Remediation Contract for HESI Exit and Specialty Exams

Students will complete a remediation plan and contract for approval to the course course faculty within 72 hours of the completion of a HESI Specialty or Exit exam. Students develop their personal plan for remediation based on the data received from their HESI Exam Student Report with correlating remediation. Remediation detailed in the contract will list specific activities they will complete in order to understand their missed concepts/content.

The completed contract and remediation plan must be completed and submitted to the course coordinator within 48 hours of the scheduled second HESI proctored exam to be eligible to sit for a second version of the HESI Specialty/Exit Exam. Consequences of not completing all aspects of the approved remediation plan by the scheduled due date may result in an earned grade of (0) on the assigned gradebook item and could lead to a potential course failure. All student remediation work is to be completed by the individual student. Sharing of information or working with peers during this process is considered academic dishonesty.

Recommended student remediation plans based on HESI scores are identified in Table ----

Table --: Recommended Student Remediation Plans--Based on HESI Scores

<table>
<thead>
<tr>
<th>HESI Score</th>
<th>Remediation Plan Items to Complete</th>

| 750-799     | 1. Complete the online remediation materials provided in HESI Student Access specific to the specialty/exit exam.  
               a. Complete all the “Essential Packets”  
               b. Complete at least three of the “Recommended Packets”  
   2. Develop four 30-question custom quizzes in Evolve Adaptive Quizzing. Each quiz should reflect one priority content area and sub-topic area of weakness identified in your HESI Exam Student Report. Continue to take until an 80% score is achieved.  
   3. Select one HESI Case Study in a content area of weakness based on your HESI Exam Student Report and complete with a 80% score. |
| 700-749     | 1. Complete the online remediation materials provided in HESI Student Access specific to the specialty/exit exam.  
               a. Complete all the “Essential Packets”  
               b. Complete at least four of the “Recommended Packets”  
   2. Develop five 30-question custom quizzes in Evolve Adaptive Quizzing. Each quiz should reflect one priority content area and sub-topic area of weakness identified in your HESI Exam Student Report. Continue to take until an 80% score is achieved.  
   3. Select two HESI Case Studies in a content area of weakness based on your HESI Exam Student Report and complete with a 80% score. |
| 699 or below | 1. Complete the online remediation materials provided in HESI Student Access specific to the specialty/exit exam.  
               a. Complete all the “Essential” Packets  
               b. Complete at least five of the “Recommended” Packets  
   2. Develop six 30-question custom quizzes in Evolve Adaptive Quizzing. Each quiz should reflect one priority content area and sub-topic area of weakness identified in your HESI Exam Student Report. Continue to take until an 80% score is achieved  
   3. Select two HESI Case Studies in a content area of weakness based on your HESI Exam Student Report and complete with a 80% score. |

*When using Elsevier Adaptive Quizzing as remediation after HESI exams, use Custom Exams, not Mastery Exams. Additionally, select only one content for each weakness (as opposed to choosing multiple topic areas into a quiz with more questions).*
HESI Remediation --Instruction for Students (How to Complete Remediation)

1. After you Complete the Exam:
   a. You will receive remediation, based on your individual weakest performance areas. Packets within the remediation are based on the remediation categories. This allows for material supporting the remediation efforts of the associated remediation category to be grouped together.

2. Types of Remediation Packets
   a. You will receive up to ten (10) “Essential Packets”, which come with a deadline for completion (specific to your course).
   b. Additionally, you will receive “Recommended Packets”, which have valuable review material that you are encouraged to review. Please see Table ---- for specific instructions related to the number of “Recommended Packets” to complete based on your individual HESI score.

3. Once all Remediation Packets have been completed, go to the Exams Results page and print this to attach to the contract and submit to the course faculty by the date specified in your course.

4. To be eligible to sit for a second version of the specialty/exit exam, all components of the remediation plan must be completed and submitted by the due date specified in your course and approved by course faculty.
