1999 - 2000

State University of West Georgia FACT BOOK

Department of Institutional Research and Planning State University of West Georgia Carrollton, Georgia 30118-4530 770-836-6449

Office of the President Carrollton, Georgia 30118-4500

Dear Friend of West Georgia,

While it may be difficult to believe yet another exceptional year has passed, it is certainly not difficult to believe the many achievements of the University, its students, and its faculty.

Our year began with three significant actions by the Board of Regents of the University System of Georgia. Our first doctoral program was approved. We believe that the Doctor of Education degree in School Improvement will make a significant contribution to graduate studies at West Georgia and a substantial addition to our traditional contributions to public education in the State. Second, the Board approved our Honors College—the first such college in the University System of Georgia! It is a wonderful means of building in existing strengths of our Honors Program and The Advanced Academy of Georgia. Third, our proposed Health, Wellness, and Lifelong Learning Center was added to the System list of capital projects and is currently slated for construction within the next five years.

There are several other activities of note, for which I will mention but a few here.

Faculty research and sponsored project grants for FY99 totaled more than \$2 million, including \$300,000 for the Educational Technology Training Center and \$450,000 for the Transforming School Counseling Initiative. Nearly 1,400 scholarly works were produced by our faculty. Dr. Jack Johnson, Management and Business Systems, was named National Collegiate Teacher of the Year by the National Business Educators Association. The College of Education successfully completed the reaccreditation process conducted by members of the Board of Examiners from the National Council for Accreditation of Teacher Education (NCATE). In Fall of 1999, West Georgia's Distance Education graduate programs rank number one in producing more credit hours than any other similar program in the University System.

Our students continue the tradition of excellence. An Advanced Academy student and Physics major was the first West Georgia student to be awarded the prestigious Goldwater Scholarship. For the second consecutive year, at the National Collegiate Honors Council annual meeting, the Honors Program has had more student presenters than any other university or college in the United States and has had student presenters for the past five years in a row—a better record than any other school in the University System. A Political Science and International Economic Affairs major attended the Center for the Study of the Presidency in Washington, D.C. The Debate Team placed 2nd in the Cross Examination Debate Associate Championship and tied in 8th place at the National Debate Tournament.

Our Intercollegiate Athletics program had yet another successful year. The volleyball, women's tennis, men's basketball, and men's cross-country teams all reached conference tournaments, with men's cross-country winning its tournament and the NCAA Regional and qualifying for the NCAA National Championship. Braves football also won a conference title for the second consecutive year and advanced to first-round play-offs. Thirty-five student athletes from each of our ten men's and women's teams made the Conference Honor Roll, based upon a minimum GPA of 3.0, or the Academic All-Gulf South Conference team, based upon a minimum 3.5 GPA and other criteria.

Even as we grow, the State University of West Georgia, through its diligent and caring faculty, staff administrators, remains committed to providing *Educational Excellence in a Personal Environment* for Georgia's citizens.

Sincerely,

Thomas J. Hynes, Jr., Ph.D. Acting Professor and President of Speech

The University

The University

History

The State University of West Georgia, a senior unit of the University System of Georgia, is a co-educational, residential, comprehensive institution located in Carrollton, Georgia. Carrollton, about an hour's drive from Atlanta, is the seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton provides a regional population of approximately 100,000 with retail shopping, medical, educational and financial services, entertainment, and recreation. However, West Georgia began from very humble beginnings.

Between 1906 and 1917, the State of Georgia established twelve district agricultural and mechanical schools, with the Fourth District A&M School in Carrollton. In 1933, an act by the Board of Regents of the University System of Georgia established Carrollton's A&M School as West Georgia College. Dr. Irvine S. Ingram, principal of the A&M School was the College's first president.

In 1956, the institution was authorized to confer a Bachelor of Science degree in Education, making it a four-year senior college unit of the University System of Georgia. Now, majors in over fifty different fields provide students a wide range of options for their undergraduate degrees.

In 1967, the Board of Regents authorized the initiation of a Master's level graduate program. The institution currently offers eight Master's degrees in 36 areas of study. The Specialist in Education degree is offered in nine areas of study.

On June 12, 1996, in an historic decision, the Board of Regents of the University System of Georgia voted to change the name of West Georgia College to the State University of West Georgia.

In 1999, the Board of Regents approved the institution's first doctoral program in Education. Though the College of Education currently offers a cooperative doctoral program with the University of Georgia, the cooperative program will be phased out with the last group of students enrolled in Summer 1999.

West Georgia's efforts in minority recruitment have been very successful. There has been a 54 percent increase in the number of minority students enrolled from Fall Quarter 1991 to Fall Semester 1998. West Georgia averaged 295 African-American graduate students during the 1998-99 year. This average places the University among the top graduate program institutions in the University System of Georgia.

To accommodate University growth, a multi-million dollar building program has increased the value of the University's physical facilities to nearly \$156 million. Beginning with three small buildings, the University has grown to include more than 80 structures for learning, living, and recreation on its 394-acre wooded campus.

Accreditation and Affiliations

West Georgia is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor's, master's, education specialist's and, now, education doctoral degrees. The University also holds institutional membership in or is accredited by the following:

- American Assembly of Collegiate Schools of Business,
- American Association of Colleges for Teacher Education,
- American Association of State Colleges and Universities,
- American Chemical Society,
- American Council on Education,
- Conference of Southern Graduate Schools,
- Consortium for Diversified Psychology Programs,
- Georgia Association of Colleges,
- Georgia Board of Nurses Examiners,
- National Association for Foreign Student Affairs,
- National Association for Schools of Arts and Design,
- National Association of Schools of Music,
- National Association of Schools of Public Affairs and Administration,
- National Business Education Association,
- National Commission on Accrediting,
- National Council for Accreditation of Teacher Education, and
- National League for Nursing.

The Honors College

In June 1999, the Board of Regents approved uniting the Honors Program and The Advanced Academy of Georgia into the University System's first Honors College.

The Honors College offers challenging courses, stimulating professors, and innovative approaches to learning. The College's small classes feature lively discussion and provide more individual attention than is possible in most courses. Honors College students also enjoy personalized advising and early registration, ensuring them access to appropriate courses and professors. Their official transcripts designate their status together with the special character of the curriculum they have completed.

The Advanced Academy of Georgia provides a bridge for an early transition to college for carefully selected high school juniors and seniors, nationally and internationally, who wish to enroll full-time in an enriched residential university program and concurrently complete high school graduation requirements.

Student Programs and Services

The State University of West Georgia also complements the academic program of the University by providing a variety of educational services, developmental programs, and student activities designed to enrich the students' college life.

The *Freshman Center* is devoted to the success and welfare of first year and transfer students. The Center is a troubleshooter for any first year or transfer questions and concerns. It offers academic advising and registration for students who are undecided about a major. The Center

has programs to help students with study skills, explore information about the various majors offered on campus, and pair up with a peer mentor. By appointment, tutoring for most of the courses in the core curriculum is offered. All services of the Center are free of charge.

The Minority Achievement Program is an academic and social support program for minority students. It is designed to support minority students in their transition from high school to college. The Program utilizes minority upper class students who serve as a big brother or big sister to the freshman minority students through the Peer Advising portion of the program. In addition, the Program offers academic and personal consultation services, conducts an Early Intervention Program for students having academic difficulty, and coordinates programs to stimulate academic and cultural growth.

Arts. West Georgia's fine arts departments offer many opportunities for student performance and cultural enrichment ranging from theatre to opera to exhibitions. Both musical and theatrical productions are scheduled year-round. The Concert Choir, Chamber Singers, Marching Band, and Opera Workshop are available to students interested in music. Several areas in the Humanities Building are used for student, faculty, and traveling art exhibits.

The Office of Student Activities works in partnership with students to provide programs and services that complement student learning and the academic experience. The Office provided over 100 individual The staff coordinates the programs in 1998-99. registration process for nearly 100 student organizations, provides advisement for a Greek system that involves 15 percent of the student population, and coordinates an intramural program that involves 3,500 students each The staff advises the Student Government Association, the Black Student Alliance, the Student Activities Council, Black Greek Council, Panhellenic Council, and the Interfraternity Council. The Office also coordinates the campus I.D. card program, Black History Month activities, Homecoming, Annual Campus Awards Program, University Volunteer Program, Leadership to Go, Spring Fling, and Welcome Back Blast.

Through an excellent *Intramural Program*, the University provides opportunities for recreation, social contact, and healthy exercise. Over the year, 55,000 participants attend various leisure programs.

The *University Bookstore* carries all textbooks, materials, and school supplies necessary for students' use in their classes. The Bookstore also offers a wide selection of imprinted merchandise and clothing, as well as office supplies, general books, magazines, computer software, greeting cards, gifts and art supplies. The Bookstore is also a pick-up station for UPS.

The Department of Health Services includes both an outpatient clinic and infirmary, and is under the supervision of a full-time physician. Nurses are on duty from 8:00 a.m. to 6:00 p.m., Monday through Friday. Students may be admitted to the infirmary for observation and minor illnesses. Students are referred to other medical personnel or facilities for special services such as x-ray, surgery, and dentistry. Medication necessary for treatment is usually available at the Center. In addition, many tests performed in the Health Center laboratory are covered by the student's health fee.

•	Minor Surgery	49

The Student Development Center provides career, mental health and academic counseling for State University of West Georgia students and support services for disabled, international, and non-traditional students. During the past year, approximately 300 students were seen for personal counseling. More than 1,000 students each year participate in group and developmental programs offered by Student Development. Five of the six counselors on staff are licensed and hold a specialist or doctoral degree. The Center also provides 260 disabled students with assistance in physical and academic accommodations. The 101 campus international students are advised through the Center regarding housing, immigration matters, finances, and personal-cultural adjustment.

The *Department of Career Services* conducts activities to support students and alumni in achieving their short-term employment needs and their long-term career needs. Specific services which the department offers include:

- Student Employment (on and off campus part-time, seasonal, and temporary jobs);
- Professional Practice opportunities, including internships and cooperative education (major and/or career related work experience); and
- Career Employment assistance (job listing services, job search seminars, special career events and other services).

The Office of Residence Life provides on-campus residence hall housing for students. Ten residence halls house approximately 2,300 West Georgia students. Unmarried freshmen who do not reside with parents within a thirty-mile radius of the University are required to live on campus. Many upperclassmen choose to do the same. Some halls are for men or women only. Others are co-educational with separate areas for men and women. Residence halls provide comfortable and attractive surroundings, as well as a community living experience, which fosters development of disciplined minds, social conscientiousness, and responsibility for governing group affairs. In addition, a variety of social, educational, and recreational programs are provided to promote individual growth and development.

Fall 1000

Athletics

West Georgia's success in Intercollegiate Athletics is a source of pride for the entire University. West Georgia is a member of NCAA Division II and competes in the Gulf South Conference. The University fields teams in 10 intercollegiate sports, five each for men and women. UWG has men's teams in football, cross-country, basketball, baseball, and tennis. Women's sports include volleyball, cross-country, basketball, softball, and tennis.

West Georgia's athletic history is a proud one. The Braves' men won the state's first national basketball title (NAIA) in 1974, and West Georgia's women's basketball team reached the national finals only two years later. In 1982, West Georgia captured the NCAA Division III football title, making UWG one of only six schools in the nation to have won a national crown in both football and basketball.

The Braves' success has continued in recent years. During the 1990's, UWG teams have won GSC Division or league titles in football, men's and women's basketball, baseball, and men's and women's cross-country. Highlights include the Braves' men's basketball team advancing to play in four NCAA Division II Tournaments since 1994, and twice this decade the West Georgia women's team twice played in NCAA Regional finals. Also, UWG football has won shares of three GSC titles and played in the NCAA Playoffs four times, while the Braves' baseball team advanced to the NCAA Division II World Series in 1998. Finally, UWG has won a total of eight Gulf South Conference Men's and Women's Cross-Country Championships, and the men's team qualified for the 1998 NCAA Division II National Championships

The Campus

The campus is a unique blend of old and new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900s, as well as buildings exemplifying the most contemporary modes of architecture.

The front or "Old Campus" as it is sometimes called, a three-block-long expanse of rolling hills shaded by scores of old towering oak, elm, and maple trees surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia began as an A&M School in 1906.

A modern academic complex composed of library, social science, humanities, and math-physics buildings lies beyond the "Old Campus." A new business school annex was added in 1985. Other buildings in the area include a three-story student center, a health and physical education center featuring a 3,000-seat gymnasium and indoor pool, and one of the most modern college infirmaries in the state. A performing arts center, containing two theatres, a black box and a main stage, which seat 250 and 500 respectively, was completed in 1989.

Much of the University's recent physical development occurred on the west side of the campus. The Education Center, a structure unique in the University System, contains five large lecture-demonstration rooms which, by moving sliding partitions, serves as a 1,000 seat auditorium. It also features an instructional materials center, television and sound recording studios, audiovisual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas for independent study.

Adjacent to the Education Center is the Biology-Chemistry Building, a facility with numerous laboratories, lecture halls, and the latest scientific equipment. The Education Annex, a 42,000 square foot facility, opened in 1995. This facility houses Education and Nursing faculty offices, classrooms, laboratories, and the campus day-care center.

A complete renovation of the University's baseball complex was made possible by a gift from the E. Woodfin Cole family in Carrollton. The 20,000 square-foot, two-level Murphy Fieldhouse provides offices for all athletic personnel, a football locker room, Hall of Fame room, sports medicine area and meeting rooms.

Ten residence halls are located on the campus. Bowdon Hall, one of the newest, was named in honor of Bowdon College, a West Georgia predecessor.

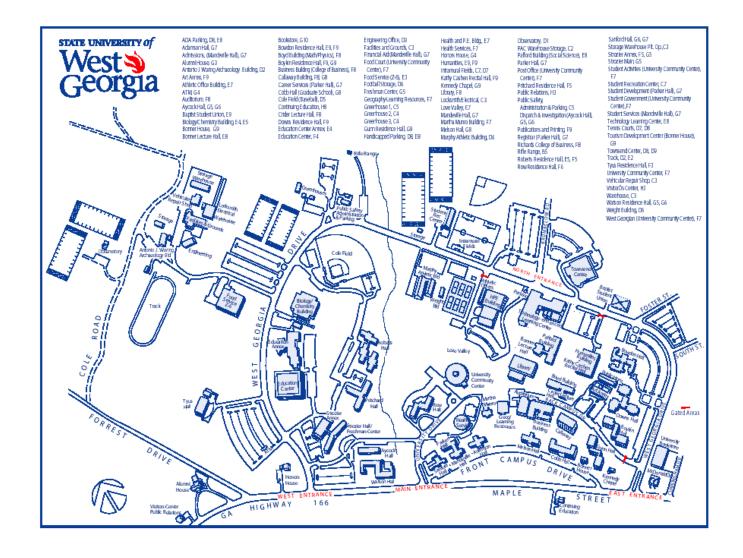

Kennedy Interfaith Chapel and Bonner House are two of the oldest buildings on campus. The Chapel was owned first by the Episcopal Church and later by the Catholic Church. When the local parish built a new church, its members donated the Chapel to the University for non-denominational use. In 1966, the late Robert F. Kennedy dedicated it to the memory of his brother, the late President John F. Kennedy.

The Bonner House, constructed in 1843 as a plantation home, is the oldest building on campus. The frame colonial structure has served various purposes through the years including the institution's Visitor Center. Because of the historical significance of the Bonner House, the Georgia Historical Commission placed a marker on the site outlining its history.

The Administration

Administrative Organization

The Board of Regents of the University System of Georgia is a State Constitutional Board responsible for governance, control, and management of the University System of Georgia and its member institutions. Board of Regents members, one from each state congressional district and five from the State-at-large, are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents. West Georgia, a unit of the University System of Georgia, operates according to Board policies and procedures.

The President of West Georgia has general responsibility for the institution. The President's Advisory Committee (PAC) is the immediate advisory body to the President. This committee consists of persons in administrative positions reporting directly to the President, and other persons as the President believes will provide advice for the orderly, effective, and efficient administration of the University's affairs. Appointments are annual and made at the beginning of the Fiscal Year.

The Administrative Council is the chief advisory body for administrative activities in the academic operations of the University. Its members are the Vice President for Academic Affairs (Chair), the Vice President for Student Services & Dean of Students, the Deans of Arts and Sciences, Business, Education, and the Graduate School; the Director of Continuing Education/Public Services; Director of Information Technology Services; the chair of the Institutional Studies and Planning Committee of the Faculty Senate; Director of Libraries; and the President of the Student Government Association.

The Planning Council, an advisory body to the President for long-range University development, oversees a variety of plan activities extending three or more years into the future. The President appoints Council members from the administration, faculty, students, alumni, and the community.

The instruction function of the University is organized into three Colleges and the Division of Continuing Education/Public Services. A dean or director supervises each of these major units. The Colleges of Arts and Sciences, Business, and Education are subdivided into departments, each responsible for instruction relevant to specific academic disciplines. A chairperson is responsible for coordinating the daily operation of each academic department.

Mission of the State University of West Georgia

The State University of West Georgia, a charter member of the University System of Georgia, is a selectively-focused, comprehensive institution providing undergraduate and graduate public higher education in arts and sciences, business, and education, primarily to the people of West Georgia.

The State University of West Georgia offers a range of disciplinary, interdisciplinary, and professional programs at the baccalaureate level. It is also a major provider of graduate education at the master's and educational specialist's levels; further, a cooperative doctoral program is offered on the West Georgia campus. In addition to being accredited as an institute of higher education, the University has earned national accreditation or recognition in most undergraduate and graduate fields of specialization.

The purpose of the State University of West Georgia is to provide opportunities for intellectual and personal development through quality teaching, scholarly inquiry, creative endeavor, and service for the public good. The University aspires to preeminence in providing educational excellence in a personal environment through an intellectually stimulating and supportive community for its students, faculty, and staff.

The State University of West Georgia is committed to following areas of excellence:

- high-quality undergraduate and graduate programs in selected fields in the Arts and Sciences, in Business, and in Education, that are grounded in a strong liberal arts curriculum, and that
- impart broad knowledge and foster critical understanding needed for intellectual growth, personal and social responsibility, cultural and global literacy, and life-long learning;
- emphasize disciplinary rigor;
- foster the development of effectiveness in communication, critical and independent
- thinking, problem solving, and the use of technology; a learning community dedicated to instructional excellence where close student-faculty interaction enhances both teaching and learning for a diverse and academically well-prepared student body.

- educational opportunities for exceptional students through initiatives such as the development of an Honors College and, for extraordinary high school juniors and seniors, through The Advanced Academy of Georgia.
- faculty research, scholarship, and creative endeavors which promote knowledge, enhance professional development, contribute to the quality of instruction, and provide significant opportunities for student involvement and field-based experience.
- a broad range of public service activities and proactive partnerships to promote more effective utilization of human and natural resources; to contribute to economic, social and technical development; and to enhance the quality of life within the University's scope of influence.
- regional outreach through a collaborative network of external degree centers, course offerings at off-campus sites, and an extensive program of continuing education for personal and professional development.
- student services which increase opportunities for academic success and personal development and enhance the climate of campus life.
- affirmation of the equal dignity of each person by valuing cultural, ethnic, racial, and gender diversity in students, faculty, and staff.
- a collegial environment in the decisionmaking processes and supporting practices that embody the ideals of an open, democratic society.

These commitments culminate in educational experiences that foster the development of leaders and productive citizens who make a positive impact throughout an increasingly global society.

Vision Statement for the State University of West Georgia

The Year 2000 and Beyond

The State University of West Georgia will be a leader within the University System of Georgia in providing educational excellence in a personal environment.

The State University of West Georgia will seek to create for students from various backgrounds every possible avenue to intellectual achievement, personal development, and leadership potential compromising academic excellence. The University will maintain close contact with all people of the region, be responsive to their needs while raising their aspirations, and generating a more highly-educated populace. The State University of West Georgia will be recognized for excellence in teaching and learning, research, and public service in undergraduate, graduate, and continuing education. The University will be recognized as being fundamental to the educational, social, cultural, technological, and economic advancement of the region and state.

Specifically, the State University of West Georgia will be characterized by:

- Educational Excellence evidenced by outstanding educational experiences, national and regional recognition of selected programs, faculty who excel in their disciplines, superior staff support, and an increasingly capable student body. At West Georgia, teaching, research, and service will be intricately intertwined and supportive of each other.
- A Safe, Supportive Community committed to enhancing learning, through close contacts between students and faculty, small classes taught by senior faculty wherever possible, and through dedicated staff who help provide a vibrant campus life.
- An Outstanding, Diverse Faculty and Staff who demonstrate effective communication and teaching skills; utilize new technologies and innovative strategies to enhance student learning; and exhibit the highest standards of intellectual achievement, research, and continuing growth.
- Educational Opportunities for a Wide Range of Academically-Prepared Students that include a strong academic knowledge base for the development of leadership skills and life long learning. The State University of West Georgia will help ensure its students' future success by developing the ability of individuals to access, interpret, analyze using current technology, and make use of, relevant facts, information, and knowledge to think critically, solve

- problems, work with, and communicate effectively with others.
- West Georgia will develop the whole individual so that as alumni they will continue to be contributing members of their families, institutions, communities, state, nation and world.
- Educational Opportunities for Exceptional Students: West Georgia will build a reputation for having an honors college with a distinctive liberal arts curriculum and additional peaks of excellence in selected undergraduate and graduate majors and professional programs, with student involvement in faculty research, and themes that run across the curriculum, such as communication, leadership development, interdisciplinary studies, critical thinking, and problem solving.
- A Region-Wide Learning Community that Engages and Inspires Traditional and Non-Traditional Students to become educated persons with global and multicultural perspectives, and advanced technological knowledge. The University will help develop both ethical principles and intellectual flexibility for the future, and will celebrate and energize the human spirit through respecting and supporting individual differences in learning styles, identities, and personal/professional goals.
- Pro-active Partnerships with Public and Private Schools and Other Educational Institutions, Business, Industry, Government, and Cultural and Social Organizations in order to analyze, synthesize, evaluate, predict, and respond to changing state and regional needs, to support Georgia's educational, economic, and cultural development, and to ensure graduates' readiness for the present and future.
- A Unified, Clearly Focused, University with each part contributing to and understanding how every other part contributes to the mission of the University and to the larger society.

The Students

UWG Students

The typical State University of West Georgia student:

- enters with an average SAT score of 958.
- is a female Caucasian. Sixty-five percent of the student body are female and 76 percent are Caucasian.
- lives within the primary service area of the University. Approximately 82.7 percent of the student body are from nearby counties, including 14.5 percent from Carroll County, and 31 percent from metro-Atlanta.
- attends full-time. Nearly 81 percent of undergraduates and 18.4 percent of graduates enroll in a full load of courses. Approximately 67 percent of all students take 12 or more credit hours for undergraduates or 9 or more credit hours for graduates.
- is 24.6 years of age. Undergraduates, on average are 21.7 years of age; while graduate students average 34.6 years of age.

UWG Admissions Data

Fall Terms 1991-1999

The Office of Admissions administers the undergraduate admissions policies and procedures of the University, evaluates eligibility of undergraduate applicants for admission and recommends policies governing admission of undergraduates. The Office of Admissions also

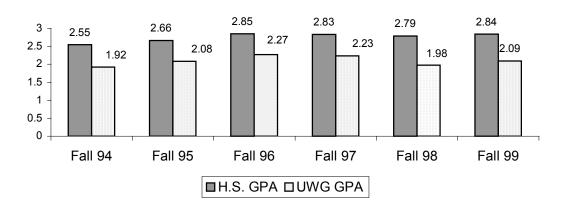

coordinates a comprehensive student recruitment program for the University. The Graduate School has its own admissions policies and procedures to admit students into the various degree programs available at West Georgia.

Student Financial Aid Fall 1999

The Office of Financial Aid coordinates financial assistance for nearly 72 percent of West Georgia's students. Office staff determine eligibility for aid awarded by the University and record aid received by students from other sources, such as the State University of West

Georgia Foundation, corporations, and individuals. The Office coordinates all student financial aid awards and reports all aid awarded to students attending the University to the Board of Regents, federal government, and University officials.

^{*}The percent of annual change is calculated by contrasting each term with the same term of the previous year.

**EFT=Total Credit Hours divided by 15.

^{***} Due to semester conversion in 1998, any quarter to semester comparison would be inappropriate.

Continuing Education

The Department of Continuing Education and Public Services has emerged as the extension of the traditional on-campus learning process. Non-credit classes are developed and offered to citizens of the University community at convenient locations and with flexible schedules to accommodate a wide variety of participants.

The mission of Continuing Education is to identify and provide non-credit educational opportunities that will enhance the quality of life for local citizens and provide training support to business and industry that will serve as a catalyst for economic development. Over the past 10 years, Continuing Education programs increased 83% to over 600 programs, serving over 12,000 participants. Most of these programs qualify for Continuing Education Unit (CEU) credit.

The CEU is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in a non-credit program. Programs that qualify for CEU credit are referred to as Category I. Category I activities are designed to enhance occupational skills, and individual permanent records as transcripts are maintained. Courses that are designed primarily for personal enrichment and are social, cultural, or recreational in nature are referred to as Category II courses. No permanent individual records or transcripts are maintained for Category II courses.

History of Continuing Education Programs for Fiscal Years 1989-1999 Categories I and II

Year	Programs	Participants	CEUs
1989	353	7,398	10,667

Off-Campus Programs Fall 1999

The Board of Regents of the University System of Georgia authorizes West Georgia to offer various off-campus degree and non-degree programs. These include the External Degree Program at Dalton College (which began in 1983), West Georgia Newnan Center, and a joint graduate degree program in cooperation with Columbus State University.

The College of Education administers and offers offcampus, non-degree programs which benefit regional educators by increasing the effectiveness of teacher education practices, policies, programs, and pedagogy for school systems in under-served areas of the State. West Georgia continues to fulfill its regional mission through these programs.

Sponsored Operations

History

The State University of West Georgia established a central office to administer sponsored operations in 1967. University reorganization in 1973 placed responsibility for sponsored operations, grants, contracts, budgeting of funds from sources external to the University, and institutional research in the office of Instructional and Research Services. By 1980, that unit became the Division of Budget and Research Services, reporting to the President of the University. In Fiscal Year 1996, Sponsored Operations was placed under the Vice-President for Academic Affairs.

Services Rendered

The Office of Sponsored Operations aids and supports faculty/staff efforts to attract funds from sources external to the University in support of instructional, research, and service programs. This is accomplished by the Director of Sponsored Operations, who: 1) matches faculty/staff interests and needs with appropriate funding sources, 2) routes requests for proposals (RFP's) to specific faculty/department/program personnel, 3) faculty/staff in preparing applications and proposals, 4) coordinates award paperwork, documentation, and reporting, and, 5) provides staff development through grants preparation/administration workshops and seminars. The Office of Sponsored Operations provides the day-today services necessary to support all program activities funded from sources external to West Georgia and provides support for the administration of the Faculty Research Grant program funded through the University. The Director of Sponsored Operations recommends all external contracts, proposals, and grants, and monitors institutional performance under such agreements.

West Georgia attracts grants, gifts and contracts from federal, state, and local government agencies, corporations, and foundations. This external funding and other revenue enable the University to fulfill its official mission to emphasize creative teaching, encourage research, and promote the development of human resources through educational programs.

Sponsored Operations Goals

The Sponsored Operations Office established the following strategic goals:

- 1. To promote and support the instructional, research, and public service missions of West Georgia.
- 2. To encourage University units and individual faculty/staff efforts in seeking funds from external agencies in support of instructional, research, and public service projects.
- 3. To monitor the Faculty Research Grant Program in compliance with established institutional policies and procedures.
- 4. To assist principal investigators in efforts to comply with federal and state statutes and University System policy.
- 5. To seek increased support for University activities from the corporate and foundation sources.

Sponsored Operations Five Year Assessment of Data Reported on June 30 of Each Fiscal Year

Financial Information

Fiscal Year Planning, Budgeting and Assessment Cycle

July: Budget Amendments due to Budget Services.

August: Vice Presidents submit Annual Report outcomes (including student learning outcomes) for the recently concluded fiscal year and operational goals for the current fiscal year to the President.

October: Capital Budget requests due to divisional Vice Presidents.

November: President submits the State University of West Georgia Annual Report of Institutional Effectiveness to the Chancellor of the University System. Requests for unrestricted foundation funds due to the Vice President for University Advancement. Capital Budget Requests (including major, minor, MRRF, and remodeling/repair projects) are due to the Vice President for Business and Finance. Budget Amendments are due to Budget Services.

December: Proposals for changes in student fee structure due to the Vice President for Business and Finance.

January: Budget Amendments due to Budget Services. Vice Presidents present divisions' budget requests for the next fiscal year to the President's Advisory Council. The President's Advisory Council (PAC) considers Internal Reallocation Plans (System mandated). Facilities Committee begins considering Capital Budget requests.

February: The PAC begins preliminary distribution of estimated reserve funds (on Spring semester census date). Requests for Foundation funded projects to the Vice President for University Advancement. PAC members report brief summary and update of July 31 outcomes report to the President. This request is designed to help the University System in the legislative process. Budget development material is sent to the departments dependent upon the timing of legislative allocation.

March: PAC begins preliminary budget allocation distribution dependent upon the timing of legislative allocation. Budget Amendments are due to Budget Services. Major and minor Capital Budgets are due to the University System.

April: Final Budget Allocation from the University System. Major Repair/Renovation Fund requests are due to the University System. Budget material due to Budget Services. Departments submit budget development material upward through the hierarchy.

May: Internal Funds Renovation Projects to be submitted to Facilities (year-end projects). Final Budget Amendments are due to Budget Services. West Georgia submits finalized resident instruction, auxiliary and student activities budgets to the University System.

June: Final Budget Amendment due to the University System of Georgia. Department Chairpersons submit Annual Report outcomes (including student learning outcomes) for concluding fiscal year and operational goals for the proceeding year to the appropriate college dean.

Budgetary Divisions

West Georgia operates* under three major budgets: the Resident Instruction Budget, the Auxiliary Enterprises Budget, and the Student Activities Budget. Each serves a distinct purpose.

The Resident Instruction Budget is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction Funds support instruction, research, libraries, the computer center and laboratories, Student Services (including the Minority Achievement Program, Student Development, Residence Life, Career Services, Financial Aid, Admissions, and the Registrar), the administrative and service offices of the University, a portion of the maintenance of the physical plant, and academic scholarships and fellowships.

The Auxiliary Enterprises Budget is self-supporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health and athletic fees, convenience store sales, parking fees, and parking fines. Auxiliary Enterprises funds support the operation of the residence halls, dining rooms, the University Bookstore, vending machines, bus service, health services, traffic operations, intercollegiate athletics (as of Fiscal Year 1993); and, they provide funds necessary to maintain a portion of the University's physical plant.

The Student Activities Budget is funded by student activities fees. Student Activities funds support various activities including choral and instrumental organizations, art exhibits, debate team, jazz ensemble, University Program Board, University gameroom, Student Government, University publications such as the West Georgian and Eclectic, Minority Enrichment, and intramural athletics.

In addition to the three budgets, the **West Georgia Foundation, Inc.**, a non-profit corporation dedicated to the advancement of West Georgia, provides funding for scholarships, equipment, and services not funded by state appropriations. The Alumni Association section of the Fact Book supplies additional information about the West Georgia Foundation.

*By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.

a. Cost of operating and maintaining the University's physical plant is divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based upon the square footage of the physical plant occupied by cost centers in each budget. These costs are budgeted as Operation and Maintenance of Plant in the Resident Instruction Budget and Indirect Operating Expenses in the Auxiliary Enterprises Budget.

Note: Information is subject to audit Source: Office of Budget Services

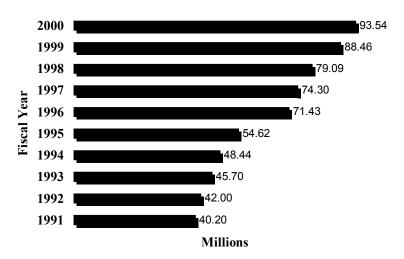

b. The Lapse Estimate is a budgeted estimate of the amount of funds that may be transferred from personal services to non-personal services during a fiscal year.

c. The Equipment Replacement Reserve is required by the Board of Regents and is based on 5% of Auxiliary Enterprises Revenue, except for Student Transportation Revenue.

d. The Unassigned Balance represents a contingency fund reserved to provide for unexpected expenditures.

⁽a) Prior Year Funds are funds that are unspent at the end of the fiscal year and are carried forward into the next fiscal year.

⁽b) Other Programs include Student Center Operations, Identification Cards, Office of Student Activity Operations, Merit Presidential Awards, Minority Enrichment, and partial support for ROTC.

⁽c) The Unassigned Balance represents a contingency fund reserve to provide for unexpected expenditures.

UWG Foundation and Alumni Association

State University of West Georgia Foundation

The State University of West Georgia Foundation, Inc., is a Georgia charitable corporation. It receives and manages private contributions (gifts) made for the benefit of the State University of West Georgia. The Foundation has been recognized as an organization exempt from Federal Income Tax under section 501(c)(3) of the Internal Revenue Code, and gifts to the Foundation are deductible as provided for in section 170 of the Internal Revenue Code. The Foundation encourages both restricted (specific purpose) and unrestricted (general use) gifts from donors.

The purpose of the Foundation is to promote the cause of higher education within the State of Georgia; to source and receive gifts for the support and enhancement of the University; and to aid the University in its development as a leading educational institution within the state of Georgia and the southeast region of the United States.

The Foundation's Board of Trustees is composed of business, professional, and community leaders plus officers elected by the Board. The Board establishes and provides oversight of the Foundation's operating financial policies and procedures. In addition, the Foundation is committed to provide for the integrity of original corpus (principal) dollars plus assure that all fiduciary commitments made to the Foundation's donors are honored for the life of their agreements. The officers and trustees of the Foundation are committed to a policy of full-disclosure.

The Board of Regents of the University System has recognized that gifts and income from endowments that provide for the private support of system institutions are not taken into account when determining the allocation of state funds to the institution. The Board of Regents recognizes that all of its institutions are dependent, in part, on private funding and encourages all of its institutions to seek the support of alumni, friends, corporations, and other private organizations.

UWG Alumni Association

The alumni of the State University of West Georgia constitute its largest single constituency and represent its most valuable resource for the University. Membership in the Alumni Association is open to all graduates of the State University of West Georgia, West Georgia College, or the Fourth District Agricultural and Mechanical School. A 36-member Board of Directors, along with several lifetime members, directs activities of the Association. The Association informs alumni of institutional plans, progress, opportunities, and needs.

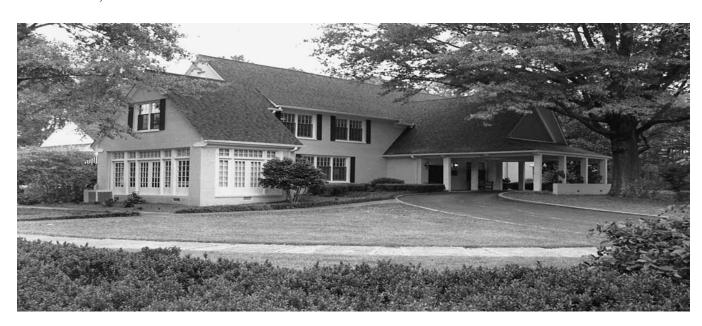

Perspective, the alumni publication, is mailed to all alumni and friends three times a year. The spring issue includes the Honor Roll of Giving and is presented in a magazine format.

The UWG Alumni Association also communicates to its constituents electronically through the On-Line Community (OLC). This web site features bulletin boards, events calendar, and the ever-popular online directory where alumni can research and find former classmates and friends. There is also a career center, and "yellow page" listings for alumni businesses.

Major activities sponsored by the Alumni Association include Homecoming (fall), Alumni Week (spring), annual meeting of the Fourth District A&M School, as well as numerous reunions and special events that involve hundreds of alumni each year.

Facilities and Grounds

Facilities & Grounds

The State University of West Georgia's Facilities and Grounds Department consists of the Office of the Director, Department of Facilities Maintenance, Department of Design and Construction, Department of Custodial Services, and Department of Landscaping and Grounds. The mission of the department is to maintain a safe, comfortable, and aesthetically pleasing environment conducive to teaching, research, and student life.

West Georgia's campus is considered to be one of the most beautiful in the University System of Georgia. The Landscaping and Grounds staff continue a long tradition of systematic landscaping that began in 1919 when Fourth District A&M School Principal, John H. Melson, solicited gifts of trees from each of the then forty-eight states for transplantation to the school campus. University landscapers care for the many plant species residing on the almost 400 acre campus. They also construct and maintain University irrigation systems, curbs, gutters, sidewalks, and athletic fields. A University nursery cultivates plants for seasonal, new, or replacement landscaping.

The Department of Custodial Services helps to cultivate a wholesome environment for students, faculty and staff by cleaning office areas and residence halls. The department is also responsible for breakdown of set-ups after events such as football games and student orientation. Displaying an ongoing and pleasing attitude to our customers, our staff is always willing to address any needs or concerns they may have at any given time seven days a week.

A safe, comfortable and appealing environment for our students, faculty and staff is the goals of the Facilities Maintenance department. This service is provided through diligent efforts of the work information center and the skilled tradespeople. The functions of repair and

routine maintenance, as well as energy management, along with special projects are scheduled, performed, and managed for the more than 1.5 million square feet of building floor space.

The Department of Design and Construction provides expertise for all planned works. The department has architectural, engineering and drafting capabilities within the design group and the construction team has earth moving, carpentry, and wiring expertise. The department also acts as project managers for contracted work, which happen often due to the scope of work involved and/or the time constraints imposed by the priority level of a project.

Campus Facilities As of June 30, 1999

<u>Facility</u>	Date of Construction or Acquisition	Approximate Square Footage	Investment*	Replacement Cost Approximate or Present Value**

Information Technologies and Resources

Irvine Sullivan Ingram Library

The Library is one of the most important learning centers on any campus. West Georgia's Irvine Sullivan Ingram Library is one of the most modern library facilities in the state of Georgia. The four-story structure provides more than 85,000 square feet of usable research/storage areas and over 1,000 seating spaces for students and faculty.

The Library presently contains seminar and conference rooms, lockable faculty carrels, hundreds of individual study carrels, facilities and equipment for microform reading and copying, the Annie Belle Weaver Special Collections, large areas for reference, periodical materials, maps, and the circulating book collection. Audio and video cassette players, and photocopiers are also available to assist students and faculty with their study and research needs.

Fifty-five percent of the Ingram Library staff are professional librarians, they hold (at-least) accredited graduate library degrees and faculty rank. The remainder of the staff meets particular degree qualifications, has specialized job skills, and receives specific training.

The Irvine Sullivan Ingram Library presently houses approximately 353,181 bound volumes, 23,526 reels of microfilms, a limited audiovisual collection and more than 1,040,266 pieces of microform as well as 19,628 maps and charts and 29,990 volumes/pieces of special collection material. The Library currently subscribes to over 1,372 magazines and newspapers. It is also the Sixth Congressional District selective depository for more than 214,661 United States government publications.

The Library's collection management system provides automated services for its patrons. Acquisitions, cataloging, circulation, reserves, interlibrary loans, government documents, serials, and special collections are available through the on-line public access catalog (OPAC)). The OPAC contains an electronic

suggestion board, and all patrons are encouraged to provide input to the library. The University's Newnan and Dalton Centers have full access to Ingram Library's OPAC. Ingram Library is aggressive in extending its patrons' access beyond local holdings. Through the University's network, patrons have access to Library holdings.

University System resources, Internet resources. From PEACHNET library users - students, faculty, or the general public - have access to GALILEO (Georgia Library Learning Online) which includes the catalogs of all system libraries and full-text journal and encyclopedia databases. Students and faculty can be issued Joint Borrowers' Cards allowing them circulation privileges at the other 33 University System of Georgia libraries. For students or faculty who require additional materials locally, electronic generation and transmission of interlibrary loans expedites this process considerably.

Off-campus Library Services ensures that students enrolled in courses at any of the University's remote class sites receive the same level of library support as those at the Carrollton campus. In addition to remote computer access, off-campus services maintain toll-free telephone services for direct consultation with a professional librarian. Standard services include selection of materials and free delivery to either the students' home or to one of the University's full-time program locations at Dalton or Newnan. Fax and courier services provide timely delivery to these sites. Reserve reading materials can be transferred to a library near the class site and Joint Borrowers Cards are routinely issues to off-campus students.

Selective statistics descriptive of Library activities and services for the past five years are provided in the table on the next page.

Information Technology and Technical Support Services

Information Technology Services (ITS) provides technology leadership and support to all areas of the State University of West Georgia community. ITS offers a wide variety of services – from user assistance and training to planning and maintaining the campus-wide network. Providing this range of services makes its role a very challenging one. To successfully meet the challenge, ITS is continually upgrading services and equipment which are available to the campus community.

ITS maintains and supports the central Sun Microsystems Unix servers for the campus, including a Sun 3000 which provides e-mail accounts for all students, faculty, and staff, and a Sun 4500 which supports the Banner Student Information System. ITS also operates the campus' central web server in addition to providing support for approximately 25 NT and Linux fileservers, serving both the academic and administrative communities.

ITS also manages the campus' administrative and residence hall data and telephone networks. The Campus data network is a completely switched high-speed network providing switched ten megabit connections to students in the computer labs and in the students living in the residence halls. High speed Internet access from the State University of West Georgia campus is provided through a link to PeachNet operated by the University System of Georgia.

Student microcomputer labs are located in the College of Business, the College of Arts and Sciences, the College of Education and the University Community Center. Many of these labs are used for instruction; however, the Community Center computer lab is open for general use. The individual Colleges primarily handle support for their respective student computer labs.

Information Technology Services - End User Support provides end-user technical support for the most recent versions of general microcomputer software used by the faculty, administrative offices, and students. Individual college technical support staff may support other specialized software.

The *Department of Learning Resources*, which is part of ITS, provides faculty with instructional technology and assistance with instructional design for classroom use. Learning Resources stocks and maintains a wide-ranging inventory of audio-visual technology from slide projectors and overheads to DVD players and LCD projectors. It is also responsible for installation and maintenance of technology permanently placed in classrooms such as TV/VCRs, overhead projectors, and multimedia equipment. The LRC assists in training faculty and staff in the use of instructional technology.

Creation of visual aids such as color slides, overhead transparencies, computer generated slides, and on-screen presentations is also an important service of Learning Resources. The Instructional Resources area scans photos and slides, digitizes video, converts photos into slides as well as provides darkroom services such as printing black and white photographs and developing Ektachrome slides. Other production services such as lamination, black and white transparencies, and VHS tape dubbing are also available.

A new multimedia lab for faculty development has also recently opened. The lab includes computers and training for digitizing and editing of video, scanners, a Smartboard and LCD projector.

LRC professional staff members hold advanced degrees from accredited institutions and have extensive experience in instructional technology and design.

Institutional Research

The Nature of Institutional Research

The Department of Institutional Research and Planning at West Georgia, through studies at regularly planned intervals, explores University culture by investigating campus community norms and values. Research findings aid the administration in determining if (and to what extent) values are in conflict and provide a basis for policy analysis and identifying potential problems. West Georgia institutional retention studies indicate causes for attrition. Such studies analyze retention-attrition behavior and provide bases for policy analysis, alternative admissions criteria, and enrollment planning.

Institutional Research contributes to planning in the development of specific programs through market research techniques and needs assessment and supports program review by supplying qualitative and quantitative evidence for assessment activities.

Institutional Research supports University development efforts through providing institutional information for external fund raising projects, conducting case studies for use in fund drives, and providing information necessary for data-based development strategies.

Institutional Research Goals

The Department of Institutional Research adopted the following goals to encourage institutional effectiveness and to foster mechanisms to assess results:

- To serve the executive functions of the institution by providing a reliable and proactive management and decision - support system.
- To promote the improvement of West Georgia's planning process in compliance with Board of Regents Policy and the Southern Association of Colleges and Schools Criteria.
- To generate data, information, and analytical reports on institutional research topics designed to improve information usage in the planning process utilized at the University.
- To assist the executive and administrative officers of the University in institutional assessment in order to promote increased institutional effectiveness.
- To provide systematic collection and reporting of standard institutional, regional, environmental, and student-centered information for institutional planning and assessment.
- To reply in a punctual manner to spontaneous requests for descriptive information, data, and analytical reports.

Major Projects

The Department of Institutional Research conducts a five year cycle of studies: the Entering Student Study, Continuing Student Study, Former Student Study (Withdrawing/Non-Returning Student Study), Student Needs Assessment, Recent and Long-term Alumni Studies, Adult Learner Needs Assessment Study, and Outcomes Assessment Study. The Institutional Research unit designed this series to measure student educational outcomes and institutional effectiveness as well as provide vital information and data to support the University's planning processes.

During Fiscal Year 1998, the Institutional Research unit responded with information and analyses to 250 formal projects or inquiries. The unit completed several projects, including the University System's required Request for Proposed Enrollment Plans; the institution's Comprehensive Plan; the annual SACS Institutional Update; the Annual Report of Institutional Progress; NCAA Enrollment and Persistence-Rates Disclosure Report; U.S. Department of Education's IPEDS Reports; the institution's Affirmative Action report; and a study of the Perceptions of West Georgia.

The Institutional Research unit continued to provide assistance to various departments and committees regarding preparation for reaccreditation by the National Association of Colleges of Teacher Education, the National Association of Schools of Music, American Assembly of Collegiate Schools of Business, and the National League of Nursing. IR Staff assisted the Art Department in their attempts to gain accreditation from the National Association of Schools of Art and Design.

The unit collected, analyzed, and reported data and information relative to this institution and University System's enrollment, graduation rates, course taking behavior, academic achievement, persistence rates, Regent's Test scores, declared majors and degrees conferred. Other efforts to perpetuate thoughtful planning include production of annual department fact sheets, and the annual Fact Book. The unit responded to many requests for data pertaining to enrollment, student demographics, academic program statistics, and general environmental indicators, with a third of inquiries attributable to the executive function. Furthermore, the unit published the University's electronic Fact Book, located at the following URL: www.westga.edu/~factbook.

State University of West Georgia Fact Book

Epilogue and Acknowledgments

The Department of Institutional Research and Planning is proud to offer the 1999-2000 edition of the State University of West Georgia Fact Book. It is our hope and intent that this volume continues the tradition of providing reliable statistical data and summary information designed to answer the most frequently asked questions about the University. Based on sound institutional research, the Fact Book serves as a good first point-of-reference for institutional assessment, self-study, planning, and resource allocation. In total, it projects an institutional profile for our many publics. Please note that Fall 1998 is our first on a semester calendar and that any comparison to previous years' data on the quarter system should take this fact into account.

Special thanks are extended to Ms. Erma Shooks, Administrative Secretary, who rendered proofreading services and layout suggestions. Most of the work to update the data for the graphics and displays was performed by Ms. Elaine Nugent, Institutional Research Analysis. Their contributions are acknowledged and appreciated.

Individuals representing many University offices and units provided data, information, and suggestions that contributed to the improvement of this Fact Book. Recognition and appreciation are extended to Ms. Sally Roberts, Director of Publications and Printing, and Ms. Debby Holcombe, Design and Pre-Press Manager, who expertly managed the technical production of this issue. Mr. Steven Broome, University Photographer, took special care in preparing a library of appropriate photographs for inclusion in this volume. Through hard work and professionalism, these individuals and others have made the 1999-2000 State University of West Georgia Fact Book possible. Thank you!

Dr. Andrew L. Luna
Director
Institutional Research and Planning
