State University of  
West Georgia  
FACT BOOK

Department of Institutional Research and Planning  
Carrollton, Georgia 30118-4530

March 1, 1998

Dear Colleagues and Friends of the University:

As I look back on the past 12 months, I certainly have my choice among the many accomplishments of our faculty, students, and staff — we can only include a few of these to give our readers a flavor of these successes.

The State University of West Georgia continued to make progress toward its goal of educational excellence in a personal environment. Our Debate team qualified for the National Debate Tournament for the 25<sup>th</sup> consecutive year. This is the tournament's 50<sup>th</sup> year, and our qualifying record places us in the top universities in the country. The 1997 Regents Teaching Excellence Award went to West Georgia's Geology Department. At the 1997 Georgia Academy of Science meeting, West Georgia won top honors in six out of nine categories.

Thanks to the efforts of Dr. Lewis Larson, the State Archaeologist who was, until his retirement, on our faculty, the Waring family donated \$1 million to Archaeology, our first 7-figure gift. Other programs such as Biology and Chemistry were awarded significant grants in national competitions.

The College of Business had its visit for national re-accreditation by the American Assembly of Collegiate Schools of Business, and received formal notification of reaffirmation. Now that we are on a 10-year re-accreditation cycle, we belong to a very prestigious set of institutions — in Georgia, only the Research Universities and one other school is at this level.

The College of Education was selected by the College Board as the first national test site for Pacesetter, a program for advanced high school students. It also was one of 10 universities to be awarded, in a nationally-competitive process, a planning grant by the DeWitt-Wallace Foundation, and was one of only four institutions in Georgia to receive a P-16 and Prep grant for more than \$200,000 over three years.

The Advanced Academy of Georgia finished a very successful second year with an entering class average SAT score of approximately 1280, excellent academic and extra-curricular experiences, and its graduates having been accepted in some of the best institutions in the United States, such as M.I.T., Yale, Duke, Johns Hopkins, Michigan, Williams, UNC-Chapel Hill, Baylor, Emory, Georgia Tech, UGA, and West Georgia. Faculty report great enthusiasm at having these students in their classes, and Academy students are very enthusiastic at the opportunities that are made available to them. Thanks to the generosity of Chancellor Stephen R. Portch, The Academy received \$400,000 of Special Initiative funds. Then, an anonymous donor announced a \$425,000 gift over a three-year period.

In early June, we were among 27 University System institutions presenting 52 requests for Major Capital Projects (defined as a building costing \$5,000,000 or more). We have never had a building on this campus whose construction cost exceeded \$4.4 million, and have not been able to break into the University System top priority lists for funding major or minor capital projects in several years. Thanks to the Chancellor, for the first time, Presidents were allowed to make their best case directly to the Board of Regents. Our Technology-enhanced Learning Center, costing \$19.7 million (a core curriculum building that will be used to teach a number of fields, and will house faculty in Physics, Chemistry, Interdisciplinary Studies, and Writing Across the Curriculum) was ranked fifth on the list.

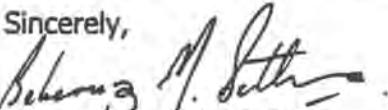

On July 9, 1997, we were delighted to announce a \$1,500,000 endowment — the largest in the history of the institution — from the Richards Foundation to honor the late Roy Richards. On that day, the Board of Regents also approved our proposal that the business college would be known as the Richards College of Business in recognition of this gift and of the late Mr. Richards' life-long contributions to business and economic development in the region and the State.

Our students and alumni continue to garner national and state-wide fame: The 1997 "Georgia Teacher of the Year" is an alumna of West Georgia. Another alumna became one of only 911 teachers across the U.S. to be awarded national teacher certification. Our Honors students were selected to present their research in the National Collegiate Honors Council competition.

Our basketball, baseball, and football teams were nationally ranked. In addition, our football team won the Gulf South Conference title, as did our men's and women's cross-country teams, and the basketball team won the GSC East title.

This year's "**A DAY FOR WEST GEORGIA**" which is a major part of the university's annual fund, saw the total soar over \$2 million for the first time. We thank all our supporters, and hope that you, too, will follow their excellent example in supporting this institution.

Sincerely,

Beheruz N. Sethna, Ph.D.  
President of the University, and Professor of Business Administration

## State University of West Georgia Fact Book

### Preface and Acknowledgments

The Department of Institutional Research and Planning is proud to offer the 1997-98 edition of the State University of West Georgia *Fact Book*. It is our hope and intent that this volume continues the tradition of providing reliable statistical data and summary information designed to answer the most frequently asked questions about the University. Based on sound institutional research, the *Fact Book* serves as a good first point-of-reference for institutional assessment, self-study, planning, and resource allocation. In total, it projects an institutional profile for our many publics.

Special thanks are extended to Ms. Erma Shooks, Administrative Secretary, who word processed this volume and rendered proof-reading services. Most of the work to update graphics and displays was performed by Ms. L. Elaine Harper, Staff Assistant, Institutional Research. Their contributions are acknowledged and appreciated.

Individuals representing many University offices and units provided data, information, and suggestions that contributed to the improvement of this *Fact Book*. Recognition and appreciation are extended to Ms. Sally Roberts, Director of Publications and Printing, and her staff, who managed the technical production of this issue. Mr. Stephen Broome, College Photographer, took special care in preparing a library of appropriate photographs for inclusion in this volume. Through hard work and professionalism, these individuals and others have made the 1997-98 State University of West Georgia *Fact Book* possible. Thank you!

Raymond L. Christie, Coordinator  
and Editor  
Institutional Research and Planning  
March 1998

# GENERAL INFORMATION

# THE UNIVERSITY

## History

**T**he State University of West Georgia, a senior unit of the University System of Georgia, is a co-educational, residential liberal arts institution located in Carrollton, Georgia. Students come from most counties in Georgia, other states, and abroad.

Carrollton, about an hour's drive from Atlanta, is the county seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton provides a regional population (more than 100,000) with retail shopping, medical, educational and financial services, entertainment, and recreation.

Between 1906 and 1917, the State of Georgia established twelve district agricultural and mechanical schools. In 1933, an act by the Board of Regents of the University System of Georgia established Carrollton's (Fourth District) A & M School as West Georgia College. Dr. Irvine S. Ingram, principal of the A & M School was the College's first president.

In 1939, the Board of Regents authorized the institution to add a three-year program in elementary education. In 1956, the institution was authorized to confer a B.S. degree in Education, making it a four-year senior college unit of the University System of Georgia. Two years later, West Georgia added baccalaureate degrees in English, history, and mathematics.

During subsequent years, West Georgia became one of the fastest growing institutions of higher education in the South. From an enrollment of 576 in 1956, the institution's student body now numbers approximately 8,500 students. West Georgia offers ten undergraduate degrees, the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Business Administration, Bachelor of Science in Earth Science, Bachelor of Fine Arts, Bachelor of Science in Nursing, Bachelor of Music, Bachelor of Science in Chemistry, and Bachelor of Science in Recreation. Majors in nearly fifty different fields provide students a wide range of options.

In addition, the institution offers two-year programs resulting in the Associate of Applied Science degree, with majors in computer science, criminal justice, and office administration, and the Associate of Science in Nursing degree.

In 1967, the Board of Regents authorized the initiation of a master's level graduate program. The institution offers eight Masters degrees in 36 areas of Study: Master of Arts, Master of Professional Accounting, Master of Business Administration, Master of Education, Master of Music, Master of Public Administration, Master of Science, and Master of Science in Rural and Small Town Planning. The Specialist in Education degree is offered in nine areas of study.

On June 12, 1996, in an historic decision, the Board of Regents of the University System of Georgia voted to change the name of West Georgia College to the State University of West Georgia.

To accommodate University growth, a multi-million dollar building program has increased the value of the University's physical facilities to more than \$156 million. Beginning with three small buildings, the University has grown to include more than 70 structures for learning, living, and recreation on its 394-acre wooded campus.

## Accreditations and Affiliations

**W**est Georgia is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor's, master's, and education specialist's degrees. All programs preparing teachers are accredited by the National Council for Accreditation of Teacher Education. The undergraduate and graduate College of Business programs are accredited by the American Assembly of Collegiate Schools of Business. The Georgia State Department of Education offers full recognition and accreditation to the College of Education's work in teacher education. Female graduates of the institution are eligible for membership in the American Association of University Women.

The University holds institutional membership in the following:

American Assembly of Collegiate Schools of Business, American Association of Colleges for Teacher Education, American Association of State Colleges and Universities, American Chemical Society, American Council on Education, Conference of Southern Graduate Schools, Consortium for Diversified Psychology Programs, Georgia Association of Colleges, Georgia Board of Nurses Examiners, National Association for Foreign Student Affairs, National Association of Schools of Music, National Association of Schools of Public Affairs and Administration, National Business Education Association, National Commission on Accrediting, National Council for Accreditation of Teacher Education, National League for Nursing, Southern Association of Colleges and Schools.

## The Campus

**T**he campus is a unique blend of old and new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900's, as well as buildings exemplifying the most contemporary modes of architecture.

The front or "Old Campus" as it is sometimes called, a three-block-long expanse of rolling hills shaded by scores of old towering oak, elm, and maple trees

surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia began as an A&M School in 1906.

A modern academic complex composed of a library, social science, humanities, and math-physics buildings lies beyond the "Old Campus." A new business school annex was added in 1985. Other buildings in the area include a three-story student center, a health and physical education center featuring a 3,000 seat gymnasium and indoor pool, and one of the most modern college infirmaries in the state. A performing arts center, containing two theatres which seat 250 and 500 respectively, was completed in 1989.

Much of the University's recent physical development occurred on the west side of the campus. The Education Center, a structure unique in the University System, contains five large lecture-demonstration rooms which, by moving sliding partitions, serves as a 1,000 seat auditorium. It also features an instructional materials center, television and sound recording studios, audiovisual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas for independent study.

Adjacent to the Education Center is the Biology-Chemistry Building, a facility with numerous laboratories, lecture halls, and the latest scientific equipment. The Education Annex, a 42,000 square foot facility, opened in 1995. This facility houses Education and Nursing faculty

offices, classrooms, laboratories, and the campus day-care center.

A complete renovation of the University's baseball complex was made possible by a gift from the E. Woodfin Cole family in Carrollton. The 20,000 square-foot, two-level Murphy Fieldhouse provides offices for all athletic personnel, a football locker room, Hall of Fame room, sports medicine area and meeting rooms.

Ten residence halls are located on the campus. Bowdon Hall, one of the newest, was named in honor of Bowdon College, a West Georgia predecessor.

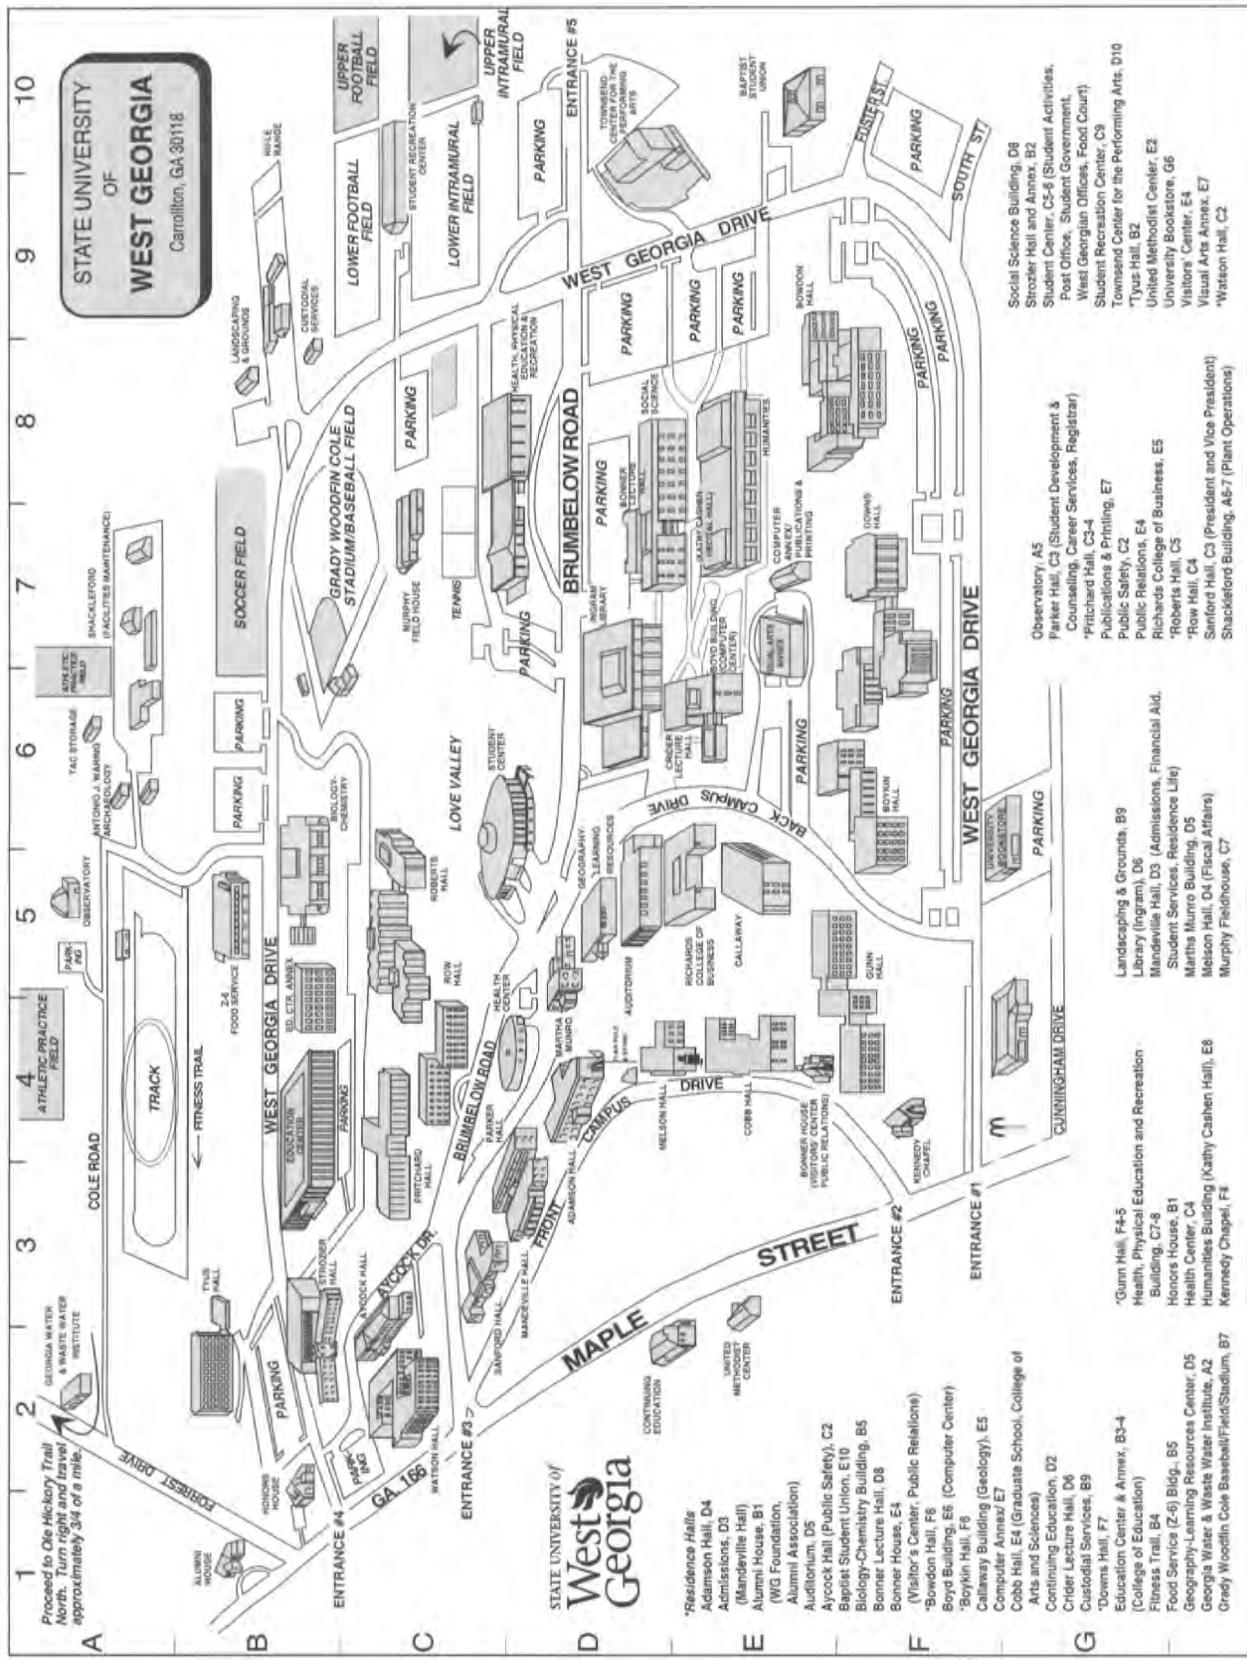

Kennedy Interfaith Chapel, named in honor of the late President John F. Kennedy, and Bonner House are two of the oldest buildings on campus. The Chapel was owned first by the Episcopal Church and later by the Catholic Church. When the local parish built a new church, its members donated the Chapel to the University for non-denominational use. In 1966, the late Robert F. Kennedy dedicated it to the memory of his brother.

The Bonner House, constructed in 1843 as a plantation home, is the oldest building on campus. The frame colonial structure has served various purposes through the years. After complete restoration, it now serves as a Visitor Center for the campus. Because of the historical significance of the Bonner House, the Georgia Historical Commission placed a marker on the site outlining its history.

# ADMINISTRATIVE ORGANIZATION

The Board of Regents of the University System of Georgia is a State Constitutional Board responsible for governance, control, and management of the University System of Georgia and its member institutions. Board of Regents members, one from each state congressional district, and five from the State-at-large are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents. West Georgia, a unit of the University System of Georgia, operates according to Board policies and procedures.

The President of West Georgia has general responsibility for the institution. The President's Advisory Committee (PAC) is the immediate advisory body to the President. This committee consists of persons in administrative positions reporting directly to the President, and other persons as the President believes will provide advice for the orderly, effective, and efficient administration of the University's affairs. Appointments are annual and made at the beginning of the Fiscal Year.

The Administrative Council is the chief advisory body for administrative activities in the academic oper-

ations of the University. Its members are the Vice President for Academic Affairs (Chair), the Vice President for Student Services and Dean of Students, the Deans of Arts and Sciences, Business, Education, and the Graduate School; the Director of Continuing Education/Public Services; Director of Information Technology Services; the chair of the Institutional Studies and Planning Committee of the Faculty Senate; Director of Libraries and the President of the Student Government Association.

The Planning Council, an advisory body to the President for long-range University development, oversees a variety of plan activities extending three or more years into the future. Council members are appointed by the President from the administration, faculty, students, alumni, and the community.

The instruction function of the University is organized into three Colleges and the Division of Continuing Education/Public Services. Each of these major units is supervised by a dean or director. The Colleges of Arts and Sciences, Business, and Education are subdivided into departments, each responsible for instruction relevant to specific academic disciplines. A chairperson is responsible for coordinating the daily operation of each academic department.

# STUDENT INFORMATION

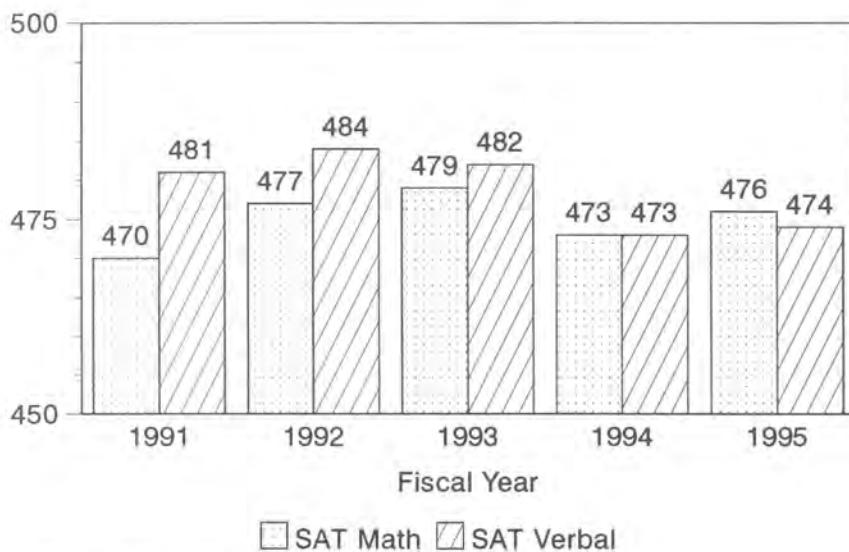

# **UWG STUDENTS**

The typical State University of West Georgia student

- enters with an average SAT score of 953.
- is a female Caucasian. Sixty-six percent of the student body are women and 81 percent are Caucasian.
- lives within the primary service area of the University. Approximately 88 percent of the student body are from nearby counties, including 15 percent from Carroll County, and 28 percent from metro-Atlanta.
- attends full-time. Nearly 71 percent enroll in a full load of courses (12 quarter credit hours for undergraduates, and 9 quarter credit hours for graduates).
- is 25.6 years of age. Undergraduates, on average are 22.7 years of age; graduate students average 34.9 years of age.

# CONTINUING EDUCATION/PUBLIC SERVICES

The Division of Continuing Education and Public Services has emerged as the extension of the traditional on-campus learning process. Non-credit classes are developed and offered to citizens of the University community at convenient locations and with flexible schedules to accommodate a wide variety of participants.

The mission of Continuing Education is to identify and provide non-credit educational opportunities which will enhance the quality of life for local citizens and provide training support to business and industry that will serve as a catalyst for economic development.

Over the past 10 years, Continuing Education programs increased 83% to over 600 programs, serving over 12,000 participants. Most of these programs qualify for Continuing Education Unit (CEU) credit.

The CEU is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in a non-credit program.

Programs which qualify for CEU credit are referred to as Category I. Category I activities are designed to enhance occupational skills, and individual permanent records as transcripts are maintained. Courses which are designed primarily for personal enrichment and are social, cultural, or recreational in nature are referred to as Category II courses. No permanent individual records or transcripts are maintained for Category II courses.

## History of Continuing Education Programs for Fiscal Year 1988-1997 Categories I and II

Year	Programs	Participants	CEU's
1988	333	7,569	10,339
1989	353	7,398	10,667
1990	321	7,469	10,436
1991	342	7,142	9,245
1992	354	7,468	10,472
1993	425	8,090	10,987
1994	465	9,715	17,652
1995	612	11,917	18,421
1996	576	10,858	17,964
1997	611	12,061	21,243

# OFF-CAMPUS PROGRAMS

The Board of Regents of the University System of Georgia authorizes West Georgia to offer various off-campus degree and non-degree programs. These include the External Degree Program at Dalton College (which began in 1983), West Georgia Newnan Center, and a joint graduate degree program in cooperation with Columbus State University.

In addition, the Board of Regents established the Regional Center for Teacher Education. The College of Education administers and offers off-campus, non-degree programs which benefit regional educators by increasing the effectiveness of teacher education practices, policies, programs, and pedagogy for school systems in under-served areas of the State. West Georgia continues to fulfill its regional mission through these programs.

# GRADUATE SCHOOL

Two acts by the University System of Georgia's Board of Regents provided for graduate study at West Georgia. In 1967, the Board of Regents created a graduate division. Six years later, with Regents' approval, the University established a graduate school consistent with its new organizational structure. In subsequent years, the Graduate School became a comprehensive academic unit serving a forty-two county area of western Georgia. Of the Fall 1997 student body 27 percent pursued graduate study.

In 1967, the West Georgia graduate division offered Master of Education degrees in six areas of study and Master of Arts degrees in three academic fields. During the next three decades, the University developed more comprehensive Graduate School offerings, including a Master of Business Administration.

<b>Discipline</b>	<b>Degree</b>
English, History, Psychology, Sociology, Gerontology	Master of Arts
Music Education, Performance	Master of Music
Biology	Master of Science
Rural and Small Town Planning	Master of Science in Rural and Small Town Planning
Business Administration	Master of Business Administration
Accounting	Master of Profes- sional Accounting
Public Administration	Master of Public Administration
Education (12 programs and 8 teaching fields)	Master of Education
Education (11 programs and 7 teaching fields)	Specialist in Education

In addition, the University of Georgia, in cooperation with West Georgia, offers a doctoral degree in Educational Leadership with specializations in Educational Administration, Curriculum and Instruction, and Supervision.

West Georgia's Graduate School offers students the opportunity to strengthen knowledge and skills essential for professional success. It provides opportunities for professional educators to enhance students' competence and increase knowledge, and prepares superior students for advanced research and inquiry. To succeed, a graduate student must acquire a broad knowledge of literature in the appropriate academic discipline, be capable of sustained study, exhibit the power of independent thought, and demonstrate mastery of appropriate research skills.

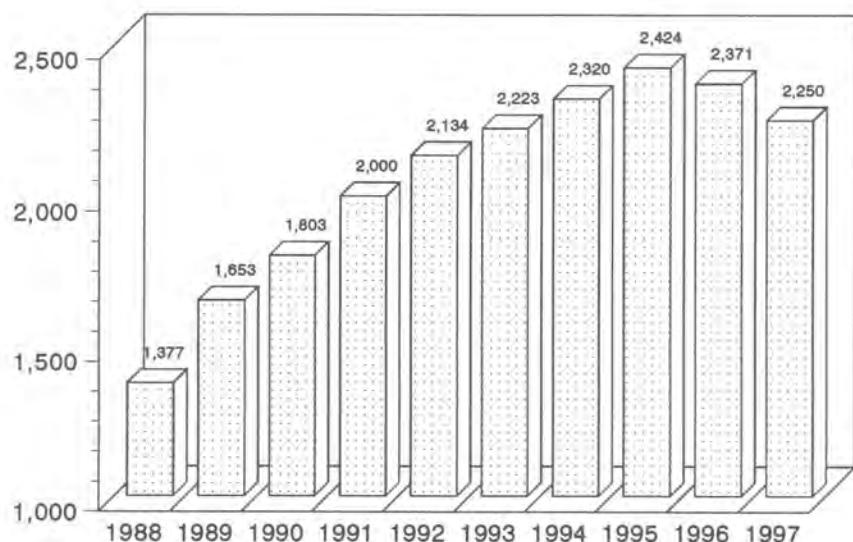

West Georgia's efforts in minority recruitment have been very successful. West Georgia averaged 355 African American graduate students during Fall, Winter, and Spring Quarters of the 1996-97 year. This average places the University among the top institutions in the University System of Georgia.

During 1996-97, the Graduate School conferred 603 masters degrees and 212 specialist degrees. In addition, 9 graduate students are currently enrolled in the cooperative doctoral program.

West Georgia enrolls more graduate students and confers more graduate degrees than any other University System of Georgia institution other than the University of Georgia, Georgia Institute of Technology, and Georgia State University. This achievement demonstrates that the University meets educational and professional needs for its service area citizens and indicates a measure of success in terms of institutional effectiveness.

# FINANCIAL INFORMATION

# BUDGETS

West Georgia operates\* under three major budgets: the Resident Instruction Budget, the Auxiliary Enterprises Budget, and the Student Activities Budget. Each serves a distinct purpose.

**The Resident Instruction Budget** is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction Funds support instruction, research, libraries, the computer center and laboratories, Student Services (including the Minority Achievement Program, Student Development, Residence Life, Career Services, Financial Aid, Admissions, and the Registrar), the administrative and service offices of the University, a portion of the maintenance of the physical plant, and academic scholarships and fellowships.

**The Auxiliary Enterprises Budget** is self-supporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health and athletic fees,

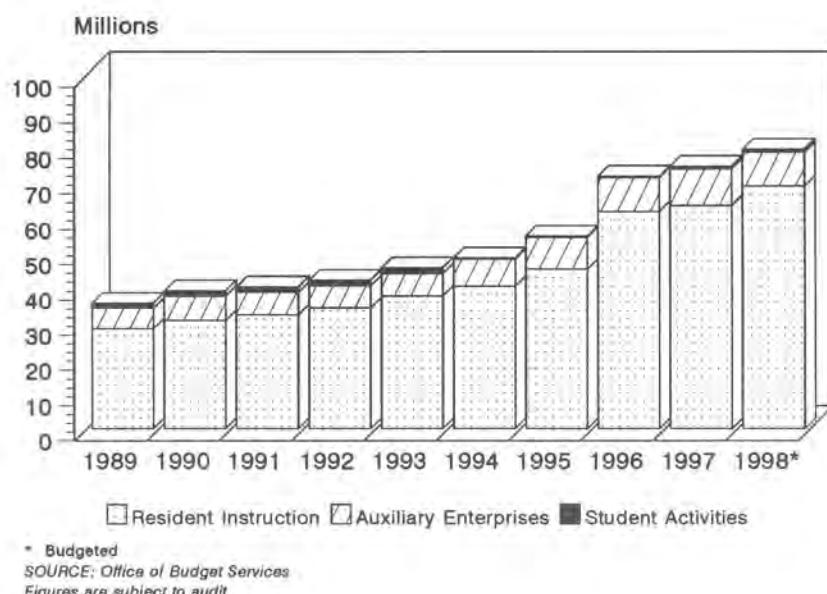

refrigerator rentals, parking fees, and parking fines. Auxiliary Enterprises funds support the operation of the residence halls, dining rooms, the University Bookstore, vending machines, bus service, health services, traffic operations, intercollegiate athletics (as of Fiscal Year 1993); and, they provide funds necessary to maintain a portion of the University's physical plant.

**The Student Activities Budget** is funded by student activities fees. Student Activities funds support various activities including choral and instrumental organizations, art exhibits, debate team, jazz ensemble, University Program Board, University gameroom, Student Government, University publications such as the *West Georgian* and *Eclectic*, Minority Enrichment, and intramural athletics.

In addition to the three budgets, the **West Georgia Foundation, Inc.**, a non-profit corporation dedicated to the advancement of West Georgia, provides funding for scholarships, equipment, and services not funded by state appropriations. The Alumni Association section of the *Fact Book* supplies additional information about the West Georgia Foundation.

\*By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.

- a. Cost of operating and maintaining the University's physical plant are divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based upon the square footage of the physical plant occupied by cost centers in each budget. These costs are budgeted as Operation and Maintenance of Plant in the Resident Instruction Budget and Indirect Operating Expenses in the Auxiliary Enterprises Budget.
- b. The Lapse Estimate is a budgeted estimate of the amount of funds that may be transferred from personal services to non-personal services during a fiscal year.
- c. The Equipment Replacement Reserve is required by the Board of Regents and is based on 5% of Auxiliary Enterprises Revenue, except for Student Transportation Revenue.
- d. The Unassigned Balance represents a contingency fund reserved to provide for unexpected expenditures.

Total Student Activities Expenditures	\$421,599 100.00%	\$385,028 100.00%	\$417,220 100.00%	\$425,448 100.00%	\$472,588 100.00%	\$790,851 100.00%

( a ) Prior Year Funds are funds that are unspent at the end of the fiscal year and are carried forward into the next fiscal year.

( b ) Other Programs include Student Center Operations, Identification Cards, Office of Student Activity Operations, Merit Presidential Awards, Minority Enrichment, and partial support for ROTC.

( c ) The Unassigned Balance represents a contingency fund reserve to provide for unexpected expenditures.

# SPONSORED OPERATIONS and FACULTY RESEARCH

# SPONSORED OPERATIONS

## History

The State University of West Georgia established a central office to administer sponsored operations in 1967. University reorganization in 1973 placed responsibility for sponsored operations, grants, contracts, budgeting of funds from sources external to the University, and institutional research in the office of Instructional and Research Services. By 1980, that unit became the Division of Budget and Research Services, reporting to the President of the University. In Fiscal Year 1996, Sponsored Operations was placed under the Vice President for Academic Affairs.

## Services Rendered

The Office of Sponsored Operations aids and supports faculty/staff efforts to attract funds from sources external to the University in support of instructional, research, and service programs. This is accomplished by the Director of Sponsored Operations, who: 1) matches faculty/staff interests and needs with appropriate funding sources, 2) routes requests for proposals (RFP's) to specific faculty/department/program personnel, 3) assists faculty/staff in preparing applications and proposals, 4) coordinates award paperwork, documentation, and reporting, and, 5) provides staff development through grants preparation/administration workshops and seminars. The Office of Sponsored Operations provides the day-to-day services necessary to support all program activities funded from sources external to West Georgia and provides support for the administration of the Faculty Research Grant program funded through

the University. The Director of Sponsored Operations recommends all external contracts, proposals, and grants, and monitors institutional performance under such agreements.

West Georgia attracts grants, gifts and contracts from federal, state, and local government agencies, corporations, and foundations. This external funding and other revenue enable the University to fulfill its official mission to emphasize creative teaching, encourage research, and promote the development of human resources through educational programs.

## Sponsored Operations Goals

The Sponsored Operations Office established the following strategic goals:

1. To promote and support the instructional, research, and public service missions of West Georgia.
2. To encourage University units and individual faculty/staff efforts in seeking funds from external agencies in support of instructional, research, and public service projects.
3. To monitor the Faculty Research Grant Program in compliance with established institutional policies and procedures.
4. To assist principal investigators in efforts to comply with federal and state statutes and University System policy.
5. To seek increased support for University activities from the corporate and foundation sources.

## Sponsored Operations Five Year Assessment of Data Reported on June 30 of Each Fiscal Year

Fiscal Year	Number of Proposals Submitted	Number of Proposals Funded	Amount Requested	Amount Awarded
1993	81	51	\$2,894,564	\$ 867,846
1994	66	59	2,382,143	814,142
1995	139	87	3,806,716	1,412,481
1996	137	88	1,528,332	1,562,455
1997	73	38	2,088,302	962,430

Note: Amounts exclude awards for student financial aid.

<sup>1</sup>External sources authorized spending for fixed time periods. In certain cases, those periods included only a portion of Fiscal Year 1997.

<sup>2</sup>In a number of cases, only a portion of the total amount awarded was actually received or spent during Fiscal Year 1997.

# FACULTY RESEARCH

*State University of West Georgia*

## *Faculty Research Grants*

### *Fiscal Year 1998*

In addition to resources acquired from external sources, the University budgets state-allocated funds to assist faculty research efforts through the Faculty Research Grant Program. Established in 1967, the Faculty Research Grant Program provides limited funding for approved faculty research projects.

Each fiscal year, faculty members submit formal proposals to the Learning Resources Committee of the Faculty Senate requesting University support.

Committee members evaluate proposals and make funding recommendations for full Senate review. The Faculty Senate approves proposals and suggests levels of funding to the President, who subsequently allocates funds to the grant recipients.

In compliance with these procedures, the President of the University awarded Faculty Research Grant funds for Fiscal Year 1998 as follows:

<b>Grant #</b>	<b>Award</b>	<b>Name/Department</b>	<b>Project Title</b>

# INSTITUTIONAL PLANNING

# INSTITUTIONAL PLANNING

## A Vision for The State University of West Georgia The Year 2000 and Beyond

The State University of West Georgia will be a leader within the University System of Georgia in providing **educational excellence in a personal environment**.

The State University of West Georgia will seek to create for students from various backgrounds every possible avenue to intellectual achievement, personal development, and leadership potential without compromising academic excellence. The University will maintain close contact with all people of the region, be responsive to their needs while raising their aspirations, and generating a more highly-educated populace. The State University of West Georgia will be recognized for **excellence in teaching and learning, research, and public service** in undergraduate, graduate, and continuing education. The University will be recognized as being fundamental to the educational, social, cultural, technological, and economic advancement of the region and state.

**Specifically, the State University of West Georgia will be characterized by:**

**\*Educational Excellence** evidenced by outstanding educational experiences, national and regional recognition of selected programs, faculty who excel in their disciplines, superior staff support, and an increasingly capable student body. At West Georgia, teaching, research, and service will be intricately intertwined and supportive of each other.

**\*A Safe, Supportive Community** committed to enhancing learning, through close contacts between students and faculty, small classes taught by senior faculty wherever possible, and through dedicated staff who help provide a vibrant campus life.

**\*An Outstanding, Diverse Faculty and Staff** who demonstrate effective communication and teaching skills; utilize new technologies and innovative strategies to enhance student learning; and exhibit the highest standards of intellectual achievement, research, and continuing growth.

**\*Educational Opportunities for a Wide Range of Academically-Prepared Students** that include a strong academic knowledge base for the development

of leadership skills and life long learning. The State University of West Georgia will help ensure its students' future success by developing the ability of individuals to access, interpret, analyze using current technology, and make use of, relevant facts, information, and knowledge to think critically, solve problems, work with, and communicate effectively with others.

West Georgia will develop the whole individual so that as alumni they will continue to be contributing members of their families, institutions, communities, state, nation and world.

**\*Educational Opportunities for Exceptional Students:** West Georgia will build a reputation for having an honors college with a distinctive liberal arts curriculum and additional peaks of excellence in selected undergraduate and graduate majors and professional programs, with student involvement in faculty research, and themes that run across the curriculum, such as communication, leadership development, interdisciplinary studies, critical thinking, and problem solving.

**\*A Region-Wide Learning Community that Engages and Inspires Traditional and Non-Traditional Students** to become educated persons with global and multi-cultural perspectives, and advanced technological knowledge. The University will help develop both ethical principles and intellectual flexibility for the future, and will celebrate and energize the human spirit through respecting and supporting individual differences in learning styles, identities, and personal/professional goals.

**\*Pro-active Partnerships with Public and Private Schools and Other Educational Institutions, Business, Industry, Government, and Cultural and Social Organizations** in order to analyze, synthesize, evaluate, predict, and respond to changing state and regional needs, to support Georgia's educational, economic, and cultural development, and to ensure graduates' readiness for the present and future.

**\*A Unified, Clearly Focused, University** with each part contributing to and understanding how every other part contributes to the mission of the University and to the larger society.

## Mission of the State University of West Georgia

The State University of West Georgia, a charter member of the University System of Georgia, is a selectively-focused, comprehensive institution providing undergraduate and graduate public higher education in arts and sciences, business, and education, primarily to the people of West Georgia.

The State University of West Georgia offers a range of disciplinary, interdisciplinary, and professional programs at the baccalaureate level. It is also a major provider of graduate education at the master's and educational specialist's levels; further, a cooperative doctoral program is offered on the West Georgia campus. In addition to being accredited as an institute of higher education, the University has earned national accreditation or recognition in most undergraduate and graduate fields of specialization.

The purpose of the State University of West Georgia is to provide opportunities for intellectual and personal development through quality teaching, scholarly inquiry, creative endeavor, and service for the public good. The University aspires to preeminence in providing educational excellence in a personal environment through an intellectually stimulating and supportive community for its students, faculty, and staff.

The State University of West Georgia is committed to the following areas of excellence:

- ▶ high-quality undergraduate and graduate programs in selected fields in the Arts and Sciences, in Business, and in Education, that are grounded in a strong liberal arts curriculum, and that
  - impart broad knowledge and foster critical understanding needed for intellectual growth, personal and social responsibility, cultural and global literacy, and life-long learning;
  - emphasize disciplinary rigor;
  - foster the development of effectiveness in communication, critical and independent

thinking, problem solving, and the use of technology;

- ▶ a learning community dedicated to instructional excellence where close student-faculty interaction enhances both teaching and learning for a diverse and academically well-prepared student body.
- ▶ educational opportunities for exceptional students through initiatives such as the development of an Honors College and, for extraordinary high school juniors and seniors, through The Advanced Academy of Georgia.
- ▶ faculty research, scholarship, and creative endeavors which promote knowledge, enhance professional development, contribute to the quality of instruction, and provide significant opportunities for student involvement and field-based experience.
- ▶ a broad range of public service activities and proactive partnerships to promote more effective utilization of human and natural resources; to contribute to economic, social and technical development; and to enhance the quality of life within the University's scope of influence.
- ▶ regional outreach through a collaborative network of external degree centers, course offerings at off-campus sites, and an extensive program of continuing education for personal and professional development.
- ▶ student services which increase opportunities for academic success and personal development and enhance the climate of campus life.
- ▶ affirmation of the equal dignity of each person by valuing cultural, ethnic, racial, and gender diversity in students, faculty, and staff.
- ▶ a collegial environment in the decision-making processes and supporting practices that embody the ideals of an open, democratic society.

These commitments culminate in educational experiences that foster the development of leaders and productive citizens who make a positive impact throughout an increasingly global society.

## Institutional Goals

1. Deliver instruction, applied research, and public service consistent with the general mission of the University as assigned by the Board of Regents and with the educational needs of the region.
2. Focus and strengthen the academic programs of the University commensurate with the development of a distinctive mission within the University System and the achievement of regional and national recognition for excellence.
3. Provide access to comprehensive undergraduate programs based on solid preparation in a liberal arts core curriculum leading to associate and baccalaureate degrees.
4. Provide special opportunity and assistance to undergraduate students through an advanced academy, other early admission programs, a Developmental Studies Program, an Honors Program, cooperative education/internship programs, and international programs.
5. Provide access to advanced instructional and research opportunities on the Graduate level through master's degree programs, a Specialist in Education degree program, and a joint doctoral degree program.
6. Expand and enhance the activities of Continuing Education and Public Service to address the educational needs of regional constituencies apart from academic degree programs.
7. Encourage and support research activities conducted by faculty and other professionals to enhance teaching and advance knowledge--through sponsored projects, consulting activities, publications, and application of knowledge to regional needs.
8. Enrich the quality of student life through continuous improvement of student service programs that support and complement the academic program and that foster in a controlled, personal environment the individual, social, civic, and physical development of each student.
9. Exert rigorous efforts to attract and advance minority participation in instructional, research, and service programs.
10. Increase the use of modern information technology in instructional, academic support, and institutional support functions.
11. Maintain the campus environment, continuously improving the beauty, access, safety, utility, and efficiency of the Physical Plant.
12. Engage in intercollegiate athletics at a level which complements the educational purposes of the University, meets the needs of students, and emphasizes fair play, amateur competition, and the welfare of student athletes.
13. Effectively manage state funds in compliance with sound financial practice and in keeping with the public trust.
14. Continue to strengthen the institution's resources and capabilities through fund raising, grant writing, and other concerted efforts to attract support from sources external to the University System.
15. Ensure the visibility and perceived value of the University through appropriate and effective public relations activities.
16. Collaborate with other institutions, agencies, and enterprises in a common effort to spare unnecessary costs, increase effectiveness, and advance the welfare of the people of Georgia.

## Fiscal Year Planning, Budgeting, and Assessment Cycle

**July:** Divisions submit to the Vice President and Dean of Faculties their Annual Reports, including assessment of unit goals achieved over the past fiscal year. Academic units also report on learning outcomes realized, as well as research and service achievements. Reports should indicate how previous assessment results improved effectiveness.

**October:** President submits the *State University of West Georgia Annual Report of Institutional Progress* to the Chancellor of the University System.

**December:** Departments submit their Unit Plans and Funding Priorities for the **next fiscal year**. Plans and priorities should indicate how assessment results reported earlier relate to unit goals and funding priorities.

Academic departments also submit through the Deans to the Vice President for Academic Affairs revised descriptions of the **process** for assessing learning outcomes—including outcomes sought, methods of assessment, and procedures for using assessment information to improve effectiveness.

**January:** Deans and directors review, revise, and approve Unit Plans and Funding Priorities for the College or equivalent level and submit them to the appropriate vice president.

The Vice President for Academic Affairs submits a document describing the process for assessing learning outcomes in each academic program to the University System office.

**February:** Vice presidents review, revise, and approve Unit Plans and Funding Priorities and submit them to the Department of Institutional Research and Planning.

Departments prepare requests for capital projects, including project descriptions and project justifications. Vice Presidents submit prioritized requests to the President's Advisory Committee for funding consideration.

**March:** The President receives the Regents' budget allocation to the State University of West Georgia for the next fiscal year.

**March-April:** The President's Advisory Committee reviews Unit Plans and Funding Priorities in light of the allocation received from the Regents in consultation with units reporting to them and propose to the President a revised list of priorities in keeping with the allocation received.

**May:** The President approves the resident instruction budget for the next fiscal year and submits it to the Regents' central office.

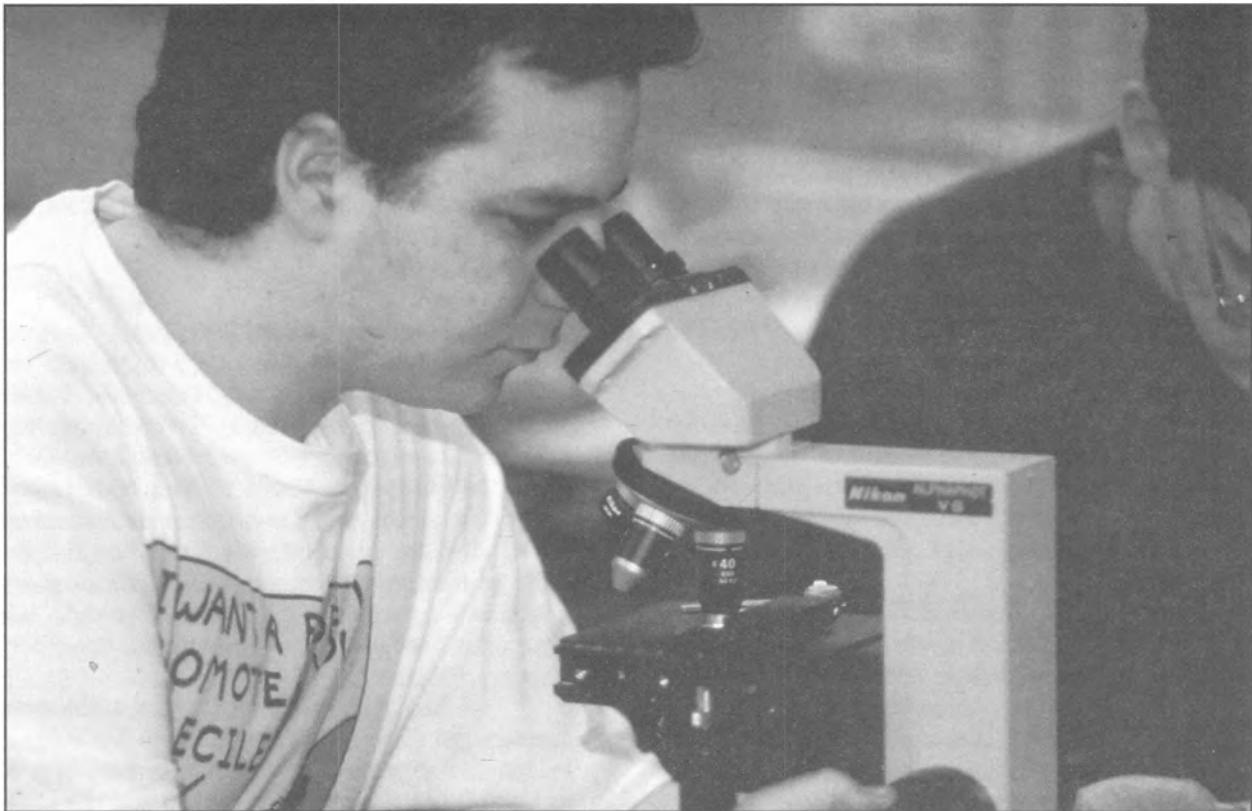

**May-June:** Departments conduct, for the concluding fiscal year, their annual assessment of unit goals achieved, learning outcomes realized, and use of results to improve effectiveness, along with other information solicited, and submit reports to the appropriate dean, or vice president, who consolidates the reports for submission in July to the Vice President for Academic Affairs.

**July:** The cycle begins again.

---

# INSTITUTIONAL RESEARCH

# INSTITUTIONAL RESEARCH

## History

The Department of Institutional Research and Planning at the State University of West Georgia possesses a long history and rich tradition. The University established the Office of Institutional Research in 1967; subsequently, the operation evolved into the Department of Institutional Research and Planning. However, the scope of institutional research is broader than the activities of a single office. Faculty and administrators utilize institutional research methods to conduct self studies, prepare annual and fifth year reports, write operational plans, and facilitate other major responsibilities.

Institutional Research activities extend beyond the West Georgia campus. The following examples are indicative; however, they do not describe the full impact of West Georgia Institutional Research efforts. The Department's professional staff regularly fill leadership roles for the University System of Georgia's Institutional Research and Planning Committee. In the early 1980's, West Georgia was the first University System of Georgia institution to conduct institutional retention studies. During the past two decades, professional staff in the Department have presented papers and led workshops designed to improve institutional research, facilitate institutional planning, and increase institutional effectiveness.

## Mission

The Department of Institutional Research furnishes significant student, faculty, and program information, provides vital data for institutional planning, evaluates progress toward institutional purpose, and assesses institutional effectiveness.

Institutional Research staff design, implement, and maintain an administratively approved program of continuing institutional studies which generates a steady flow of information supporting West Georgia's institutional planning process. Specifically, the Department provides data which indicate the extent to which the institution meets its goals relative to institutional effectiveness.

## Institutional Research Goals

The Department of Institutional Research adopted the following goals to encourage institutional effectiveness and to foster mechanisms to assess results:

- To serve the executive function of the institution by providing a reliable and proactive management and decision - support system.
- To promote the improvement of West Georgia's planning process in compliance with Board of Regents Policy and the Southern Association of Colleges and Schools Criteria.
- To generate data, information, and analytical reports on institutional research topics designed to improve information usage in the planning process utilized at the University.
- To assist the executive and administrative officers of the University in institutional assessment in order to promote increased institutional effectiveness.
- To provide systematic collection and reporting of standard institutional, regional, environmental, and student-centered information for institutional planning and assessment.
- To reply in a punctual manner to spontaneous requests for descriptive information, data, and analytical reports.

## Major Projects

The Department of Institutional Research conducts a five year cycle of studies: the Entering Student Study, Continuing Student Study, Former Student Study (Withdrawing/Non-Returning Student Study), Student Needs Assessment, Recent and Long-term Alumni Studies, Adult Learner Needs Assessment Study, and Outcomes Assessment Study. The Institutional Research unit designed this series to measure student educational outcomes and institutional effectiveness as well as provide vital information and data to support the University's planning processes.

During Fiscal Year 1997, the Institutional Research unit responded with information and analyses to 289 formal projects or inquiries, representing an increase over the previous year. The unit completed several projects, including the University System's required Request for Proposed Enrollment Plans, and Updates to the institution's Comprehensive Plan, the annual SACS Institutional Update, the Annual Report of Institutional Progress, NCAA Enrollment and Persistence-Rates Disclosure Report, U.S. Department of Education's IPEDS Reports, the institution's Affirmative Action report, and a study of the Perceptions of West Georgia.

The Institutional Research unit continued to provide assistance to various departments and committees regarding preparation for reaccreditation by the National Association of Colleges of Teacher Education, the National Association of Schools of Music, American Assembly of Collegiate Schools of Business, and the National League of Nursing. Staff assisted the Art Department in their attempts to gain accreditation from the National Association of Schools of Art and Design. Furthermore, the unit published the university's electronic Fact Book on the world wide web (<http://www.westga.edu/factbook/>).

Department staff remain active in their professional fields, attending several state and national conferences, and participating in several workshops. Staff made presentations at professional meetings and were active participants in a number of sessions.

The unit collected, analyzed, and reported data and information relative to this institution and University System's enrollment, graduation rates, course taking behavior, academic achievement, persistence rates, Regent's Test scores, declared majors and degrees conferred. Other efforts to perpetuate thoughtful planning include production of annual department fact sheets, and the annual *Fact Book*. The unit responded to many requests for data pertaining to enrollment, student demographics, academic program statistics, and general environmental indicators, with a third of inquiries attributable to the executive function.

#### **The Nature of Institutional Research**

The Department of Institutional Research and Planning at West Georgia, through studies at regularly planned intervals, explores University culture by investigating campus community norms and values. Research findings aid the administration in determining if (and to what extent) values are in conflict and provide a basis for policy analysis and identifying potential problems. West Georgia institutional retention studies indicate causes for attrition. Such studies analyze retention-attrition behavior and provide bases for policy analysis, alternative admissions criteria, and enrollment planning.

Institutional Research helps the University focus its programs on specific student needs. Institutional Research responses to the needs include studies which evaluate academic advising, counseling, career planning and placement, intercollegiate athletics, health services, and housing.

Institutional Research contributes to planning in the development of specific programs through market research techniques and needs assessment, and supports program review by supplying qualitative and quantitative evidence for assessment activities.

Institutional Research supports University development efforts through providing institutional information for external fund raising projects, conducting case studies for use in fund drives, and providing information necessary for data based development strategies. Institutional Research techniques routinely provide evidence which development efforts may utilize to assess their own effectiveness and to consider the viability of new development strategies.

# ALUMNI ASSOCIATION

## West Georgia Alumni Association

The alumni of the State University of West Georgia constitute its largest single constituency and represent its most valuable resource for the University. Membership in the Alumni Association is open to all graduates of State University of West Georgia or the Fourth District A&M School, and to former students who request to belong. Activities of the Alumni Association are directed by a thirty-six member Council. The Association informs alumni of institutional plans, progress, opportunities, and needs.

*Perspective*, the alumni newspaper, is sent to alumni and friends on a quarterly basis.

Major activities include Homecoming, Alumni weekend, and the annual meeting of the Fourth District A&M Alumni Association. Class reunions and other special events involve hundreds of alumni each year.

## State University of West Georgia Foundation

The State University of West Georgia Foundation, Inc. (Foundation), is a Georgia charitable corporation. It receives and manages private contributions (gifts) made for the benefit of the State University of West Georgia. The Foundation has been recognized as an organization exempt from Federal Income Tax under section 501(c)(3) of the Internal Revenue Code, and gifts to the Foundation are deductible as provided for in section 170 of the Internal Revenue code. The Foundation encourages both restricted (specific purpose) and unrestricted (general use) gifts from donors.

The purpose of the Foundation is to promote the cause of higher education within the State of Georgia; to source and receive gifts for the support and enhancement of the University; and to aid the University in its development as a leading educational institution within the state of Georgia and the southeast region of the United States.

The Foundation's Board of Trustees is composed of business, professional, and community leaders plus officers elected by the Board. The Board establishes and provides oversight of the Foundation's operating financial policies and procedures. In addition, the Foundation is committed to provide for the integrity of original corpus (principal) dollars plus assure that all fiduciary commitments made to the Foundation's donors are honored for the life of their agreements. The officers and trustees of the Foundation are committed to a policy of full-disclosure.

The Board of Regents of the University System has recognized that gifts and income from endowments that provide for the private support of system institutions are not taken into account when determining the allocation of state funds to the institution. The Board of Regents recognizes that all of its institutions are dependent, in part, on private funding and encourages all of its institutions to seek the support of alumni, friends, corporations, and other private organizations.

# FACILITIES and GROUNDS

# FACILITIES AND GROUNDS

West Georgia's Facilities and Grounds consists of the Office of the Director, Department of Facilities Maintenance, Department of Facilities Engineering, Department of Motorpool Services, Department of Custodial Services, and Department of Landscaping and Grounds Maintenance. The mission is to maintain a safe, comfortable, and aesthetically pleasing environment conducive to teaching, research, and student life.

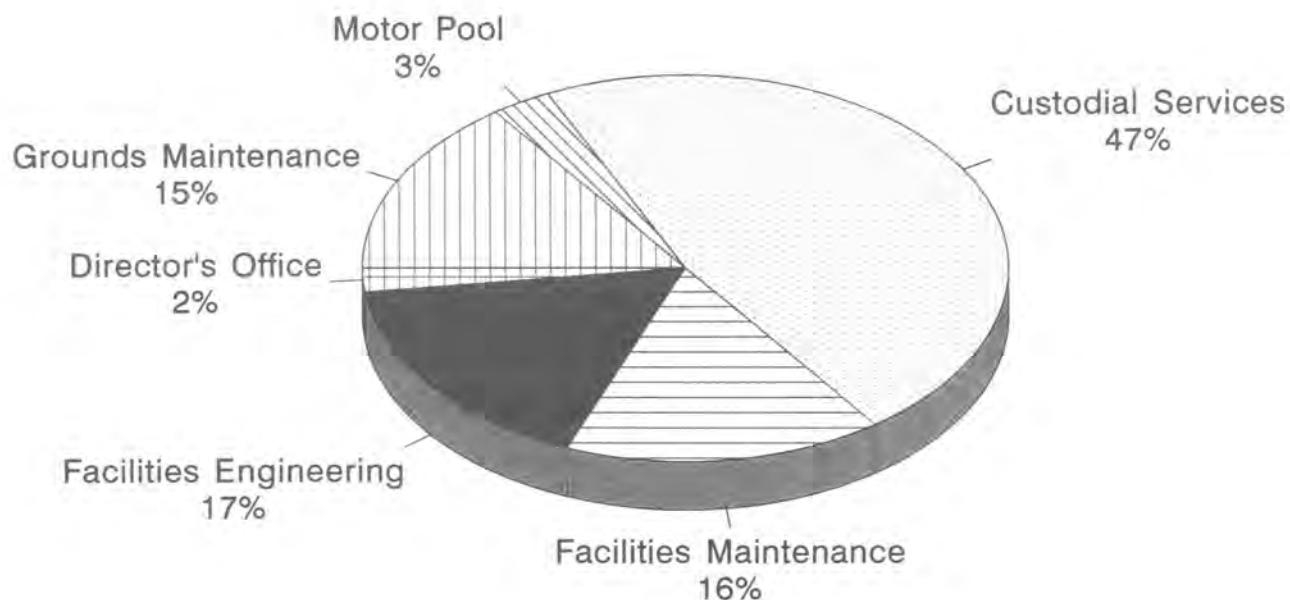

The Motorpool Services staff maintains in excess of one hundred vehicles of all types and other maintenance equipment.

West Georgia's campus is considered to be one of the most beautiful in the University System of Georgia. The Landscaping and Grounds staff continue a long tradition of systematic landscaping that began

in 1919 when Fourth District A&M School Principal, John H. Melson, solicited gifts of trees from each of the then forty-eight states for transplantation to the school campus. University landscapers care for the many plant species residing on the almost 400 acre campus. They also construct and maintain University irrigation systems, curbs, gutters, sidewalks, and athletic fields. A University nursery cultivates plants for seasonal, new, or replacement landscaping.

The Department of Custodial Service staff enhances campus life by providing cleaning and trash removal services for all buildings including faculty, staff, and administrative areas and residence halls. Typified by a congenial attitude, custodial staff directly interact with students, faculty, and staff to provide these services.

# INFORMATION RESOURCES and TECHNOLOGIES

# IRVINE SULLIVAN INGRAM LIBRARY

The Library is the most important learning center on any campus. West Georgia's Irvine Sullivan Ingram Library is one of the most modern library facilities in the state of Georgia. The four story structure provides more than 85,000 square feet of usable research/storage area and over 1,000 seating spaces for students and faculty.

The Library presently contains seminar and conference rooms, lockable faculty carrels, hundreds of individual study carrels, facilities and equipment for microform reading and copying, the Annie Belle Weaver Special Collections Room, large areas for reference, periodical materials, maps, and the circulating book collection. A computer laboratory (second floor), audio and video cassette players, and photocopiers (first floor) are also available to assist students and faculty with their study and research needs.

Fifty-five percent of the Ingram Library staff are professional librarians; they hold (at-least) accredited graduate library degrees and faculty rank. The remainder of the staff meet particular degree qualifications, have specialized job skills, and receive specific training.

The Irvine Sullivan Ingram Library presently houses approximately 332,290 bound volumes, 22,824 reels of microfilm, a limited audiovisual collection, more than 914,147 pieces of microform, 19,828 maps and charts, and 27,398 volumes/pieces of special collection material. The Library currently subscribes to over 1,519 magazines and newspapers. It is the Sixth Congressional District selective depository for over 220,531 United States government publications.

The Library's Unicorn Collection Management System provides automated services for its patrons. Acquisitions, cataloging, circulation, reserves, interlibrary loans, Special Collections, government documents, and serials are available through the Unicorn on-line public access catalog (OPAC). The OPAC also contains an electronic suggestion board, and all patrons are encouraged to provide input to the Library. The University's Newnan and Dalton Centers have full access to Ingram Library's Sirsi Unicorn OPAC. Ingram Library is aggressive in extending its patrons' access beyond local holdings. Through the Library's local area network or from remote dial-in, patrons have access to Library holdings, University System resources, and the Internet services. From PEACHNET Library users -- students, faculty or the general public -- have access to GALILEO (Georgia Library Learning Online) which includes the catalogs of all system libraries and full-text journal and encyclopedia databases. Students and faculty can be issued Joint Borrowers' Cards allowing

them circulation privileges at the other thirty-three University System of Georgia Libraries. For students or faculty who require additional materials locally, electronic generation and transmission of interlibrary loans expedites this process considerably. Subscriptions to Dialog Information Research Services, LEXIS/NEXIS, CARL Uncover, OCLC Firstsearch and variety of CD-ROM databases afford the West Georgia community extended entree into local, state, regional, and international library collections.

Off-campus Library Services ensure that students enrolled in courses at any of the University's remote class sites receive the same level of library support as those at the Carrollton campus. In addition to dial-in computer access off-campus services maintain toll-free services for direct consultation with a professional librarian. Standard services include selection of materials and free delivery to either the student's home or to one of the University's full-time program locations at Dalton or Newnan. Fax and courier service provide timely delivery to these sites. Reserve reading materials can be transferred to a library near the class site and Joint Borrower's Card are routinely issued to off-campus students.

Selective statistics descriptive of Library activities and services for the past five years are provided in the table on the next page.

# INFORMATION TECHNOLOGY SERVICES

## FACILITIES

Information Technology Services (ITS), a service unit within the Office of the Vice President for Academic Affairs, is responsible for operation and support of the major institutional computing and data communications facilities at the State University of West Georgia. Information Technology Services' focus and responsibility is to ensure campus units receive consistent, quality support for their information technology needs.

Information Technology Services supports two IBM RS6000s running the SCT Banner Student Information System, several Sun computers which provide E-mail, news, helpdesk, and web services to the campus community, an HP9000 running the campus financial systems, and a number of microcomputer labs for student, faculty, and staff use. In addition, ITS maintains the campus networking infrastructure. To complement the University's varied hardware and software resources, ITS provides consulting, support services, and training for faculty, staff, and students in the following areas: host systems computing, microcomputing, UNIX workstations, departmental networking, site planning for departmental computing facilities, and hardware and software acquisition.

1. Social Sciences Lab, Room 212 has 20 Pentium workstations. All workstations are networked and have access to West Georgia hosts and the Internet.
2. Math/Physics Room 205 has 15 Pentium networked workstations with access to West Georgia hosts and the Internet.
3. The College of Business Homework Lab has 20 80486 level workstations that are networked and have access to West Georgia hosts and the Internet.
4. The College of Business Classroom Lab, Room 133 has 30 80486 level workstations that are networked and have access to West Georgia hosts and the Internet.
5. College of Business 136 has 30 P133 workstations and 1 P133 multimedia presentations (with overhead projector) and a HPLJ5SiMX 24 ppm 600 dpi laser printer.
6. College of Education MacIntosh Lab has 30 Power Macintosh Computers. All machines are networked and have access to West Georgia hosts and the Internet.
7. College of Education PC Lab has 15 80486 level workstations, 15 Pentium PCS, that are networked and have access to West Georgia hosts and the Internet.
8. The Library computer Lab has 14 Pentium workstations, 5 80386 terminals, and 12 Mac 7100 level workstations. All workstations are networked and have access to all West Georgia hosts and the Internet.
9. The Humanities Labs contains a total of 60 Pentium level workstations, all of which have access to the Internet. Fifteen of these are located in the Music Education Lab and have midi keyboards attached.

---

## SOFTWARE

The State University of West Georgia provides current microcomputer software for student, faculty, and administrative use. Software currently available on campus include the following (this list may be incomplete because of upgrades to or replacement by more current software):

<b>Word Processing</b> MacWrite Microsoft Word PC Write WordPerfect	<b>Data Management</b> DBXL DBase III Plus Foxbase Oracle RBase for DOS Paradox Fox Pro Lan	<b>Network Software</b> Novell Netware Apple Share Windows NT

<b>Internet</b> Telnet FTP Gopher Netscape	<b>CAD</b> VersaCad-MacIntosh Design CAD CAD Key	Virus Safe Antivirus Software

# TECHNICAL SUPPORT SERVICES

The Learning Resources Center (LRC) provides faculty with instructional technology and assistance with instructional design for classroom use. The LRC stocks and maintains a wide range of audio-visual technology inventory, from slide projectors and overheads to laserdisk players and LCD panels. It is also responsible for installation and maintenance of technology permanently placed in classrooms such as TV/VCRs, overhead projectors, and multimedia units. The LRC assists in training faculty and staff in the use of instructional technology.

Creation of visual aids such as color slides, overhead transparencies, computer generated slides,

and on-screen presentations is also an important service of the LRC. The Instructional Resources area converts photos into slides as well as provides darkroom services such as printing black and white photographs and developing Ektachrome slides. Other production services such as lamination, black and white transparencies, and VHS tape dubbing are also available.

The LRC is located on the ground floor of the LRC/Geography Building across from the Library on Back Campus Drive. LRC professional staff members hold advanced degrees from accredited institutions and have extensive experience in instructional technology and design.

# STUDENT SERVICES

# WEST GEORGIA STUDENT SERVICES

## DIVISION OF STUDENT SERVICES

The State University of West Georgia offers a full range of services and extracurricular activities to its students. The Division of Student Services, as a complement to the academic program of the University, provides a variety of educational services, developmental programs, and student activities designed to enrich the students' college life. Ten units, from initial high school contact through college graduation and job placement, report to the Vice President for Student Services and Dean of Students to interact with students through organized services and programs to create a campus responsive to individual student needs.

**The Office of Admissions** administers the undergraduate admissions policies and procedures of the University, evaluates eligibility of undergraduate applicants for admission and recommends policies governing admission of undergraduates. The Office of Admissions also coordinates a comprehensive student recruitment program for the University.

**The Office of Financial Aid** coordinates financial assistance for nearly sixty-five percent of West Georgia's students. Office staff determine eligibility for aid awarded by the University and record aid received by students from other sources, such as the State University of West Georgia Foundation, corporations, and individuals. The office coordinates the awarding of student financial aid and reports to the Board of Regents, federal government, and University officials all aid awarded to students attending the University.

**The Department of Health Services** housed in the Student Health Center, includes both an outpatient clinic and infirmary, and is under the supervision of a full-time physician. Nurses are on duty from 8:00 a.m. to 6:00 p.m., Monday through Friday. Students may be admitted to the infirmary for observation and minor illnesses. Students are referred to other medical personnel or facilities for special services such as x-ray, surgery, and dentistry. Often, medication necessary for treatment is available at the Center. In addition, many tests performed in the Health Center laboratory are covered by the student's health fee.

### Health Services Fiscal Year 1996-97

#### Patient Services

Patient Visits	21,058
Prescriptions Filled	20,609
Lab Tests	7,808
Patients seen by Physicians or Nurse Practitioner	10,548
Allergy-Injections	319

**Intramural Program.** The University provides opportunities for recreation, social contact, and healthy exercise through an excellent intramural program. Over 4,500 students participate in various leisure programs in the University's weight room, game room, swimming pool, gymnasium, and outdoor adventure program. Intramural programs include football, softball, basketball, volleyball, tennis, track, kick ball, ultimate frisbee, bowling, swimming, aerobics, and numerous individual gaming and sporting events.

**The Department of Career Services** conducts activities which support students and alumni in achieving their short-term employment needs and their long-term career needs. Specific services which the department offers include Student Employment (on and off campus part-time and temporary jobs), Professional Practice Internships, Cooperative Education (major and/or career related work experience), and Career Employment assistance (job listing services, job search seminars, special career events and other services). The department also provides services on the Internet through a program called jobNET (<http://www.westga.edu/~coop/index.html>), a vacancy job announcement bulletin system called JOBTRAKKER (subscriptions available to alumni), an electronic resume service called Resume Expert Plus (electronic resume referrals to employing organizations) and a 24 hour telephone hotline, Jobtalk, which may be reached at (770) 836-4650.

### Career Employment, Professional Practice and Student Employment Fiscal Year 1996-97

#### Professional Practice

Students Placement	76
Participating Employers	63

#### Student Employment Program

Students visits to Office	3,711
Referrals	7,041
Placements	1,070
Wages Generated	\$2.4 Million

#### Career Employment Program

Recruiting Organizations	244
Job Postings	236,493
Referrals	1,060
Credentials Mailed	1,539

**The Office of the Registrar** is responsible for the registration process and for processing schedule changes, providing transcripts, and maintaining permanent student records. The Office publishes a schedule of classes each term, assists with graduation, and determines residency status. An advanced registration system enables students to obtain confirmed schedules for the next term several weeks before the new term begins.

**The Office of Student Activities** works in partnership with students to provide programs and services which complement student learning and the academic experience. The Office provided over 100 individual programs in 1996-97. The staff coordinates the registration process for nearly 100 student organizations, provides advisement for a Greek system that involves 15 percent of the student population, and coordinates an intramural program that involves 3,500 students each term. The staff advises the Student Government Association, the Black Student Alliance, the Student Activities Council, Black Greek Council, Panhellenic Council, and the Interfraternity Council. The Office also coordinates the campus I.D. card program, Black History Month activities, Homecoming, Annual Campus Awards Program, University Volunteer Program, Leadership to Go, Spring Fling, and Welcome Back Blast.

**The Student Development Center** provides career, mental\health and academic counseling for State University of West Georgia students and support services for disabled, international, and non-traditional students. During the past year, approximately 300 students were seen for personal counseling. More than

1,000 students each year participate in group and developmental programs offered by Student Development. Four of the five counselors on staff are licensed and hold a specialist or doctoral degree. The Center also provides 153 disabled students with assistance in physical and academic accommodations. The 102 campus international students are advised through the Center regarding housing, immigration matters, finances, and personal-cultural adjustment.

**The Office of Residence Life** provides on-campus residence hall housing for students. Ten residence halls house approximately 2,000 West Georgia students. Unmarried freshmen who do not reside with parents within a thirty mile radius of the University are required to live on campus. Many upperclassmen choose to do the same. Some halls are for men or women only. Others are co-educational with separate areas for men and women. Residence halls provide comfort, and attractive surroundings, as well as a community living experience which fosters development of disciplined minds, social conscientiousness, and responsibility for governing group affairs. In addition, a variety of social, educational, and recreational programs are provided to promote individual growth and development.

#### Student Housing

**Minority Achievement Program** is an academic and social support program for minority students. It is designed to support minority students in their transition from high school to college. The Program utilizes minority upper class students who serve as a big brother or big sister to the freshman minority students through the Peer Advising portion of the program. In addition, the Program offers academic and personal consultation services, conducts an Early Intervention Program for students having academic difficulty, and coordinates programs to stimulate academic and cultural growth.

**The Freshman Center** is devoted to the success and welfare of first year and transfer students. Generally, the Center is a trouble shooter for any first year or transfer questions and concerns. It offers academic advising and registration for students who are undecided about a major. The Center has programs to help students explore information about the various majors offered on campus and career options. By appointment, tutoring for most of the courses in the core curriculum is offered. All services of the Center are free of charge. The Center is located temporarily on the second floor of the Education Building, phone number 836-4680.

#### **OTHER STUDENT SERVICES**

In addition to the assistance provided by the Division of Student Services, many other services and activities are available to students throughout the academic year.

**Arts** ranging from Broadway plays to opera to jazz, West Georgia's fine arts departments offer many opportunities for student performance and cultural enrichment. Both musical and theatrical productions are scheduled year-round. The Concert Choir, Chamber Singers, Marching Band, and Opera Workshop are available to students interested in music. Several areas in the Humanities Building are used for student, faculty, and traveling art exhibits.

**The University Bookstore**, located at 120 Cunningham Drive, carries all textbooks, materials, and school supplies necessary for students' use in their classes. The Bookstore also offers a wide selection of imprinted merchandise and clothing, as well as office supplies, general books, magazines, computer software, greeting cards, gifts and art supplies. The Bookstore is also a pick-up station for UPS.

**Food Services** operates the student cafeteria which serves all meals to hall residents who have meal tickets and others who purchase meals on a cash basis. The Food Services Building has a private dining room and large multi-purpose area suitable for parties, movies, dances, and other entertainment. A food court in the Student Center offers hot and cold sandwiches, pizza, pastries, salads, and other short-order items.

**Intercollegiate Athletics** at the University is one of the most varied and successful athletic programs in the state. The University fields men's intercollegiate teams in baseball, basketball, cross country, football, and tennis, while women's programs are offered in basketball, cross country, softball, tennis, and volleyball. All of the University's teams are affiliated with Division II of the National Collegiate Athletic Association and compete in the Gulf South Conference.

West Georgia won the state's first national collegiate basketball championship, and since joining the Gulf South Conference, the Braves have captured two league basketball titles. In 1982, the Braves won the national championship in Division III football, thereby making West Georgia one of only six colleges or universities ever to win national titles in football and basketball.

Women's athletics at West Georgia contribute significantly to the overall success of the University's intercollegiate athletics program. West Georgia's women's basketball team captured the Gulf South tournament title in 1992. The Lady Braves volleyball team has won numerous state championships in the last decade.

**The University Post Office** provides all U.S. Mail services; registered, certified and insured mail, and money orders. An inter-office service provides free campus delivery for student, faculty, and staff.

**The Department of Public Safety** is a state certified police agency which provides law enforcement services to the University community on a 24 hour basis. The department's duties include protection of life and property, enforcement of state law and University regulations, prevention of crime, operation of the campus shuttle system, and parking control.

**The Student Government Association** is for undergraduate and graduate students. The purpose of the Student Government Association is to deal with matters of student affairs, perpetuate the ideals of West Georgia, promote harmonious relations throughout the University and set forth the general principles of governance of the student body. It is comprised of five branches: the Executive Council, the Student Congress, the Freshman Council, the Graduate Council, and the Student Judiciary Commission. The student body elects a President, Vice President, Treasurer, Judiciary Chair, and a Student Senate consisting of 17 representatives.

**The West Georgian** and **The Eclectic** are written and produced by students, for students. **The West Georgian** is the free, weekly newspaper distributed at various campus locations. All students are invited to work on the staff in news reporting, sports, arts, and photography. **The Eclectic** is a literary magazine published each spring quarter, containing poetry, prose, art, and photography.
