

CCEC Spring Meeting

Explorations

Explorations Team Presentation

[Dr. Marrero's 8th Grade Expo Address](#)

Explorations Benchmark Questions:

- *Do our 7-12th grade students develop personal plans to guide their academic, skills development and service choices?*
- *Are our students prepared for success during high school?*
- *Do the personal plans include opportunities for employment, work based learning, or other work skills development experiences?*
- *Do the personal plans include development of healthy life choices connecting physical, emotional and social well-being?*
- *Do community response efforts assist students with transitions from exploration to independent pursuits?*

Explorations Team Response:

- Existing Community Program Review
- Model Personal Plan Proposal
- Early Career Exploration
- Carroll County Mentoring Village
- College Preparedness
- YouScience Testing and Assessment
- Dual Enrollment Opportunities
- Work-based Learning Experiences and Senior Research Projects

8th Grade Career Expo

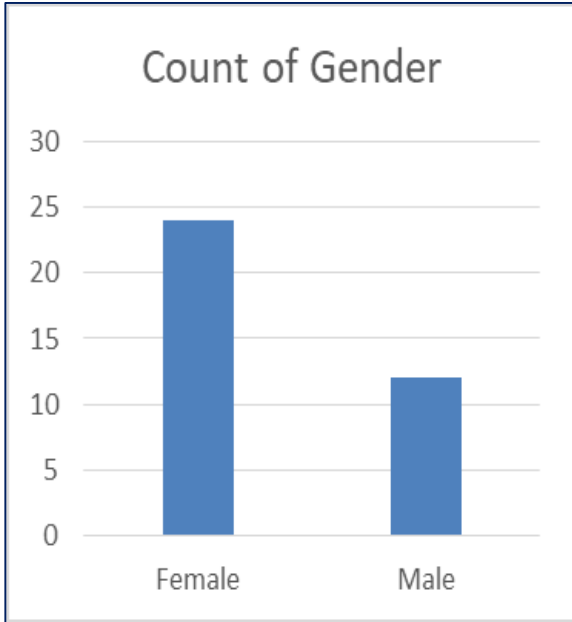

Annual 2-day event highlighting:

- College campuses
- 20-23 Career pathways in preparation for 9th Grade selections
- 3 Careers of interest
- Business professionals/trade instructors

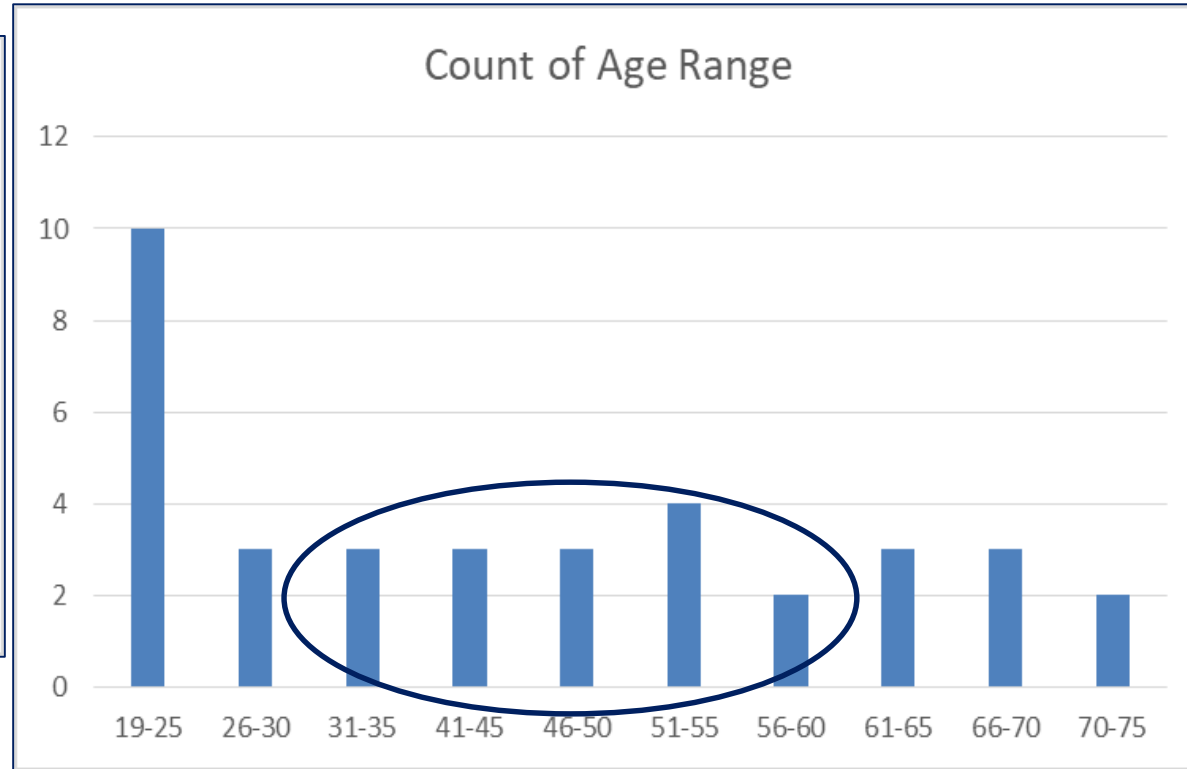

Resulting Correlations:

	2014-15 8 th Expo Participants	2016-17 10 th Pathway Completers
Nursing/Healthcare	25%	22%
Culinary Arts	8%	10%
Business/Entrepreneurship	9%	12%
Audio/Video Technology	5%	6%
Education	3%	5%
Engineering/Technology	15%	12%
Automotive Technology	2%	4%

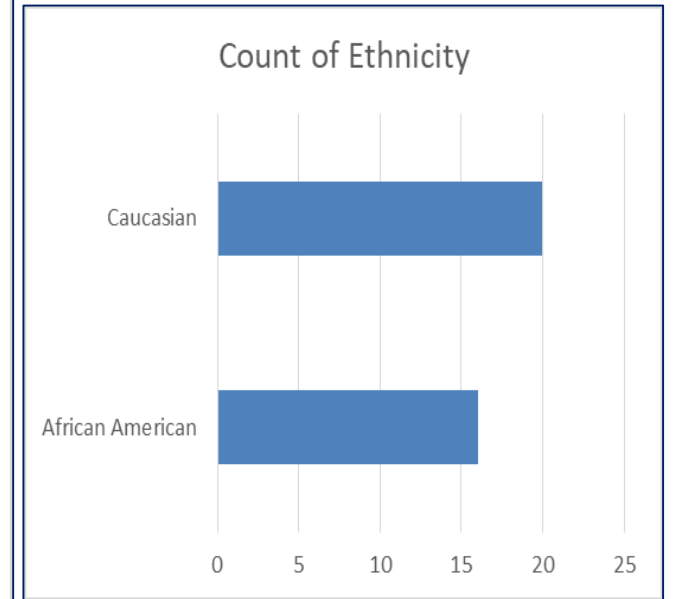

A Look at the Demographics of those Mentoring in Carroll County

65% Female
35% Male

27% 19-25
25.5% 26-45
25.5% 46-60
22% 61-75

54% Caucasian
46% African American

The Effects of Mentoring

Mentored Young People

- **59% See improvement in grades**
- **86% Go on to higher education**
- **80% reduction in recidivism rate**
- **52% less likely to skip a day of school**
- **37% less likely to skip a class**

Mentors

- **Improved sense of health/wellbeing**
- **Enhanced self-image/sense of self worth**
- **Sense of competency/accomplishment**
- **Deeper insight into own childhood experiences**
- **Deeper understanding and appreciation of one's own children**

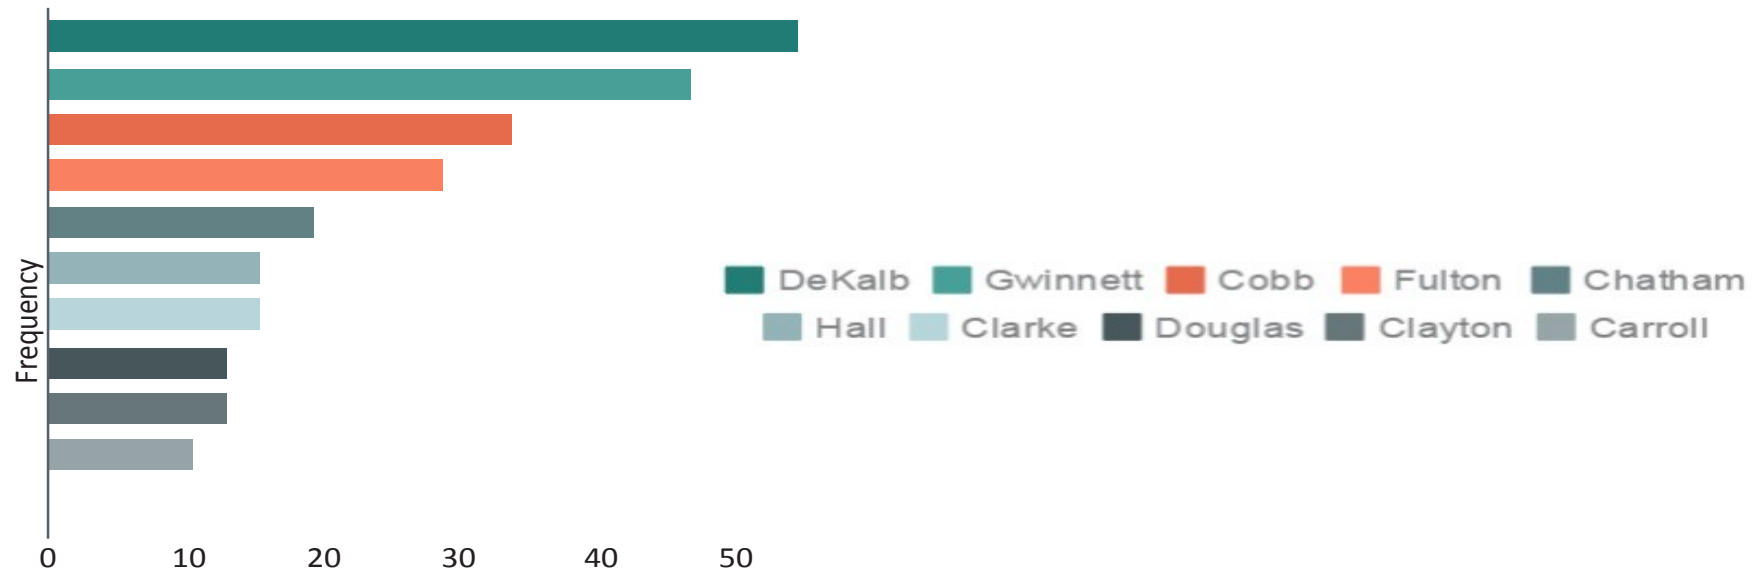

The Business Case For Private-sector Engagement In Quality Youth Mentoring

EY and MENTOR: The National Mentoring Partnership (MENTOR) together released a report “Mentoring: at the crossroads of education, business and community.” The report examines how top US businesses collaborate with the public and non-profit sectors to connect youth in their communities to transformative mentoring relationships and the value gained by the business and its employees.

According to MENTOR’s report, *The Mentoring Effect*, youth with mentors are more likely to be successful in school, leaders in their communities, and to enter young adulthood with opportunities for ongoing education and career choices. **And yet, 16 million American young people—one in three—will reach the age of 19 without having had a mentor of any kind.** The joint report examines the private sector role in addressing this mentoring gap and provides effective practices and case studies from local businesses and Fortune 500 companies.

Youth Programs by County

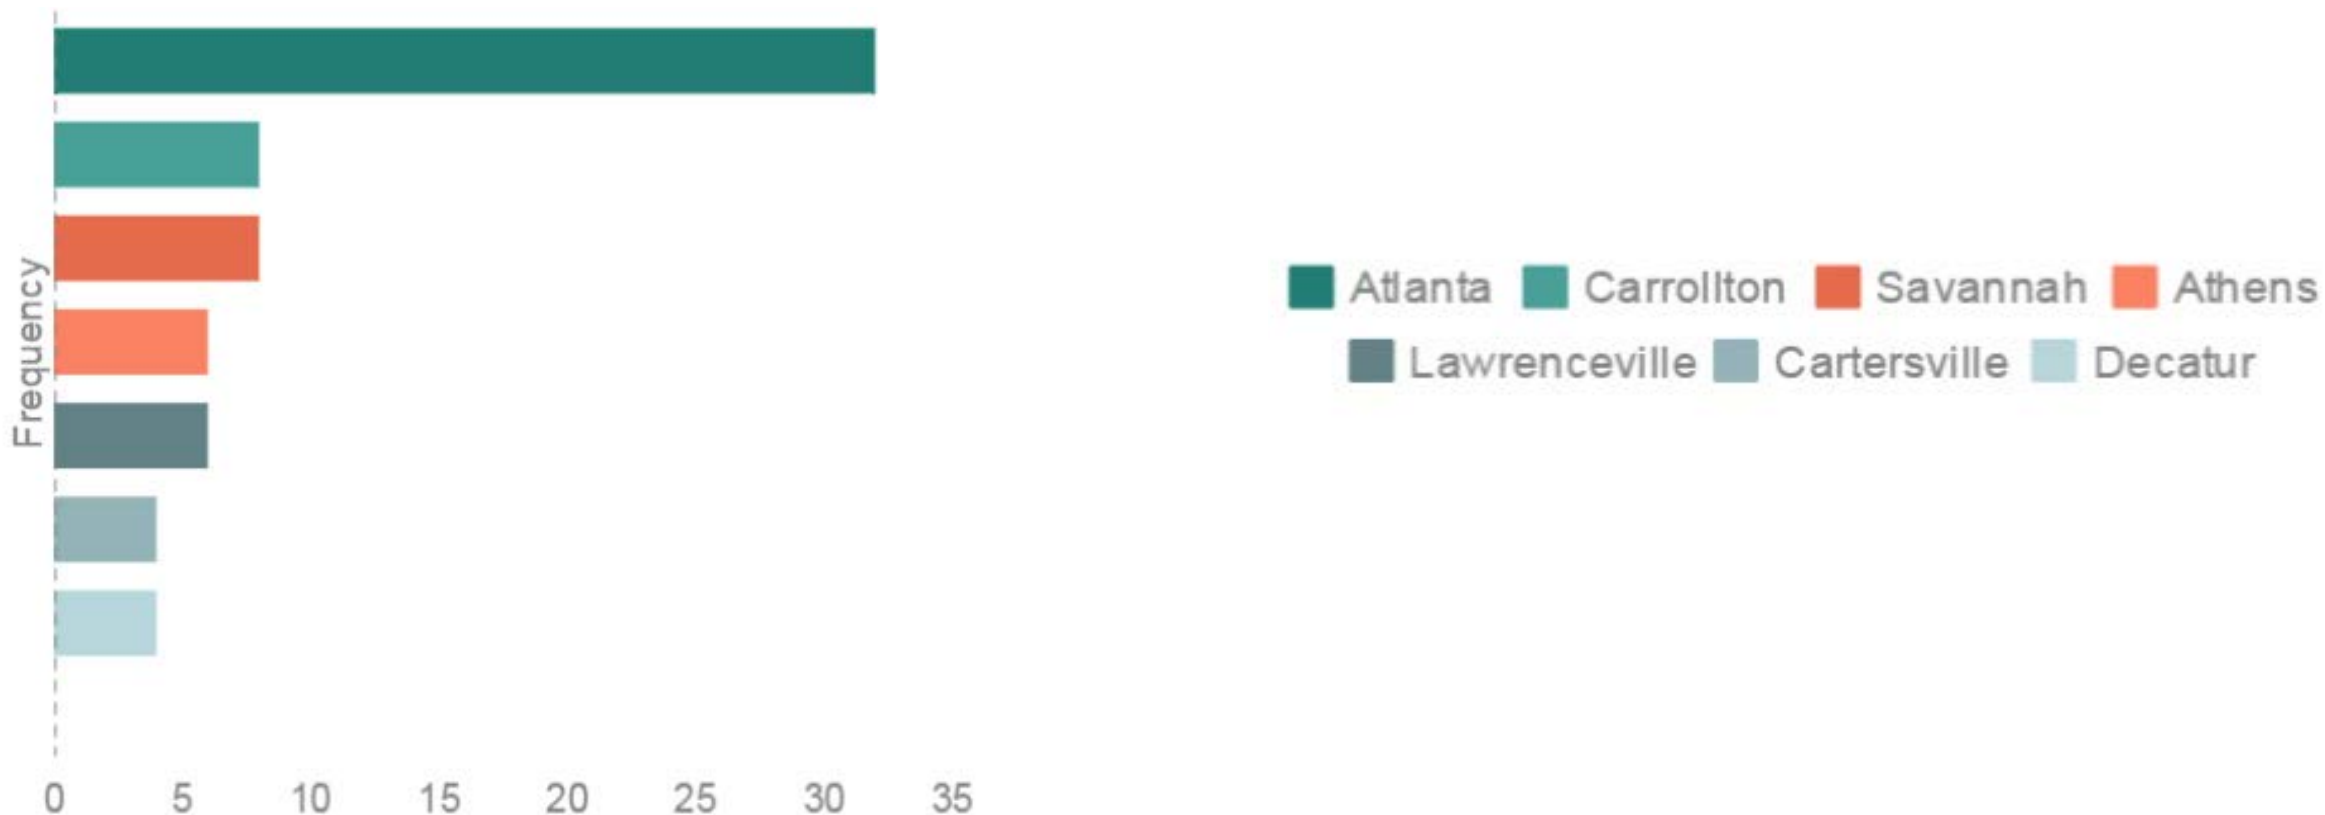

The top 10 most frequently cited counties where youth are served included:

1 The Georgia Association of Regional Commissions designates 12 separate regions for the state of Georgia. Using this framing, the Atlanta area is known as the Atlanta Regional Commission and includes Cherokee, Clayton, Cobb, DeKalb, Douglas, Fayette, Fulton, Gwinnett, Henry, and Rockdale counties.

Location of Georgia Youth-Serving Programs

Georgia cities that boast the highest concentration of programs for respondents include:

Outcomes

*from the [Communities in Schools Carrollton-Carroll County website](#)

During the 2016 school year, students served by CIS of Carrollton City and Carroll County had the following results:

- 66.6% of middle school students failing academically improved their grades.
- 75% of high school students failing academically improved their grades.
- 66.1% of students missing 10 or more days prior to CIS improved their attendance, increasing an average of 11 days per year.
- 86.4% of students with a history of behavior resulting in suspension improved their behavior.
- 63.7% were suspension-free while participating in CIS.
- 100% of middle school students were promoted.
- 96.2% of high school students stayed in school.
- 92.4% of CIS case managed seniors graduated, 48 graduates in all.

We translate your talents into real world careers

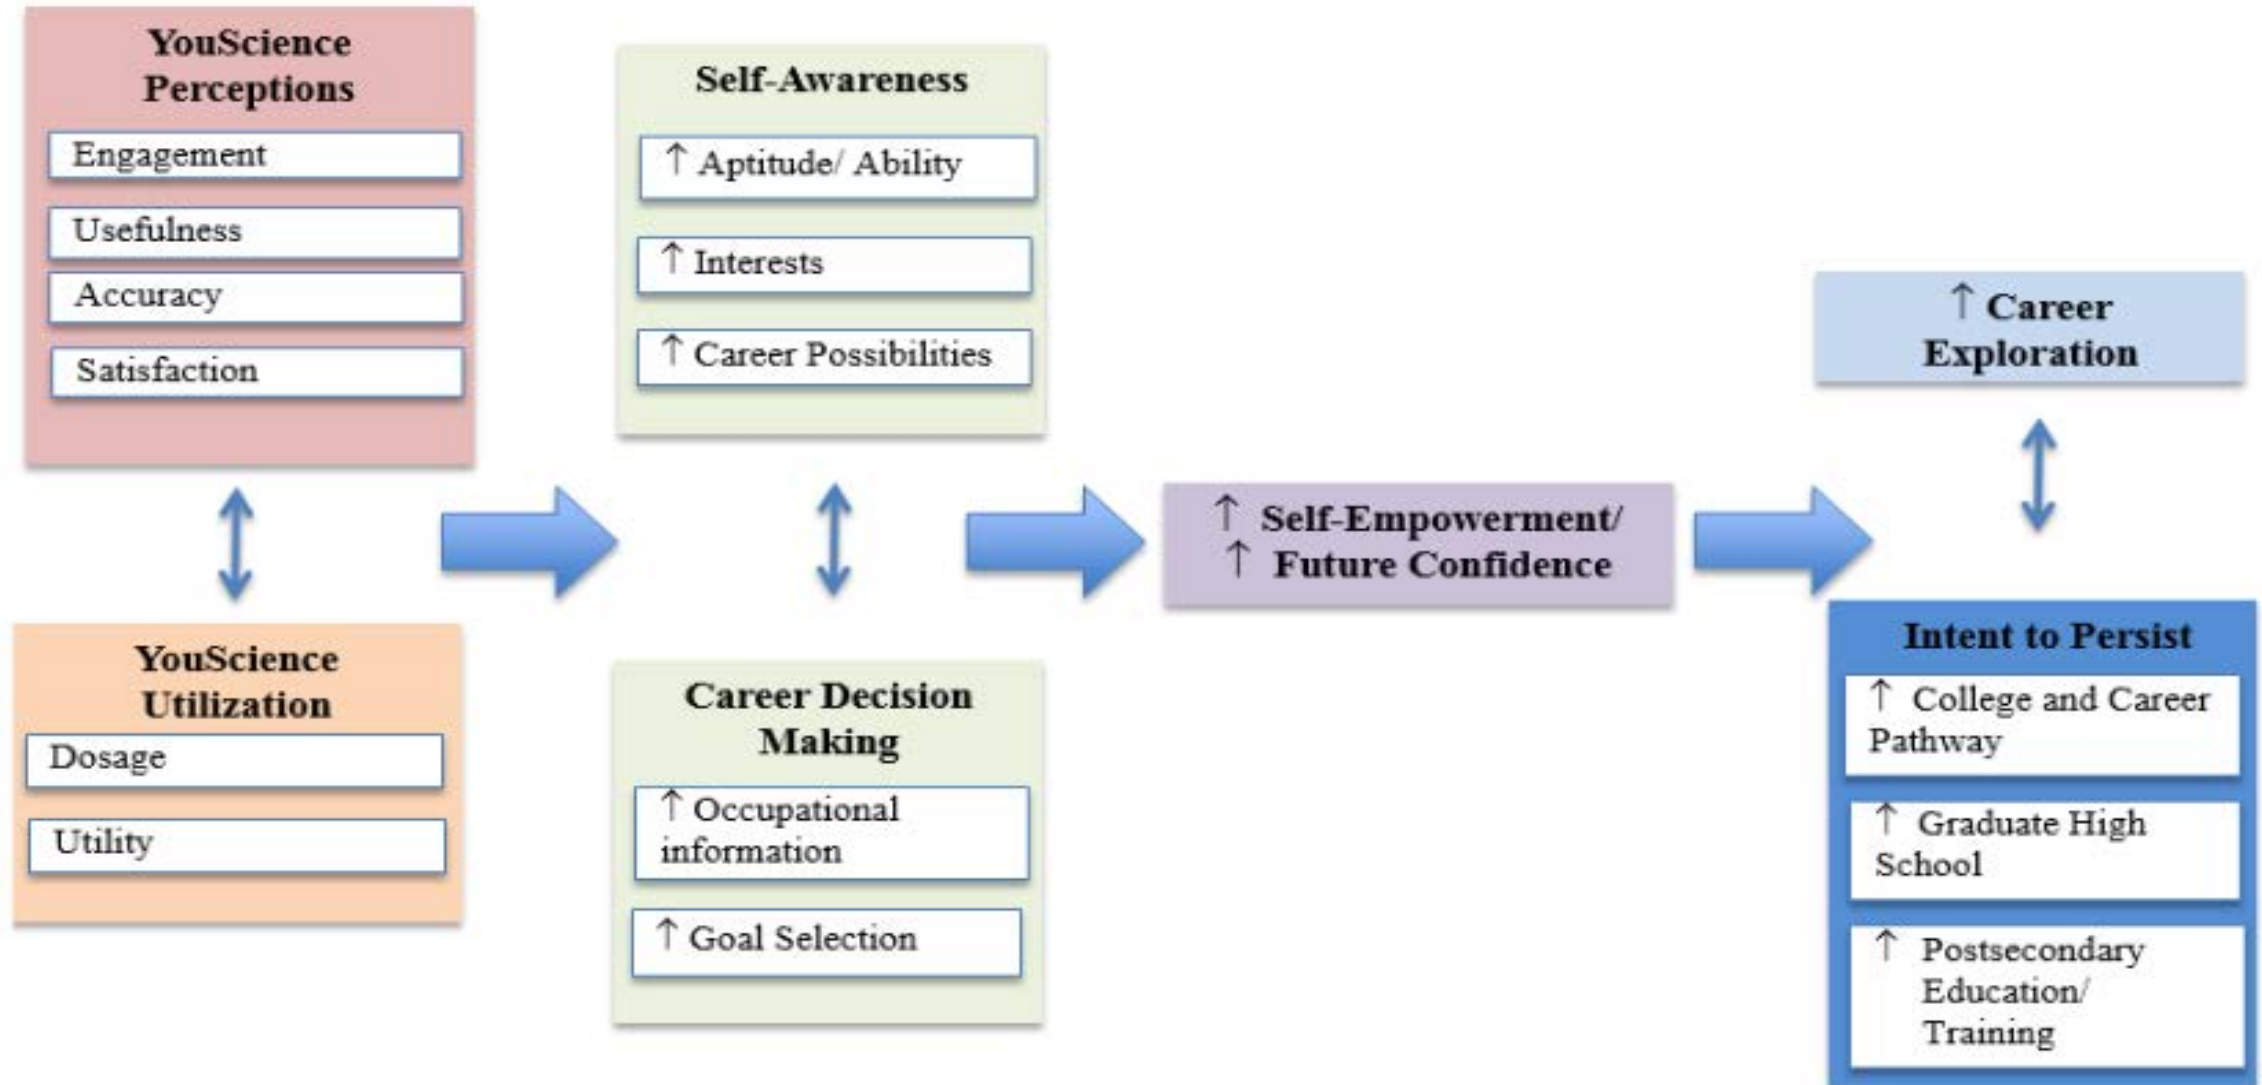

What is YouScience?

“YouScience says its tool is built upon decades of research that dates back at least to World War II, when the U.S. military developed a test to determine whether new recruits would be better at flying planes or fixing them.

The company worked closely with the Ball Foundation to develop its internet based aptitude and interest inventory. The program uses a series of exercises, similar to brain games, to match students with careers and provides positive vocabulary to users for describing themselves, such as ‘strong communicator’ or ‘numerical code breaker.’”

Tagami, Ty, (2015, Sept. 12). About the YouScience Tool, *The Atlanta Journal-Constitution*. Retrieved from <https://www.ajc.com/news/local-education/about-the-youscience-tool/GNoplpjV35nQ8DMIareROK/>

Theory of Change Model

Major Findings

After taking YouScience, students are statistically significantly...

- Better at describing their natural abilities and identifying suitable careers (*Self-Awareness*);
- More confident in their ability to make an informed career decision (*Career Decision Making*);
- Empowered to follow their future paths (*Self-Empowerment*);
- More likely to engage in activities to acquire more career information and explore careers (*Career Exploration*);
- More motivated to pursue a career pathway and/or additional post-secondary education or training (*Intent to Persist*).

How it helps!

- Young adults need help finding their right path.
- “Brain games” use cutting edge technology to gather real measures of aptitudes and interests.
- After seeing their talents explained in a meaningful way, students have an inspired confidence toward staying in school and attaining their best-fit career.
- Students have access to their results for 10 years
- **What are you going to be when you grow up?** Most young adults don’t have an answer to this question.
- YouScience helps young people understand they have abilities, talents, and gifts that are meaningful, and fit with real-world careers.

The results are in!

- **Proven and validated.**
- In a recent Georgia Governor's Office of Student Achievement (GOSA) report, YouScience showed statistically significant impact on students in five areas directly related to career guidance: Self-Awareness, Career Decision-Making, Self-Empowerment, Career Exploration, and Intent to Persist.
- See the full report at: <https://gosa.georgia.gov/youscience-evaluation>
- The Department of Education and the Technical College System of Georgia pay for the testing of students.
- Our high schools committed the time and resources to allow students to be tested.
- The Rotary Club of Carrollton is partnering with YouScience and local high schools to meet with students to understand their personal assessment.

College Preparation – Student Survey

- 58 UWG students surveyed on 14 questions regarding college preparedness:
 - 30% first generation students
 - Many may lack college readiness skills if not from family familiar with college
 - On likert scale of 1 (not prepared) to 5 (very prepared), students:
 - Felt prepared for college (3.2)
 - But did not manage time (2.8) or have good student skills (2.7)
 - This is significant as they feel more prepared than they actually are
 - By their second semester, most (3.6) felt they had adapted to college well
 - Recurring themes in survey:
 - Need for study skills, time management, dual enrollment, involvement in college (comfort in communication with professors and seeking academic services)

Advice to high school freshmen

- “I feel that dual enrollment is what has really helped me to gain experience and find independence in college.”
- “Start to learn and try out new study habits so college won’t be so hard.”
- “Do not depend so much on your high school teachers.”
- “Dual enrollment helped me gain confidence in a college environment.”
- “Learn to manage your time wisely now and learn to communicate with your teachers instead of relying on your parents to do so.”

Dual Enrollment

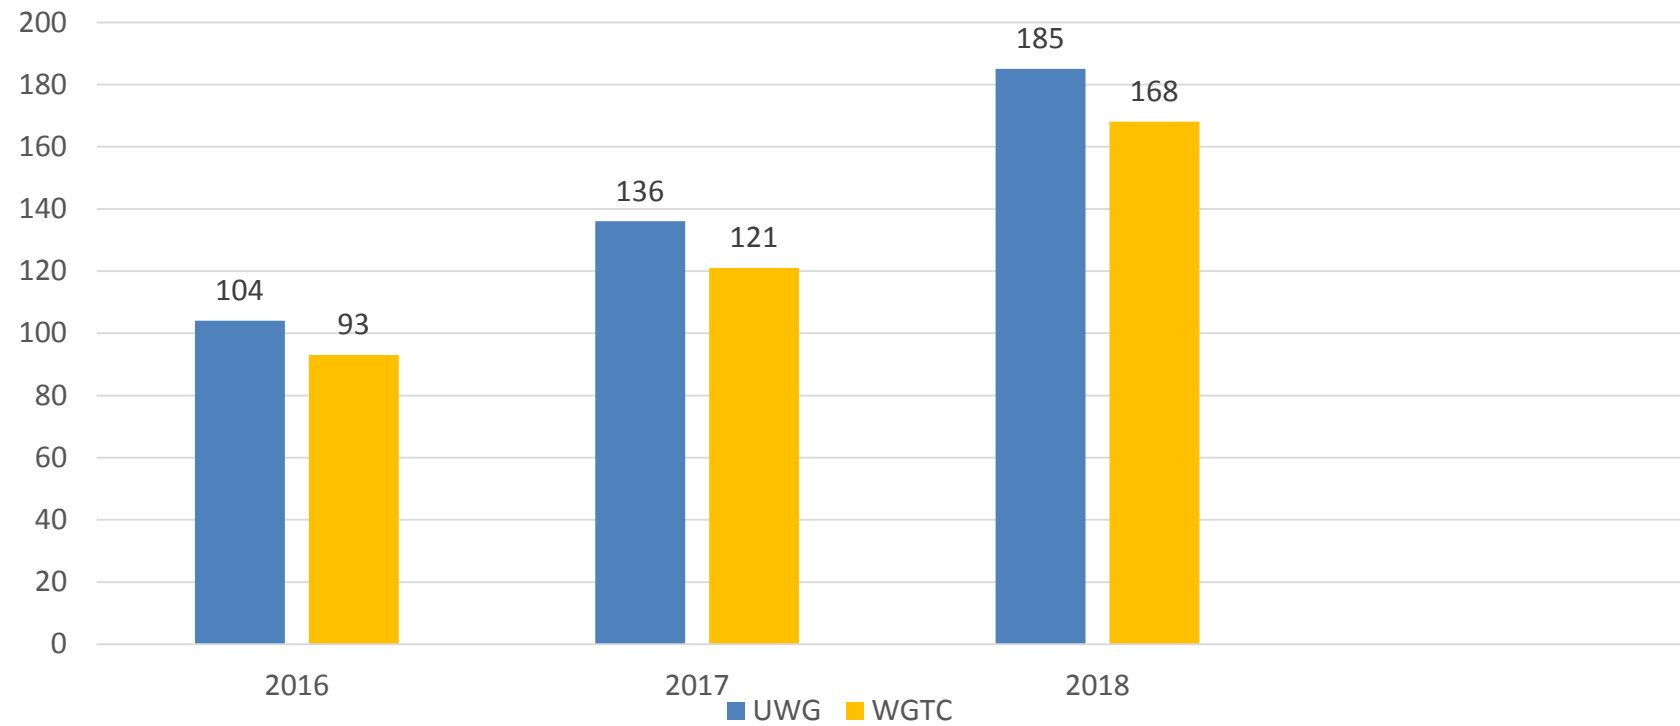

Dual Enrollment is a program that provides funding for students at eligible high schools that are enrolled to take approved college-level coursework for credit towards both high school and college graduation requirements.

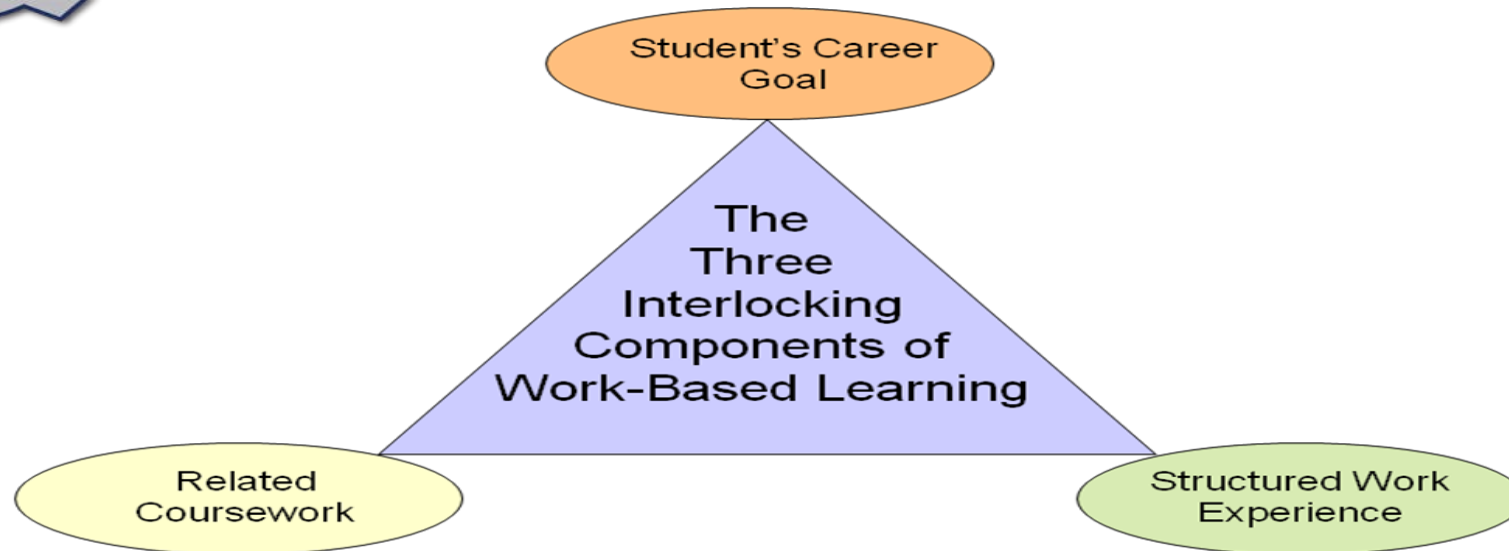

UWG and WGTC

- 120 CHS Student's currently enrolled in WBL at least one block

The Senior Research Project

OAK MOUNTAIN
A C A D E M Y

The Senior Research Project is a year-long Capstone Project, providing the opportunity for an in-depth study of a subject that a student would not ordinarily research in his or her regular course work or a look at a possible career path.

The Senior Research Project is a graduation requirement of Oak Mountain Academy.

The Senior Research Project

OAK MOUNTAIN
A C A D E M Y

Essential Components of the Project:

- **Research Paper** – standard MLA format
- **Internship** – yearlong mentorship, including at least 40 hours with professional
- **Product** – representative of the course of study
- **Portfolio** – includes all work, research, anecdotal records
- **Presentation** – culminating activity for the public

The Senior Research Project

The final two weeks of the course include a close look at the essential skills for success.

- Strong work ethic
- Positive attitude
- Good Communication skills
- Time management
- Problem-solving skills
- Team Player

Self-confidence

Ability to accept and learn
from criticism

Flexibility/adaptability

Work well under pressure

After The Senior Research Project What's Next???

OAK MOUNTAIN
A C A D E M Y

OMA SRP	CAREER PATH
Finance	Financial Advisor – Merrill-Lynch
Aeronautics	U.S. Coast Guard Pilot
Logging	Forestry with Georgia Pacific
Employment Law	Recently accepted at UGA Law School
Political Campaigning	Works with office of Rep. Drew Ferguson
Electrical Sub-Stations	Electrical Engineer
