Dear Students, Faculty and Staff Colleagues, Alumni, and Friends of the University:

The 2007-08 year will be remembered as an historic year in the chronicles of the University of West Georgia. Perhaps the most significant and long-lasting effects will be the result of our being named by the Board of Regents as one of a selective set of Doctoral Comprehensive Universities labeled as the Robust Tier (or in common parlance, "The Fantastic Four"). Of the 15 comprehensive universities, four were selected to be this robust tier – in alphabetical order, these are Georgia Southern, Kennesaw, Valdosta, and West Georgia. The idea, a great tribute to the vision of the Board and of the Chancellor, is to create a few destination universities – which will be regarded in the minds of good high school students, and their parents, counselors, and teachers, as first-choice universities. The State of Georgia loses far too many good students to other states because they often perceive only our research universities as being first-choice institutions. So, by developing UWG as such a destination university, we advance not only the cause of West Georgia, but also the good of the State.

Now that we have been given this designation, we need your help to make it a reality in the hearts and minds of Georgia's better high school students, and their parents, counselors, and teachers. We need your help to enhance our academic excellence, our personnel resources, our facilities, and our funding – all of which are doing very well, but all of which can do even better – with your time, your talents, and your treasure.

The fall semester opened with record-breaking enrollment – 10,677, and the spring semester also broke a record – it was the first ever spring semester in which we exceeded the 10,000 student mark. In both these semesters, student credit hours taken reached record levels as well. A few examples of our theme of *Educational Excellence in a Personal Environment* follow:

For the eighth time in ten years, University of West Georgia students had more papers accepted at the very competitive National Collegiate Honors Council than any other institution in America. This is what I call *A Decade of Dominance!* 

For the 35<sup>th</sup> consecutive year, the University of West Georgia Debate team qualified for the National Debate Tournament, a record that is matched or broken only by four universities in America: Harvard, Dartmouth, University of Southern California, and the University of Kansas.

The Board of Regents awarded their 2007 Teaching Excellence Award to Dr. Sharmistha Basu-Dutt, associate professor of chemistry and director of Engineering Studies.

Dr. Muriel Cormican, associate professor of German, received national recognition from the College Board and the Educational Policy Improvement Center. Her course "German Composition" was identified as one of the top 10 German courses in the nation in a study of higher education courses.

Paul Guest, poet and visiting professor of English at UWG, is a recipient of the prestigious 2007 Whiting Writers' Award. Guest is one of 10 emerging writers of exceptional talent and promise to receive the prize of \$50,000 this year.

Dr. Said Sewell, associate professor of political science and planning at UWG, received an African American Male Initiative Best Practice Leadership Award from the University System of Georgia for his nationally recognized programs on campus.

The University of West Georgia ranks near the top in the state in enrollment numbers for its online courses and programs. The UWG Distance and Distributed Education Center has increased its course selections and programs and now accounts for 40 percent of all student enrollment in e-Core courses in the University System of Georgia. UWG was among the first institutions in the university system to offer online courses back in the 1990s and enrollment has increased from 250 students in 1997 to 3,700 in 2007.

Since 2004, *The Princeton Review* has named UWG in its *Best Southeastern Colleges* publications, and in 2007 and 2008, it has listed UWG in its guide to *America's Best Value Colleges*.

*The Princeton Review* has also recognized the Richards College of Business in its *Best 282 Business Schools Edition* for 2007 and 2008.

West Georgia's online WebMBA program has won recognition as one of the Top 25 Best Buys in the country by GetEducated.com and *The Princeton Review* has listed the Georgia WebMBA as a "top choice" for an online MBA for 2008.

James Magazine awarded the University of West Georgia as a top 10 pick in four categories in its third annual "Ranking Georgia's Colleges and Universities" publication and is mentioned as "an institution of note."

In the *James* Top Political Science/Governmental Affairs Programs in Georgia category, UWG ranked sixth out of 10 universities in Georgia.

Other rankings for West Georgia were seven out of 10 in the People's Choice Based on Academic and Overall Reputation category, a list that includes Emory University, Georgia Tech and the University of Georgia, and a ninth place in the Institution Georgian's Most Identify Themselves With As To Interest, Support and Favorable Opinion category.

The University of West Georgia received recognition for its legacy green space with the prestigious 2007 Regents Award for Excellence for the Love Valley/Student Center Project completed last year.

The Crystalline-Rock Hydrogeology Research Station was established on campus in the late 1980s and is still serving the campus and the community in a time of drought. The ground water research facility has catapulted West Georgia to the leading edge of applied groundwater research of crystalline rock aquifers in the southeast. Rare in an undergraduate program of study, the research station not only provides unlimited teaching and research opportunities to faculty, students and professionals at the United States Geological Survey, it also plays a major role in developing water supplies in the region.

For the first time in the history of the university's Newnan Center, there was a graduating class walking down the aisle. Twenty-six students graduated from the UWG nursing program, a four-year, bachelor's program that is based on the Newnan campus. The Department of Sociology and Criminology at the University of West Georgia opened its new state-of-the-art Survey Research Lab in the Pafford Building. Along with the University of Georgia and Kennesaw State University, UWG is one of only three institutions in the state to offer the services of a survey research lab. The lab will benefit community businesses and organizations and will be accessible to faculty, graduate and undergraduate students.

And the list goes on...

Onward and Upward, West Georgia!

Sincerely,

Beheruz N. Sethna, Ph.D.

Professor of Business Administration, and

President of the University

Sherry of Sett.

# History

The University of West Georgia, a senior unit of the University System of Georgia, is a co-educational, residential, liberal arts institution located in Carrollton, Georgia.

Carrollton, about an hour's drive from Atlanta, is the seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton provides a regional population of approximately 100,000 with retail shopping, medical, educational and financial services, entertainment, and recreation.

The University of West Georgia originated in 1906 as the Fourth District Agricultural and Mechanical School (A&M), one of twelve such institutions established by the State of Georgia between 1906 and 1917. In 1933, an act by the Board of Regents of the University System of Georgia established Carrollton's A&M School as West Georgia College. Dr. Irvine S. Ingram, principal of the A&M School became the College's first president.

In 1957, the institution was authorized to confer a Bachelor of Science degree in Education, making it a four-year senior college unit of the University System of Georgia. Now, majors in over fifty different fields provide students a wide range of options for their undergraduate degrees.

During the following years, West Georgia College became one of the fastest growing institutions of higher learning in the South. From an enrollment of 576 in 1957, the institution's student body is now over 10,000. West Georgia offers 12 undergraduate degrees with majors in over 50 fields.

In 1967, the Board of Regents authorized the initiation of a Master's level graduate program. The institution currently offers ten Masters degrees in over 30 areas of study. The Specialist in Education degree is offered in 12 areas of study, and in 1999, the Board of Regents approved the institution's first doctoral program in Education.

In 1983, the Board of Regents approved the External Degree Program as a cooperative effort between Dalton College and West Georgia. Since its inception, close to 400 degrees conferred through the Center. The Board of Regents in 1988 approved opening the Newnan Center, a joint effort involving the Newnan-Coweta Chamber of Commerce and other business, civic and educational leaders in the area. With an enrollment of more than 300, the Newnan Center provides core curriculum and a possible degree in General Studies for residents in the Newnan-Coweta County area.

On June 12, 1996, in an historic decision, the Board of Regents of the University System of Georgia voted to change the name of West Georgia College to the State University of West Georgia. On January 12, 2005, they voted to approve changing the name from the State University of West Georgia to the University of West Georgia (UWG).

The University is experiencing significant growth that includes four major construction projects: two phases of residential housing, a new campus center (student recreational facility), and the Health, Wellness, and Lifelong Learning Center. When all projects are complete, the gross asset value of the University's facilities will be approximately \$200 million. The University is also poised to augment its campus by nearly 270 acres through the addition of the City of Carrollton's gift of 246 acres and the purchase of 23 acres by the West Georgia Foundation, Inc.

# The Campus

The campus is a unique blend of old and new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900s, as well as buildings exemplifying the most contemporary modes of architecture.

The front, or "Old Campus," a three-block-long expanse of rolling hills shaded by scores of old towering oak, elm, and maple trees, surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia began as an A&M School in 1906.

Beyond the old campus is a modern academic complex composed of library, social science, humanities, and mathphysics buildings. The Richards College of Business Annex was added in 1985. Other buildings in the area include a threestory student center, a health and physical education center featuring a 3,000-seat gymnasium and indoor pool, and one of the most modern college infirmaries in the state. A performing arts center, containing two theatres, a black box and a main stage, which seat 250 and 455 respectively, was completed in 1989

Situated across from the performing arts center is the focal point for the University's core curriculum classes - the new Technology-enhanced Learning Center. The \$20 million, 110,000-square-foot, three-story, state-of-the-art building was completed in the summer of 2001. Academic departments housed in the TLC include Computer Science, English, Chemistry, and History. The defining feature of the TLC is the "smart" classroom, or studio classroom, in which every student has a computer at his or her desk. Other features include three lecture halls, a seminar room for each department, one generalpurpose computer lab, and several chemistry labs, in addition to faculty offices. In the lecture halls, students have a place to plug in their laptops, and in the lobby area, computer screens offer students a chance for a quick revision of their assignments between classes. Labs and lectures are integrated, and experiments are done on computers. The University believes that this high-tech teaching method increases student learning and is proud to be one of only three institutions in the University System of Georgia to use this approach.

Much of the University's recent physical development occurred on the west side of the campus. The Education Center, a structure unique in the University System, contains five large lecture-demonstration rooms which, by moving sliding partitions, serves as a 1,000 seat auditorium. It also features an instructional materials center, television and sound recording studios, audiovisual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas for independent study.

Adjacent to the Education Center is the Biology Building, a facility with numerous laboratories, lecture halls, and the latest scientific equipment. A 42,000 square-foot Education Annex opened in 1995, housing education and nursing faculty offices, classrooms, laboratories, and the campus day-care center.

A complete renovation of the University's baseball complex was made possible by a gift from the E. Woodfin Cole family in Carrollton. The 20,000 square-foot, two-level Murphy Fieldhouse provides offices for all athletic personnel, a football locker room, Hall of Fame room, sports medicine area and meeting rooms.

The opening of three suite-style residence halls in 2004 and three apartment-style halls in 2005 brought the total of on-campus residence halls to fifteen; providing 3,004 beds for UWG students.

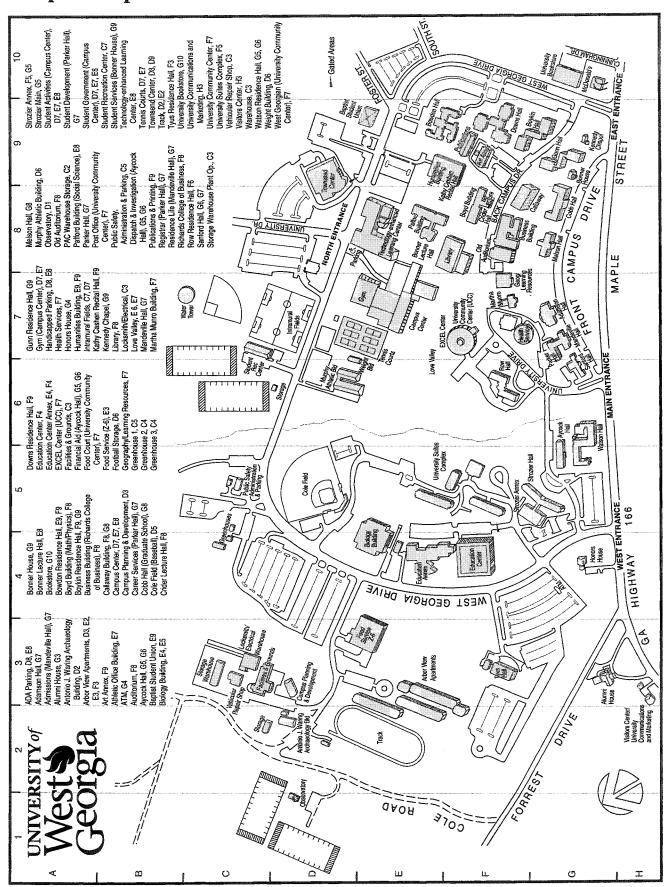

Kennedy Interfaith Chapel and Bonner House are two of the oldest buildings on campus. The Chapel was owned first by the Episcopal Church and later by the Catholic Church. When the local parish built a new church, its members donated the Chapel to the University for non-denominational use. In 1964, the late Robert F. Kennedy dedicated it to the memory of his brother, the late President John F. Kennedy.

The Bonner House, constructed in 1843 as a plantation home, is the oldest building on campus. The frame colonial structure has served various purposes through the years.

# Campus Map

# Mission of the University of West Georgia

The University of West Georgia seeks to achieve preeminence in providing educational excellence in a personal environment through an intellectually stimulating and supportive community for its students, faculty, and staff.

#### Purpose

The University, a charter member of the University System of Georgia, is a comprehensive, residential institution providing selectively focused undergraduate and graduate public higher education primarily to the people of West Georgia. The University is also committed to regional outreach through a collaborative network of external degree centers, course offerings at off-campus sites and an extensive program of continuing education for personal and professional development. Opportunities for intellectual and personal development are provided through quality teaching, scholarly inquiry, creative endeavor, and service for the public good.

## Essential Activities

West Georgia educates students in a range of disciplinary, interdisciplinary, and professional programs at the baccalaureate level. It also offers a significant number of graduate programs at the master's and educational specialist's levels. The University has a commitment to education at the doctoral level in the field of education as well as other selected areas. In addition to being accredited as an institute of higher education, the University maintains national accreditation or recognition in most undergraduate and graduate fields of specialization.

The University of West Georgia pursues its purpose through the following activities:

- Instruction in general education and the promotion of life-long learning that together lay the foundations of what is essential to being an educated person.
- Faculty-directed student research and professional activities that complement classroom learning through learning by doing and reflection on doing.
- Faculty research, scholarship, and creative endeavors that promote knowledge, enhance professional development, contribute to quality instruction, and provide for significant student involvement and fieldbased experience.
- Educational opportunities such as the Honors College and, for extraordinary high school-aged students, the Advanced Academy of Georgia that serve the needs of exceptionally prepared students.
- Systematic investigation of teaching and student learning that fosters innovation in teacher, professional, and pre-professional preparation.
- The use and exploration of existing and emerging technologies that improve opportunities for faculty and student learning.
- A broad range of public service activities and proactive partnerships that: promote more effective utilization of human and natural resources; contribute to economic, social and technical development; and

- enhance the quality of life within the University's scope of influence.
- Student services, including outstanding first-year experiences, which increase opportunities for academic success and personal development and enhance the climate of campus life.

#### Values

The University of West Georgia values the following:

- High-quality general education, undergraduate and graduate programs, that:
  - 1) Are grounded in a strong liberal arts curriculum;
  - Impart broad knowledge and foster critical understanding needed for intellectual growth, personal and social responsibility, cultural and global literacy and lifelong learning;
  - 3) Emphasize disciplinary rigor;
  - Foster the development of effectiveness in communication critical and independent thinking, problem solving, and the use of information resources and technology; and
  - Create a learning community dedicated to instructional excellence where close studentfaculty interaction enhances both teaching and learning for a diverse and academically well-prepared student body.
- Cultivate of a personal environment.
- Affirmation of the equal dignity of each person by valuing cultural, ethnic, racial, and gender diversity in students, faculty, and staff.
- Practices that embody the ideals of an open democratic society and that cultivate an environment of collegiality.

These commitments culminate in educational experiences that foster the development of thoughtful and productive leaders and citizens who make a positive impact throughout an increasingly global society.

# Vision Statement for the University of West Georgia Year 2000 and Beyond

The University of West Georgia will be a leader within the University System of Georgia in providing educational excellence in a personal environment.

The University of West Georgia will seek to create for students from various backgrounds every possible avenue to intellectual achievement, personal development, and leadership potential without compromising academic excellence. The University will maintain close contact with all people of the region, be responsive to their needs while raising their aspirations, and generating a more highly educated populace.

The University of West Georgia will be recognized for excellence in teaching and learning, research, and public service in undergraduate, graduate, and continuing education. The University will be recognized as being fundamental to the educational, social, cultural, technological, and economic advancement of the region and state.

Specifically, the University of West Georgia will be characterized by:

- Educational Excellence evidenced by outstanding educational experiences, national and regional recognition of selected programs, faculty who excel in their disciplines, superior staff support, and an increasingly capable student body. At West Georgia, teaching, research, and service will be intricately intertwined and supportive of each other.
- A Safe, Supportive Community committed to enhancing learning, through close contracts between students and faculty, small classes taught by senior faculty whenever possible and through dedicated staff who help provide a vibrant campus life
- An Outstanding, Diverse Faculty and Staff who demonstrate effective communication and teaching skills; utilize new technologies and innovative strategies to enhance student learning; and exhibit the highest standards of intellectual achievement, research, and continuing growth.
- Educational Opportunities for a Wide Range of Academically-Prepared Students that include a strong academic knowledge base for the development of leadership skills and life-long learning. The University of West Georgia will help ensure its students future success by developing the ability of individuals to access, interpret, analyze using current technology and make use of relevant facts, information, and knowledge to think critically, solve problems, work with, and communicate effectively with other.
- West Georgia will develop the whole individual so that as alumni they will continue to be contributing members of their families, institutions, communities, state, nation, and world.
- Educational Opportunities for Exceptional Students: West Georgia will build a reputation for having an Honors College with a distinctive liberal arts curriculum and additional peaks of excellence in selected undergraduate and graduate majors and professional programs, with student involvement in faculty research, and themes that run across the curriculum, such as communication, leadership development, interdisciplinary studies, critical thinking, and problem solving.

- A Region-Wide Learning Community that Engages and Inspires Traditional and Non-Traditional Students to become educated persons with global and multi-cultural perspectives and advanced technological knowledge. The University will help develop both ethical principles and intellectual flexibility for the future and will celebrate and energize the human spirit through respecting and supporting individual differences in learning styles, identities, and personal/professional goals.
- Pro-active Partnerships with Public and Private Schools and Other Educational Institutions, Business, Industry, Government, and Cultural and Social Organizations in order to analyze, synthesize, evaluate, predict, and respond to changing state and regional needs, to support Georgia's educational, economic, and cultural development, and to ensure graduates' readiness for the present and future.
- A Unified, Clearly Focused, University with each part contributing to and understanding how every other part contributes to the mission of the University and to the larger society.

# **Strategic Planning The Process**

During the Fall 2000 semester the University of West Georgia's President, Dr. Beheruz N. Sethna, created an ad hoc committee to undertake the first stage of West Georgia's strategic planning process. The committee was charged with taking an institutional perspective and was asked for:

"a reaffirmation of UWG's Mission, a study of our publics, and examination of how our programs an services are meeting the needs of the public, and study of UWG's comparative advantage in each of these areas, and an examination of UWG's goals and objectives for the next five years."

The Strategic Planning Committee (SPC) consisted of:

- Eight faculty members drawn in proportion of college faculties
- One representative form each of UWG's four divisions
- One representative form Institutional Research and Planning (IRP)
- One UWG student representative form the Student Government Association and
- One member of business/community

The SPC met each week for two to four hours to answer the following questions:

- 1. Where does UWG come from?
  - a. What factors have contributed to UWG's success?
  - b. What vision brought UWG this far?

- 2. What is UWG?
  - a. What is the business of UWG?
  - b. Who is UWG?
  - c. Who are UWG's competitors?
  - d. What statistics measure UWG's performance and health?
  - e. What are UWG's internal strengths and weakness?
  - f. What are the external opportunities and threats UWG must contend with?
- 3. Where is UWG going?
  - a. What vision will take UWG where it wants to go in the next five years?
  - b. What qualitative objectives will implement that vision?
  - c. What quantitative goals will let us judge our progress?
  - d. What will it take to succeed?
  - e. How does UWG make it happen?

The Strategic Planning Committee's plan for each of the "big three" questions was to:

- develop a first draft of a report
- receive responses to the first draft
- and to publish a second draft.

The University community was requested to:

- Read and respond with reactions to each report, each with multiple drafts and iterations via SPC's web site, http://www.westga.edu/~spc.
- 2. To participate with intensive e-mail discussions.
- 3. Attend open/public meetings held each month after each first draft was completed.
- 4. Volunteer to meet for small-group discussion From the above questions the SPC developed the

"Bread and Butter and Visionary Goals: The Three Fives" These goals are believed to be necessary for the University's success over the next five years. After interim and final reports were posted on the web and revised with University-wide input, the final reports were sent to the University President to study the SPC's recommendations. After review by the University President the report was submitted for consideration by the faculty senate.

Recommendations were approved unanimously by the faculty senate on December 15, 2000.

## "Bread and Butter" Goals

The University's "bread and butter" goals are those that UWG (faculty, staff, and students) must reach if UWG is to be an excellent comprehensive university. UWG would survive if faculty and staff fail to meet them, but UWG would find it difficult to fulfill its mission.

These are the goals UWG believes are necessary for the University's success over the next five years:

 Commitment to UWG's mission and goals. University and College administrators must agree on the University's direction and goals, and must work together to achieve them.  Enrollment management. UWG must improve undergraduate and graduate recruitment and undergraduate retention while continuing to raise admission standards.

#### **Recruitment:**

- a. Improve the reputation of UWG among high school guidance counselors, teachers, and college-bound students. (See "Public Relations" below.)
- b. Develop focused recruitment plans aimed at qualified and diverse high school students.
- Build stronger ties and articulation agreements with the two-year colleges of the University System of Georgia (USG) and the technical colleges of the Department of Technical and Adult Education (DTAE).
- d. Develop focused recruitment plans for our graduate education programs.

#### **Retention:**

- a. Enhance the Freshman Center.
- Consider expanding the Freshmen Center's role to encompass more than the freshman year, with an appropriate name change.
- Give the Freshman Center a central physical presence on campus.
- Develop more peer tutoring and mentoring programs.
- b. Develop a comprehensive strategy for academic advising, perhaps in conjunction with the enhancement of the Freshman Center.
- c. Develop student ties to UWG so students want to stay until the degree is earned rather than transfer to other USG institutions. (See "The University experience" and "Campus infrastructure" below.)
- d. Increase Undergraduate admissions standards each year as UWG has since 1997.
- e. Increase scholarship support and counseling for students with emergency financial needs.
- 3. **Academic programs**. Academic excellence is the essential goal of the University. Academic programming must be shaped by the mission of the University.
  - a. Use periodic program reviews to ensure that departments and programs are mission-driven.
  - Allocate resources for the improvement of existing programs and the development of new programs only in accordance with UWG's mission as a comprehensive state university.
  - c. Give high priority to obtaining and maintaining accreditation for every program for which a national accrediting agency exists.
  - d. Include faculty-directed student experiential learning, research, creative, or professional activities in academic programs whenever possible.
  - e. Ensure that the general education program offered in the core is coherent and rigorous, with learning outcomes that can be clearly and consistently communicated.

- Public relations. Public relations must become a campuswide focus. Too often, UWG's image does not reflect who UWG is and what UWG does well. Inaccurate public perceptions of the University are a prime barrier to UWG's continued progress.
  - a. Launch a campus and statewide campaign to define and promote UWG as an excellent comprehensive university, targeting the visionary goals defined in the strategic planning process.
  - Use campus resources, particularly mass communications students, faculty, and equipment, to maximize the effectiveness of Public Relations (PR) office activities.
  - c. Encourage faculty and staff members, administrators, and students to participate in Public Relations initiatives.
  - d. To increase participation in PR, form a subcommittee of the General University Matters committee of the Faculty Senate to take the lead on the Committee's existing charge to recommend policy and procedures for public relations. The subcommittee should include representatives from the administration, staff, and student body in addition to its faculty members.
- 5. **The University experience.** Faculty and Staff must improve the quality of the university experience for both commuter and residential students if West Georgia is to fulfill its mission. To improve recruitment and retention, faculty and staff must change the sense of many students that UWG is just the place where they take classes.
  - Give students a reason to stay at UWG on weekends.
  - b. Continue improving the programming and facilities of the University Center.
  - c. Tie commuter students into the life of the campus.
  - d. Explore ways to provide off-campus transportation to improve access to entertainment, shopping, and residences.
  - e. Continue to encourage cultural, ethnic, racial, and gender diversity in students, faculty, and staff, and to work to ensure that equal opportunities and resources are available to all.
  - f. Recognizing both the appeal of having an oncampus multipurpose stadium and the difficulty of fundraising, study the feasibility of building a multipurpose stadium.
- Student, faculty and staff morale. UWG must continue to improve the positive campus climate at UWG and to enhance the moral of our students, faculty, and staff members.
  - Develop policies that address student and faculty concerns about class size to ensure that UWG can offer each student educational excellence in a personal environment.
  - b. Develop clearer faculty workload, promotion, and tenure policies that are consistent with the University mission.

- c. Review staff workload, promotion, and compensation policies.
- d. Promote faculty governance through the Faculty Senate and its committees.
- e. Develop procedures for assessing and improving campus services for students.
- External relations. UWG must work to improve ties offcampus.
  - a. Increase the engagement of alumni in recruitment, fundraising, and public relations.
  - b. Forge stronger and broader town/gown relations.
  - c. Emphasize regional service in our academic and extracurricular offerings.
  - d. Promote an understanding of cultural diversity within the region.
- 8. **Regional collaboration for economic and community development.** UWG must form partnerships with government agencies, businesses, and non-profit organizations that let UWG apply the resources of the University to the solution of our community's economic and social problems.
- 9. **Information technology.** UWG must employ appropriate information technology to enhance student and faculty learning, provide access to distance education resources, and conduct the administrative functions of the University.
- 10. **Campus infrastructure.** UWG must develop effective plans to maintain infrastructure necessary to deliver university services.
  - a. Allocate adequate resources to building maintenance: mechanical systems, roofs, carpeting, paint, etc.
  - b. Develop a comprehensive strategy for requesting and scheduling maintenance.
  - c. Develop adequate budgets for computing and networking technology.
  - d. Treat replacement of computers and networking equipment as recurring budget items rather than as one-time capital expenditures.
  - e. Explore ways to improve student housing to compete effectively with UWG's peer institutions.
- 11. Capital campaign. UWG must raise money and expand sources of funding beyond the local community. State funding and current external fundraising activities like A-Day cannot meet UWG's needs for facilities. Therefore, in conjunction with UWG's new centenary date of 2006, hold a multi-million dollar capital campaign.

# Visionary Goals: The "Three Fives"

The University of West Georgia (UWG) will achieve national recognition as a leader among, and model for, state comprehensive universities in these five areas:

- faculty-directed student research and professional activities
- the Honors College and Advanced Academy
- the First-Year Program

- technology across the curriculum and
- innovations in professional preparation.

The foundation for each of these goals is provided by one or more existing programs or activities that offer a starting point for our efforts. All the goals satisfy the criteria defined in the charge of the University Strategic Planning Committee:

- Enhance educational excellence in a personal environment
- Multidisciplinary, they are feasible and assessable and
- Funded or externally fundable.

Each goal also meets an additional criterion set by the committee: all will support the University's efforts to achieve its "bread and butter" goals, including recruitment and retention.

The "three fives" define for the University community areas in which UWG should work to achieve national recognition. It will be up to those who carry out the later phases of the strategic planning process to decide how individual units should participate in achieving the goals and, based on those decisions, how our progress towards reaching them can be assessed.

#### Faculty-directed student research and professional activities.

Faculty-directed student research and professional activities complement classroom learning by providing opportunities for learning by doing and by reflection on doing. UWG can build on existing programs like the Celebration of the Scholarship, Big Night, the debate program, the Concerto Competition, and the Sigma Xi research paper a competition to become national leaders in the area.

The activities best suited for a particular student will depend on the discipline and the talents and interests of the student. Appropriate experiences may include theoretical or applied research in collaboration with a faculty member; community services, co-op, and internships positions on or off campus related to the student's area of study, with the faculty members providing the structure for reflection on the "real world" experience; and academic competition under faculty guidance, like debate tournaments and investment management contests.

Given this wide range of activities, each academic department at UWG can participate in the achievement of this goal. In addition, student research and professional activities can contribute to the success of the other visionary goals.

UWG's national standing, in this area, can be assessed by using such measures as:

- 1. Rates of participation in experiential learning activities.
- 2. Number of publications in undergraduate research journals, of juried exhibits and performances by students, and of adjudications.
- 3. Amount of external funding for student research.
- 4. Number of student presentations at academic and professional conferences.
- 5. Success in academic competition.

The home unit responsible for this goal would be Center for Student Research and Professional Activity.

#### The Honors College and the Advanced Academy.

The Honors College at UWG is one of the fewer than fifty such colleges in the U.S., and has developed a strong foundation for future growth. The Advanced Academy is one of fewer than ten such programs in the nation.

The development of the Honors College and the Advanced Academy can work hand-in-hand with each of the five visionary goals by increasing the likelihood of success in each. By strengthening the Honors College and the Advanced Academy ties to other programs like international studies, the Honors College can contribute to the success of other programs while fashioning a unique niche for itself.

UWG's national standing, in the area, can be assessed by using such measures as:

- Growth in enrollment in the Honors College and the Advanced Academy.
- 2. Admissions standards.
- 3. Breadth of Honors offerings.
- 4. Participation of Honors and Academy students in research and professional activities.
- 5. Admission of Honors graduates to graduate and professional study.

The home unit responsible for this goal would be the Honors College.

## The First-Year Program.

Building on the work of the Freshman Center, the First-Year Program would provide an integrated approach to the academic, social, and personal development of UWG's freshmen.

The First-Year Program would offer programs such as learning communities for groups of freshmen who would take classes together; peer mentors for learning communities; access to LIBR 1101 for all at-risk students; service-learning opportunities; and comprehensive academic advising.

UWG's national standing, in this area, can be assessed by using such measures as:

- 1. Listing in the University of Colorado's "College and University Service-Learning Programs" directory.
- 2. Staff presentations at the National Conference on the First-Year Experience and publication in the *Journal on the First-Year Experience*.
- 3. External funding for support of first-year programs.

  The home unit responsible for this goal would be the EXCEL: Center for Academic Success.

#### Technology across the curriculum.

UWG should develop a comprehensive strategy for incorporating information technology into academic programs and student services. The University should:

- Develop high-tech minors and programs for students in the humanities, national and social sciences, business, and education
- Ensure that every graduate is competent in the use of information technology in his or her discipline, and
- Become a leader in the innovative use of asynchronous learning environments to support both distance education and classroom instruction.

An institutional focus on technology across the curriculum could contribute to UWG's success in faculty-directed student research and professional activities and in regional economic and community development. It could also help provide distinctiveness for the programs of the Honors College.

UWG's national standing, in this area, can be assessed by using such measures as:

- 1. Inclusion in *Yahoo! Internet Life's* list of top 100 Wired Colleges.
- 2. Listing in the Sloan ALN Consortium Catalog of On-Line Educational Programs.
- 3. Publications and presentations in the asynchronous learning journals and presentations at asynchronous learning conferences.
- 4. Disciplinary recognition for the integration of information technology into academic programs, particularly in traditionally low-tech disciplines in the humanities and social sciences.

The home and unit responsible for this goal would be an expanded Center for Technology and Learning.

#### Innovation in professional preparation.

Drawing on resources from the three Colleges, College of Arts and Sciences, College of Education, and Richards College of Business, UWG should become a national model for innovations in professional preparation grounded in the scholarship of teaching and learning.

This goal links two core elements of the historical mission of state universities like UWG: professional education and a commitment to excellence in teaching. To reach it, the challenge will be to infuse the systematic investigation of teaching and student learning into professional preparation. Achieving this goal can help satisfy urgent state and national demands for innovation in teacher preparation while strengthening the professional and pre-professional programs offered by the three Colleges. Moreover, insights gained through the scholarly study of teaching and learning can be generated by and can contribute to the work of faculty members in any discipline. While the focus of the goal is on improving professional education at UWG, the benefits will accrue across the University.

Achieving this goal will require support by the University and the Colleges for the scholarship of teaching and learning in all disciplines and collaboration among the Colleges to promote innovation in professional preparation.

UWG's national standing, in this area, can be assessed by using such measures as:

- 1. Participation in the Teaching Academy Campus Program of the Carnegie Foundation for the Advancement of Teaching.
- 2. Recognition by scholarly and professional societies for work in professional preparation and the scholarship of teaching and learning.
- 3. External funding.
- 4. Improvement in acceptance rates to professional schools.
- 5. Improvement in passing rates on professional licensure and certification examinations.
- 6. Media coverage of our innovations in professional preparation.

The home unit responsible for this goal would be a Center for Innovations in Professional Preparation.

#### **Accreditation and Affiliations**

The University of West Georgia is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: Telephone number 404-679-4501) to award bachelor's, master's, education specialist's degrees, and an education doctorate degree. Accreditations also include the following:

- AACSB International-The Association to Advance Collegiate Schools of Business
- American Chemical Society
- Commission on Collegiate Nursing Education
- Computing Accreditation Commission of the Accreditation Board for Engineering and Technology
- Council for Humanistic Transpersonal Psychology
- National Association of Schools of Arts and Design
- National Association of Schools of Music
- National Association of Schools of Public Affairs and Administration
- National Association of Schools of Theatre
- National Council for Accreditation of Teacher Education

Organizations in which the University holds institutional membership include the American Association of Colleges for Teacher Education, American Association of State Colleges and Universities, American Council on Education, Conference of Southern Graduate Schools, Georgia Association of Colleges, National Association for Foreign Student Affairs, National Business Education Association, and National Collegiate Honors Council.

# **The Honors College**

June 1999, the Board of Regents elevated the status of the Honors Program to the Honors College, creating the first Honors College in the State of Georgia. The Honors College includes The Advanced Academy of Georgia, the Select Student Program, Post-Secondary Option for jointly enrolled high school juniors and seniors, Presidential Scholarships, International and National Scholarships and all Honors College curriculum and activities.

The Honors College does not award degrees, but offers a distinctive curriculum featuring two types of courses – special sections of courses required in the core curriculum and junior and senior seminars. The courses are designed to offer more opportunities for research in preparation for graduate or professional school and place more responsibility on the individual student.

Admission to the Honors College is open to entering freshmen who meet two of the following three criteria: (1) a combined SAT score of at least 1200 or the ACT equivalent, (2) a minimum score of 610 on the verbal portion of the SAT or ACT equivalent, or (3) a high school grade point average of 3.5 or higher. The College is also open to any student who has completed 15 or more hours at West Georgia with an overall GPA of 3.2 or higher. Students must enter no later than the beginning of their sophomore year. Individual Honors courses are open on a space available basis to any student with a cumulative GPA of 3.2 or higher who has completed 15 or more credit hours.

Source: UWG Undergraduate Catalog 2007-2008

# **Student Programs and Services**

The University of West Georgia also complements the academic program of the University by providing a variety of educational services, developmental programs, and student activities designed to enrich the students' college life.

*EXCEL: Center for Academic Success*, is devoted to the academic success of all students with special programs for first year, transfer, and undecided students.

EXCEL offers the following services:

- tutoring in all the undergraduate core curriculum courses;
- academic advising and registration for all undecided students;
- career/Major Exploration programs which include, the Strong Vocational Interest Inventory and a computer software program, DISCOVER;
- HOPE and Peer Mentor Programs;
- training in computer basics (word processing, e-mail use, library searches, and surfing the Net);
- weekly instruction sessions in study skills that are appropriate for college; and
- trouble shooting for any questions or concerns.

All services of the Center are free of charge.

Multicultural Achievement Program, is to assist minority students during their initial year at West Georgia. Upperclass peer mentors, who are campus leaders and academic acheivers, work with small groups of new students serving as role models, helping new students establish good study habits, and being a referral agent to other campus resources. Seminars related to achieving academic success and enhancing cultural awareness are offered.

Students academic progress is monitored, and individual counseling sessions are available. Tutoring and involvment in small study groups are encouraged for students having academic difficulty.

Arts ranging from theatre to opera to exhibitions, West Georgia's fine arts departments offer many opportunities for student performance and cultural enrichment. Both musical and theatrical productions are scheduled year-round. The Concert Choir, Chamber Singers, Marching Band, and Opera Workshop are available to students interested in music. Several areas in the Humanities Building are used for student, faculty, and traveling art exhibits.

The *Campus Center*, is the center for campus life. Overlooking Love Valley, it is a recreational center for students to learn, play, relax, and be connected to the campus.

Offices, activities, and services within the Center are:

- Office of Student Activities
- Intramural and Recreational Services
- Campus Center Administration
- Game Room
- Fitness Facility
- Aerobic Rooms
- 1/8 Mile Track
- 25 and 50 feet Climbing Walls
- Meeting Room
- Ballroom
- Basketball Courts
- Outdoor Recreation Center
- TV Viewing Area

Students can find job opportunities in the Campus Center at www.westga.edu/~campus. The Student Government Association (SGA), Student Activities Council (SAC), Black Student Alliance (BSA), and Creek Leadership Governing Councils offices are on the third level.

The Office of Student Activities facilitates student engagement, leadership, and involvement through a variety of programs and services. The office coordinates the registration process for nearly 100 student organizations which involve over 3,300 students and provided 575 individual programs and activities in 2006-2007. The staff provides advisement for a vibrant Social Greek system and governing councils (National Pan-Hellenic Council, the National Panhellenic Council, and the Interfranternity Council), that involved over 10 percent of the undergraduate population. The staff also advised the Student Activities Council, which provides a number of diverse student programs including Homecoming, Welcom Back Week, and Spring Fling, as well as comedy, music and multicultural programs. The office also coordinates the annual Campus Activities Awards Program and provides numerous leadership training programs throughout the year through the UWG Lead (Leadership Education and Development) Program. Leadership programs included Lead Weekend, Women in the Wilderness, a new Emerging Leaders Program and the popular Leadership

Through an excellent Intramurals and Recreational Services, the University provides opportunities for recreation, social contact, and healthy exercise. Over the year, 220,000 fans and participants on over 100+ teams attend various leisure programs including football, softball, basketball, volleyball, tennis, aerobics, paintball, ultimate frisbee, swimming, golf, soccer, regional and international out-door adventure trips, and individual gaming and sporting events. UWG intramural teams participate in state and national tournaments and have won various state and national titles. Also, participants can enjoy the lighted athletic field and tennis courts, fitness and game rooms, climbing wall, gymnasium, fitness trail, personal training and Olympic Track. The Department maintains an outdoor Rental Center where members of the Campus Center can checkout outdoor equipment for sports such as: canoeing, kayaking, skin diving, camping, back-packing, and other outdoor activities

The *University Bookstore* carries all textbooks, materials, and school supplies necessary for students' use in their classes. The Bookstore also offers a wide selection of imprinted merchandise and clothing, office supplies, general books, magazines, computer software, greeting cards, gifts and art supplies. The Bookstore is also a pick-up station for UPS.

New and used textbooks are available at the University's web site: www.bookstore.westga.edu. Textbook orders are shipped within 24 hours of receipt of the order. Orders are delivered in 2-5 business days.

The Student Development Center provides career, mental health, and academic counseling, plus support services for disabled students. The Center also provides training and supervision for select graduate students. During the past year, approximately 600 students were seen for personal, academic and career counseling. More than 1,000 students each year participate in group and developmental programs offered by Student Development. Six of the eight counselors on staff are licensed and hold a specialist or doctoral degree. The Center also provides 680 disabled students with assistance in physical and academic access to campus and classroom programs.

Health Services provides diagnosis, first aid, and treatment of minor or short-term acute illnesses or injuries under the supervision of a physician. Health Services is opened from 8:00 a.m. to 6:00 p.m. Monday through Thursday and 8:00 a.m. to 5:00 p.m. Friday. Students are referred to other medical personnel or facilities for special services such as x-ray, surgery, and dentistry. Medication necessary for treatment is usually available at the Center. In addition, many tests performed in the Health Center laboratory are covered by the student's health fee.

The *Department of Career Services* provides a comprehensive career development and employment program for all students and alumni of West Georgia. Available services include job search/career coaching, resume referral to employing organizations, student employment opportunities, and career-related learning experiences through professional practice programs.

Specific services, which the department offers, include:

- Career Employment assistance (job listing services, job search seminars, special career events, and other services)
- Student Employment (on and off campus part-time, seasonal, and temporary jobs);
- Professional Practice Program opportunities, including internships and cooperative education (major and/or career related work experience);
- Cooperative Education provides a well-balanced combination of college study and periods of handson experience in a work setting related to the student's major and/or career goals.
- Internships provide a type of community-based learning experience and prepare students for services in their chosen field of study. Internships aid the student to develop their intellectual capacity, understand and appreciate democratic institutions, and stimulate students toward the examination and development of personal and professional values.

The Office of Residence Life provides a living/learning community environment that complements the educational process of the University. Fourteen residence halls house approximately 3,000 West Georgia students. Unmarried freshmen that do not reside with parents within a thirty-mile radius of the University are required to live on campus. Many upperclassmen choose to do the same. Some halls are for men or women only. Others are co-educational with separate areas for men and women. Residence halls provide comfortable and attractive surroundings, as well as a community living experience, which fosters the development of disciplined minds, social conscientiousness, and responsibility for governing group affairs. In addition, a variety of social, educational, and recreational programs are provided to promote individual growth and development.

Student Housing

# **Intercollegiate Athletics**

University of West Georgia (UWG) Athletics is a member of the NCAA, Division II, and the Gulf South Conference (GSC), one of the largest athletic conferences in the country. The university currently offers 11 NCAA varsity sports: Baseball, Men's and Women's Basketball, Men's and Women's Cross Country, Football, Men's and Women's Golf, Women's Soccer, Women's Softball, and Women's Volleyball.

From a 1974 Men's Basketball National Championship to the 1982 National Football Championship, UWG athletics strives to be is a strong contender in Conference and NCAA events. Men's Basketball has participated in eight NCAA Regional tournaments and 13 GSC tournaments since 1994. In 2002 the team won the GSC tournament, the NCAA Regional, and advanced to the Elite 8. Baseball hosted and won the GSC and NCAA Regional tournaments in 1998 before advancing to the College World Series. UWG Football won GSC titles in 1997, 1998, and 2000 and advanced to four NCAA Regional tournaments.

Women's Volleyball made GSC tournament appearances in 2004, 2005, 2006 and set a school record in the 2007 season by winning the GSC tournament and advancing to the NCAA Regional. Women's Basketball has a lengthy record of accomplishments. In 1994, the women's team won the GSC tournament, hosted two NCAA Regional tournaments in the 1990s, and continues to be a regular participant in GSC tournaments.

<sup>&</sup>lt;sup>2</sup>Figures reflect available data. Some contract/referral/placement data is not available due to staff transition and changes in reporting methods.

## **Intercollegiate Athletics (continued)**

Both Men's and Women's Cross Country teams have one of the longest records of Conference success, having won eight conference titles since the mid-1990s. In 2000 Women's Cross Country won the NCAA Regional, and in 2003 claimed an Individual Championship. Both teams held Regional rankings in the 2007 season, and a men's team runner earned a trip to the 2007 NCAA National.

UWG's newest teams, Women's Soccer and Men's and Women's Golf, are developing and contributing to the department's winning tradition. The soccer team advanced to the GSC tournament in it first two years of Conference competition, in 2005 and 2006. The golf teams and individual players have been successful in non-conference and GSC tournaments.

UWG Athletics also sponsors perennial Co-Ed and All-Girl Cheerleading championship squads. The Co-Ed squad has won six consecutive UCA National Championships since 2002, and in 2007 the All-Girl squad won its third championship.

The Athletics department expects to move its basketball and volleyball competitions into the new Health and Wellness Building arena in spring, 2009. The department also expects to break ground on a new football stadium/athletic complex in spring, 2008 and kick off the 2009 football season in the new on-campus stadium. The new stadium/athletic complex also will be home to baseball, soccer, and softball as well as other athletic facilities.

# The Administration

# **Administrative Organization**

The Board of Regents of the University System of Georgia is a State Constitutional Board responsible for governance, control, and management of the University System of Georgia and its member institutions. Board of Regents members, one from each state congressional district and five from the State-at-large, are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents. West Georgia, a unit of the University System of Georgia, operates according to Board policies and procedures.

The President of West Georgia has general responsibility for the institution. The President's Advisory Committee (PAC) is the immediate advisory body to the President. This committee consists of persons in administrative positions reporting directly to the President, and other persons as the President believes will provide advice for the orderly, effective, and efficient administration of the University's affairs. Appointments are annual and made at the beginning of the Fiscal Year.

The Administrative Council is the chief advisory body for administrative activities in the academic operations of the University. Its members are the Vice President for Academic Affairs (Chairman), the Vice President for Student Services and Dean of Students, the Deans of Arts and Sciences, Business, Education, and the Graduate School; the Director of Continuing Education/Public Services; Director of Information Technology Services; the chair of the Institutional Studies and Planning Committee of the Faculty Senate; Director of Libraries; and the President of the Student Government Association.

The Planning Council, an advisory body to the President for long-range University development, oversees a variety of plan activities extending three or more years into the future. The President appoints Council members from the administration, faculty, students, alumni, and the community.

The instruction function of the University is organized into three Colleges and the Department of Continuing Education/Public Services. A dean or director supervises each of these major units. The Colleges of Arts and Sciences, Business, and Education are subdivided into departments, each responsible for instruction relevant to specific academic disciplines. A chairperson is responsible for coordinating the daily operation of each academic department.

Source: UWG Statutes, Revised July 2000

# The University System of Georgia

The University System of Georgia's Board of Regents was created in 1931 as a part of a reorganization of Georgia's state government. With this act, public higher education was unified for the first time under a single governing and management authority, which includes all state-operated institutions of higher education in Georgia. These 35 public institutions are located through out the state.

Members to the Board of Regents, who each serve a seven-year term, are appointed by the Governor and subject to confirmation by the State Senate. The 16-member board, five of whom are appointed from the state-at-large, and one from each of the 13 congressional districts governs the University System. The members of the Board elect the Chairman, Vice Chairman, and other officers of the Board of Regents. The Chancellor, who is not a Board member, is the chief executive officer of the Board and the chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: Instruction, Public Service/Continuing Education, and Research.

**INSTRUCTION** consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates. The degree programs range from the traditional liberal arts studies to professional and other highly specialized studies.

CONTINUING EDUCATION/PUBLIC SERVICES consists of non-degree activities, primarily, and special types of college-degree-credit courses. The non-degree activities include short courses, seminars, conferences, and consultative and advisory services in many areas of interest. Typical college-degree-credit courses are those offered through extension center programs and teacher education consortiums.

**RESEARCH** encompasses scholarly investigations conducted for discovery and application of knowledge. The research investigations cover matters related to the educational objectives of the institutions and to general societal needs.

The policies of the Board of Regents provide a high degree of autonomy for each institution. The executive head of each institution is the President, whose election is recommended by the Chancellor and approved by the Board.

State appropriations for the University System are requested by, made to, and allocated by the Board of Regents. The largest share of state appropriations is allocated for instruction.

The typical University of West Georgia student:

- enters with an average SAT score of 1,011.
- is a Caucasian/White female. Sixty-three percent of the student body is female and sixty-six percent is Caucasian.
- lives within the primary service area of the University. Approximately ninety percent of the student body are from nearby counties, including fourteen percent from Carroll County, and twenty-seven percent from metro-Atlanta.
- lives off campus. Seventy-two percent of the student body lives off campus and twenty-eight percent lives in campus dormitories.
- receives financial aid. Seventy percent of undergraduate students that apply for financial aid receive some form of financial assistance.
- attends full-time. Eighty-four percent of undergraduates and twenty-five percent of graduates enroll in a full load of courses. Approximately seventy-two percent of all students take 12 or more credit hours for undergraduates or nine or more credit hours for graduates.

# **UWG Admissions Data Fall 1998-2007**

The Office of Admissions administers the undergraduate admissions policies and procedures of the University, evaluates eligibility of undergraduate applicants for admission and recommends policies governing admission of undergraduates. The Office of Admissions also coordinates

a comprehensive student recruitment program for the University. The Graduate School has its own admissions policies and procedures to admit students into the various degree programs available at West Georgia.

## **First-time Entering Freshmen**

#### **Entering Freshman SAT Scores\***

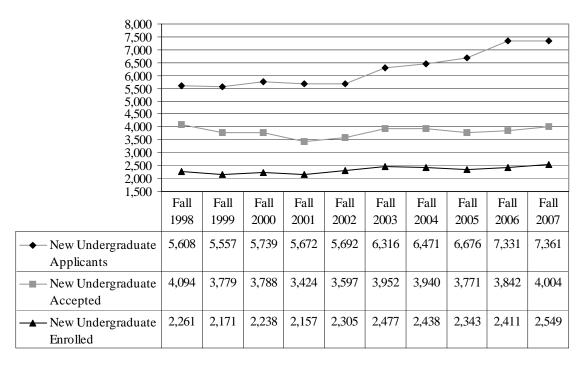

<sup>\*</sup>SAT Scores are from the re-centered scale.

**Note:** Effective Fall 2007 SAT Verbal became SAT Critical Reading and SAT Writing was added.

Scores from Fall 98 were adjusted to reflect scores used for admission purposes. Scores are taken from first-time, full-time freshmen students.

### **Continuing Education**

https://uwgagenda.westga.edu/

The Department of Continuing Education and Public Services has emerged as the extension of the traditional oncampus learning process. Non-credit classes are developed and offered to citizens of the University community at convenient locations and with flexible schedules to accommodate a wide variety of participants.

The mission of Continuing Education is to identify and provide non-credit educational opportunities that will enhance the quality of life for local citizens and provide training support to business and industry that will serve as a catalyst for economic development.

The CEU is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in a non-credit program. Programs that qualify for CEU credit are referred to as Category I. Category I activities are designed to enhance occupational skills, and individual permanent records as transcripts are maintained. Courses that are designed primarily for personal enrichment and are social, cultural, or recreational in nature are referred to as Category II courses. No permanent individual records or transcripts are maintained for Category II courses.

## History of Continuing Education Programs Fiscal Years 1994-2007 Categories I and II

Fiscal Year	Programs	Participants	CEUs
1994	465	9,715	17,652

#### **Distance and Distributed Education Center**

www.westga.edu/~distance/

A distance learning class is one in which the students are geographically separated from the instructor.

An online course is web-based, and allows students to interact with the instructor and other students through e-mail, real-time chatrooms, and bulletin boards. Course notes, assignments, projects and grades are often posted on webpages using an online course management tool called WebCT Vista. Tests can even be taken online and automatically graded.

Each distance course or program provides students with complete and information on the curriculum, course and degree requirements, nature of faculty/student interaction, prerequisite technology competencies, technical requirements, availability of academic support service, financial aid resources, and costs and payment policies. Department chairs ensure that syllabi and program websites include pertinent information or links.

The teaching offered in this course is not designed to just instruct, but to enable learners to fully participate in learning conversations. Interaction between and among students provide the power for this platform, thus students must take responsibility for creating a stimulating and engaging online learning environment. This will involve checking email on a regular basis, logging into the class website regularly to keep up with assignments and participate fully in online discussions, and scheduling regular blocks of study time each week.

Online learning generally provides considerable freedom, allowing students to often choose when and where they will participate in class activities. But at the same time, students have the same kinds of deadlines and structured responsibilities of a face-to-face class. In other words, flexibility must be balanced by responsibility. Like a face-to-face course, online courses require that assignments be completed by due dates, attendance (via your logins to your course), involvement in online discussions, and sometimes group collaboration. Most students enjoy the active learning that online classes involve.

Some courses are taught completely through distance learning means, while others combine the technologies with the traditional class, requiring students to travel to campus for one or more class sessions.

The following programs are offered completely or mostly online:

eCore : (all core courses, offered through a USG collaboration):

http://www.westga.edu/~ecore/

WebMBA (Master of Business Admin): http://www.westga.edu/~busn/webmba.htm

M.Ed.in Media & Instructional Tech: http://www.westga.edu/~distance/mit

Dozens of distance courses in many disciplines are also offered each term.

## **Off-Campus Programs**

The Board of Regents of the University System of Georgia authorizes West Georgia to offer various off-campus degree and non-degree programs. These include the External Degree Program in Nursing at Dalton College, programs offered at the West Georgia Newnan Center, and occasional courses taught at public school sites.

Approved by the Board of Regents in August, 2002, as a cooperative effort between Georgia Highlands College and the University of West Georgia, External Degree Programs in Early Childhood Education and Nursing service students in the Floyd County area who wish to continue formal education beyond the associate degree to seek a Bachelor of Science in Education in Early Childhood Education or a Bachelor of Science in Nursing.

## Student Financial Aid Fiscal Years 2004 - 2007

The Office of Financial Aid coordinates financial assistance for nearly seventy-two percent of West Georgia's students. Office staff determine eligibility for aid awarded by the University and record aid received by students from other sources, such as the University of West Georgia Foundation,

corporations, and individuals. The Office coordinates all student financial aid awards and reports all aid awarded to students attending the University to the Board of Regents, federal government, and University officials.

## Research

### **Sponsored Operations**

http://www.westga.edu/~vpaa/SponsoredOffice.html

#### History

The University of West Georgia established a central office to administer sponsored operations in 1967. University reorganization in 1973 placed responsibility for sponsored operations, grants, contracts, budgeting of funds from sources external to the University, and institutional research in the office of Instructional and Research Services. By 1980, that unit became the Division of Budget and Research Services, reporting to the President of the University. In Fiscal Year 1996, Sponsored Operations was placed under the Vice-President for Academic Affairs.

#### Services Rendered

The Office of Sponsored Operations aids and supports faculty/staff efforts to attract funds from sources external to the University in support of instructional, research, and service programs. This is accomplished by the Director of Sponsored Operations, who: 1) matches faculty/staff interests and needs with appropriate funding sources, 2) routes requests for proposals (RFP's) to specific faculty/department/program personnel, 3) assists faculty/staff in preparing applications and proposals, 4) coordinates award paperwork, documentation, and reporting, and, 5) provides staff development through grants preparation/administration workshops and seminars. The Office of Sponsored Operations provides the day-to-day services necessary to support all program activities funded from sources external to West Georgia and provides support for the administration of the Faculty Research Grant program funded through the University.

The Director of Sponsored Operations recommends all external contracts, proposals, and grants, and monitors institutional performance under such agreements.

West Georgia attracts grants, gifts, and contracts from federal, state, and local government agencies, corporations, and foundations. This external funding and other revenue enable the University to fulfill its official mission to emphasize creative teaching, encourage research, and promote the development of human resources through educational programs.

#### **Sponsored Operations Goals**

The Sponsored Operations Office established the following strategic goals:

- 1. To promote and support the instructional, research, and public service missions of West Georgia.
- To encourage University units and individual faculty/ staff efforts in seeking funds from external agencies in support of instructional, research, and public service projects.
- To monitor the Faculty Research Grant Program in compliance with established institutional policies and procedures.
- 4. To assist principal investigators in efforts to comply with federal and state statutes and University System policy.
- 5. To seek increased support for University activities from corporate and foundation sources.

# Sponsored Operations Assessment of Data Reported As of June 30 of Each Fiscal Year

Fiscal	Number of Proposals	Number of Proposals	Amount	Amount

<sup>&</sup>lt;sup>1</sup> External sources authorized spending for fixed time periods. In certain cases, those periods included only a portion of Fiscal Year 2007

## Faculty Research Grants Fiscal Year 2008

In addition to resources acquired from external sources, the University budgets state-allocated funds to assist faculty research efforts through the Faculty Research Grant Program. Established in 1967, the Faculty Research Grant Program provides limited funding for approved faculty research projects.

Each fiscal year, faculty members submit formal proposals to the Learning Resources Committee of the Faculty Senate

requesting University support. Committee members evaluate proposals and make funding recommendations for full Senate review. The Faculty Senate approves proposals and suggests levels of funding to the President, who subsequently allocates funds to the grant recipients.

In compliance with these procedures, the President of the University awarded Faculty Research Grant funds for Fiscal Year 2008 as follows:

#### College of Arts and Sciences

#### Joe Anderson-History

Profits & Problems: The Hybrid Seed Industry and the Southern Corn Leaf Blight Outbreak of 1970 \$1,500

# Sponsored Operations Faculty Research Enhancement Awards Fiscal Year 2008

During Fiscal Year 1995, President Beheruz N. Sethna created Sponsored Operations Faculty Research Enhancement Awards to reinvest a portion of indirect cost recovery funds, strengthening the University of West Georgia's research infrastructure.

The Sponsored Operations Faculty Research Enhancement Awards for Fiscal Year 2008 are as follows:

Award	Name / Department	Project Title
\$2,050	Dr. David M. Bush	Toward Developing the Nation's First Comprehensive
	Geosciences	Database of Storm Surge Data for Use in Coastal
		Hazards Research and Storm Surge Model Calibration
\$3,800	Dr. Liqiong (Joan) Deng	Understanding User Motivations and Usage Patterns for
	Management	Mobile Messaging Technologies
\$4,088	Georgina DeWeese	Dendroencological Investigation of Historic Indian
	Geosciences	Trail Trees Across the Trail of Tears, Northern Georgia
		to Arkansas
\$3,000	Dr. William J. Kenyon	The Starvation-Stress Response of Serratia Marcescens
	Biology	
\$3,000	Dr. Farooq Khan	Chemical Modification of Carbon Nanotubes: A Novel
	Chemistry	Approach
\$3,000	Dr. Douglas A. Stuart	Spectroscopie Analysis of Plasmonic Coupling in Silver
	Chemistry	Nanoparticle Arrays

Note: Awarded in 2007 for Spending in Fiscal Year 2008

# **Financial Information**

# **Budgeting and Assessment Cycle**

The University of West Georgia operates under three major budgets: the Resident Instruction Budget, the Auxiliary Enterprises Budget, and the Student Activities Budget. Each serves a distinct purpose.

The Resident Instruction Budget is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction Funds support instruction, research, libraries, the computer center and laboratories, Student Services, the administrative and service offices of West Georgia, a portion of the maintenance of the physical plant, and academic scholarships and fellowships.

The Auxiliary Enterprises Budget is self-supporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health and athletic fees, parking fees, and parking fines. Auxiliary Enterprises funds support the operation of the residence halls, dining rooms, the University Bookstore, network support, vending machines, bus service, health services, traffic operations, intercollegiate athletics (as of FY 93); and, they provide funds necessary to maintain a portion of the University's physical plant.

The Student Activities Budget is funded by student activities fees. Student Activities funds support various activities including choral and instrumental organizations, art exhibits, debate team, jazz ensemble, Student Activities Council, University game room, Student Government, University publications such as the *West Georgian* and *Eclectic*, and intramural athletics.

In addition to the three budgets, the West Georgia Foundation, Inc., a non-profit corporation dedicated to the advancement of West Georgia, provides funding for scholarships, equipment, and services not funded by state appropriations. The Alumni Association section of the Fact Book supplies additional information about the West Georgia Foundation.

\*By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.

#### **Changes in Reporting**

The format for the *Fact Book* was changed for the 2005-2006 issue to show information as provided by the *University of West Georgia Financial Report*. This change has been made to more accurately reflect the financial position of the University.

All revenue sources and expenses for all fund groups (Resident Instruction, Auxiliary, Student Activities, Sponsored, Continuing Education, Indirect Revenue, and Technology Fees) are combined with as much detail as previously provided. Totals for the fiscal year ending June 30, 2006 have been audited. Totals for the year ending June 30, 2007 are actual revenue and expense amounts and still subject to changes following the state audit. Totals for the current year are original budgeted totals. Total expenditures do not include capitalized amounts such as equipment over \$5,000 and library collections.

# West Georgia Foundation, Development and Alumni Relations

## **University of West Georgia Foundation**

The University of West Georgia Foundation, Inc. (Foundation), is a Georgia charitable corporation. It receives and manages private contributions (gifts) made for the benefit of the University of West Georgia. The Foundation has been recognized as an organization exempt from Federal Income Tax under section 501(c)(3) of the Internal Revenue Code, and gifts to the Foundation are deductible as provided for in section 170 of the Internal Revenue Code. The Foundation encourages both restricted (specific purpose) and unrestricted (general use) gifts from donors.

The purpose of the Foundation is to promote the cause of higher education within the State of Georgia, to source and receive gifts for the support and enhancement of the University, and to aid the University in its development as a leading educational institution within the state of Georgia and the southeast region of the United States.

The Foundation's Board of Trustees is composed of business, professional, and community leaders plus officers

elected by the Board. The Board establishes and provides oversight of the Foundation's operating financial policies and procedures. In addition, the Foundation is committed to provide for the integrity of original corpus (principal) dollars plus assure that all fiduciary commitments made to the Foundation's donors are honored for the life of their agreements. The officers and trustees of the Foundation are committed to a policy of full-disclosure.

The Board of Regents of the University System has recognized that gifts and income from endowments that provide for the private support of system institutions are not taken into account when determining the allocation of state funds to the institution. The Board of Regents recognizes that all of its institutions are dependent, in part, on private funding and encourages all of its institutions to seek the support of alumni, friends, corporations, and other private organizations.

## **West Georgia Alumni Association**

http://www.westga.edu/~alumni/

The alumni of the University of West Georgia constitute its largest single constituency and represent its most valuable resource for the University. Membership in the Alumni Association is open to all graduates of the State University of West Georgia, West Georgia College, or the Fourth District Agricultural and Mechanical School. A 36-member Board of Directors, along with several lifetime members, direct activities of the Association. The Association informs alumni of institutional plans, progress, opportunities, and needs.

*Perspective*, the alumni publication, is mailed to all alumni and friends three times a year. The spring issue includes the Honor Roll of Giving and is presented in a magazine format.

Major activities sponsored by the Alumni Association include Homecoming (fall), annual meeting of the Fourth District A&M School, as well as numerous reunions and special events that involve hundreds of alumni each year.

#### 2007-2008 Officers

Brian McLeod '99, Vice President Lorelei Shipp '95, Vice President Jeff Shirey '02, Treasurer Carol Daniel '66, Secretary Donnie Newson '73, Past President

# **Campus Planning and Facilities**

# **Campus Planning and Facilities**

University of West Georgia's Department of Campus Planning and Facilities consists of the Office of the Assistant Vice President for Campus Planning and Facilities, Campus Planning and Development, Risk Management/Environmental Health and Safety, and Facilities and Grounds. Its mission is to professionally operate, maintain, and support the development of quality facilities, grounds, and services, and to support the campus community, students, faculty and staff. Through their efforts they support the university's commitment to the pursuit of academic excellence in a personal learning environment with cost-effectiveness, safety and in an environmentally responsible manner.

Facilities and Grounds is comprised of the Work Information Center, Maintenance, Motor Pool, Custodial Services, Moves/Set-ups, Paint Shop, Construction and Landscaping, and Grounds Maintenance. The function of repair and routine maintenance, energy management, and special projects are scheduled, performed, and managed for the more than 1.7 million square feet of building floor space. Displaying an ongoing and pleasing attitude to its customers, the staff is always willing to address any needs or concerns any given time, seven days a week.

UWG's campus is considered to be one of the most beautiful in the University System of Georgia. Landscaping and Grounds Maintenance continue a long tradition of systematic landscaping that began in 1919 when Fourth District A&M

School Principal, John H. Melson, solicited gifts of trees from each of the then forty-eight states for transplantation to the school campus. UWG landscapers care for the many plant species residing on the almost 400 acre campus. They also construct and maintain irrigation systems, curbs, gutters, sidewalks, and athletic fields. A University nursery cultivates plants for seasonal, new, or replacement landscaping.

Campus Planning and Development provides expertise for all planned works. The department has architectural, engineering, and drafting capabilities within the design group. The department also acts as project managers for contracted work, which happens often due to the scope of work involved and/or the time constraints imposed by the priority level of a project.

The mission of Risk Management/Environmental Health and Safety Department (RM/EHS) is to protect UWG's students, visitors, faculty and staff through training, education, hazard abatement and information dissemination. Additionally, they will assist in the preparation of the students for the future in the area of environmental health and safety. RM/EHS ensures that all activities conducted on campus either meet or exceed requirements set by local, state and federal agencies, thus enhancing the overall working environment while fully supporting the education mission on campus.

# **Information Resources and Technology**

# **Irvine Sullivan Ingram Library**

http://www.westga.edu/~library/

As the academic heart of the campus, the Ingram Library provides both online and in-house collections and services to meet curricular needs. The four story building of some 85,000 square feet provides seating space for 700, an electronic classroom, a conference room, small group study rooms, lockable faculty carrels, and computers and other equipment for accessing materials retained in print, online, recorded, and micro formats. Wireless access to internet resources is available throughout the building.

The library is named in honor of Irvine Sullivan Ingram, the institution's first president. The glass enclosed lobby overlooks a study garden designed in honor of Maurice Townsend, fifth president of the university. The lobby area provides study tables and casual seating where patrons may enjoy food and drink while accessing the wireless network, working individually or in small groups, or browsing through the new books, current newspapers, and periodicals on display. Ingram Library houses a collection of student and faculty art, including "The Prophet," a bronze by Gary Coulter, presented by the Class of 1968, which stands at the entrance, and "Sporangium Disseminating Spores," a large ceramic installation by Cameron Covert and Bruce Bobick, completed in 1980. Rotating displays of student art and writing inspired by programs developed by the Thomas B. Murphy Holocaust Teacher Training and Resource Center, which is located on the second floor of the library, may be viewed in the Center and in the lobby.

Library collections include over 400,000 cataloged volumes, over 1,100,000 microforms, over 11,000 audiovisual items, and more than 20,000 maps and charts. The library provides access to some 15,000 print and electronic serials, including magazines, scholarly journals, and newspapers. As a selective depository for federal documents, the library houses an extensive collection of United States government publications and provides access to government information available in online and other electronic formats.

The library participates in state and regional consortia, facilitating extensive access to the collective resources of university system and other libraries. The library catalog, provided through Georgia Interconnected Libraries (GIL), lists materials available in Ingram Library collections, and provides links to catalogs of other libraries. West Georgia students, faculty, and staff may request books from any university system library through the online GIL Express service, a feature of the universal catalog, and they also have check out privileges when visiting system libraries. In addition, the University of West Georgia is a member of the Atlanta Regional Council for Higher Education (ARCHE), which allows students, faculty and staff to utilize the resources of member libraries.

Ingram Library provides interlibrary loan service through its web site, facilitating the borrowing of books from libraries throughout the country. Articles requested through interlibrary loan are transmitted to patrons electronically.

Library users have access to Georgia Library Learning Online (GALILEO), an online library of databases, full text electronic journals, and reference resources available to all Georgians, as well as to an extensive range of electronic materials selected to support the university's academic programs. All licensed electronic materials are available to university students and faculty through any computer with internet access. By providing access to an extensive range of online materials, developing an electronic reserve system and online request systems for obtaining materials from other libraries, the library ensures that students enrolled at the university's remote class sites and in online courses are afforded the same level of library support as those who attend classes on the Carrollton campus. Fax and courier services to off campus class sites, and arrangements with libraries in Newnan and other locations also support off campus students.

The Annie Belle Weaver Special Collections area on the third floor of Ingram Library provides access to information about the history of the university and the geographic area it serves. Photographs, family histories, and other materials associated with the west Georgia region are included in Special Collections, as are materials on sacred harp music and American psalmody. A special effort is being made to acquire the manuscript collections of individuals who have represented the region in state or national legislative bodies. One of the most notable collections is that associated with Georgia's Political Heritage Program, begun by university faculty in 1985. The collection includes taped interviews with state and national leaders, among them most of Georgia's post-World War II governors, U.N. Ambassador Andrew Young, U.S. House Speaker Newt Gingrich and Georgia House Speaker Tom Murphy. Senator Herman Talmadge was the first interview subject for the program. The Talmadge collection is particularly significant as it includes some thirty-five interviews taped between 1985 and 1995 as well as interviews with his staff and some of his supporters.

Information about library programs and services is distributed through publications available in the building, and through the library web site. An online newsletter chronicles developments within the library, while an online announcements site outlines upcoming events, programs and classes.

The library pursues an aggressive instruction program. A for-credit course, which is part of Area B of the core curriculum, is taught in the library's computer-enhanced classroom as well as via the web. The course is designed to orient students to doing research in academic libraries and to critically evaluating information resources. Throughout the semester students may register on the library web site to attend basic library skills classes addressing various topics. In addition, classes tailored to specific assignments and other types of customized instruction are developed for upper-level and graduate courses. Individuals seeking assistance with library resources and research needs can utilize reference services at the reference desk, via telephone, and through the online *AskAL* service available through the library web site.

# Thomas B. Murphy Holocaust Teacher Training and Resource Center

The Thomas B. Murphy Holocaust Teacher Education Training and Resource Center, administered by the Georgia Commission on the Holocaust and located on the second floor of Ingram Library, is the only Holocaust center in the United States devoted to teacher training located in a state-supported institution. With the study of the Holocaust as a catalyst, the Center encourages and supports human understanding and dignity by developing programs to open minds and hearts to the appreciation of all of humankind. The Center's multimedia resource collection includes books, videotapes, archival, and electronic materials augmented by resources available within the collections of Ingram Library. Working collaboratively with academic departments and area organizations, the Center provides curriculum development assistance, teacher conferences, staff development seminars, exhibits, and other programs.

## **Information Technology Services**

http://www.westga.edu/~its

## **Learning Resources Center**

http://www.westga.edu/~lrc/

Information Technology Services (ITS) provides technology leadership and support to all areas of the University of West Georgia community. ITS offers a wide variety of services — from user assistance and training to planning and maintaining the campus-wide network. Providing this range of services makes the ITS role a very challenging one. To successfully meet the challenge, ITS is continually upgrading services and equipment that are available to the campus community.

ITS maintains support of the central Sun Microsystems Unix servers for the campus. This includes a cluster of SunFire v880s, which provides e-mail and web accounts for all students, faculty, and staff, and a Sun e2900, which supports the Banner Student System. ITS also operates the campus' ONE CARD server in addition to providing support for approximately 25 NT and Linux fi leservers, which serve both the academic and administrative communities.

ITS also manages the campus' administrative and residence hall data and telephone networks. The campus data network maintained by ITS is a completely switched, high-speed network providing switched ten megabit connections to students in the computer labs and the students living in the residence halls. High-speed Internet access from the University campus is provided through a link to PeachNet, operated by the University System of Georgia. Student microcomputer labs are located in the College of Business, the College of Arts and Sciences, the College of Education, and the University Community Center. Many of these labs are used for instruction; however, the Community Center computer lab is an open lab for general use.

The Department of Learning Resources provides faculty and students with instructional technology for classroom use as well as assistance with instructional design services. Learning Resources stocks and maintains a wideranging inventory of audio-visual technology from slide projectors and overheads to DVD players and LCD projectors. It is also responsible for installation and maintenance of technology permanently placed in classrooms such as TV/VCRs, overhead projectors, and multimedia equipment. The LRC assists in training faculty and staff in the use of instructional technology.

Creation of visual aids such as color slides, overhead transparencies, computer-generated slides, and on-screen presentations are also an important service of Learning Resources. The Instructional Resources area scans photos and slides, digitizes video, converts photos into slides as well as provides darkroom services such as printing black and white photographs and developing Ektachrome slides. Other production services such as lamination, black and white transparencies, and VHS tape dubbing are also available. LRC professional staff members hold advanced degrees from accredited institutions and have extensive experience in instructional technology and design.

Learning Resources is located on the ground floor of the Learning Resources /Geography Building across from the Library on Back Campus Drive.

# Institutional Research and Planning

### **Institutional Research and Planning**

www.westga.edu/~irp

#### Mission

The University of West Georgia's strong commitment to "Educational Excellence in a Personal Environment" is central to the mission of the Office of Institutional Research and Planning. The Office has, as its primary mission, the collection of data (from both internal and external sources), and the timely analysis, distribution, and presentation of this information for use in planning, decision-making, and policy formulation at the University.

The Office is also responsible for ensuring the accuracy of vital University statistics, and for reporting these data to a broad spectrum of information consumers including regulatory entities, management, faculty, private organizations, and the general public. A major function of the Office is to respond to diverse requests for data from members of the University community, and to assist it with research and assessment methodology, evaluation, and analysis.

Institutional Research and Planning further serves as records custodian for the State University of West Georgia. In this capacity, it promotes the efficient administration and management of State governmental records in compliance with the Georgia Records Act and the Georgia Open Records Act. Institutional Research and Planning also advises departments of appropriate records-keeping techniques and systems, and guides in development records retention schedules.

#### History

The Department of Institutional Research and Planning was established in 1967 at West Georgia. Through studies at regularly planned intervals, IRP explores University culture by investigating campus community norms and values. Research findings aid the administration in determining if and to what extent values are in conflict and provide a basis for policy analysis and identifying potential problems. In the early 1980's, West Georgia was the first University System of Georgia institution to conduct institutional retention studies. Retention studies indicate causes for attrition, and such studies analyze retention-attrition behavior and provide bases for policy analysis, alternative admissions criteria, and enrollment planning.

Institutional Research assists the University to focus its programs on specific student needs including: studies which evaluate academic advising, counseling, career planning and placement, intercollegiate athletics, health services, and housing. Institutional Research contributes to planning in the development of specific programs through market research techniques and needs assessment, and supports program review by supplying qualitative and quantitative evidence for assessment activities.

Institutional Research supports University development efforts through providing institutional information for external fund raising projects, conducting case studies for use in fund drives, and providing information necessary for data-based development strategies. Institutional Research techniques routinely provide evidence which development efforts may utilize to assess their own effectiveness and to consider the viability of new development strategies.

#### Goals

The Department of Institutional Research adopted the following goals to encourage institutional effectiveness and to foster mechanisms to assess results:

- Serve the executive functions of the institution by providing a reliable and proactive management and decision
   support system.
- Promote the improvement of West Georgia's planning process in compliance with Board of Regents Policy and the Southern Association of Colleges and Schools Criteria.
- Generate data, information, and analytical reports on institutional research topics designed to improve information usage in the planning process utilized at the University.
- Assist the executive and administrative officers of the University in institutional assessment in order to promote increased institutional effectiveness.
- Provide systematic collection and reporting of standard institutional, regional, environmental, and student-centered information for institutional planning and assessment.
- Reply in a punctual manner to spontaneous requests for descriptive information, data, and analytical reports.
- Provide guidelines and standards to the various departments for the establishment and continued maintenance of successful individual records management programs that meet compliance with the Georgia Records Act and the Open Records Act.

#### **Major Projects**

The Department of Institutional Research conducts various studies including:

- Entering Student Study (annually)
- Annual Report of Institutional Progress
- Fact Book
- Recent and Long-term Alumni Studies (annually)

The Institutional Research unit designed this series of studies to measure student educational outcomes and institutional effectiveness as well as provide vital information and data to support the University's planning processes.

Institutional Research and Planning responds with information and analyses. The unit completes several projects, including the:

- University System's required Request for Proposed Enrollment Plans
- Institution's Comprehensive Plan
- Annual SACS Institutional Update
- NCAA Enrollment and Persistence-Rates Disclosure Report
- U.S. Department of Education's IPEDS Reports
- Institution's Affirmative Action report
- Study of the Perceptions of West Georgia
- University Printed Fact book
- University On-line Fact book (www.westga.edu/~irp)

The Institutional Research unit continued to provide assistance to various departments and committees regarding preparation for re-accreditation by:

Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: Telephone number 404-679-4501)

National Association of Colleges of Teacher Education National Association of Schools of Music

American Assembly of Collegiate Schools of Business-International.

Department staff remain active in their professional fields, attending several state and national conferences, and participating in several workshops. Staff made presentations at professional meetings and were active participants in a number of sessions.

The unit collected, analyzed, and reported data and information relative to this institution and University System's enrollment, graduation rates, course taking behavior, academic achievement, persistence rates, Regent's Test scores, declared majors, and degrees conferred. Other efforts to perpetuate thoughtful planning include production of annual department fact sheets, and the annual Fact Book. The unit responded to many requests for data pertaining to enrollment, student demographics, academic program statistics, and general environmental indicators, with a third of inquiries attributable to the executive function.
