and faculty decisions. The grievance policy is an orderly process that provides effective and timely resolution of issues.

Students are encouraged to meet informally with the faculty member to discuss their concerns directly in an attempt to resolve the issue without further action. Often, with open and honest communication, problems can be clarified and resolved. If a resolution satisfactory to the student does not result from this direct discussion, and if the student perceives that an unfair, unreasonable, arbitrary, or capricious action has occurred, a formal grievance may be initiated.

The following steps outline the procedure to be followed in filing a formal grievance within the Tanner Health System School of Nursing. Once the process is started (student-faculty discussion), the student has two business days to initiate a meeting within each step of the grievance policy. The time limits are intended to ensure that
the matter is resolved as quickly as possible. The time limits may be altered by mutual consent of the parties at any step of the procedure.

1. Student – Faculty Discussion
If the initial informal meeting with the faculty member results in an outcome that is unsatisfactory from the student’s perspective, the student may then initiate a formal grievance by submitting in writing documentation regarding the issue to the faculty member and requesting a meeting. The student or the faculty member may request another faculty member be present during this meeting. The outcome of the meeting must be documented. Copies of the grievance letter by the student and the faculty member’s response must be provided to the student and placed in the student’s academic file.

2. Course Coordinator Meeting with Student and Faculty Member
If a student – faculty discussion does not resolve the issue, the student may contact the course coordinator (in courses with designated coordinators) to seek a resolution. This meeting and its outcome are to be shared with the involved faculty member. Copies of the documentation related to the outcome of this meeting must also be provided to the student and placed in the student’s academic file. If a satisfactory resolution is achieved, no further action is needed.

3. MSN or EdD Program Director Meeting with Student and Faculty Member
If the issue is not resolved to the student’s satisfaction after the meeting with the course coordinator, or if there is not a designated course coordinator, the student may request a meeting with the MSN or EdD Program Director (whichever is most appropriate). The MSN or EdD Program Director will arrange a meeting with the student and the involved faculty member. Within one week of the date the grievance is filed, the MSN or EdD Program Director will provide a written summary of the meeting, including the outcome, to the Associate Dean for Graduate Education of the Tanner Health System School of Nursing. The student and the faculty member must receive a copy and a copy must be placed in the student’s academic file.

4. Associate Dean for Graduate Education of the Tanner Health System School of Nursing Meeting with Student
If the student does not feel the issue has been resolved satisfactorily after meeting with the MSN or EdD Program Director, the student may present a formal request for a meeting with the Associate Dean for Graduate Education of the Tanner Health System School of Nursing. The request must include copies of the original grievance letter, copies of documentation of meetings with the course coordinator and/or program coordinator, and/or MSN or EdD Program Director along with a detailed letter describing the student’s perception of why previous efforts did not result in satisfactory resolution of the problem. The Associate Dean will arrange a meeting with the student and the involved faculty member. Within one week of the date the grievance is filed, the Associate Dean will provide a written summary of the meeting, including the outcome, to the Dean of the Tanner Health System School of Nursing. The student and the faculty member must receive a copy and a copy must be placed in the student’s academic file.

5. Dean of the Tanner Health System School of Nursing Meeting with Student
If the student does not feel the issue has been resolved satisfactorily after meeting with the Associate Dean for
Graduate Education, the student may present a formal request for a meeting with the Dean of the Tanner Health System School of Nursing. The request must include copies of the original grievance letter, copies of documentation of meetings with the course coordinator and/or program coordinator, and/or MSN or EdD Program Director, and the Associate Dean along with a detailed letter describing the student’s perception of why previous efforts did not result in satisfactory resolution of the problem. The Dean is responsible to review the written materials regarding the student’s grievance and make a decision. If the solution is unacceptable to the student, or if the student wishes to further appeal the concern, the procedure for appeal should be followed as outlined in the UWG Student Handbook.

Impaired Student Nurse Policy and Procedure

The purpose of this policy is to assist in the identification of and offer assistance to the chemically impaired student, while sending a strong message that all students enrolled in the Tanner Health System School of Nursing at The University of West Georgia are strictly prohibited from possessing or being under the influence of chemically impairing drugs or substances while engaged in any THS SON classroom or clinical activity.

I. STATEMENT OF PURPOSE
a. Students enrolled in the THS SON at the undergraduate and graduate levels engage in the THS SON, classroom, as well as clinical activities that involve training on campus in the skills and simulation labs (Experiential Learning Center) and off campus at various types of health care facilities, including, but not limited to, hospitals, private practice offices, clinics, long-term care facilities, schools, conferences, other university and college settings, and community agencies.

b. Chemical impairment can adversely affect the learning process and the quality of care provided by the student in the above listed activities. It may also pose legal ramifications to the THS SON as well as safety and health risks to the student, his/her patient(s), classmates, clinical instructors, and others.

c. This policy has been adapted in accordance with the American Association of Colleges of Nursing (1998) position statement on the subject of substance abuse in nursing education.

II. DEFINITIONS
The THS SON faculty defines the chemically impaired student as a person who, while participating in a THS SON, classroom, or clinical activity, is under the influence of, separately or in combination, mind or function-altering substances, including alcohol, illegal street or prescription drugs, inhalants or synthetic designer drugs (see Appendix A & B for Drug List and Symptoms/Indicators of Chemical Impairment). Exceptions include legally prescribed drugs taken as ordered by a Health Care Provider by the student and over-the-counter drugs, provided that the use of these drugs does not interfere with safe and competent performance by the student during THS SON class and clinical activities.

Prevention and Education
Faculty members will distribute and review the Impaired Student Nurse Policy along with information on services and programs offered by the University of West Georgia Counseling Center (counseling) and Health Services.
Protocol for Faculty Intervention with the Impaired Student Nurse

1. All student nurses will be required, upon admission to the Tanner Health System School of Nursing, to sign a consent form allowing random drug and alcohol panel testing. The consent (Appendix C) will be filed in the Tanner Health System School of Nursing.

2. If signs and symptoms, as listed in Appendix B, are suspected by or reported to the faculty member during any THS SON, classroom, or clinical activity, the faculty member will be responsible to meet with the student, with a neutral party present (i.e., physician, clinical manager, charge nurse, or another UWG THS SON faculty) in private to discuss the behavior(s) and signs observed, and allow the student to provide a brief verbal explanation. The faculty member will specifically inquire whether the student has used drugs or alcohol and, if so, the details of what, when, how much, and by what route it was consumed.

3. The faculty member is advised to keep detailed notes using the THS SON Structured Plan for Success Form to describe the incident and the behaviors involving the student.

4. If the faculty member believes the student nurse to be impaired based on altered behaviors, the faculty member will inform the student that she/he is suspected to be in violation of the THS SON Impaired Student Nurse Policy. When possible, suspicion needs to be validated by another faculty member, charge nurse, manager, or physician. The student will be suspended from all THS SON, classroom, and clinical activities until further notice pending results of an alcohol and drug panel. It is the student’s responsibility to arrange safe transportation from the clinical activity site and/or classroom to LabCorp for drug testing. For THS SON, classroom, and clinical activities occurring during the evening, the student is responsible for arranging safe transportation home and will be required to submit to screening within 12 hours. The faculty member will stay with the student until safe transportation arrives to pick up the student and document when the student actually left the activity location.

5. Cost of transportation and the drug and alcohol panel will be at the student’s expense.

6. If the student refuses drug and alcohol panel testing, he/she will be subject to dismissal from the nursing program.

7. A urine drug and alcohol panel will be deemed positive if any of the drugs listed in Appendix A are identified. A second test will be conducted for verification on the original urine specimen. Results from the testing laboratory will be reported to the appropriate Associate Dean at the Tanner Health System School of Nursing. The THS SON will ensure confidentiality of the results only to the student, appropriate THS SON administrators, and faculty.

8. A positive drug and/or alcohol screen will result in dismissal from the nursing program. The student may request for reinstatement the next semester if applicable (see #10 c).

9. A negative panel will not necessitate further testing and no further action will be taken. The student will be notified that he/she can return to THS SON, classroom, and clinical activities, and will be allowed to make up any missed opportunities during said activities.

10. If the panel is positive for the presence of drugs or alcohol, or if the student nurse refused to submit to screening, the following steps will be initiated:

   a. A conference will be held, within five business days, with the student, involved faculty member(s), THS SON Associate Dean, and a counselor from the Counseling and Career Development Center at UWG to discuss the incident in a caring environment. Concerns about
the student and his/her well-being, behavior, and performance, and academic consequences will be discussed.

b. A written agreement (Appendix D) will be executed by the student to seek an initial substance abuse evaluation and counseling with a UWG Patient Advocate or Counselor, or with a certified or licensed professional capable of providing this service. The student must sign an informed consent form from the consulting agency/provider to allow release of the evaluation results to be provided to the appropriate Associate Dean of the THS SON. The student is required to follow any treatment plan which may be recommended as a result of the substance abuse screening and evaluation. Refusal of the student to sign the agreement or failure to comply with any recommended treatment following substance abuse evaluation and counseling will result in dismissal from the nursing program.

c. Reinstatement of the student to the Tanner Health System School of Nursing will be contingent upon:

- Accordance with current THS SON Progression Policy
- Written documentation of successful completion of all substance abuse services recommended or any other services recommended by UWG Counseling and Career Development Center or Licensed Professional Provider
- Negative drug and alcohol panel at an approved laboratory prior to reinstatement
- Agreement to voluntarily participate in random drug or alcohol screening, at the expense of the student
- Participate in on-going support qualified program as recommended by the Counseling & Career Development Center or Licensed Professional Provider

Other

1. In accordance with the UWG Students and Drugs statement in the University of West Georgia Student Handbook, students may be subject to a formal judicial review by the Judicial Affairs Office.

2. Students must be aware that a state examining board has the right to refuse to grant authorization to test for NCLEX and/or RN licensure to any individual regardless of educational qualifications based on reportable offenses found on a background check, falsification of application for licensure, felony convictions, and other moral and legal violations specified by that state board of nursing.
Master of Science in Nursing Programs

Admission Requirements

The THS SON accepts rolling (continuous) applications for admission. Please send the below documents directly to the Office of Graduate Admissions, University of West Georgia, 1601 Maple Street, Carrollton, GA 30118-4160. Proof of the following should be submitted to the Admissions Office to be considered for admission for Fall Semester of each academic year:

- Completed application for admission to the UWG Graduate School
- Non-refundable application fee (one time only)
- One official transcript from each college or university attended (GPA admission requirement of an overall GPA of 3.0 (4.0) for all nursing courses).

Please send the following documents directly to the Office of Graduate Admissions, University of West Georgia, 1600 Maple Street, Carrollton, GA 30118-4160 or faxed to 678-839-6553 Attn: Graduate Studies Associate:

1. Earned Bachelor of Science in Nursing (BSN) degree from an accredited program.
2. Official transcript from each college or university attended.
3. Evidence of current licensure as a registered nurse (RN) in the United States must be provided within the application.
4. Completion of a basic undergraduate statistics course with a grade of C or higher prior to enrollment.
5. GPA of 3.0 (4.0 scale) for all upper division nursing courses
6. Professional resume.
7. Two letters of recommendation from individuals knowledgeable of your professional and academic abilities.

Online Degree and Certification Programs may not be available in all states. If you are an out-of-state student, please contact the Director of Distance Education to confirm that the program is available in your state. Once you have confirmed that the program is available in your state please contact Embry Ice at eice@westga.edu or by phone at 678-839-5115, as additional faculty licenses may be required in order to accommodate out of state students. Currently, only residents with active licenses in Alabama and Compact States (eNLC) are eligible for practicum requirements of the program.

Inquiries related to your application should be directed to Embry Ice, Graduate Studies Associate at eice@westga.edu.

Upon receipt of all application materials by the UWG Admissions Office and determination by the THS SON
that all admission criteria is met, applicants will be notified regarding admission to the program. The above criteria represent minimal standards and provide no guarantee of acceptance.

**Provisional Admission**

Students who do not meet all of the criteria for admission may be considered for provisional admission pending space available.

**Non-degree Seeking Students**

Non-degree and personal enrichment students may be admitted to select nursing courses on a space available basis only. Please be aware that no more than 9 hours taken as a post baccalaureate or non-degree student may subsequently be applied to a degree. In most situations, students will not be allowed to take the full 9 hours; therefore; students attempting to gain admittance to a degree program should make every effort to take the appropriate admissions test as soon as possible.

**Letters of Recommendation**

The required two letters of recommendation must be submitted by the application deadline to the THS SON. A faculty member knowledgeable of your performance in your BSN program must write one of the letters for the MSN program.

**MSN Programs of Study**

The THS SON offers a Master of Science in Nursing degree with two programs of study in either education or health systems leadership and a post-master’s certificate available in these areas completely online. More information about these 100% online programs is available at [http://uwgonline.westga.edu/online-student-guide.php](http://uwgonline.westga.edu/online-student-guide.php)

**The Master’s program offers two areas of concentration:**

1. **Health Systems Leadership** – a program of study designed to prepare nurse managers/leaders and clinical nurse leaders (CNLs).

   **The Nurse Leader/Manager** track integrates the caring philosophy into organizational management. Its core and cognate courses provide study central to advanced nursing management and financial practice; the nursing concentration courses offer content and practice in nursing and healthcare administration and finance, relevant to primary, secondary and/or tertiary settings in rapidly changing times. The curriculum can be taken completely online and the needs of students in other geographic areas can be accommodated for the practicum. The track required 36 credit hours for completion. Full and part-time program of study options are available. The curriculum contains a minimum of 240 hours of required practical related to administrative and financial management in healthcare organizations. Students will find a preceptor who will mentor them throughout this portion of the curriculum. Decisions about preceptors will be made with the advisement of faculty.

   **The Clinical Nurse Leader** is a role designed by the American Association of Colleges of Nursing (AACN,
2003) to prepare a leader who is accountable for management of care and the care environment. Within this track, courses focus on patient-centered care, evidence-based practice, pharmacology, case management client-care coordination, holistic health assessment, care of diverse populations, health policy, health systems, business and economics, statistics, leadership and management, quality improvement, risk management, and public/community health. The curriculum can be taken completely online and the needs of students in other geographic areas can be accommodated for the practicum. The track requires 36 credit hours for completion. Full and part time program of study options are available. The curriculum contains a minimum of 420 hours of required practical related to administrative and financial management in healthcare organization(s). Students will find a preceptor who will mentor them throughout this portion of the curriculum. Decisions about preceptors will be made with the advisement of faculty.

2. **Nursing Education** - a program of study to address innovations in curriculum, instructional skills and strategies, the development and use of educational technology, and educational assessment and evaluation. Students will be able to develop expertise in health education and promotion, patient education, professional development, or college/university teaching. The curriculum can be taken completely online and the needs of students in other geographic areas can be accommodated for the practicum. The track requires 36 credit hours for completion. Full and part time program of study options are available. The curriculum contains a minimum of 240 hours of required practicum related to curriculum and evaluation/testing in nursing education. Students will find a preceptor who will mentor them through this portion of the curriculum. Decisions about preceptors will be made with the advisement of faculty.

**MSN Online Orientation**

A MSN online orientation is offered to new students before the start of the fall semester each year. It is expected that every student new to the program will participate and complete the online orientation. An optional one day, face-to-face orientation will also be offered at the Carrollton campus as an additional means to support student success. Information regarding all orientations (online and face-to-face) will be emailed to incoming students by no later than the first week of July.

**MSN Capstone Project**

Students completing a Master’s of Science in Nursing (MSN) Degree from the THS SON will engage in a scholarly capstone experience. The student, under the guidance of a faculty member, will plan, implement, and evaluate a capstone project directed toward the student’s chosen program of study (area of concentration).

The capstone experience allows the student to demonstrate synthesis of knowledge gained throughout the MSN program. The capstone experience is rooted in collegial collaboration between the student, the faculty member and an experienced professional in the area of the student’s concentration.

The capstone project:

- Is action-oriented and addresses an issue or problem focused in the student’s area of concentration (i.e., nursing education or leadership [health systems leadership; clinical nurse leader]).
- Aligns with the strategic priorities of the organization within which the project occurs.
Practicum Information

Participation in Practicum Courses

- Clinical/practicum placement is the responsibility of the student however, the Graduate Studies Associate is available to assist you with this process.
- Proof of all health and professional requirements must be on file in the THS SON prior to participation in any clinical/practicum activity.
- It is the student’s responsibility to provide the required clinical documents to the THS SON by the stated deadline of **July 1 for enrollment in fall semester**. Clinical/practicum files are complete when current documents have been received and requirements have been met.
- Students are responsible for submitting documents to the THS SON and for seeing that their file is complete and current for each semester of enrollment in clinical/practicum coursework.
- Students will not be allowed to participate in clinical/practicum learning activities without the required documentation.
- Students without a complete clinical/practicum file by the second week of classes will be dropped from their courses.
- Students will submit the **Health & Professional Requirements Checklist** and evidence for all required health and professional documents to the Tanner Health System School of via fax (678-839-2462) or via email (eice@westga.edu)
- It is the student’s responsibility to meet any additional credentialing requirements for participation at an assigned facility. Please note that, in some instances, there may be associated costs (i.e. badges, additional screenings, liability upgrades) for which the student is responsible.
- Clinical/practicum experiences may be scheduled on any day of the week, during any shift, and therefore requires student flexibility. The THS SON cannot be responsible for accommodating child care, work schedules, or any other personal responsibility when scheduling students for their clinical/practicum experiences.
- Transportation to and from clinical sites is the responsibility of the student (see Health and Professional Requirements Checklist).
- Please refer to Appendix C for all required forms

Recommendations for Elevation and Treatment following Practicum Exposure to Blood or Body Fluids

Students who sustain exposure to blood and/or body fluids while participating in university-related clinical/practicum activities should immediately notify the staff nurse responsible for the patient and the clinical instructor/preceptor. The student is expected to follow the policies and procedures for the institution in which the incident occurs regarding reporting and necessary follow-up procedures. The student may choose to receive treatment in the Emergency Department of the institution or a nearby institution at their own expense. Faculty/preceptor must initiate a Post-Exposure Counseling Checklist for the student. A representative from the healthcare facility should communicate clearly to the student the post-exposure policy and necessary follow-up
treatment. Reporting, treatment, and follow-up procedures should be documented in the student’s record by the instructor.

**Practicum Placement and Documentation**

In addition to the *Health & Professional Requirements Checklist* requirements, clinical agencies require additional documentation and orientation materials for student clearance. Completion of these required materials may take place outside of the scheduled class dates for a given semester. Non-compliance may delay start times for students.

**Practicum Preceptor Guidelines**

The student is responsible to find a practicum site and a preceptor. A contract must be executed between the THS SON and the practicum site before the student can begin their practicum. For additional preceptor information, please refer to the THS SON Preceptor Handbook. This handbook will serve as a resource guide for preceptors and students in partnership with the School of Nursing.

SCHOOL OF NURSING
MASTER OF SCIENCE IN NURSING PROGRAM
Post-Master’s Certificate
Health Systems Leadership: Leader/Manager

The Post-Master's Certificate for Health Systems Leadership is designed for a registered nurse who has earned a master's degree in another nursing specialization. To be granted the post-master's certificate, students must complete a minimum of 10 credit hours at University of West Georgia Tanner Health System School of Nursing including 240 practicum hours.

Post-Master's Certificate for Health Systems Leadership students must successfully complete graduate didactic and clinical requirements of the Master's Health Systems Leadership program. A GAP analysis of the applicant’s transcript will be completed to determine if additional courses are required to meet the program guidelines.

The Post-Master's Certificate for Clinical Nurse Leader is designed for a registered nurse who has earned a master's degree in another nursing specialization and wishes to be eligible to take the CNL certification exam. To be granted the post-master's certificate, students must complete a minimum of 13 credit hours at the University of West Georgia Tanner Health System, School of Nursing including 420 clinical practicum hours. Post-Master's Certificate for Clinical Nurse Leader students must successfully complete graduate didactic and clinical requirements of the MSN CNL program. A GAP analysis of the applicant’s transcript will be completed to determine if additional courses are required to meet the certificate program guidelines. These additional courses include but are not limited to N6103: Health Promotion and Advanced Health Assessment: and N6106: Pathophysiology and Pharmacology.

EdD in Nursing Education Program

Admission Requirements

The THS SON accepts applications for admission once per year. Please send the below documents directly to the Admissions Office, University of West Georgia, 1601 Maple Street, Carrollton, GA 30118-4160. Proof of the following should be submitted to the Admissions Office by February 1st, to be considered for admission for Fall Semester of each academic year:

- Completed application for admission to the THS UWG Graduate School
- Non-refundable $40.00 application fee (one time only)
- One official transcript from each college or university attended

Please send the following documents directly to the Tanner Health System School of Nursing, University of West Georgia, 1600 Maple Street, Carrollton, GA 30118-4160 or faxed to 678-839-6553 (Attn: Graduate Studies Associate: Embry Ice)

1. Professional curriculum vitae
2. Three letters of recommendation from individuals knowledgeable of your professional and academic abilities.
3. Sample of academic writing limited to five pages (An academic paper presented in a previous graduate course that demonstrates knowledge of an area, powers of organization, command of language, and communication skills). The sample of academic writing is not a professionally published paper.
4. International students are required to submit TOEFL scores.
5. Evidence of current unencumbered license as a registered nurse (RN) in the United States must be provided.
6. Earned Masters of Science in Nursing (MSN) degree from an accredited institution
7. GPA of 3.0 or higher on a 4.0 scale of a graduate nursing program.

Inquiries related to your application should be directed to Embry Ice, Graduate Studies Associate, at eice@westga.edu. Upon receipt of all application materials by the UWG Admissions Office and determination by the THS SON that all admission criteria is met, applicants will be notified regarding admission to the program. The above criteria represent minimal standards and provide no guarantee of acceptance.

In person requirements for the EdD program include the following:

- One on-campus requirement for two days at beginning of program (August before fall 1 begins)
- One on-campus requirement for one day, the semester before students take Comprehensive Exam course, NURS 9019 (fall 3 for full-time students; fall 4 for part-time students)
- One on-campus requirement for one day for one of their two defense meetings (either for the proposal defense OR the final dissertation defense, to be determined by the student and chair).
An EdD Virtual Bootcamp is provided each summer prior to admission to the program. Specifics regarding the Virtual Bootcamp will be offered by the EdD Director upon admission to the program.

Preliminary Dissertation Meeting Guidelines

Preliminary Dissertation Meeting #1.

**PDM1 (Preliminary Dissertation Meeting 1)**

The purpose of the PDM1 is for the student and committee members to discuss the broad dissertation topic the student is interested in pursuing for their dissertation. The student must complete the PDM1 in fall of year 2 for full-time students and fall of year 3 for part-time students. **Students** will complete the following steps:

- **Prepare a 1 to 2-page document** that identifies a phenomenon of interest and possible research ideas on that phenomenon. The document should broadly identify the gap statement, research problem, purpose, sample, design, significance and feasibility of the study.
- Schedule the PDM1 meeting with all committee members. The meeting may be done in person, by conference call, or google hangout/video chat. **Students will be the drivers of scheduling this meeting - but must do so before the end of fall 2 for full-time students and fall 3 for part-time students.**
- No later than one week prior to the PDM1 meeting, the student must send the committee members his/her document.
- The committee may choose to meet prior to the student meeting, to discuss their thoughts/ideas regarding the proposed PDM1 document.
- Chairs may contact the Quantitative Consultant or Qualitative Consultant regarding any questions that may exist regarding the feasibility of the methodology.
- The student and committee members will meet to discuss the broad dissertation topic the student has identified. The committee will help the student focus his/her research topic.
- The **student** will take notes of the meeting and provide them to the dissertation chair and committee members, no later than two days following the meeting.
- The **student** will complete the following PDM1 meeting form, which includes student notes, and send to their chair for signature (digital signatures are acceptable). Once this is signed, the student will keep a copy, the chair should keep a copy, and the student will submit a copy to the EdD Director.
- The chair will create a google Team Drive for the student and committee to share information.

Preliminary Dissertation Meeting #2.

**PDM2 (Preliminary Dissertation Meeting 2)**
The purpose of the PDM2 is for the student to refine his/her dissertation plan and prepare for the methodology course in the summer of year 2 for full-time students and summer of year 3 for part-time students, and the comprehensive exam (Comps) in fall of year 3 for full-time students and fall of year 4 for part-time students. The student must complete the PDM2 in the spring of year 2 for full-time students and spring of year 3 for part-time students. **Students** will complete the following steps:

- Prepare a dissertation plan that integrates the feedback received from the PDM1. *The plan should be no more than five pages* and can be a short narrative, a schematic, a table, or an outline that identifies the research problem, purpose, framework, sample design and methods of research.
- Schedule the PDM2 meeting with all committee members. The meeting may be done in person, by conference call, or by google hangout/video chat. **Students will be the drivers of scheduling this meeting - but must do so before the end of spring 2 for full-time students and spring 3 for part-time students.**
- The committee may choose to meet prior to the student meeting, to discuss their thoughts/ideas regarding the proposed PDM2 document.
- The Chair should have a discussion with the Quantitative Consultant for all quantitative studies and may have a discussion with the Qualitative Consultant for all qualitative studies. The chair can consider including the consultants in the committee pre-meeting or the official PDM2 meeting.
- No later than one week prior to the PDM2 meeting, the student must send the committee members his/her dissertation plan.
- The **student** will take notes on the meeting and provide them to the committee chair and committee members, no later than two days following the meeting.
- At the end of the PDM2, the student should be clear on the expectation for their methodology course, which should provide them clear direction for their Comps. If that is not the case, the student needs to follow up with the committee chair.
- The **student** will complete the following PDM2 meeting form, which includes student notes, and send to their chair for signature (digital signatures are acceptable). Once this is signed, the student will keep a copy, the chair should keep a copy, a copy should be placed in the Team Drive, and the student will submit a copy to the EdD Director.

**NOTE:** The PDM2 is not a test, but an opportunity to allow committee members to ask questions about the topic and to give suggestions on the purpose, theory, sample design, and methods. The student should be prepared to speak to the points in the plan if the committee asks for more information. Remember this is an opportunity for the committee to guide the student in a direction to be successful in the summer methodology course and Comps and helps to identify any major flaws in the plan.

Comprehensive Examination, Policy & Procedure

I. Outcome
The student will demonstrate knowledge related to program outcomes in a professionally written document

II. Policy
A comprehensive examination is required of all Tanner Health System School of Nursing EdD in Nursing Education doctoral students. The exam will require the student to perform a critical analysis on a specific topic in nursing education. The comprehensive exam is scheduled in the NURS 9019 Comprehensive Exam course and is evaluated by a panel of graduate faculty. Students will either pass or fail according to criteria set forth in the EdD in Nursing Education Comprehensive Examination Rubric. Students will be notified via university email of their comprehensive exam results by the program director. Any student unsuccessful on the first comprehensive exam will be required to retake the exam prior to continuing in the program. On no occasion may a student take the comprehensive examination a third time. An unsuccessful second comprehensive exam attempt will result in dismissal from the program.

III. Procedure
The comprehensive exam will consist of questions which relate to program outcomes. Based upon the questions, each student will write an APA style/20 page paper (excluding title page, references, and appendices). Students are expected to demonstrate a strong grasp of content salient to the topic including research findings and justification for the topic. Graduate faculty panel members will evaluate each exam submission with use of the EdD in Nursing Education Comprehensive Examination Rubric. If a student does not pass the first comprehensive exam, the student will be required to retake the exam one additional time in the NURS 9019 Comprehensive Exam course prior to continuing in the program.

IV. Timeframe
Students will be provided their comprehensive exam questions immediately once the semester begins (first day of class) in the NURS 9019 Comprehensive Exam course. Completed comprehensive examinations will be submitted electronically via the NURS 9019 Comprehensive Exam Submission folder by the 6th week of the semester. No extensions will be allowed for the comprehensive examination and plagiarism is an automatic failure. Students will be notified of their comprehensive exam results within two weeks of their comprehensive exam submission (by no later than the 8th week of the semester). If a student is successful on their initial comprehensive examination, then the student will immediately begin the dissertation phase of the program with their dissertation chair in the NURS 9019 course. Students who fail their first attempt at the comprehensive exam will retake their second comprehensive exam immediately within the next 6 weeks of the semester (9th thru 14th week of the semester). Students will be notified of their second comprehensive exam results within two weeks of their second comprehensive exam submission (by no later than the 16th week of the semester). An
unsuccessful second comprehensive exam attempt will result in dismissal from the program as a student may not take the comprehensive examination a third time.

Rights clause of the SON Graduate handbook:
The Tanner Health System School of Nursing reserves the right to amend, modify, add to, or delete our rules, policies, and procedures.

Comprehensive Exam Guidelines

I. Preparation for the Comprehensive Exam
A meeting is encouraged between the dissertation chair and the doctoral student prior to the NURS 9019 Comprehensive Exam course to confirm a relevant nursing education prospectus topic has been selected by the student. Additional meetings may be scheduled to finalize the prospectus topic and the proposed research plan to investigate the topic, only prior to the NURS 9019 Comprehensive Exam course.

II. NURS 9019 Timeline for the Comprehensive Exam
The comprehensive exam is scheduled to take place within the NURS 9019 Comprehensive Exam course and the exam will begin immediately once the semester begins (first day of class). The timeline will take place as follows:

- Completed comprehensive examinations will be submitted electronically via the NURS 9019 Comprehensive Exam Submission folder by the 6th week of the semester
- Students will be notified of their comprehensive exam results within two weeks of their comprehensive exam submission (by no later than the 8th week of the semester).
- If a student is successful on their initial comprehensive examination, then the student will immediately begin the dissertation phase of the program with their dissertation chair in the NURS 9019 course.
- Students who fail their first attempt at the comprehensive exam will retake their second comprehensive exam immediately within the next 6 weeks of the semester (9th thru 14th week of the semester).
- Students will be notified of their second comprehensive exam results within two weeks of their second comprehensive exam submission (by no later than the 16th week of the semester).

III. NURS 9019 Comprehensive Exam Committee Contact
Since the comprehensive exam is scheduled to take place within the NURS 9019 Comprehensive Exam course, the student must refrain from speaking to their dissertation chair and committee during the exam. Once the final results of the comprehensive exam results are determined (pass or fail), then the student may contact their dissertation committee.

For further information regarding the comprehensive exam, please see the Comprehensive Examination and the Comprehensive Examination Rubric located in Graduate Student Handbook.
Rights clause of the SON Graduate handbook:
The Tanner Health System School of Nursing reserves the right to amend, modify, add to, or delete our rules, policies, and procedures.

University of West Georgia
Tanner Health System School of Nursing
EdD in Nursing Education program

Comprehensive Examination

Question #1: Prepare a nursing education study and create a compelling prospectus. The prospectus will begin with an Introduction and should include a clear statement of the study’s purpose and research hypothesis/question(s) to be tested. Also, provide current literature (Background) to justify the study and discuss the significance of the study to nursing education.

The Introduction will include the following:

<table>
<thead>
<tr>
<th>Quantitative</th>
<th>Qualitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introductory paragraph(s)</td>
<td>Introductory paragraph(s)</td>
</tr>
<tr>
<td>Background (State of the current literature)</td>

*Please see the EdD in Nursing Education Comprehensive Examination Policy & Procedure for further details of the comprehensive exam and the EdD in Nursing Education Comprehensive Examination Rubric for grading details.*
Comprehensive Examination Rubric

**Directions:** This form is to be completed by the dissertation committee following submission of the comprehensive exam. Please evaluate student performance on the comprehensive exam as a whole using the following rubric. Under each heading, check the description that best fits the student’s performance in that area. At the end of the document, provide the committee’s decision about the overall quality of the exam indicating whether it was excellent, above average, adequate, or inadequate and submit to the EdD program director.

**Evaluation of Quality of the Comprehensive Exam Product**

The Tanner Health System School of Nursing reserves the right to amend, modify, add to, or delete our rules, policies, and procedures.

DV_6/18/18
EdD Dissertation Information

I. ADMISSION TO CANDIDACY
When the student has successfully passed the comprehensive examination and successfully defended a dissertation proposal, the student will be recommended by the School of Nursing for admission to candidacy for a degree.

II. CONTINUOUS REGISTRATION
Once a student has successfully passed the comprehensive examination, the student is expected to pursue completion of the dissertation without interruption by enrolling every remaining semester for at least three hours of dissertation research until completion of the dissertation. The amount of dissertation research for which a student enrolls in any given semester should be commensurate with the progress a student is expected to make on the dissertation. All requirements of the degree must be completed within seven years.

III. DISSERTATION
A dissertation showing ability to conduct independent research and skill in organization and presentation must be prepared by each student on a nursing education topic. The dissertation must also constitute a definite contribution to knowledge. The dissertation title must be approved by the student’s dissertation chair and committee members. A dissertation committee, with the dissertation chair, will supervise the preparation of the dissertation. The dissertation committee shall not have fewer than three members. All members of a dissertation committee must be members of the THS SON Graduate Faculty. An additional Outside Committee Member may also serve on the dissertation committee with evidence of a terminal degree and approval by the Dissertation Chair and EdD Director. Lastly, see the Graduate School site for required university editorial guidelines and the Thesis & Dissertation Formatting Guidelines Handbook.

IV. WORKING WITH A CHAIR AND COMMITTEE
Building Student-Chair Relationship
a. Introduction
Finding a match between student interests and faculty member’s availability represents both challenges and opportunities. Once a chair selection is made and approved, building a relationship with your chair is critical for success in completing your dissertation. Here are four suggestions:

- Check with your chair regarding the preferred method of communication,
- Be ready to type notes and/or tape the session when you schedule conversations,
- It works best if all communication is channeled through the chair, even if you are working with other members of the dissertation committee on specific issues. This helps to avoid any contradictory information, which may slow down progress, and;
- The chair and student will coordinate in completing progress reports for each semester of their NURS 9015 courses.

The conceptualization of your study should develop and emerge during dialogue with your chair. It may also help your completion success by anticipating areas that are potentially going to slow down your progress. It is best to consider the following:
• Plan to allow chair and committee members a minimum of two weeks to read various drafts of your work,
• The IRB approval process will take some time. Plan on at least three weeks before your IRB approval. You cannot collect any data until the IRB has approved your study,
• Build in extra dissertation preparation time, perhaps twice as much as you anticipate needing, as often-unforeseen issues delay some aspect of the dissertation process, and;
• Begin your NURS 9015 semester report at the beginning of each semester by developing a very detailed, projected timeline for the semester.

b. How Does a Dissertation Committee Function?
Each member of the committee brings certain strengths and perspective to the student. These strengths may lie in methodological or content-area expertise. Another great strength may be an interest and enthusiasm in assisting your development as a scholar. UWG believes that the student is served best when direction and support are consensual and collaborative. To this end, at times the committee will discuss differences in the presence of the student; whereas other times the committee will choose to resolve differences without the student’s presence. At all stages of dissertation development, it works best if the feedback and communication is received by all members of the dissertation committee.

c. General Dissertation Expectations
UWG has established at least four general expectations regarding quality in dissertation work and they include:
• First, students writing their dissertation must demonstrate familiarity with the literature in their field. Students must also interpret the literature while offering applications, analysis, and extension of practice.
• Second, students will come to the dissertation with some background in research methods. The committee will help students select the most precise method that is appropriate for their study. This may mean pushing students past their previous level of understanding and use of research methods.
• Third, committee members guide students through the conclusions of the study section. It is important that the full value of the study be realized and learning how to share their findings is a key outcome for students.
• Finally, the committee is expected to provide enough feedback to students to identify areas that are problematic regarding form and style. While the committee will not act as an editor or grammarian, students should receive enough direction to identify necessary resources to assist them. Committees are expected to provide feedback to students so they might know areas in need of correction.

d. What does the committee chair do? The chair:
1. Supports the student with project conceptualization and early drafts,
2. Assumes a primary responsibility for assuring that work fulfills the expectations and requirements of the committee, UWG, and the academic discipline,
3. Leads, monitors, coordinates, and assesses the progress of the dissertation from start to finish,
4. Provides timely and regular feedback,
5. Assists the student with development of the IRB,
6. Afterwards, the faculty will formally submit the IRB and;
7. Helps the student develop his or her own scholarly agenda.
e. **What do committee members do?** Committee members:
   1. Assume a shared responsibility for assuring that the work fulfills the expectations and requirements of the committee, UWG, and the academic discipline,
   2. Engage, monitor, refine, and assess the progress of the dissertation from start to finish,
   3. Provide timely and regular feedback to the student via the chair’s direction, and;
   4. Offer direct support to students by complementing academic content and or methodological support.

f. **What does the student do?** The student:
   1. Complies with all rules, procedures, ethical guidelines, and IRB requirements,
   2. Communicates in a regular and consistent manner with the chair. Always provides more than adequate time to read drafts and exchange ideas (typically a minimum of two weeks),
   3. Accommodates the chair’s schedule,
   4. Corrects grammatical or APA errors,
   5. Learns to accept feedback and constructive criticism, and;
   6. Follows through and meets obligations in a timely manner.

g. **Frequently asked questions:**
   1. **Who is responsible to select the dissertation committee chair?** This is a decision by the EdD Director; however, the student provides recommendations of potential dissertation chair and committee members. Students are encouraged to explore possible chairs amongst Graduate faculty members.
   2. **When do I select my committee chair?** During the first summer of the program for full-time students, the second summer of the program for part-time students, students are welcome to offer recommendations of a dissertation chair. Students should keep an open mind about methodological procedures and varying expertise offered by potential chairs. Students will have the opportunity to review information regarding faculty experience and expertise prior to providing potential dissertation chair and committee member requests.
   3. **Who selects the members of the dissertation committee?** This is a decision by the Graduate Faculty, however, the student provides recommendations of potential dissertation chair and committee members.
   4. **What should I strive for as far as committee membership?** The most important criterion is a committee member who is willing and committed to helping you develop as a scholar. Ideally, the committee membership should strive to represent both content area and methodological expertise.
   5. **How many members serve on a dissertation committee?** Committees will consist of three or potentially four members. If the chair also provides methodological expertise, committees may include only three members.
   6. **Where can I find a directory of faculty members?** [Faculty Directory](#)
   7. **What are the formatting requirements for my dissertation?** See the [Thesis & Dissertation Formatting Guidelines Handbook](#). Students are encouraged to format their dissertations using these guidelines when beginning the dissertation process.
   8. **What if I want to change my chair or a committee member?** Changing the composition of the dissertation committee should not be taken lightly. Any changes must be discussed and approved by the committee chair, EdD Director, and the Associate Dean. *A strong rationale is required to make a change.*
9. How many hours of dissertation credit must be taken? Three credit hours for NURS 9019 and a minimum of 12 credit hours for NURS 9015.

10. Do I have to enroll for dissertation hours if I want to take a semester off? Unless the student has been granted an extraordinary “leave of absence,” the student must enroll in at least one three hours of dissertation credit every semester (including summer). Failure to do so will remove the student from good standing in the program. Review the Continuous Registration Policy on page 67.

11. How many presentations will I do? Two, the first is a dissertation proposal defense, required for the student to advance to candidacy. The second in the dissertation defense, completed after the study has been completed.

12. What happens when I am ready to defend my dissertation proposal? The student works with the dissertation chair to determine when the student is ready to defend the dissertation proposal. Please review Proposal Defense document in the Dissertation Forms folder (located in the EdD in Nursing Education Google site).

13. What happens when I am ready to defend my dissertation? The student works with the dissertation chair to determine when the student is ready to defend the dissertation. Please review Dissertation/Final Defense document in the Dissertation Forms folder (located in the EdD in Nursing Education Google site).

14. What forms are required regarding the dissertation and where are they located? There are numerous forms and procedures that have been developed to ensure an orderly and systematic progression through the dissertation process. Please review the Dissertation Forms on the EdD in Nursing Education Google site.

15. Who is eligible to serve as a dissertation committee chair or member? Any THS SON graduate level faculty member with a terminal degree is eligible for consideration to serve on dissertation committees.

16. When do I achieve candidacy? Once a student has successfully passed the comprehensive examination and successfully defended their dissertation proposal, they have achieved candidacy.

17. How long will the dissertation take? This depends on the complexity of your study and the challenges you encounter gathering and analyzing data. The student’s personal situation and the amount of time devoted to the dissertation process are also factors. It is possible for full-time students to complete the entire program, including the dissertation, in a little under four years and part-time students in a little under five years. However, due to the design complexity of some studies, it is not expected that all students will complete in this timeframe. Keep in mind that all students must complete their dissertation within the mandated 7 year timeframe, which begins from their semester of admission to the program.

18. How long do I have to complete my degree? To maintain the integrity of the degree and to ensure current status, students must complete their degree, including dissertation, within seven years of admission. After the seven year expiration, students will be required to reapply to the program and re-take courses if re-admitted.

DV_6/18/18
EdD in Nursing Education Program Dissertation Guidelines

The dissertation will be prepared using a two-manuscript format, with each manuscript presenting different aspects of the student’s scholarly work. The dissertation will be supplemented with introductory, theoretical, methodological, and discussion/conclusion materials as necessary to create a cohesive body of work that supports the research question/hypothesis.

### Two-Manuscript Dissertation Format

**Format:**
- Two-Manuscript Format

**Body:**
- **Chapter 1** Introduction
- **Chapter 2** Literature Overview and Manuscript #1-Knowledge Synthesis Method
- **Chapter 3** Methodology
- **Chapter 4** Manuscript #2-Results/Conclusions/Recommendations
- References
- Appendices

**Requirements:**
- Dissertation Committee (3 members or more)
- Hours of dissertation credit per plan of study

**Oral Dissertation Proposal Defense:**
- Oral Presentation of Proposal (chapters 1, 2, & 3***), open to the School of Nursing

**Advancement to Candidacy:**
- Completion of Dissertation Proposal
- Successful Oral Dissertation Proposal Defense
- Committee approval to conduct research (IRB)

**Oral Dissertation Final Defense:**
- Oral Presentation of final dissertation/findings (all chapters), open to the University of West Georgia

***The Dissertation Proposal will consist of Chapter 1 (Introduction), Chapter 2 (Literature Overview and Manuscript #1-Knowledge Synthesis Method), and Chapter 3 (Methodology).

The student must be the first author of the two manuscripts; however, the manuscripts may have co-authors. All authors must meet International Committee of Medical Journal Editors (ICMJE) criteria for authorship. Co-authors must attest that the student did the majority of the work and most of the writing of the manuscript.

The first manuscript can be submitted to a peer-reviewed journal prior to the oral dissertation final defense. To allow students to incorporate committee member’s feedback and research findings, the second manuscript will be submitted to peer-reviewed journals after the oral dissertation final defense. The peer-reviewed journals may be nursing or another discipline (Example: education). The impact of interdisciplinary journals will be evaluated on the basis of their listing in the Social Science Citation Index (SSCI) or the Science
Citation Index (SCI) by the committee. Lastly, the relevance of any peer-reviewed journal (nursing or another discipline) must be decided upon by the dissertation committee chair and committee members.

Acceptance of the first manuscript for publication is not a requirement for the oral dissertation final defense. Students are advised to consider journal selection prior to submitting their manuscripts for publication. Should the first manuscript be published, the student must be able to obtain permission to include copyrighted material in the dissertation as failure to do so would break U.S. copyright laws. All copyright permissions must be secured before final formatting of the dissertation.

**Overall Dissertation Guidelines**

The full dissertation will conform to the specifications outlined in the Graduate Studies *Thesis & Dissertation Formatting Guidelines Handbook*. The main body of text of the dissertation will consist of four chapters:

1. **Chapter 1** Introduction
2. **Chapter 2** Literature Overview and Manuscript #1-Knowledge Synthesis Method
3. **Chapter 3** Methodology
4. **Chapter 4** Manuscript #2-Results/Conclusions/Recommendations.

Chapters 1, 2, 3, and manuscript 1 comprise the dissertation proposal - details are listed below. Information regarding the Oral Dissertation Proposal Defense are located in the last section of the dissertation guidelines.

Chapter 4 (Manuscript 2) will summarize and synthesize the findings of the dissertation into a synopsis that relates the work to the extant literature, advances nursing education research, and discusses the study’s strengths and limitations. The manuscript will also offer implications for further research in nursing education. Manuscript #2/Chapter 4 are added to the proposal, along with any required edits, to complete the dissertation. Information regarding the Oral Dissertation Final Defense are located in the last section of the dissertation guidelines.

Chapters 1 through 4 will be written in APA format. The student will also be required to format the final document according to university editorial guidelines before final submission of the dissertation for graduation. The Graduate Studies specifications are outlined at *Thesis & Dissertation, UWG General Guidelines for Formatting and Processing*.

1. **Chapter 1** (Introduction) the outline of chapter one will include the following:

<table>
<thead>
<tr>
<th>Quantitative</th>
<th>Qualitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introductory paragraph(s)</td>
<td>Introductory paragraph(s)</td>
</tr>
<tr>
<td>Background (State of the current literature)</td>
<td>Background (State of the current literature)</td>
</tr>
<tr>
<td>Statement of the Problem</td>
<td>Statement of the Problem</td>
</tr>
<tr>
<td>Purpose of the Study (includes a brief statement about research methodology)</td>
<td>Purpose of the Study (includes a brief statement about research methodology)</td>
</tr>
<tr>
<td>Research Questions (and possibly Hypotheses)</td>
<td>Research Questions (and possibly Hypotheses)</td>
</tr>
</tbody>
</table>
### Quantitative
- Significance of the Study to Nursing Education
- Introduction to the Conceptual or Theoretical Framework
- Definition of Terms
- Assumptions of the Study
- Chapter Summary

### Qualitative
- Significance of the Study to Nursing Education
- Introduction to the Conceptual or Theoretical Framework
- Definition of Terms
- Assumptions of the Study
- Chapter Summary

#### 2. Chapter 2 will include the following:

<table>
<thead>
<tr>
<th>Quantitative</th>
<th>Qualitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter Introduction</td>
<td>Chapter Introduction</td>
</tr>
<tr>
<td>Conceptual or Theoretical Framework</td>
<td>Conceptual or Theoretical Framework</td>
</tr>
<tr>
<td>Literature Overview</td>
<td>Literature Overview</td>
</tr>
<tr>
<td>Knowledge Synthesis Method (Manuscript #1 - including all manuscript references, tables, figures, and/or appendices. The manuscript should be presented as a fully independent piece)</td>
<td>Knowledge Synthesis Method (Manuscript #1 - including all manuscript references, tables, figures, and/or appendices. The manuscript should be presented as a fully independent piece)</td>
</tr>
<tr>
<td>Chapter Summary (after the manuscript)</td>
<td>Chapter Summary (after the manuscript)</td>
</tr>
</tbody>
</table>

#### Chapter two considerations:

- In order to justify the need for the study, the student must address the gap in the literature by conducting a review of the literature in chapter two. **The literature overview is a synthesis and evaluation of the literature, including all variables addressed in the research questions.**

- Manuscript #1 of the Ed.D. in Nursing Education dissertation may contain any one of the following types of knowledge synthesis methods (Systematic review, Meta-analysis of RCT, Meta-analysis of observational study, Qualitative synthesis, Mixed studies review, Integrative review, Scoping review, RE-AIM review, and Umbrella review) based upon the mutual decision of the dissertation chair and doctoral student.

- To ensure the student meets essential criteria, journal guidelines should be reviewed with the dissertation chair prior to development of any manuscript.

- The manuscript should be a fully independent piece and include: the body of the manuscript; the manuscript reference list; and all manuscript tables, figures, and/or appendices. The references/tables/figures/appendices unique to the manuscript do not need to be added to the overall dissertation reference list/tables/figures/appendices at the end of the dissertation.

#### 3. Chapter 3 will include the following for both Quantitative and Qualitative dissertations:

1) Chapter Introduction
2018-19 UWG THS SON Graduate Student Handbook

2) Methodology
3) Chapter Summary

*A methodology is necessary for the dissertation and will include the following outline:

<table>
<thead>
<tr>
<th><strong>Quantitative</strong></th>
<th><strong>Qualitative</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Introductory paragraph(s)</td>
<td>Introductory paragraph(s)</td>
</tr>
<tr>
<td>Research Design</td>
<td>Research Design</td>
</tr>
<tr>
<td>Setting</td>
<td>Setting</td>
</tr>
<tr>
<td>Participants (include description of population, the sample, and how sample size was determined)</td>
<td>Participants</td>
</tr>
<tr>
<td>Instrumentation</td>
<td>Researcher’s Role</td>
</tr>
<tr>
<td>Procedures (including recruitment and data collection)</td>
<td>Data Collection</td>
</tr>
<tr>
<td>Data Analysis Plan</td>
<td>Data Analysis Plan</td>
</tr>
<tr>
<td>Limitations (from a broader, more global perspective, such as methodological context, social context, etc.)</td>
<td>Trustworthiness</td>
</tr>
<tr>
<td>Summary</td>
<td>Ethical Issues</td>
</tr>
<tr>
<td></td>
<td>Limitations (from a broader, more global perspective, such as methodological context, social context, etc.)</td>
</tr>
<tr>
<td></td>
<td>Summary</td>
</tr>
</tbody>
</table>

*In summary, the outline of chapter three will include the following:

<table>
<thead>
<tr>
<th><strong>Quantitative</strong></th>
<th><strong>Qualitative</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter Introduction</td>
<td>Chapter Introduction</td>
</tr>
<tr>
<td>Methodology</td>
<td>Methodology</td>
</tr>
<tr>
<td>Chapter Summary</td>
<td>Chapter Summary</td>
</tr>
</tbody>
</table>

*Chapter 3 should be written in the present and/or future tense prior to the student’s oral dissertation proposal defense. When preparing for the oral dissertation final defense (after the study has been conducted and chapter 4 written), the student will go back and change Chapter 3 to past tense.

4. **Chapter 4** is Manuscript #2. It will include the following for both Quantitative and Qualitative dissertations:
   1) Chapter Introduction
   2) Manuscript Two (research results)
   3) Summary
The broad outline of chapter four will include the following:

<table>
<thead>
<tr>
<th>Quantitative</th>
<th>Qualitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter Introduction (prior to the manuscript)</td>
<td>Chapter Introduction (prior to the manuscript)</td>
</tr>
<tr>
<td>Manuscript Two (including all manuscript references, tables, figures, and/or appendices. The manuscript should be presented as a fully independent piece)**</td>
<td>Manuscript Two (including all manuscript references, tables, figures, and/or appendices. The manuscript should be presented as a fully independent piece)**</td>
</tr>
<tr>
<td>Chapter Summary (after the manuscript)</td>
<td>Chapter Summary (after the manuscript)</td>
</tr>
</tbody>
</table>

**Manuscript #2 is necessary for the dissertation and will include the following outline:**

<table>
<thead>
<tr>
<th>Quantitative</th>
<th>Qualitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introductory paragraph(s) (must include a succinct overview of the previous chapters that informs the reader and supports or guides the findings)</td>
<td>Introductory paragraph(s) (must include an succinct overview of the previous chapters that informs the reader and supports or guides the findings)</td>
</tr>
<tr>
<td>Major findings</td>
<td>Major findings</td>
</tr>
<tr>
<td>Limitations (specific to the individual study)</td>
<td>Limitations (specific to the individual study)</td>
</tr>
<tr>
<td>Discussion of the Findings</td>
<td>Discussion of the Findings</td>
</tr>
<tr>
<td>Implications for Nursing Education</td>
<td>Implications for Nursing Education</td>
</tr>
<tr>
<td>Conclusions</td>
<td>Conclusions</td>
</tr>
<tr>
<td>Recommendations</td>
<td>Recommendations</td>
</tr>
</tbody>
</table>

**As with manuscript #1 - Manuscript #2 should be a fully independent piece and include: the body of the manuscript; the manuscript reference list; and all manuscript tables, figures, and/or appendices. The references/tables/figures/appendices unique to the manuscript do not need to be added to the overall dissertation reference list/tables/figures/appendices at the end of the dissertation.

Both manuscripts must represent work undertaken while the student is enrolled in the Ed.D. Program and the student’s dissertation committee must approve each manuscript. If a manuscript is rejected by a journal during the dissertation process, the dissertation committee will decide whether to accept the changes requested by the journal. The student may submit the manuscript to another journal under the direction of their dissertation committee. Again, in the case of a revise and resubmit during the dissertation process, any changes to the manuscript must be approved by the dissertation committee. If an article is rejected by a journal after the successful completion and defense of the dissertation, changes/submission to a new journal will be at the sole discretion of the Ed.D. graduate.

5. University of West Georgia, Electronic Dissertation Submission:
Publication and submission of the dissertation is required and students will follow the UWG General Guidelines for Formatting and Processing for assistance in preparation of their dissertation. Please also see ProQuest Introduction for background information regarding the Electronic Thesis or Dissertation (ETD) process at the University of West Georgia.

Dissertation ProQuest Embargo Period

When uploading the dissertation within the ProQuest, the student is encouraged to select “No” to the publishing options question “I want my work to be available in ProQuest as soon as it is published”, and instead select an embargo period of 6 months, 1 year, or 2 years. The embargo period will allow time for the manuscripts to be accepted by prospective peer-reviewed journals without risk of rejection because they have already been published by the University of West Georgia and made publicly available through ProQuest/University Microfilms International. Submission to ProQuest is completed after the student’s successful Oral Dissertation Final Defense (outlined below).

Dissertation Committee and Two Oral Defenses Information

Each student must prepare a dissertation that displays their ability to conduct independent research and skill in organization and presentation on a nursing education topic. It must constitute a definitive contribution to knowledge.

A. Dissertation Committee Composition

The dissertation title must be approved by the student’s dissertation chair and committee members. A dissertation committee with chair will supervise the preparation of the dissertation. The dissertation committee shall not have fewer than three members. All members of a dissertation committee must be regular Graduate Faculty or limited-term Graduate Faculty. An additional Outside Committee Member may also serve on the dissertation committee with evidence of an earned terminal degree. The dissertation chair and Ed.D. Director must give permission for an Outside Committee Member to be present on the committee and the Outside Committee Member must apply for limited-term Graduate Faculty status. Lastly, see the Graduate Programs site for required university editorial guidelines, Thesis & Dissertation, UWG General Guidelines for Formatting and Processing.

B. Oral Dissertation Proposal Defense

One week prior to the dissertation proposal meeting, the School of Nursing will advertise within the school, the selected oral dissertation proposal defense date (Oral Dissertation Proposal Defense Announcement Form). The oral dissertation proposal defense will be open to the School of Nursing and will be chaired by the committee chair. At the meeting of the committee, all members of the committee must be either physically or virtually present and:

1. All committee members must be present (in person or virtually). The student will present orally (preferably in person, as determined by the student and chair) within a maximum 20-minute timeframe. The audience may ask questions of the student at the conclusion of the presentation.

2. Following the public oral dissertation proposal defense and question/answer session, the dissertation committee will meet in executive session. The committee may opt to ask additional questions pertaining to the student's chosen topic and/or ask for further clarifications regarding the student’s methodology. The committee may call for additional editing of the written proposal at this time. Should the committee decide that substantial revisions are needed; the committee may opt to hold a second meeting. If editing to the dissertation proposal is required, the student must make those changes within 14 days and submit those changes to the committee.

3. A unanimous vote of all committee members is required to accept the proposal. At this time the committee may sign the Report of Results Oral Dissertation Proposal Defense form. If substantial edits are
required by the committee, the above form should not be signed until all edits have been submitted and approved by the full committee. **This editing process must be completed within the 14 day time frame.**

4. Successful completion of this phase moves the student into candidacy. Students will begin preparing to implement their study, after receiving institutional review board (IRB) approval from the University of West Georgia IRB Committee.

5. After approval of the proposal, the student must keep the committee apprised of the progress of the dissertation. The student’s committee, prior to any submission to a journal, must approve each manuscript. Prior to the student’s public oral dissertation final defense, it is assumed that a complete draft of the dissertation has been distributed and read by all members of the committee. At the end of each semester each student, under the direction of their chair, will complete a **Dissertation Semester Report Form**. This form must be signed by both the student and the chair and uploaded into the student’s 9015 course, prior to the end of the semester.

C. Public Oral Dissertation Final Defense

Following approval from the chair/committee to proceed to public oral dissertation final defense, the committee chair will inform the Ed.D. Director and Associate Dean of the intent to defend. The student and dissertation chair/committee will identify the date for the oral final dissertation defense. This date must be at least 30 days prior to the end of the semester, or a minimum of two weeks prior to the ProQuest submission date, in order for the student to officially graduate within that semester.

The School of Nursing will publicly advertise the oral dissertation final defense **(Oral Dissertation Final Defense Announcement form)** at least one week prior to the scheduled oral dissertation final defense date. The oral dissertation final defense will be open to the public and will be chaired by the committee chair. All committee members must be present (physically or virtually). The student will present orally within a 20-minute minimum/30 minute maximum timeframe. The audience may ask questions of the student at the conclusion of the presentation.

D. Dissertation Approval

Following the public oral dissertation final defense and question/answer session, the dissertation committee will meet in executive session. All members of the committee must be either physically or virtually present at this meeting. At this meeting, the committee may opt to ask additional questions pertaining to the student's chosen topic and/or ask for further clarifications of the student’s data. The committee may call for additional editing of the written dissertation at this time. The committee chair will then call for a vote to approve the document, **Report of Results of Oral Dissertation Final Defense**, can be signed by all dissertation committee members at this time. If editing to the dissertation document is required, **the student must make those changes within 14 days and submit those changes to all committee members prior to completion of the dissertation final signature page.**

Additional Guidelines:

University of West Georgia School of Nursing does not assume responsibility for any travel-related expenses incurred by external committee member(s).

Rights clause of the SON Graduate handbook:

The Tanner Health System School of Nursing reserves the right to amend, modify, add to, or delete our rules, policies, and procedures.

DV_6/25/18

**THS SON Guidelines for Consultation with Idleman & Associates**

Purpose: to provide clarity regarding the use of consultation services with Idleman & Associates.
Guidelines:

THS SON Faculty:
- Consultation with Idelman & Associates for THS SON faculty will consist of assistance with solely quantitative methodologies and statistical analysis guidance.
- Idleman & Associates will provide editorial assistance for faculty publications.

THS SON Doctoral Students:
- Consultation with Idelman & Associates for THS SON doctoral students will consist of assistance with solely quantitative methodologies and statistical analysis guidance. Idleman & Associates will not provide assistance to doctoral students who select qualitative methodologies as the THS SON Qualitative Research Consultant will support students with qualitative research assistance (see THS SON Guidelines for Consultation with Qualitative Research Consultant).
- Consultation with doctoral students will not include editorial assistance for any student dissertation and/or papers at any time during doctoral studies.
- THS SON graduate faculty (chairs, course faculty, EdD director, etc.) must be present when a THS SON doctoral student meets with Idleman & Associates.

All THS SON faculty and doctoral students are responsible for reviewing items specified within these guidelines.

Appendices: No appendices with these guidelines.

SW_6/18/18

THS SON Guidelines for Consultation with Qualitative Research Consultant

Purpose: to provide clarity regarding the use of consultation services with the THS SON Qualitative Research Consultant, Dr. Cynthia Brown.

Guidelines:

THS SON Faculty:
- Consultation with Dr. Brown for THS SON faculty will consist of assistance with solely qualitative methodologies.
- Dr. Brown will provide editorial assistance for faculty qualitative publications.

THS SON Doctoral Students:
- Consultation with Dr. Brown for THS SON doctoral students will consist of assistance with solely qualitative methodologies. Dr. Brown will not provide assistance to doctoral students who select
quantitative methodologies as Idleman & Associates will support students with quantitative research assistance (see THS SON Guidelines for Consultation with Idleman & Associates for specifics).

- Consultation with doctoral students **will not include** editorial assistance for any student dissertation and/or papers at any time during doctoral studies.
- Faculty members (chairs, course faculty, EdD Director, etc.) must be present when a THS SON doctoral student meets with the Qualitative Research Consultant.

All THS SON faculty and doctoral students are responsible for reviewing items specified within these guidelines.

Appendices: No appendices with these guidelines.
