### West Georgia College Welcomes its Sixth President

Dr. Beheruz N. Sethna, President West Georgia College 1994

West Georgia College

Carrollton, Georgia 30118-4500 -

Office of the President (404) 836-6442 \* Fax (404) 836-6720

January 24, 1995

Dear Colleagues:

In the fall of 1994, West Georgia College adopted a theme of Educational Excellence in a Personal Environment. As the following paragraphs show, we continued to live that theme throughout the year.

This year has been another for highlights in the continued development of West Georgia College as an excellent institution for higher education. Among those is the accreditation by the National Council for Accreditation of Teacher Education (NCATE) of our School of Education at both the basic and advanced level. This school is the tenth largest producer of undergraduates and the seventeenth largest producer of graduate students in the country. Also, the Department of Nursing was reaccredited by the National League of Nursing and the Department of Music was reaccredited by the National Association of Schools of Music. In the spring of 1994, the Board of Trustees of the National Debate Tournament selected West Georgia College as the site of its 49th Annual Tournament. Only one other school has ever had the honor of hosting the Annual Tournament twice.

All through the year, students continued to appreciate the personal touch exhibited by the faculty and staff. We helped students move into the residence halls in the fall quarter, and faculty and staff volunteered for student fund-raising efforts.

West Georgia's enrollment reached an all-time high of 8,310 students in the fall and the college began a process of planning and prioritization that will continue throughout the school year. A new Vision Statement for the institution has been adopted and our efforts are proceeding toward revising the Mission Statement.

This is the fourteenth edition of the college's <u>Fact Book</u> which is prepared by the Division of Budget and Research Services. That office is assisted by several other areas and individuals on campus in this considerable effort. It presents statistics covering many important aspects of the institution and provides for you a source of information which can be most useful.

The book's purpose is to facilitate internal institutional assessment, and a secondary purpose is to acquaint outside constituencies with a measure of the college's successes in achieving its goals and objectives.

Sincerely,

Beheruz N. Sethna, Ph.D. President

BNS:jld

A Unit of the University System of Georgia . Affirmative Action Equal Opportunity Institution

### West Georgia College Fact Book Preface and Acknowledgements

The Division of Budget and Research Services is proud to offer the 1994-95 edition of the West Georgia College *Fact Book*. It is our hope and intent that this volume continues the tradition of providing reliable statistical data and summary information designed to answer the most frequently asked questions about the College. Based on sound institutional research, the *Fact Book* serves as a good first point-of-reference for institutional assessment, self-study, planning, and resource allocation. In total, it projects an institutional profile for our many publics.

Dr. Charles F. Harrington II, Assistant Director of Institutional Research and Mr. Ray L. Christie, Institutional Research Analyst II, served as general editors of the 1994-95 *Fact Book*. Special thanks are extended to Ms. Erma Shooks, Administrative Secretary, who word processed this volume and rendered proofreading and editorial services. Mr. Christie developed many of the displays and graphics included in this volume. The contributions of all members of the Division of Budget and Research Services are acknowledged and appreciated.

In addition, individuals representing many College units provided data, information, and suggestions that contributed to the improvement of the *Fact Book*. Recognition and appreciation are extended to Ms. Sally Roberts, Director of Publications and Printing, and her staff, who managed the technical production of this issue. Mr. Stephen Broome, provided the photographs included in this volume. Through hard work and professionalism, these individuals and others, have made the 1994-95 West Georgia College *Fact Book* possible.

Dr. Richard A. Folk, Director Budget and Research Services February 1994

# THE COLLEGE

#### History

est Georgia College, a senior college unit of the University System of Georgia, is a co-educational, residential liberal arts institution located in Carrollton, Georgia. Students come from most counties in Georgia, other states, and abroad.

Carrollton, about an hour's drive from Atlanta, is the county seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton provides a regional population (more than 100,000) with retail shopping, medical, educational and financial services, entertainment, and recreation.

Between 1906 and 1917, the State of Georgia established twelve district agricultural and mechanical schools. In 1933, an act by the Board of Regents of the University System of Georgia established Carrollton's (Fourth District) A & M School as West Georgia College. Dr. Irvine S. Ingram, principal of the A & M School was the College's first president.

In 1939, the Board of Regents authorized the College to add a three-year program in elementary education. In 1956, the institution was authorized to confer a B.S. degree in Education, making it a fouryear senior college unit of the University System of Georgia. Two years later, West Georgia College added baccalaureate degrees in English, history, and mathematics.

During subsequent years, West Georgia College became one of the fastest growing institutions of higher education in the South. From an enrollment of 576 in 1956, the institution's student body now numbers approximately 8,400 students. West Georgia offers nine undergraduate degrees, the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Business Administration, Bachelor of Science in Earth Science, Bachelor of Fine Arts, Bachelor of Science in Nursing, Bachelor of Music, and Bachelor of Science in Recreation. Majors in nearly fifty different fields provide students a wide range of options.

In addition, the College offers two-year programs culminating in the Associate of Applied Science degree, with majors in computer science, criminal justice, and office administration, and the Associate of Science in Nursing degree.

In 1967, the Board of Regents authorized the initiation of a master's level graduate program. The College offers seven Masters degrees in 36 areas of Study: Master of Arts, Master of Professional Accounting, Master of Business Administration, Master of Education, Master of Music, Master of Public Administration, and Master of Science and in 1993 the Board of Regents approved a new program in Rural and Small Town Planning. The Specialist in Education degree is offered in nine areas of study.

To accommodate College growth, a multimillion dollar building program has increased the value of the College's physical facilities to more than \$127 million. Beginning with three small buildings, the College has grown to include more than 60 structures for learning, living, and recreation on its 394-acre wooded campus.

### Purpose of the College

est Georgia College, a unit of the University System of Georgia, is a comprehensive senior college offering undergraduate and graduate degrees. The purpose of the College is three-fold: to provide students with educational opportunities for their intellectual and personal development, to conduct research, and to provide public services. In support of its purpose, the College provides a liberal arts core curriculum; a diversified curriculum in Business, Education, Fine Arts, Humanities, Mathematics, Natural Sciences, and Social Sciences on the main campus and in external centers; an inclusive program of student services; and a comprehensive inclusive program of continuing education.

The College's undergraduate curriculum is intended to meet the needs of students whether they are preparing to enter a professional field, to pursue professional or graduate studies, or are undecided about their educational or professional goals. It provides them with a variety of opportunities for learning and development in various dimensions of life and attempts to foster their appreciation of the skills and knowledge necessary to be better persons and better citizens in our complex, culturally diverse, increasingly global society.

The College's graduate studies offer students opportunities for disciplined inquiry and learning beyond their undergraduate preparation. The graduate curriculum is intended to meet the needs of students whether they are preparing to enter a profession, seeking to enhance their professional knowledge and skills, or preparing to study and conduct research at the doctoral level.

To achieve its purposes, West Georgia College is committed to excellence in instruction, scholarship, and service to the region.

#### Accreditations and Affiliations

est Georgia College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor's, master's, and education specialist's degrees. All programs preparing teachers are accredited by the National Council for Accreditation of Teacher Education. The undergraduate and graduate School of Business programs are accredited by the American Assembly of Collegiate Schools of Business. The Georgia State Department of Education offers full recognition and accreditation to the College's work in teacher education. Female graduates of the institution are eligible for membership in the American Association of University Women.

The College holds institutional membership in the following:

American Assembly of Collegiate Schools of Business, American Association of Colleges for Teacher Education, American Association of State Colleges and Universities, American Council on Education, Conference of Southern Graduate Schools, Georgia Association of Colleges, Georgia Board of Nurses Examiners, National Association for Foreign Student Affairs, National Association of Schools of Music, National Business Education Association, National Commission on Accrediting, National Council for Accreditation of Teacher Education, National League for Nursing, Southern Association of Colleges and Schools.

#### The Campus

he campus is a unique blend of old and new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900's, as well as buildings exemplifying the most contemporary modes of architecture.

The front or "Old Campus" as it is sometimes called, a three-block-long expanse of rolling hills shaded by scores of old towering oak, elm, and maple trees surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia College began as an A&M School in 1906.

A modern academic complex composed of a library, social science, humanities, and math-physics buildings lies beyond the "Old Campus." A new business school annex was added in 1985. Other buildings in the area include a three-story student center, a health and physical education center featuring a 3,000 seat gymnasium and indoor pool, and one of the most modern college infirmaries in the state. A performing arts center, containing two theaters which seat 250 and 500 respectively, was completed in 1989. Alumni and friends of the College have contributed more than \$450,000 to outfit it with the latest equipment and furnishings.

Much of the College's recent physical development has occurred on the west side of the campus. The Education Center, a structure unique in the University System, contains five large lecturedemonstration rooms which, by moving sliding partitions, serves as a 1,000 seat auditorium. It also features an instructional materials center, television and sound recording studios, audiovisual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas for independent study.

Adjacent to the Education Center is the Biology-Chemistry Building, a facility with numerous laboratories, classrooms, lecture halls, and the latest scientific equipment. Construction of the new Education Annex is nearing completion. When completed, this 42,000 square foot facility will house Education and Nursing faculty offices, classrooms, laboratories, and the campus day-care center.

A complete renovation of the College's baseball complex was made possible by a gift from the E. Woodfin Cole family in Carrollton. Also completed this fall, the 20,000 square-foot, two-level Murphy Fieldhouse will provide offices for all athletic personnel, football locker room, Hall of Fame room, sports medicine area and meeting rooms.

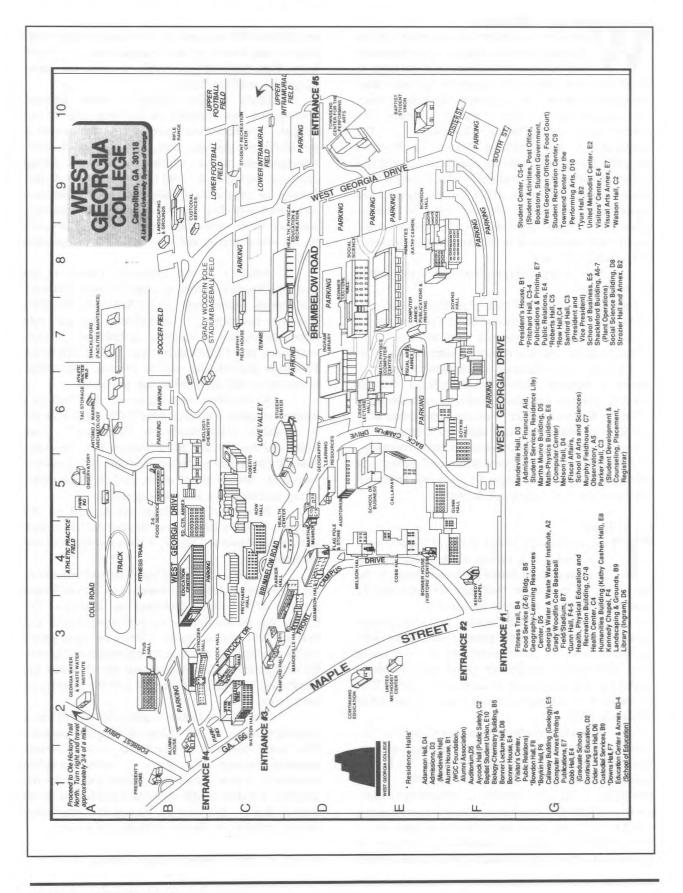

Eleven residence halls are located on the campus. Bowdon Hall, one of the newest, was named in honor of Bowdon College, a West Georgia College predecessor.

Kennedy Interfaith Chapel, named in honor of the late President John F. Kennedy, and Bonner House are two of the oldest buildings on campus. The Chapel was owned first by the Episcopal Church and later by the Catholic Church. When the local parish built a new church, its members donated the Chapel to the College for non-denominational use. In 1966, the late Robert F. Kennedy dedicated it to the memory of his brother.

The Bonner House, constructed in 1843 as a plantation home, is the oldest building on campus. The frame colonial structure has served various purposes through the years. After complete restoration, it now serves as a Visitor Center for the campus. Because of the historical significance of the Bonner House, the Georgia Historical Commission placed a marker on the site outlining its history.

## ADMINISTRATIVE ORGANIZATION

The Board of Regents of the University System of Georgia is a State Constitutional Board responsible for governance, control, and management of the University System of Georgia and its member institutions. Board members, one from each state congressional district, and five from the State-at-large are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents. West Georgia College, a unit of the University System of Georgia, operates according to Board policies and procedures.

The President of West Georgia College has general responsibility for the institution. The Executive Council, the President's immediate advisory body, includes the President, the Vice President and Dean of Faculties, the Vice President for Student Services and Dean of Students, the Vice President for Business and Finance, the Director of College Relations, and the Director of Budget and Research Services. The Executive Council advises the President on College daily operations.

The Administrative Council is the chief advisory body for administrative activities in the

academic operations of the College. Its members are the Vice President and Dean of Faculties (Chair), the Vice President for Student Services and Dean of Students, the Deans of Arts and Sciences, Business, Education, and the Graduate School; the Directors of Continuing Education/Public Services, Budget and Research Services, the Library, the Computer Center; and the President of the Student Government Association.

The Planning Council, an advisory body to the President for long-range College development, oversees a variety of plan activities extending three or more years into the future. Council members are appointed by the President from the administration, faculty, students, alumni, and the community.

The instruction function of the College is organized into four schools and the Division of Continuing Education/Public Services. Each of these major units is supervised by a dean or director. The Schools of Arts and Sciences, Business, and Education are subdivided into departments, each responsible for instruction relevant to specific academic disciplines. A chairperson is responsible for coordinating the daily operation of each academic department.

### **CONTINUING EDUCATION/PUBLIC SERVICES**

The Continuing Education Unit (CEU) is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in and an institution's production of non-credit programs. Non-credit programs are classified in three categories depending on the nature of the program and objectives of participants.

### History of Continuing Education Programs for Fiscal Year 1985-1994 Categories I and II

| Year | Programs | Participants | CEU's  |
|------|----------|--------------|--------|
| 1985 | 351      | 6,018        | 13,576 |
| 1986 | 353      | 7,474        | 11,395 |
| 1987 | 352      | 6,917        | 10,916 |
| 1988 | 333      | 7,569        | 10,339 |
| 1989 | 353      | 7,398        | 10,667 |
| 1990 | 321      | 7,469        | 10,436 |
| 1991 | 342      | 7,142        | 9,245  |
| 1992 | 354      | 7,468        | 10,472 |
| 1993 | 425      | 8,090        | 10,987 |
| 1994 | 465      | 9,715        | 17,652 |

Category I and II programs are conducted through the Division of Continuing Education/Public Services. Category I activities are designed to enhance occupational skills, and individual permanent records and transcripts are maintained. Category II programs are designed primarily for personal enrichment and are social, cultural or recreational in nature. No permanent individual records or transcripts are maintained.

# **OFF-CAMPUS PROGRAMS**

The Board of Regents of the University System of Georgia authorizes West Georgia College to offer various off-campus degree and non-degree programs. These include the External Degree Program at Dalton College (which began in 1983), West Georgia College Newnan Center, and a joint graduate degree program in cooperation with Columbus College. In addition, the Board of Regents established the Regional Center for Teacher Education. The School of Education administers and offers offcampus, non-degree programs which benefit regional educators by increasing the effectiveness of teacher education practices, policies, programs, and pedagogy for school systems in under-served areas of the State. West Georgia College continues to fulfill its regional mission through these programs.

# GRADUATE SCHOOL

Two acts by the University System of Georgia's Board of Regents provided for graduate study at West Georgia College. In 1967, the Board of Regents created a graduate division. Six years later, with Regents' approval, the College established a graduate school consistent with its new organizational structure. In subsequent years, the Graduate School became a comprehensive academic unit serving a forty-two county area of western Georgia. Of the Fall 1994 student body 28 percent pursued graduate study.

In 1967, the West Georgia College graduate division offered Master of Education degrees in six areas of study and Master of Arts degrees in three academic fields. During the next two decades, the College developed more comprehensive Graduate School offerings, including a Master of Business Administration. In 1990, the American Assembly of Collegiate Schools of Business granted accreditation to the M.B.A. program.

Education (12 programs and 8 teaching fields) Education (11 programs and 7 teaching fields)

In addition, the University of Georgia, in cooperation with West Georgia College, offers a doctoral degree in Educational Leadership with specializations in Educational Administration, Curriculum and Instruction, and Supervision.

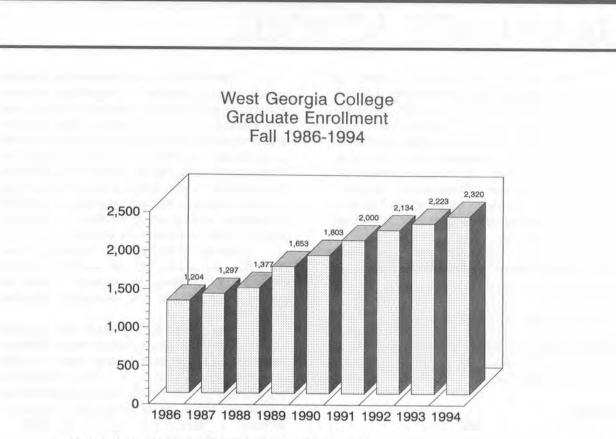

The West Georgia College Graduate School offers students the opportunity to strengthen knowledge and skills essential for professional success. It provides opportunities for professional educators to enhance students' competence and increase knowledge, and prepares superior students for advanced research and inquiry. To succeed, a graduate student must acquire a broad knowledge of literature in the appropriate academic discipline, be capable of sustained study, exhibit the power of independent thought, and demonstrate mastery of appropriate research skills. West Georgia College believes that attracting qualified minority students to its graduate programs is a top priority--with the exception of Albany State, West Georgia College enrolls more African American graduate students than any other senior institution and more than any regional university. In response, the Dean of the Graduate School, with faculty assistance, has conducted a vigorous recruitment effort to attract minority and majority race students. Increasing enrollments and growing numbers of graduate degrees conferred demonstrate success.

During 1993-94, the Graduate School conferred 528 masters degrees and 252 specialist degrees. In addition, 16 graduate students are currently enrolled in the cooperative doctoral program.

West Georgia College enrolls more graduate students and confers more graduate degrees than any other University System of Georgia senior institution or regional university. This achievement demonstrates that the College meets educational and professional needs for its service area citizens and indicates a measure of success in terms of institutional effectiveness.

Graduate School provides upward mobility and new challenges

# FINANCIAL INFORMATION

Dr. Richard Folk, Director of Division of Budget and Research Services and Mr. William Gauthier, Vice President for Business and Finance

# BUDGETS

West Georgia College operates\* under three major budgets: the Resident Instruction Budget, the Auxiliary Enterprises Budget, and the Student Activities Budget. Each serves a distinct purpose.

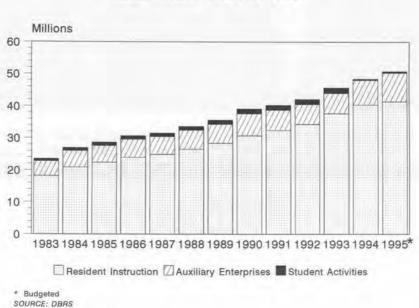

The Resident Instruction Budget is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction Funds support instruction, research, libraries, the computer center and laboratories, Student Services (including the Black Achievement Program, Student Development, Residence Life, Placement and Cooperative Education, Financial Aid, Admissions, and the Registrar), the administrative and service offices of the College, a portion of the maintenance of the physical plant, and academic scholarships and fellowships.

The Auxiliary Enterprises Budget is selfsupporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health and athletic fees, refrigerator rentals, parking fees, and parking fines. Auxiliary Enterprises funds support the operation of the residence halls, dining rooms, the College Bookstore, vending machines, bus service, health services, traffic operations, intercollegiate athletics (as of FY 93); and, they provide funds necessary to maintain a portion of the College's physical plant.

The Student Activities Budget is funded by student activities fees. Student Activities funds support various activities including choral and instrumental organizations, art exhibits, debate team, jazz ensemble, College Program Board, College gameroom, Student Government, College publications such as the *West Georgian* and *Eclectic*, Minority Enrichment, and intramural athletics.

In addition to the three budgets, the West Georgia College Foundation, Inc., a non-profit corporation dedicated to the advancement of West Georgia College, provides funding for scholarships, equipment, and services not funded by state appropriations. The Alumni Association section of the *Fact Book* supplies additional information about the West Georgia College Foundation.

\*By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.

(a) Costs of operating and maintaining the College's physical plant are divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based upon the square footage of the physical plant occupied by cost centers in each budget. These costs are budgeted as Operation and Maintenance of Plant in the Resident Instruction Budget and Indirect Operating Expenses in the Auxiliary Enterprises Budget.

(b) The Lapse Estimate is a budgeted estimate of the amount of funds that may be transferred from personal services to non-personal services during a fiscal year.

(c) The Equipment Replacement Reserve is required by the Board of Regents and is based on a 5% of Auxiliary Enterprises Revenue except for Student Transportation Revenue.

(d) The Unassigned Balance represents a contingency fund reserved to provide for unexpected expenditures.

(a) Represents the costs of operating and maintaining the College's physical plant that are charged to the Resident Instruction Budget. These costs are divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based on square footage of the physical plant occupied by the cost centers contained in each budget.

(a) Prior Year Funds are funds that are unspent at the end of the fiscal year and are carried forward into the next fiscal year.

(b) Other Programs include Student Center Operations, Identification Cards, Office of Student Activity Operations, Merit Presidential Awards, Minority Enrichment, and partial support for ROTC.

(c) The Unassigned Balance represents a contingency fund reserve to provide for unexpected expenditures. SOURCES: Resident Instruction Budget: Director, Division of Budget and Research Services

## SPONSORED OPERATIONS and FACULTY RESEARCH

Sociology/Anthropology: Dr. Lewis Larson and student explore the past

# SPONSORED OPERATIONS

#### History

West Georgia College established a central office to administer sponsored operations in 1967. College reorganization in 1973 placed responsibility for sponsored operations, grants, contracts, budgeting of funds from sources external to the College, and institutional research in the office of Instructional and Research Services. By 1980, that unit became the Division of Budget and Research Services reporting to the President of the College.

#### Mission

The purpose of the Division of Budget and Research Services is to enhance institutional effectiveness through: a) promoting formal planning at all levels of the College; b) providing a sound program of institutional research; c) developing and monitoring a College-wide budget system designed to promote effective fiscal management; d) developing and implementing a sponsored operations system for the effective review and monitoring of all external contracts, proposals, grants; e) monitoring institutional performance under grants and contracts; f) assisting in the establishment of assessment systems; and, g) monitoring the West Georgia College compliance with the Southern Association of Colleges and Schools criteria.

The Division is organized into three integrated work units to accomplish its mission: the Budget Office, the Institutional Research and Planning Office, and the Sponsored Operations Office.

#### Services Rendered

The Office of Sponsored Operations aids and supports faculty/staff efforts to attract funds from sources external to the College in support of instructional, research and service programs. This is accomplished by the Coordinator of Sponsored Operations, who: 1) matches faculty/staff interests and needs with appropriate funding sources, 2) routes requests for proposals (RFP's) to specific faculty/department/program personnel, 3) assists

faculty/staff in preparing applications/proposals, 4) coordinates award paperwork, documentation, and reporting, and, 5) provides staff development through grants preparation/administration workshops and The Office of Sponsored Operations seminars. provides the day-to-day services necessary to support all program activities funded from sources external to West Georgia College and provides support for the administration of the Faculty Research Grant program funded through the College. The Coordinator of Sponsored Operations assists the Director of Budget and Research Services in recommending all external contracts, proposals, grants and in addressing the obligation to monitor institutional statutory performance under grants and contracts.

West Georgia College attracts grants, gifts and contracts from federal, state, and local government agencies, corporations, and foundations. This external funding and other revenue enable the College to fulfill its official mission to emphasize creative teaching, encourage research, and promote the development of human resources through educational programs.

#### **Sponsored Operations Goals**

The Sponsored Operations office has established the following strategic goals for Fiscal Year 1994-95:

1. To promote and support the instructional, research, and public service missions of West Georgia College.

2. To encourage College units and individual faculty/staff efforts in seeking funds from external agencies in support of instructional, research, and public service projects.

3. To monitor the Faculty Research Grant Program in compliance with established institutional policies and procedures.

4. To assist principal investigators in efforts to comply with federal and state statutes and University System/College policy.

5. To seek increased support for College activities from the corporate and foundation sources.

# FACULTY RESEARCH

West Georgia College Faculty Research Grants Fiscal Year 1995

In addition to resources acquired from external sources, the college budgets state-allocated funds to assist faculty research efforts through the Faculty Research Grant Program. Established in 1967, the Faculty Research Grant Program provides limited funding for approved faculty research projects.

Each fiscal year, faculty members submit formal proposals to the Learning Resources Committee of the Faculty Senate requesting College support. Committee members evaluate proposals and make funding recommendations to the full Senate for its review. The Faculty Senate approves proposals and suggests levels of funding to the President, who subsequently allocates funds to the Grant recipients. The President delegates fiscal management and daily administration of the Faculty Research Grant Program to the Director of Budget and Research Services.

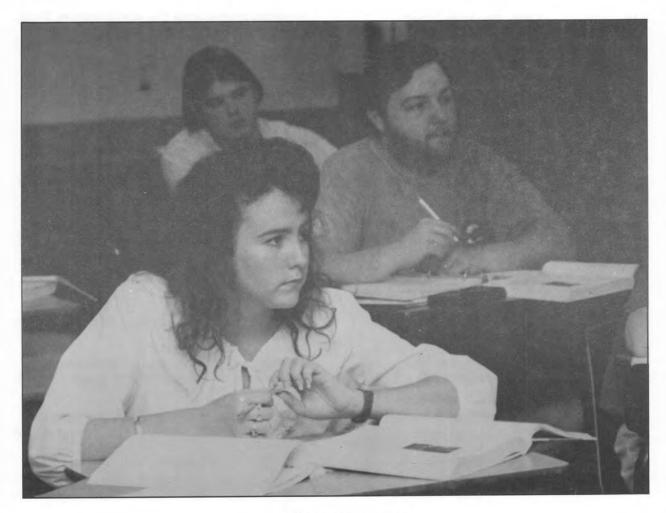

In compliance with these procedures, the President of the College awarded Faculty Research Grant Funds for Fiscal Year 1995 as follows:

| Grant # | Award   | Name/Department                                   | Project Title   |

# **INSTITUTIONAL PLANNING**

#### A Vision for West Georgia College: The Year 2000 and Beyond

West Georgia College will be a leader within the University System of Georgia in providing educational excellence in a personal environment.

West Georgia College will seek to create for students from various backgrounds every possible avenue to intellectual achievement, personal development, and leadership potential without compromising academic excellence. The College will maintain close contact with all people of the region, be responsive to their needs while raising their aspirations, and generating a more highly-educated populace. West Georgia College will be recognized for **excellence in teaching and learning, research, and public service** in undergraduate, graduate, and continuing education. The College will be recognized as being fundamental to the educational, social, cultural, technological, and economic advancement of the region and state.

Specifically, West Georgia College will be characterized by:

\*Educational Excellence evidenced by outstanding educational experiences, national and regional recognition of selected programs, faculty who excel in their disciplines, superior staff support, and an increasingly capable student body. At West Georgia, teaching, research, and service will be intricately intertwined and supportive of each other.

\*A Safe, Supportive Community committed to enhancing learning, through close contacts between students and faculty, small classes taught by senior faculty wherever possible, and through dedicated staff who help provide a vibrant campus life.

\*An Outstanding, Diverse Faculty and Staff who demonstrate effective communication and teaching skills; utilize new technologies and innovative strategies to enhance student learning; and exhibit the highest standards of intellectual achievement, research, and continuing growth.

\*Educational Opportunities for a Wide Range of Academically-Prepared Students that include a strong academic knowledge base for the development of leadership skills and life long learning. West Georgia College will help ensure its students' future success by developing the ability of individuals to access, interpret, analyze using current technology, and make use of, relevant facts, information, and knowledge to think critically, solve problems, work with, and communicate effectively with others. West Georgia will develop the whole individual so that as alumni they will continue to be contributing

that as alumni they will continue to be contributing members of their families, institutions, communities, state, nation and world.

\*Educational Opportunities for Exceptional Students: West Georgia will build a reputation for having an honors college with a distinctive liberal arts curriculum and additional peaks of excellence in selected undergraduate and graduate majors and professional programs, with student involvement in faculty research, and themes that run across the curriculum, such as communication, leadership development, interdisciplinary studies, critical thinking, and problem solving.

\*A Region-Wide Learning Community that Engages and Inspires Traditional and Non-Traditional Students to become educated persons with global and multi-cultural perspectives, and advanced technological knowledge. The College will help develop both ethical principles and intellectual flexibility for the future, and will celebrate and energize the human spirit through respecting and supporting individual differences in learning styles, identities, and personal/professional goals.

\*Pro-active Partnerships with Public and Private Schools and Other Educational Institutions, Business, Industry, Government, and Cultural and Social Organizations in order to analyze, synthesize, evaluate, predict, and respond to changing state and regional needs, to support Georgia's educational, economic, and cultural development, and to ensure graduates' readiness for the present and future.

\*A Unified, Clearly Focused, College with each part contributing to and understanding how every other part contributes to the mission of the College and to the larger society.

### **Purpose of West Georgia College**

West Georgia College, a unit of the University System of Georgia, is a comprehensive senior college offering undergraduate and graduate degrees. The purpose of the College is three-fold: to provide students with educational opportunities for their intellectual and personal development, to conduct research, and to provide public services. In support of its purpose, the College provides a liberal arts core curriculum; a diversified curriculum in Business, Education, Fine Arts, Humanities, Mathematics, Natural Sciences, and Social Sciences on the main campus and in external centers; a comprehensive program of student services; and a comprehensive program of continuing education.

The College's undergraduate curriculum is intended to meet the needs of students whether they are preparing to enter a professional field, are preparing to pursue professional or graduate studies, or are undecided about their goals. It provides them with a variety of opportunities for learning and development in various dimensions of life and attempts to foster their appreciation of the skills and knowledge necessary to be better persons and better citizens in our complex, culturally diverse, increasingly global society.

The College's graduate studies offer students opportunities for disciplined inquiry and learning beyond their undergraduate preparation. The graduate curriculum is intended to meet the needs of the students whether they are preparing to enter a profession, seeking to enhance their professional knowledge and skills, preparing to study and conduct research at the doctoral level, or engaging in advanced academic experiences for their own sakes.

To achieve its purpose, West Georgia College is committed to excellence in instruction, scholarship, and service to the region, which it conducts in a collegial environment of cooperation and coordination in its decision-making processes.

### West Georgia College Planning Process in Transition

Since fall 1989, West Georgia College has functioned under its first written institutional plan. That plan linked planning, institutional mission, institutional goals, assessment outcomes, and the College's resource allocation process.

During 1994-95, President Beheruz N. Sethna initiated a new Planning and Prioritization process at West Georgia College to accomplish the following:

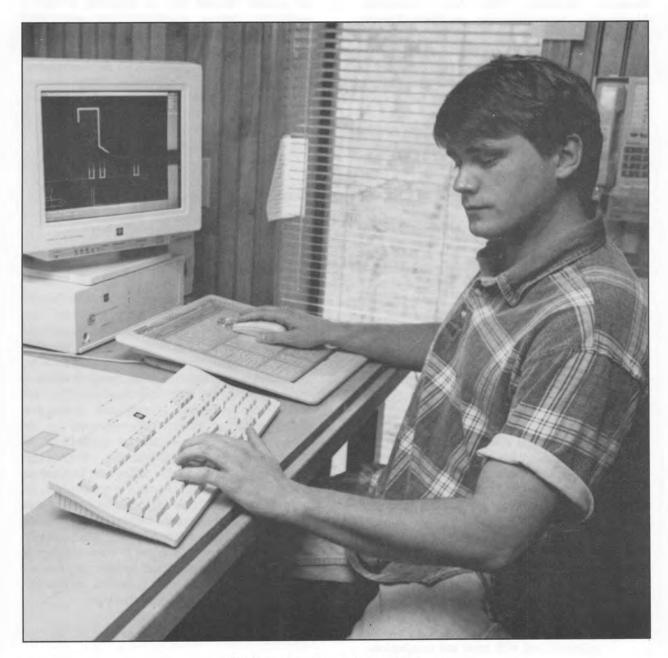

### Objectives

- To help design a West Georgia College that is best suited to meet the needs of the Twenty-first Century.
- With a view to attaining Objective 1, to identify key programs and activities that have the best potential to attract excellent students, external recognition, and/or increased funding, and so are deserving of enhancing.
- To identify resources that may be used to support the enhanced programs identified in Objective 2, through reallocation as a first step. Ideally, reallocation is to be done gradually and with input and compassion.

#### **Underlying Principles**

Planning and Prioritization at West Georgia is a bottom-up process, with the idea that departments, schools, divisions, and College units are the best places to identify programs/activities/structures for enhancement. maintenance, consolidation, or as a possible source of funds. Reports will flow from faculty/staff at each level to the appropriate administrator, to the next higher level of faculty/staff committee to the appropriate administrator, through members of the Executive Council and the President. Every effort should be made to reconcile differences between the committee and the administrator: if not possible, the administrator should forward his/her recommendation along with the committee's recommendation on the most serious points of disagreement. Administrators and committees are encouraged to work together on reports and submit a consistent opinion; also they are encouraged to include student, alumni, community, and industry input in their deliberations.

The bulk of resources saved by the unit would normally be available for use to enhance programs or activities within the unit, unless overruled by a higher-level process. Reports that recommend enhancements of selected areas and corresponding identification of resources, will be viewed with considerable favor by higher-level committees and administrators. The Planning and Prioritization process at West Georgia College will be completed during Fiscal Year 1994-95. That process will lead to the preparation of West Georgia College's new written institutional plan.

Engineering for a planned future

### **Institutional Goals**

- 1. Deliver instruction, applied research, and public service consistent with the general mission of the College as assigned by the Board of Regents and with the educational needs of the region.
- Focus and strengthen the academic programs of the college commensurate with the development of a distinctive mission within the University System and the achievement of regional and national recognition for excellence.
- Provide access to comprehensive undergraduate programs based on solid preparation in a liberal arts core curriculum leading to associate and baccalaureate degrees.
- Provide special opportunity and assistance to undergraduate students through an advanced academy, other early admission programs, a Developmental Studies Program, an Honors Program, cooperative education/internship programs, and international programs.
- Provide access to advanced instructional and research opportunities on the Graduate level through master's degree programs, a Specialist in Education degree program, and a joint doctoral degree program.
- Expand and enhance the activities of Continuing Education and Public Service to address the educational needs of regional constituencies apart from academic degree programs.
- Encourage and support research activities conducted by faculty and other professionals to enhance teaching and advance knowledge--through sponsored projects, consulting activities, publications, and application of knowledge to regional needs.

- 8. Enrich the quality of student life through continuous improvement of student service programs that support and compliment the academic program and that foster in a controlled, personal environment the individual, social, civic, and physical development of each student.
- Exert rigorous efforts to attract and advance minority participation in instructional, research, and service programs.
- Increase the use of modern information technology in instructional, academic support, and institutional support functions.
- 11. Maintain the campus environment, continuously improving the beauty, access, safety, utility, and efficiency of the Physical Plant.
- 12. Engage in intercollegiate athletics at a level which compliments the educational purposes of the college, meets the needs of students, and emphasizes fair play, amateur competition, and the welfare of student athletes.
- Effectively manage state funds in compliance with sound financial practice and in keeping with the public trust.
- 14. Continue to strengthen the institution's resources and capabilities through fund raising, grant writing, and other concerted efforts to attract support from sources external to the University System.
- 15. Ensure the visibility and perceived value of the college through appropriate and effective public relations activities.
- Collaborate with other institutions, agencies, and enterprises in a common effort to spare unnecessary costs, increase effectiveness, and advance the welfare of the people of Georgia.

### Fiscal Year Planning, Budgeting, and Assessment Cycle

July: Divisions submit to the Vice President and Dean of Faculties their Annual Reports, including assessment of unit goals achieved over the past fiscal year. Academic units also report on learning outcomes realized, as well as research and service achievements. Reports should indicate how previous assessment results have used to improve effectiveness.

**October:** President submits the West Georgia College President's Annual Report to the Chancellor of the University System.

**December**: Departments submit their Unit Plans and Funding Priorities for the **next fiscal year**. Plans and priorities should indicate how assessment results reported earlier relate to unit goals and funding priorities.

Academic departments also submit through the Deans to the Vice President and Dean of Faculties revised descriptions of the **process** for assessing learning outcomes--including outcomes sought, methods of assessment, and procedures for using assessment information to improve effectiveness.

January: Deans and directors review, revise, and approve Unit Plans and Funding Priorities for the School or equivalent level and submit them to the appropriate vice president or divisional director.

The Vice President and Dean of Faculties submits a document describing the process for assessing learning outcomes in each academic program to the University System office.

**February:** Vice presidents and divisional directors review, revise, and approve Unit Plans and Funding Priorities and submit them to the Director of Budget and Research Services.

**March:** The President receives the Regents' budget allocation to West Georgia College for the next fiscal year.

**March-April:** The Executive Council reviews Unit Plans and Funding Priorities in light of the allocation received from the Regents and, in consultation with units reporting to them, and propose to the President a revised list of priorities in keeping with the allocation received. **May:** The President approves the resident instruction budget for the next fiscal year and submits it to the Regents' central office.

**May-June:** Departments conduct, for the concluding fiscal year, their annual assessment of unit goals achieved, learning outcomes realized, and use of results to improve effectiveness, along with other information solicited, and submit reports to the appropriate dean, vice president, or divisional director, who consolidates the reports for submission in July to the Vice President and Dean of Faculties.

July: The cycle begins again.

A reason for planning

# INSTITUTIONAL RESEARCH

John McPhearson, Library

## **INSTITUTIONAL RESEARCH**

### History

he Office of Institutional Research at West Georgia College possesses a long history and rich tradition. The College established the Office of Institutional Research in 1967; the operation subsequently evolved into the Division of Budget and Research Services. However, the scope of institutional research is broader than the activities of a single office. All members of the Division staff participate in institutional research activities when projects require their specific expertise. Faculty and administrators utilize institutional research methods to conduct self studies, prepare annual and fifth year reports, write operational plans, and facilitate other major responsibilities.

Institutional Research activities extend beyond the West Georgia College campus. The following examples are indicative; however, they do not describe the full impact of West Georgia College Institutional Research efforts. The professional staff of the Division of Budget and Research Services regularly fill leadership roles for the University System of Georgia's Institutional Research and Planning Committee. During 1991, the Director of Budget and Research Services served as the committee's chairman.

In the early 1980's, West Georgia College was the first Georgia University System institution to conduct institutional retention studies. During the past two decades, professional staff in the Division of Budget and Research Services have presented papers and led workshops designed to improve institutional research, facilitate institutional planning, and increase institutional effectiveness. Recently, the Assistant Director of Institutional Research collaborated with other Georgia institutional research professionals in the development of a theoretical model to facilitate the assessment of the Institutional Research function and a comprehensive profile of institutional research officers and their functions.

#### Mission

he Office of Institutional Research furnishes significant student, faculty, and program information, provides vital data for institutional planning, evaluates progress toward institutional purpose, and assesses institutional effectiveness.

Institutional Research staff design implement, and maintain an administratively approved program of continuing institutional studies which generate a steady flow of information supporting the West Georgia College institutional planning process. Specifically, the Office of Institutional Research provides data which indicate the extent to which the institution meets its goals relative to institutional effectiveness.

Institutional Research Goals

he Office of Institutional Research adopted the following goals to encourage Institutional effectiveness and to foster mechanisms to assess results.

- To serve the Executive function of the institution by providing a reliable and proactive management and decision support system.
- To promote the improvement of the West Georgia College planning process in compliance with the Georgia Board of Regents Policy and the Southern Association of Colleges and Schools Criteria.
- To generate data, information, and analytical reports on Institutional Research topics designed to improve information usage in the planning process utilized at West Georgia College.
- To assist the executive and administrative officers of the College in institutional assessment in order to promote increased institutional effectiveness.
- To provide systematic collection and reporting of standard institutional, regional, environmental, and student-centered information for institutional planning and assessment.
- To reply in a punctual manner to spontaneous requests for descriptive information, data, and analytical reports.

### **Major Projects**

he Office of Institutional Research conducts a five year cycle of studies: the Entering Student Study, Continuing Student Study, Former Student Study, Graduate Study, Student Needs Assessment, and Recent and Long-term Alumni Studies. This series was designed to measure student educational outcomes and institutional effectiveness as well as provide vital information and data to support the College's planning processes.

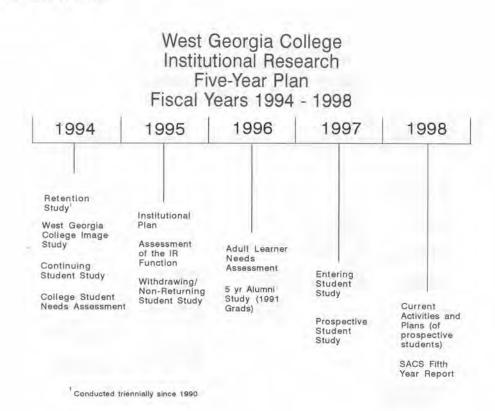

During the Winter of 1994, the Office of Institutional Research began a year long examination of the image of West Georgia College. The project revealed the perception of the College and its students as perceived by more than 7,000 institutional constituents. During Fiscal Year 1994, Institutional Research staff assisted the Director of Budget and Research Services and other College-wide administrators in providing data and technical assistance in the preparation for and response to site visits by NCATE, NASM, and NLN accrediting agencies. Institutional Research staff provided analytical support to the Director of Admissions to facilitate the revision and adoption of new College admission standards.

During Fall Quarter 1993, Institutional Research provided leadership to the President's Ad Hoc Advisory Committee on Retention, which included the preparation of formal recommendations for Institutional action. The unit provided research design and analysis support in the assessment of student and faculty satisfaction with the new 3-day/2day class schedule.

In Assisting the College's planning function, the institutional research unit provided information and support of the College's newly activated College Planning Council, and assisted the Director of Budget and Research Services in responding to a University System document assessing the institutions readiness criteria and elevation of status.

### The Nature of Institutional Research

The Office of Institutional Research at West Georgia College, through studies at regularly planned intervals, explores College culture by investigating campus community norms and values. Research findings aid the administration in determining if (and to what extent) values are in conflict and provide a basis for policy analysis and identifying potential problems. West Georgia College institutional retention studies indicate causes for attrition. Such studies analyze retention-attrition behavior and provide bases for policy analysis, alternative admissions criteria, and enrollment planning.

WGC Fact Book 94-95, Page 73

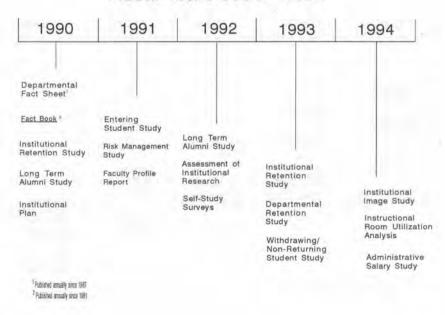

Institutional Research helps the College focus its programs on specific student needs. Institutional Research responses to the needs include studies which evaluate academic advising, counseling, career planning and placement, intercollegiate athletics, health services, and housing.

Processes which involve resource acquisition and allocation involve institutional research methods. Studies which continuously analyze budget items in terms of the establishment of priorities, the achievement of goals, and the assessment of progress toward goal achievement are typically under the aegis of the institutional budget and finance officers. Institutional Research assists also in the projection of funding and expenditure levels, support cost analyses, and provide data supporting fiscal accountability. Institutional Research contributes to planning in the development of specific programs through market research techniques and needs assessment, and supports program review by supplying qualitative and quantitative evidence for assessment activities.

Institutional Research supports College development efforts through providing institutional information for external fund raising projects, conducting case studies for use in fund drives, and providing information necessary for data based development strategies. Institutional Research techniques routinely provide evidence which development efforts may utilize to assess their own effectiveness and to consider the viability of new development strategies.

# ALUMNI ASSOCIATION

Alumni fund-raising activities

### West Georgia College Alumni Association

The alumni of West Georgia College constitute its largest single constituency and represent its most valuable resource for the College. Membership in the Alumni Association is open to all graduates of West Georgia College or the Fourth District A&M School, and to former students who request to belong. Activities of the Alumni Association are directed by a thirty-six member Council. The Association informs alumni of institutional plans, progress, opportunities, and needs. *Perspective*, the alumni newspaper, is sent to alumni and friends on a quarterly basis.

Major activities include Homecoming, Alumni Day, and the annual meeting of the Fourth District A&M Alumni Association. Class reunions and other special events involve hundreds of alumni each year.

### West Georgia College Foundation

The West Georgia College Foundation, Inc., is a non-profit organization that receives and administers private funds and provides services which foster advancement of the College. A Board of Trustees, composed of business and professional leaders, and officers elected by the trustees establish and monitor Foundation policies.

The Foundation's unrestricted gifts support student aid, and provide equipment and services not funded from state appropriations but necessary for institutional advancement.

The Foundation encourages unrestricted contributions to be used in a manner deemed most beneficial to the College. Gifts, received for specific purposes that are approved by the College, are used where designated by the donor.

## FACILITIES and GROUNDS

The strength of the second sec

The new Education Center Annex opens to serve West Georgia College students and community

## **FACILITIES** and **GROUNDS**

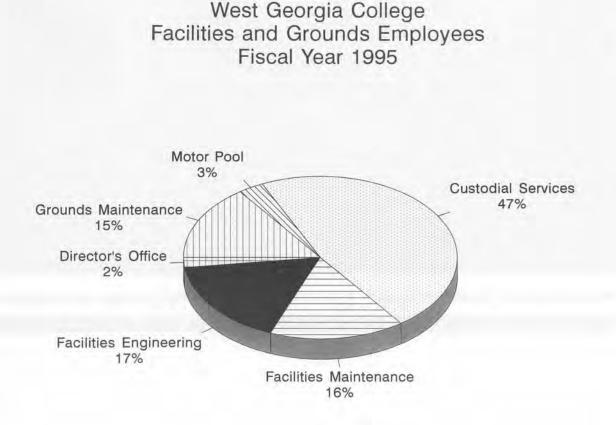

West Georgia College Facilities and Grounds consists of the Office of the Director, Department of Facilities Maintenance, Department of Facilities Engineering, Department of Motorpool Services, Department of Custodial Services, and Department of Landscaping and Grounds Maintenance. The mission is to maintain a safe, comfortable, and aesthetically pleasing environment conducive to teaching, research, and student life.

The Motorpool Services staff maintains in excess of one hundred vehicles of all types and other maintenance equipment.

West Georgia's campus is considered to be one of the most beautiful in the University System of Georgia. The Landscaping and Grounds staff continue a long tradition of systematic landscaping that began in 1919 when Fourth District A&M School Principal, John H. Melson, solicited gifts of trees from each of the then forty-eight states for transplantation to the school campus. College landscapers care for the many plant species residing on the almost 400 acre campus. They also construct and maintain College irrigation systems, curbs, gutters, sidewalks, and athletic fields. A College nursery cultivates plants for seasonal, new, or replacement landscaping.

The Department of Custodial Service staff enhances campus life by providing cleaning and trash removal services for all buildings including faculty, staff, and administrative areas and residence halls. Typified by a congenial attitude, custodial staff directly interact with students, faculty, and staff to provide these services.

\*The Fourth District A&M School, established by the state of Georgia in 1906 became West Georgia College in 1933 by an act of the Board of Regents of the University System of Georgia.

Beautiful West Georgia College, a product of planning and hard work

**On-line** 

### **IRVINE SULLIVAN INGRAM LIBRARY**

The Library is the most important learning center on any campus. West Georgia College's Irvine Sullivan Ingram Library is one of the most modern library facilities in the state of Georgia. The four story structure provides more than 85,000 square feet of usable research/storage area and over 1,000 seating spaces for students and faculty.

The Library presently contains seminar and conference rooms, lockable faculty carrels, hundreds of individual study carrels, a room for microform reading and copying, the Annie Belle Weaver Special Collections Room, large areas for reference, periodical materials, maps, and the circulating book collection. A Computer laboratory maintained and supervised by the college's Computer Center staff (second floor), typewriters (second floor), video cassette players, and photocopiers (first floor) are also available to assist students and faculty with their study and research needs.

Fifty-five percent of the Ingram Library staff are professional librarians; they hold (at-least) accredited graduate library degrees and faculty rank. The remainder of the staff meet particular degree qualifications, hold specialized job skills, and receive specific training.

The Irvine Sullivan Ingram Library presently houses approximately 301,000 bound volumes, 20,849 reels of microfilm, a limited audiovisual collection, more than 871,000 pieces of microform, 20,108 maps and charts, and 23,000 volumes/pieces of special collection material. The Library currently subscribes to over 1,461 magazines and newspapers. It is the Sixth Congressional District selective depository for over 134,000 United States government publications.

The Library's Unicorn Collection Management System provides automated services for its patrons. Acquisitions, cataloging, circulation, reserves, interlibrary loans, Special Collections, government documents, and serials are available through the Unicorn on-line public access catalog (OPAC). The OPAC also contains an electronic suggestion board, and all patrons are encouraged to provide input to the Library. The College's Newnan and Dalton Centers have full access to Ingram Library's Unicorn OPAC.

Ingram Library is aggressive in extending its patrons' access beyond local holdings. Through the OPAC, patrons can access University System of Georgia's PEACHNET on-line database. Students and faculty can be issued Joint Borrowers' Cards allowing them circulation privileges at the other thirty-three University System of Georgia Libraries. For students or faculty who require additional materials locally, electronic generation and transmission of interlibrary loans expedites this process considerably. Subscriptions to Dialog Information Research Services, LEXIS/NEXIS, CARL Uncover, OCLC Firstsearch and variety of CD-ROM databases afford the West Georgia College community extended entree into local, state, regional, and international library collections.

The Learning Resource Center, (LRC, on the ground floor of the Geography/Learning Resources Building, with an extension in the Education Center) assists faculty members, students, and staff in improving instruction through using audio-visual equipment, materials, and processes. Services include producing color slides, black and white film prints, charts, graphs, laminating, transparencies, and video tape/film procurement from various film/video libraries. Equipment includes cassette recorders, record players, overhead, opaque, slide, filmstrip, and motion picture projectors, video tape play back and recording capabilities, and LCD display panels. The television studio is also equipped with a C/Ku Band satellite receiver for teleconferences. Cable TV reception is currently available in all residence halls and some academic buildings.

Off-campus Library Services ensure that students enrolled in courses at any of the College's remote class sites receive the same level of library support as those at the Carrollton campus. Offcampus Services maintain toll-free services for direct consultation with a professional librarian. Standard services include database searches, selection of materials and free delivery of materials to either the student's home or to one of the College's full-time program locations at Dalton or Newnan. Fax and courier service provide timely delivery to these sites. Reserve reading materials can be transferred to a library near the class site and Joint Borrower's Card are routinely issued to off-campus students.

Selective statistics descriptive of Library activities and services for the past five years are provided in the table on the next page.

# **COMPUTER RESOURCES**

### **COMPUTER CENTER**

The West Georgia College Center for Information Technology Services operates a SUN 4/280 UNIX server for instructional and research support, four Sun workstations, six IBM RISC system 6000 computers, an IBM 4341 mainframe processor, a Hewlett/Packard 9000/630 Unix server, and has access to the University System of Georgia PeachNet Computer Network and the University of Georgia's IBM 3090. The table below lists additional peripheral equipment supported by the Computer Center.

| Description                                     | HARDWARE | Quantity |
|---|----------|----------|
| CRT TERMINAL STATIONS                           |          |          |
| AMPEX 230                                       |          | 40       |
| Televideo 950                                   |          | 15       |
| IBM 3101  |          | 12       |
| LIBERTY FREEDOM/1                               |          | 5        |
| PRINTERS  |          |          |
| GENICOM 4470 (1000 lines per minute)            |          | 1        |
| GENICOM 4440 (600 lines per minute)             |          | 5        |
| GENICOM 3410 (400 characters per second)        |          | 4        |
| T.I. 800 Series                                 |          | 6        |
| GENICOM 1250 (1200 lines per minute)            |          | 1        |
| TERMINAL SERVERS                                |          |          |
| LANTRONIX ETS-16 with 16 ports each             |          | 3        |
| Datability VCP300 with 16 ports                 |          | 7        |

### MICROCOMPUTERS

### FACILITIES

West Georgia College students, faculty, and administrators rely on microcomputers as resources for instruction, research, and administration on a daily basis. Microcomputers are located in most major offices on campus. The following are genreal use facilities for students and faculty.

- The Mathematics/Physics Laboratory contains 12 80386SX and 4 8088 MS-DOS based microcomputers on a Network to assist instruction. All Workstations have access to WGC hosts.
- The Arts and Sciences Microcomputer Laboratory contains 28 8088 and 1 80286 MS-DOS based microcomputers on a Network to assist instruction. All Workstations have access to WGC Hosts.
- The School of Business Homework Laboratory contains 15 80486sx, 1 80386sx, and 4 8088 PCs. All workstations have access to WGC hosts.
- The School of Business Classroom Laboratory contains 28 IBM PC-XT's on a Network to assist instruction. All workstations have access to WGC hosts.
- The School of Education Apple Laboratory has 15 MacIntosh Quadra 610s, 9 Apple IIGS, 19 Apple IIe, 1 MacIntosh Quadra 800 fileserver, along with 15 Zenith 486 computers.
- 6. The Library Microcomputer Laboratory contains 3 Power MacIntosh 7100s, 5 MacIntosh LC IIs, 1 Macintosh IIcx, 1 Macintosh SE, 1 Macintosh IIx, 1 Macintosh II, 1 Apple Quadra 800 fileserver, 14 80486sx and 5 80386sx MS-DOS based microcomputers on a network. All workstations have access to WGC hosts.

### SOFTWARE

West Georgia College provides current microcomputer software for student, faculty, and administrative use. Software currently available on campus include the following (this list may be incomplete because of upgrades to or replacement by more current software):

#### Word Processing

Display Write MacWrite Microsoft Word PC Write Vokswriter WordPerfect 5.1 and 6.0

#### Spread Sheets

Excel Lotus 1-2-3 Quattro Pro

#### Statistical SAS SPSS Stat Pac Mini Tab

#### CAD

VersaCad-MacIntosh Design CAD CAD Key Data Management DBXL DBase III Plus Foxbase Oracle Rbase for DOS Paradox Fox Pro Lan

#### Graphics Harvard Graphics MacDraw MacPaint Superpaint Draw Perfect

# **STUDENT SERVICES**

Ruby Vasser cheers the Braves on to victory

## WGC STUDENT SERVICES

### DIVISION OF STUDENT SERVICES

West Georgia College offers a full range of services and extracurricular activities to its students. The Division of Student Services, as a complement to the academic program of the College, provides a variety of educational services, developmental programs, and student activities designed to enrich the students' college life. Ten units, from initial high school contact through college graduation and placement, report to the Vice President for Student Services and Dean of Students to interact with students through organized services and programs to create a campus responsive to individual student needs.

The Office of Admissions coordinates student recruitment, application processing, and the College's orientation program for new students. Members of the Admissions Office staff travel the state to contact high school and junior college students, conduct formal and informal tours of the College, and sponsor regularly scheduled 'visitation days.'

The Office of Financial Aid coordinates financial assistance for nearly forty-five percent of West Georgia's students. Office staff determine eligibility for aid awarded by the College and record aid received by students from other sources, such as the West Georgia College Foundation, corporations, and individuals. The office coordinates all awards in student financial aid and reports to the Board of Regents, federal government, and College officials all aid awarded to students attending the College.

The Office of Health Services housed in the Student Health Center, which includes both an outpatient clinic and infirmary, is under the supervision of a full-time physician. Nurses are on duty from 7:50 a.m. to 6:00 p.m., Monday through Friday. Students may be admitted to the infirmary for observation and minor illnesses. Students are referred to other medical personnel or facilities for special services such as x-ray, surgery, and dentistry. Often, medication necessary for treatment is available at the Center. In addition, many tests performed in the Health Center laboratory are covered by the student's health fee.

### Health Services Fiscal Year 1993-94

| Patient Services       | 1994   |  |
|------------------------|--------|--|
| Patient Visits         | 24,800 |  |
| Prescriptions Filled   | 17,673 |  |
| Lab Tests              | 7,207  |  |
| Patients Seen by MD/NP | 10,169 |  |

Intramural Program. The College provides opportunities for recreation, social contact, and health exercise through an excellent intramural program. Over 4,500 students participate in various leisure programs in the College's weight room, game room, swimming pool, gymnasium, and outdoor adventure program. Intramural programs include football, softball, basketball, volleyball, tennis, track, bowling, swimming, aerobics, and numerous individual gaming and sporting events.

The Office of Placement and Cooperative Education conducts activities supporting career planning, career development, cooperative education programs, internships, student employment, and career placement. The Office serves students and alumni who are seeking full-time or summer employment by providing a job listing service where students and alumni may keep their resumes and related materials on file for prospective employers. On-campus recruiting, skills seminars, job search workshops, special career days, and other services assist students in identifying and securing career employment. This Office coordinates the Co-Op program for students who work and attend college during alternating quarters. It also provides application forms and information about internships for students in business, service agencies, and governmental public institutions.

### Career Planning and Placement Fiscal Year 1993-94

| Co-Op Intern Program      | 1994   |
|---------------------------|--------|
| Program Students          | 108    |
| Participating Employers   | 59     |
| Recruitment               |        |
| Recruiting Organizations  | 193    |
| Student Employment Office |        |
| Students vists to Office  | 3,936  |
| Referrals                 | 7,611  |
| Placements                | 1,230  |
| Career Placement Office   |        |
| Job Postings              | 82,875 |
| Referrals                 | 1,216  |
| Credentials Mailed        | 1,552  |

The Office of the Registrar is responsible for the quarterly registration process and for processing schedule changes, providing transcripts, and maintaining permanent student records. The Office publishes a quarterly schedule of classes, assists with graduation, and determines residency status. An early registration system enables students to obtain confirmed schedules for the next quarter weeks before the new quarter begins.

The Office of Student Activities works in partnership with students to provide programs and services which complement the academic experience. The Office provided over 100 individual programs in 1993-94. The staff coordinates the registration process for nearly 100 student organizations, provides advisement for a Greek system that involves 12 percent of the student population, and coordinates an intramural program that involves 3,000 students each quarter. The staff directly advises the Student Government Association, the Black Student Alliance, the Student Activities Council, Student League, Summer Orientation Staff, Black Greek Council, Panhellenic Council, and the Interfraternity Council. The Office also coordinates the campus I.D. card program, facilities reservations for non-academic areas, Black History Month activities and Homecoming.

The Student Development Center provides career, mental-health and academic counseling for West Georgia College students and related services for non-traditional and freshman students. During the past year, approximately 400 students were seen for personal counseling, and the Center saw an average of 1.4 new personal and academic cases each school day. During the same time, 220 students received individual career counseling, and more than 1,000 students participated in a psycho-educational presentation or workshop. The five counselors on staff are licensed and hold a specialists or doctoral degree. The Center also provides 55 disabled students with assistance in physical and academic accommodations. The 79 campus international students are advised through the Center regarding housing, immigration matters, finances, and personalcultural adjustment.

The Office of Residence Life provides on-campus residence halls housing accommodations for students. Ten residence halls house approximately 2,000 West Georgia College students. Unmarried freshmen who do not reside with parents within a thirty mile radius are required to live on campus. Many upperclassmen choose to do the same. Some halls are for men or women only. Others are co-educational with separate wings for men and women. Residence halls provide comfort, and attractive surroundings, as well as a community living experience which fosters development of disciplined minds, social conscientiousness, and responsibility for governing group affairs. In addition, a variety of social, educational, and recreational programs are provided to promote individual growth and development.

| Women's<br>Residence Halls        | Date Built | Fall 1994<br>Occupancy | Men's<br>Residence Halls | Date Built | Fall 1994<br>Occupancy |

### OTHER STUDENT SERVICES

In addition to the assistance provided by the Division of Student Services, many other services and activities are available to students throughout the academic year.

Arts ranging from Broadway plays to opera to jazz, West Georgia College's fine arts departments offer many opportunities for student performance and cultural enrichment. Both musical and theatrical productions are scheduled year-round. The Concert Choir, Chamber Singers, Marching Band, and Opera Workshop are available to students interested in music. Several areas in the Humanities Building are used for frequent student, faculty, and occasional traveling art exhibits.

*Minority Achievement Program* is a minority advisement office designed to provide programs and services to assist minority students with the adjustments of College life. The Program utilizes student assistants who serve as peer mentors in an effort to connect freshmen students with upperclassmen. In addition, the Program offers

academic and personal consultation services, conducts an Early Intervention Program to students having academic difficulty, and coordinates programs to stimulate academic and cultural growth.

The College Bookstore stocks textbooks and supplies necessary for classes as well as a number of other items such as gifts, toiletries, gym shorts, jerseys, and records and tapes.

*Food Services* operates the student cafeteria which serves all meals to hall residents who have meal tickets and others who purchase meals on a cash basis. The Food Services Building has a private dining room and large multi-purpose area suitable for parities, movies, dances, and other entertainment. A food court in the Student Center offers hot and cold sandwiches, pizza, pastries, salads, and other shortorder items.

Intercollegiate Athletics at West Georgia College is one of the most varied and successful athletic programs in the state. The College fields men's intercollegiate teams in baseball, basketball, cross country, football, golf and tennis, while women's programs are offered in basketball, cross country, softball, tennis, and volleyball. All of the College's teams are affiliated with Division II of the National Collegiate Athletic Association and compete in the Gulf South Conference.

West Georgia won the state's first national collegiate basketball championship, and since joining the gulf South Conference, the Braves have captured two league basketball titles. In 1982, the Braves won the national championship in Division III football, thereby making West Georgia one of only six colleges ever to win national titles in football and basketball.

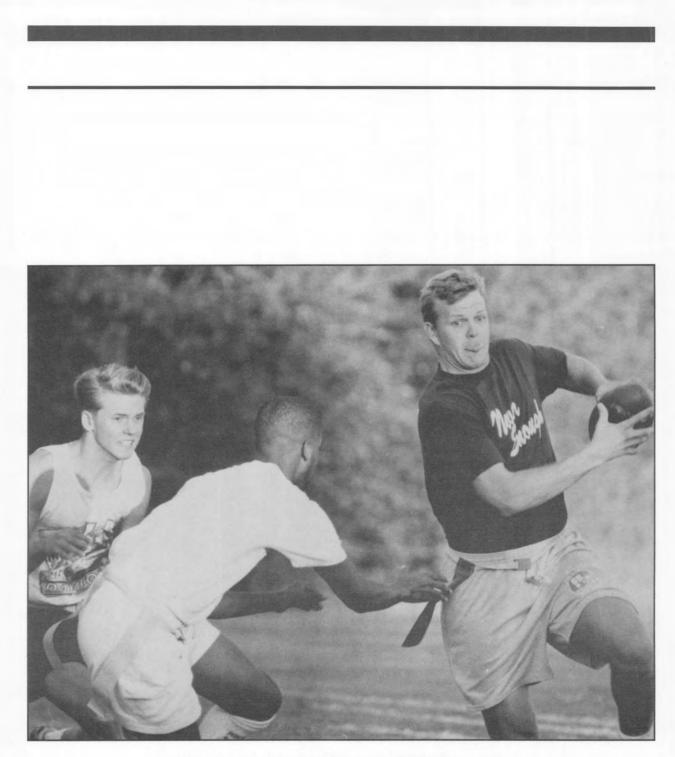

Women's athletics at West Georgia College contribute significantly to the overall success of the College's intercollegiate athletic program. West Georgia College's women's basketball team captured the Gulf South tournament title in 1992. The Lady Braves volleyball team has won numerous state championships in the last decade.

The College Post Office provides all U.S. Mail services; registered, certified and insured mail, and money orders. An inter-office service provides free campus delivery for student, faculty, and staff.

The Department of Public Safety is a state certified agency and provides services to the College community on a 24-hour basis. The department's duties include protection of life and property, enforcement of College regulations and state statutes, traffic and parking control, and the prevention of crime.

Student Government Association eligibility is open to any full-time undergraduate or graduate student. The SGA enacts legislation for general student welfare. It receives student complaints, investigates student problems, and participates in decisions affecting the student body. The SGA is composed of executive, legislative, and judicial branches, as well as a Freshman Council. The student body elects a President, Vice President, Judiciary Chair, and a Student Senate consisting of twenty representatives. Student Publications such as The West Georgian and The Eclectic are written and produced by students, for students. The West Georgian is the free, weekly newspaper distributed at various campus locations. All students are invited to work on the staff in news reporting, sports, arts, and photography. The Eclectic is a literary magazine published each spring quarter, containing poetry, prose, art, and photography.
