A SENIOR COLLEGE IN THE UNIVERSITY SYSTEM OF GEORGIA

404-836-6442

OFFICE OF THE PRESIDENT

Dear Colleagues:

West Georgia College is firmly committed to making the best possible use of the resources allocated through the Board of Regents and the State Legislature, and we are well aware that careful planning is necessary for this process to be successful.

One of the essential ingredients in institutional planning and in the assessment of institutional effectiveness is the compilation, analysis, and use of statistical data and other information relating to the function of the College. This document is designed to help meet that need.

For the eighth consecutive year, the Division of Budget and Research Services, with the assistance and cooperation of offices throughout the campus, has collected, published, and distributed this Fact Book which profiles many aspects of the institution's work. This year's book includes an expanded Financial Information section and new sections on Institutional Research and Sponsored Operations.

Its purpose is two-fold: The central focus is to get accurate, timely information in the hands of the College's organizational units for internal institutional assessment; a secondary purpose is to acquaint outside constituencies with a measure of the successes of the College in achieving its goals and objectives.

The past and the present are important ingredients in the formula that will evolve into what the institution becomes in the future. It is essential that appropriate personnel in and out of the College be aware of these distinguishing features as the path for the future is charted. I feel confident this document helps fulfill that need.

Sincerely,

Maurice K. Townsend
President

MKT:msi

West Georgia College Fact Book

Preface and Acknowledgements

It is with great pride that we offer the 1988-89 edition of the West Georgia College *Fact Book*. Our primary goal is to continue the tradition of providing reliable statistical data and summary information through sound institutional research. The *Fact Book* is designed to answer the most frequently asked questions about the College. It is a good first point-of-reference for institutional assessment, self-study and planning. The *Fact Book* serves as an institutional profile for our many publics.

The current edition incorporates two new sections highlighting achievements in Institutional Research and Sponsored Projects/Operations. In addition, we have expanded the Financial Information section to present a more universal portrait of College-wide funding. Now, for the first time, the reader is offered basic data on the Auxiliary Enterprises and the Student Activities Budgets as well as the Resident Instruction (Education and General) Budget. Finally, the *Fact Book* contains a new section highlighting the one aspect of our instructional program which makes West Georgia College unique—the Graduate School. These new additions to the content and continued technological improvements available in both the Division of Budget and Research Services and the College Central Duplicating operations are utilized to uphold the tradition of producing a quality West Georgia College *Fact Book*.

Ms. Laura H. Lamb, Coordinator of Institutional Research, compiled and edited the 1988-89 *Fact Book*. Her tireless efforts and attention to countless details made this volume possible. Other members of the Division of Budget and Research Services staff made special contributions. Ms. Teresa C. Stamps, Research Analyst, assisted in the compilation of information and created the graphics. Mr. J. Blake Lanier, Budget Analyst III, served on the Fact Book committee, did most of the photographing, and compiled new information and coordinated production of the expanded Financial Information section. Dr. Robert H. Claxton, Professor of History and Coordinator of Sponsored Operations, compiled information and authored the new Sponsored Projects and Operations section. The special contributions of Ms. Charlcie C. Inman, Budget Analyst III, who served as a senior advisor, is acknowledged.

In addition, individuals representing many different College units provided data, information and suggestions that contributed to the expansion and improvement of the *Fact Book*. Our gratitude is extended to Dr. Jack O. Jenkins, Dean of the Graduate School, who provided information and authored the narrative on graduate study at West Georgia College. Mr. Denis S. Campeau, Instructional Resources Coordinator, performed darkroom services. Special thanks and appreciation to Mr. J. Dan Minish, Director of Publications and Printing, who managed the technical production of this volume. Through hard work and professionalism, these individuals and others, have made possible the 1988-89 West Georgia College *Fact Book*.

GENERAL INFORMATION

THE COLLEGE

History

West Georgia College is a coeducational, residential, liberal arts institution located in Carrollton. A senior college unit of the University System of Georgia, it enrolls students from most counties in Georgia, as well as from other states and several foreign countries.

The College is situated on the western side of Carrollton, the county seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton serves a regional population of more than 100,000 as a center for retail shopping, medical and educational services, entertainment and recreational activities, and financial services. Carrollton is an hour's drive from Atlanta via Interstate 20 and a four-lane connector.

West Georgia College originated in 1906 as the Fourth District Agricultural and Mechanical School, one of twelve such institutions established by the State of Georgia between 1906 and 1917. Twenty-seven years later, Carrollton's A & M School became West Georgia College, a junior college established by an act of the Board of Regents of the University System of Georgia. Dr. Irvine S. Ingram, who had been principal of the A & M School, was named the institution's first president.

In 1939, the College was authorized by the Board of Regents to add a three-year program in elementary education. In 1957, the institution was authorized to confer the B.S. degree in Education, making it a four-year senior college unit of the University System of Georgia. Two years later, West Georgia College added the Bachelor of Arts degree in the fields of English, history, and mathematics.

During the following years, West Georgia College became one of the fastest growing institutions of higher learning in the South. From an enrollment of 576 in 1957, the institution's student body now numbers more than 6,700 students. West Georgia offers nine undergraduate degrees, the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Business Administration, Bachelor of Music, Bachelor of Science in Recreation, Bachelor of Science in Earth Science, Bachelor of Fine Arts, and Bachelor of Science in Nursing with majors in nearly fifty different fields.

In 1967, the Board of Regents authorized the initiation of a graduate program at the master's level. The following six Masters degrees are offered in a combined total of 28 areas of study: Master of Arts, Master of Business Administration, Master of Education, Master of Music, Master of Public Administration, and Master of Science. The Specialist in Education degree is offered in eight

areas of study.

The Associate of Applied Science, with majors in computer science, criminal justice, and office administration, and the Associate of Science in Nursing are all offered as two-year programs.

To accommodate the College's growth, a multi-million dollar building program has increased the value of the College's physical facilities to more than \$104.5 million. From a beginning of three small buildings, the College has grown to include more than 60 structures of learning, living, and recreation on its 394-acre wooded campus.

Purpose of the College

West Georgia is a multi-purpose public institution providing a liberal arts experience for all its students as a base for their entire educational program. It provides educational preparation in the liberal arts and for professional careers, community college terminal instruction for students from the local geographical area, and special academic options in honors, general and transitional program areas. It seeks to provide a distinctive and realistic educational environment wherein each student may attain a disciplined and open mind, a capacity for self development, and the knowledge and skills essential for living in a free society. This environment includes the opportunity for original thinking, the exchange of ideas, and scholarly involvement with one's natural and cultural heritage.

In the fulfillment of this purpose, the College asserts its faith in higher education, liberal and otherwise, for all who earnestly seek it and can profit from it. The College emphasizes creative teaching, encourages research, and promotes the general advancement of knowledge through undergraduate and graduate programs within a broad spectrum of studies. Programs and services vital to student life, including attention to physical and mental well-being and the problems of adjusting to societal mores, are provided to complement these academic aims. The College also seeks to serve as a center to promote the development of human and natural resources through continuing education and public service programs.

Accreditations and Affiliations

West Georgia College is fully accredited through the master's level by the Southern Association of Colleges and Schools. All programs preparing teachers through the master's level are accredited by the National Council for Accreditation of Teacher Education, and the undergraduate School of Business programs are accredited by the American Assembly of

Collegiate Schools of Business. The College's work in the field of teacher education is fully recognized and accredited by the Georgia State Department of Education. Women graduates of the institution are eligible for membership in the American Association of University Women.

Among organizations in which the College holds institutional membership are the following:

American Assembly of Collegiate Schools of Business
American Association of Colleges for Teacher Education
American Association of State Colleges and Universities
American Council on Education
Conference of Southern Graduate Schools
Georgia Association of Colleges
Georgia Board of Nursing
National Association for Foreign Student Affairs
National Association of Schools of Music
National Business Education Association
National Commission on Accrediting
National Council for Accreditation of Teacher Education
National League for Nursing
Southern Association of Colleges and Schools

The Campus

The campus is a unique blend of the old and the new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900's, as well as buildings exemplifying the most contemporary modes of architecture.

On the front or "Old Campus" as it is sometimes called, a three-block-long expanse of rolling hills shaded by scores of old, towering oak, elm, and maple trees surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia College began as an A & M School in 1906.

Beyond the Old Campus is a modern academic complex composed of a library, social science, humanities, and math-physics building. A new business school annex was added in 1985. A performing arts center, containing two theatres which seat 250 and 500 respectively, will be completed in 1989. Alumni and friends of the College have contributed over \$450,000 to outfit it with the latest equipment and furnishings. Other buildings in the area include a three-story student center, a health and physical education

center featuring a 3,000 seat gymnasium and an indoor pool, and one of the most modern college infirmaries in the state.

Much of the College's physical development has been on the western side of the campus. Located in the area is one of the most unique structures in the University System, the Education Center. The structure contains five large lecture-demonstration rooms which can be changed by sliding partitions into an auditorium seating nearly 1,000, an instructional materials center, television and sound recording studios, audio-visual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas of independent study.

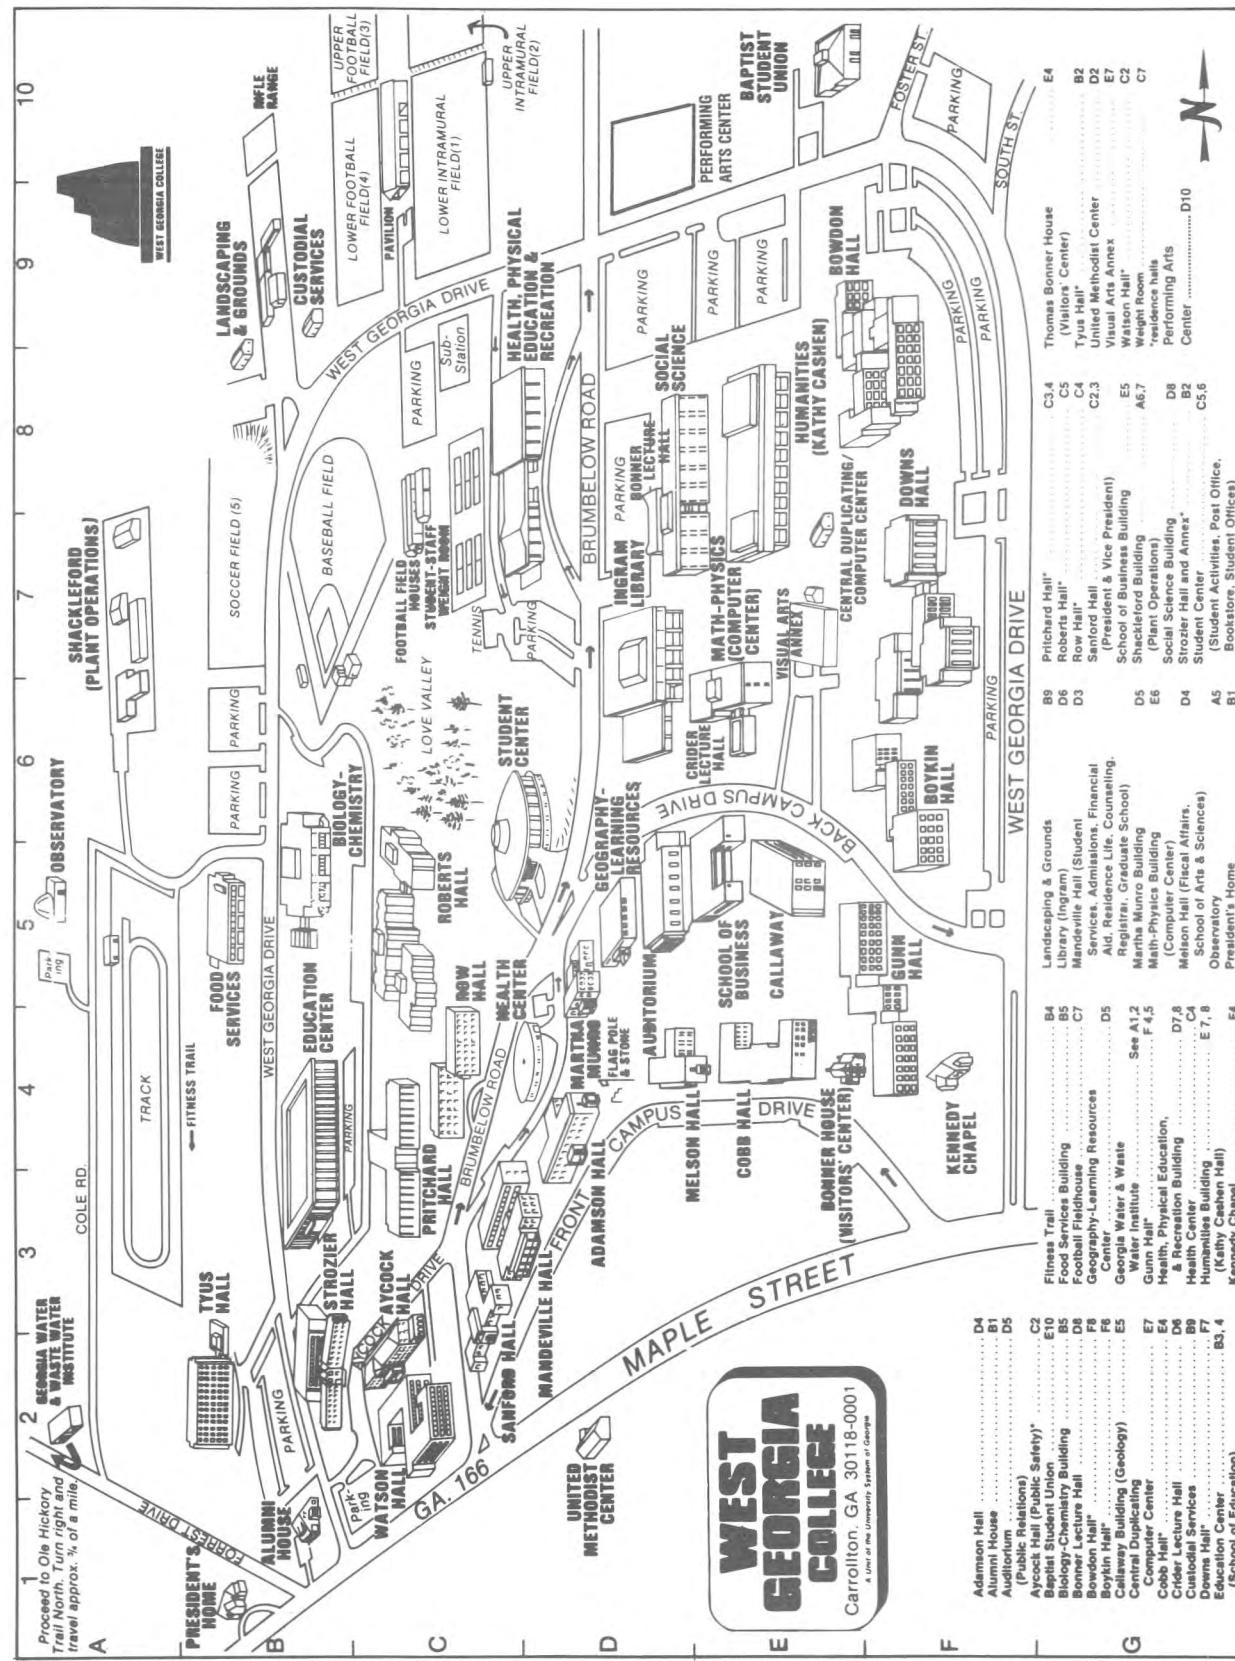

Adjacent to the Education Center is the Biology-Chemistry Building, a facility which includes numerous laboratories, classrooms, lecture halls, and the latest scientific equipment. Other buildings in the area are Tyus Hall, a five-story residence hall which houses upperclassmen, graduate students and married students; a multi-structure plant operations compound; a large food service and activity center; and a well-equipped observatory.

Eleven residence halls are located on the campus, including the five-story high rise hall previously mentioned. One of the newest halls, Bowdon Hall, was named in honor of Bowdon College, a predecessor of West Georgia College.

Two of the oldest and most treasured buildings on campus are the Kennedy Interfaith Chapel and the Bonner House. The Kennedy Chapel was named in memory of the late President John F. Kennedy. At one time the Chapel was owned by the Episcopal Church and later by the Catholic Church. When a new Catholic Church was constructed, the local group gave the Chapel to the College for non-denominational use. In 1966, it was dedicated by the late Robert F. Kennedy in memory of his brother. The Bonner House, constructed in 1843, is the oldest building on campus. The frame colonial structure was originally built as a plantation home and through the years has served various purposes. Because of its historical nature, the house was selected by the Georgia Historical Commission as the site for a marker outlining the history of the College. After complete restoration, the Bonner House now serves as the Office of Public Relations for the campus.

ADMINISTRATIVE ORGANIZATION

West Georgia College is governed by the Board of Regents of the University System of Georgia, which is a State Constitutional Board responsible for the government, control, and management of the University System of Georgia and all of its institutions. Members of the Board of Regents, one from each congressional district in the State and five from the State-at-large, are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents.

The President of West Georgia College has general responsibility for the operation of all aspects of this institution. The Executive Council is the immediate advisory body to the President and consists of the President, Vice President and Dean of Faculties, Vice President for Student Services and Dean of Students, Vice President for Business and Finance, Director of College Relations, and the Director of budget and Research Services. The Executive Council advises the President on daily operations of the College.

The Administrative Council is the chief advisory body for administrative activities in the academic operations of the College. It is chaired by the Vice President and Dean of Faculties and consists of the Vice President for Student Services and Dean of Students, the academic deans, various administrative directors, and the President of the Student Government Association.

The Planning Council is an advisory body to the President on long-range development of the College. It oversees the creation of a variety of plans extending three or more years into the future. Members of the Council are appointed by the President from the administration, faculty, students, alumni, and the community.

The instructional components of the College are organized into four schools. The Graduate School, the School of Arts and Sciences, the School of Business, and the School of Education are each supervised by a Dean who coordinates instruction and research within the school. Each of the Schools, with the exception of the Graduate School, are divided into departments appropriate to their respective areas of academic responsibility. A department chairman is responsible for the daily operation of each department.

West Georgia College
January 1989

STUDENT INFORMATION

WGC STUDENTS

The Typical West Georgia College Student:

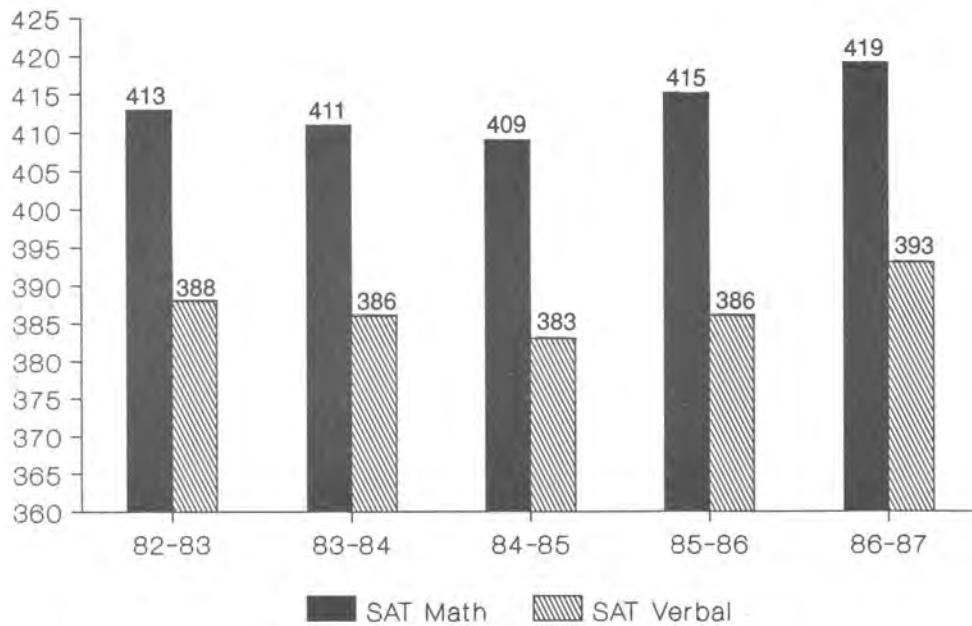

- has an average SAT score of 812. This score is gradually rising each year.
- is a female caucasian. Nearly two-thirds of the student body are women and eighty-four percent are caucasian.
- lives within fifty miles of the College. Almost three-fourths of the student body are from nearby counties,

including sixteen percent from Carroll County, and thirty-one percent from metro-Atlanta.

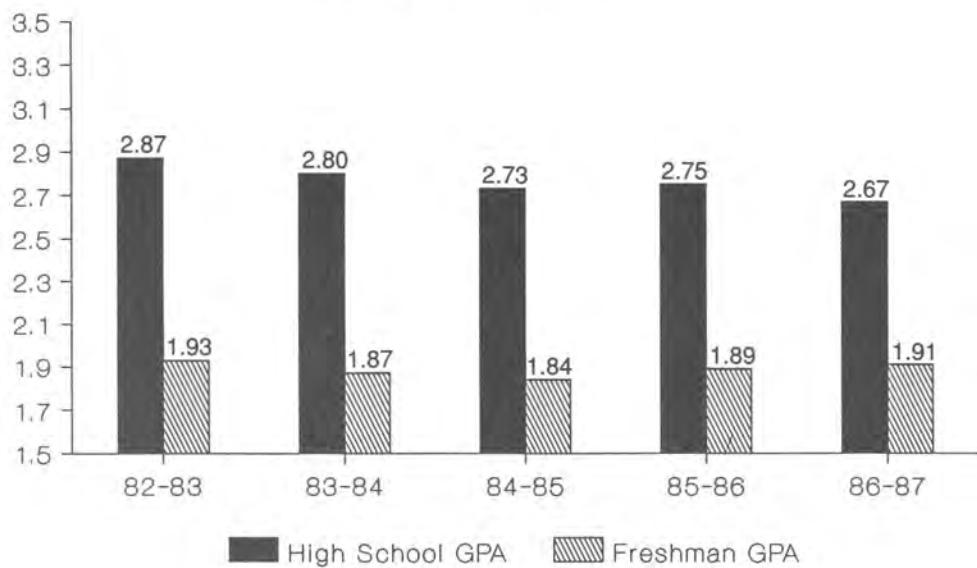

- attends full-time. Fifty-eight percent of the students enroll in a full load of courses (fifteen quarter credit hours).
- is twenty-four years old. The average age of undergraduates is twenty-one, while graduate students are an average of thirty-five years old.

CONTINUING EDUCATION/PUBLIC SERVICE

The Continuing Education Unit (CEU) is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in and an institution's production of non-credit programs. Non-credit programs are classified into three categories depending on the nature of the program and the objectives of the participants.

History of Continuing Education Programs for Fiscal Years 1979-1988 Categories I and II

Year	Programs	Participants	CEUs
1978-79	233	4,201	5,899
1979-80	215	3,736	7,589
1980-81	275	4,752	7,029
1981-82	247	4,195	6,452
1982-83	314	5,899	9,039
1983-84	333	6,643	10,547
1984-85	351	6,018	13,576
1985-86	353	7,474	11,395
1986-87	352	6,917	10,916
1987-88	333	7,569	10,339

Report combines Category I and II programs which are conducted through the Division of Continuing Education/Public Services. Category I activities are designed to enhance occupational skills, and individual permanent records and transcripts are maintained. Category II programs are designed primarily for personal enrichment and are social, cultural or recreational in nature. No permanent individual records or transcripts are maintained.

History of Public Service Programs for Fiscal Years 1979-1988 Category III

Year	Programs	Participants	CEUs
1978-79	21	4,261	15,112
1979-80	34	3,610	13,695
1980-81	39	4,283	18,561
1981-82	41	4,678	18,019
1982-83	43	6,667	16,485
1983-84	42	6,250	15,772
1984-85	40	6,682	17,147
1985-86	48	7,832	22,703
1986-87	38	5,447	21,698
1987-88	42	8,535	40,680

The Category III programs report the public service efforts of the College in supporting programs and projects conducted on campus by non-college organizations. These programs are typically summer camps and cooperative programs. The majority of these programs are coordinated by the Auxiliary Enterprises Office.

SOURCE: Division of Continuing Education and Public Services.

OFF-CAMPUS PROGRAMS

West Georgia College offers off-campus courses at ten separate locations within its primary service area. A majority of the courses are at the graduate level in education and are intended to provide area teachers with easy access to higher education.

Two programs, one at Dalton College and one at Newnan, are formally approved External Degree Programs. The External Degree Program at Dalton was approved by the Board of Regents in August 1983. It is a cooperative effort on the part of Dalton College and West Georgia College and is offered as a service to those students within the Dalton area who would like to continue their formal education beyond an associate degree.

All degrees are awarded by West Georgia College, and the program offers a Bachelor of Business Admini-

stration degree with a major in Management, a Bachelor of Science in Education with a major in Early Childhood Education and Middle Grades Education, and a Master of Education degree with a major in Early Childhood Education or Middle Grades Education/Reading.

The Newnan Center program was approved by the Board of Regents in August 1988. A recent influx of business and industry will create more than a thousand new jobs in the Newnan area over the next five years. Accordingly, the need for higher education in Newnan has become a top priority. A Bachelor of Arts degree with a major in General Studies, also recently approved by the Board, is offered at the Center. The major will satisfy the needs of students who want a broad-based liberal arts degree, but is also designed to appeal to non-traditional students seeking a degree outside of customary disciplines.

*Number of awards in this display may represent a duplicated headcount of students. For example, a student receiving NDSL/Perkins may also be receiving a WGC Emergency Loan. Therefore, a student will be counted twice in the Loans category.

GRADUATE SCHOOL

The Board of Regents of the University System of Georgia created a graduate division at West Georgia College in 1967. Six years later, again by Board of Regents action, the College elevated its graduate division to the status of Graduate School in accordance with the institution's new organizational structure. Since that time, the Graduate School has matured into a comprehensive academic unit serving a forty-two county area in western Georgia. Over twenty percent of all students enrolled at West Georgia College during Fall Quarter 1988 pursued graduate study.

In 1967 the West Georgia College graduate division offered a Master of Education degree in six areas of study and a Master of Arts degree in three academic fields. During the next two decades, the College developed a comprehensive Graduate School offering:

Degree	Number of Fields
Master of Arts	4
Master of Music	2
Master of Public Administration	1
Master of Science	1
Master of Business Administration	1
Master of Education	11
Specialist in Education	8

In addition, the University of Georgia, in cooperation with West Georgia College, offers a doctoral degree in Educational Leadership in the program areas of Educational Administration, Curriculum and Instruction, and Supervision.

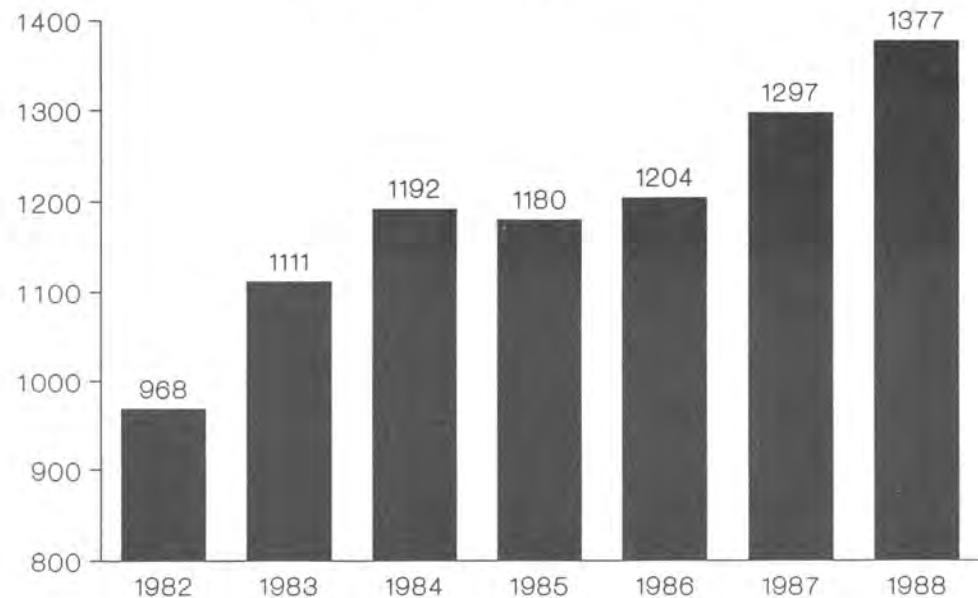

The West Georgia College Graduate School provides the student an opportunity to strengthen the knowledge and skills essential for success as a professional. It provides programs for members of the teaching profession who wish to enhance their competencies and knowledge. Graduate study at West Georgia College equips superior students for advanced research and inquiry. To be successful, a graduate student at West Georgia College must acquire a broad knowledge of literature in an academic discipline, be capable of sustained study, exhibit the power of independent thinking, and demonstrate mastery of appropriate research skills. Graduate study at West Georgia College requires more than passing a prescribed course of study and meeting minimum requirements.

In both enrollment and the number of graduate degrees conferred, the West Georgia College Graduate School leads all senior institutions in the University System of Georgia. This premier status is no accident. Success is a direct result of West Georgia College's concerted effort to address the educational and professional needs of citizens in its service area. The Dean of the Graduate School, with assistance of faculty from academic departments offering graduate programs has conducted a vigorous recruitment effort. Top priority has been placed on the recruitment of minorities for graduate study. The results of these efforts are reflected in enrollment patterns and the number of graduate degrees awarded. During the 1987-88 fiscal year, the Graduate School conferred 266 masters degrees, 165 specialist degrees and two students completed joint doctoral programs through the University of Georgia.

FINANCIAL INFORMATION

BUDGETS

West Georgia operates* under three major budgets-The Resident Instruction Budget, The Auxiliary Enterprises Budget, and The Student Activities Budget. Each budget serves a distinct and separate purpose.

The Resident Instruction Budget is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction funds support instruction, research, academic support including libraries and the computer center and laboratories, student services including the Black Achievement Program, Student Development, Residence Life, Placement and Cooperative Education, Financial Aid, Admissions, and the Registrar, institutional support—the administrative and service offices of the College, a portion of the maintenance of the Institution's physical plant, and academic scholarships and fellowships.

The Auxiliary Enterprises Budget is self-supporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health fees, refrigerator rentals, parking fees and parking fines. Auxiliary Enterprises funds support the operation of residence halls, dining rooms, the College Bookstore, vending machines, bus service, health services, traffic operations, and provides funds

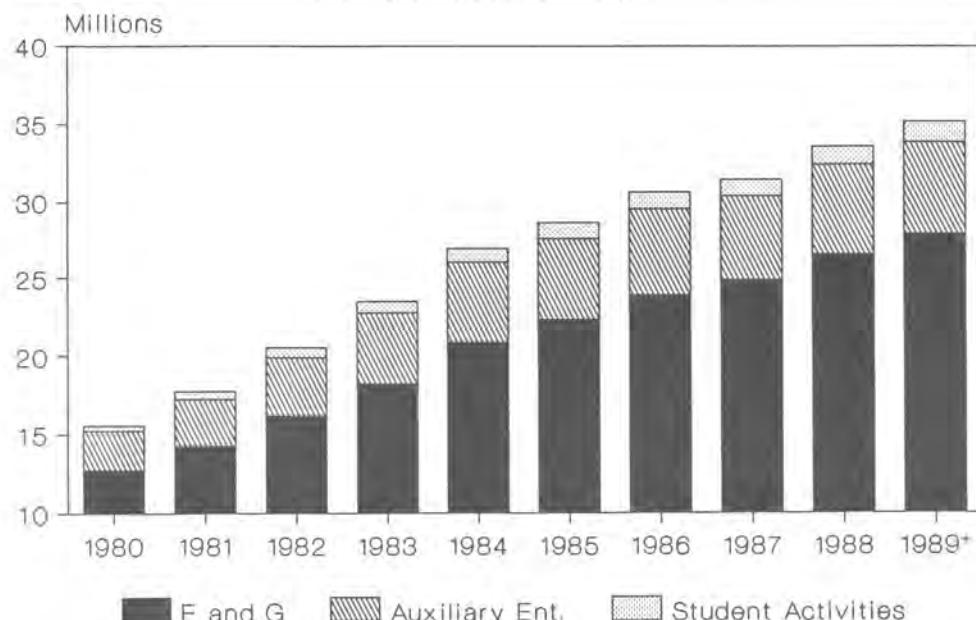

necessary to maintain a portion of the College's physical plant.

The Student Activities Budget is funded from Student Activities Fees, athletic and special event ticket sales, tournament entry fees, and commissions from advertising and concessions. Student Activities funds support social and entertainment activities including choral and instrumental organizations, art exhibits, the debate team, the jazz ensemble, the College Program Board, and the college gameroom, Student Government, College publications such as the *West Georgian* and *Eclectic*, Minority Enrichment, intercollegiate athletics, intramural athletics, cheerleaders, sports medicine, and athletic scholarships.

In addition to the three budgets, funds are generated by the **West Georgia College Foundation, Inc.**, a non-profit corporation dedicated to the advancement of West Georgia College. The Foundation provides funding for scholarships and equipment or services which cannot be funded by state appropriations. See the Alumni Association section for information about the West Georgia College Foundation.

*By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.

(a)Costs of operating and maintaining the College's physical plant are divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based upon the square footage of the physical plant occupied by cost centers in each budget. These costs are budgeted as Operation and Maintenance of Plant in the Resident Instruction Budget and Indirect Operating Expenses in the Auxiliary Enterprises Budget.

(b)The Lapse Estimate is a budgeted estimate of the amount of funds that may be transferred from personal services to non-personal services during a fiscal year.

(c) The Equipment Replacement Reserve is required by the Board of Regents and is based on 5% of Auxiliary Enterprises Revenue except for Student Transportation Revenue which is the excess of income over expenses.

(d) The Unassigned Balance represents a contingency fund reserved to provide for unexpected expenditures.

SPONSORED PROJECTS and FACULTY RESEARCH

SPONSORED PROJECTS

West Georgia College attracts grants, gifts, and contracts from federal, state, and local governments, and from private foundations.

This external funding together with other revenue enables the College to fulfill its official mission to emphasize creative teaching, to encourage research, and to promote the development of human resources through public service programs.

(1) External sources authorize spending for fixed time periods. In certain cases, those periods included only a portion of Fiscal Year 1988.

(2) In a number of cases, only a portion of the total amount awarded was actually received and spent during Fiscal Year 1988.

FACULTY RESEARCH

West Georgia College Faculty Research Grants Fiscal Year 1988

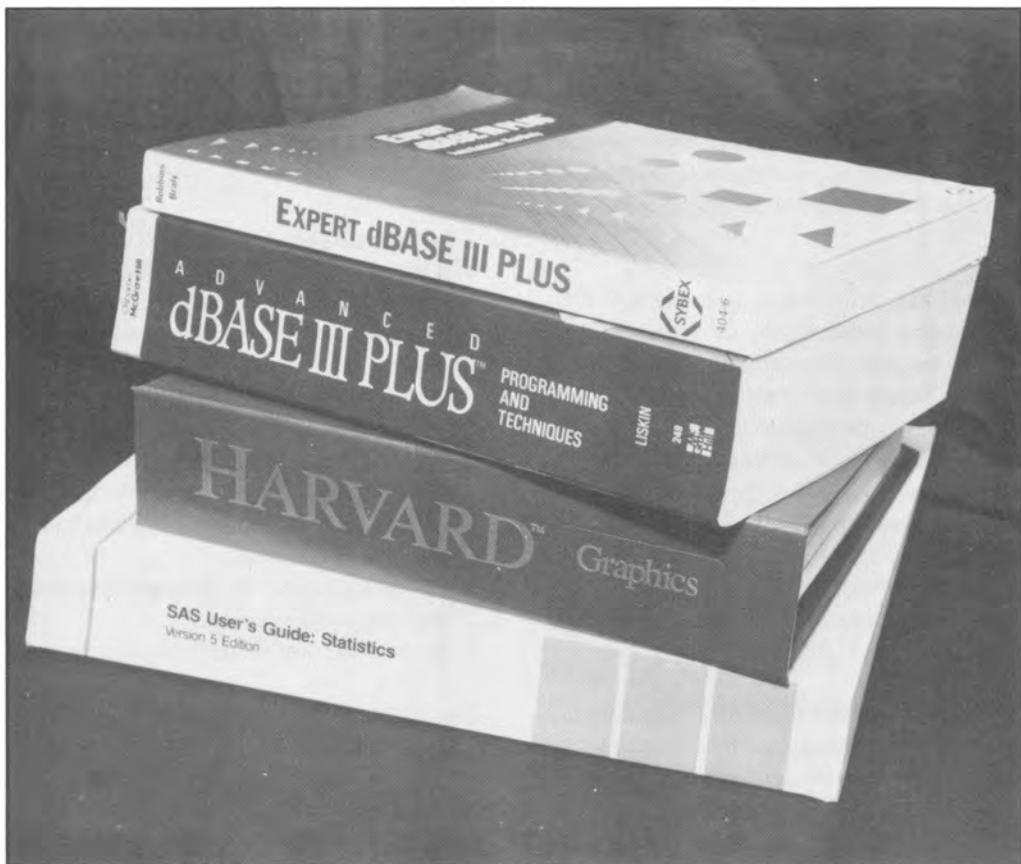

In addition to funds which external sources provide the College, Faculty Research Grants are available each year. The Resident Instruction Budget and the West Georgia College Foundation, Inc. currently finance this program at levels of \$22,000 and \$3,000, respectively.

Upon the recommendations of the Learning Resources Committee and the College Senate, President Maurice K. Townsend awarded the following amounts specifically for research during Fiscal Year 1989.

Grant #	Amount Awarded	Name/Department	Project Title
	7/1/88		
8901	\$ 700	WGC Review	<i>Publication Costs</i>

INSTITUTIONAL RESEARCH and PLANNING

Institutional Research and Planning

History

West Georgia College established the Office of Institutional Research in 1967 with three full-time employees and several part-time graduate and student assistants. Over the years, it has evolved to become the Division of Budget and Research Services with eight full-time employees. Of these, two professionals are involved exclusively in the Institutional Research function. Secretarial support is available, and the Director supervises the activities. The function is fully funded. A wide range of computer resources are available within the department.

Mission

The Office of Institutional Research at West Georgia College provides significant information on all phases of the College - its students, its faculty, and its programs. The Office provides essential elements vital to institutional planning and the assessment of institutional effectiveness.

The Coordinator of Institutional Research assists in the design, implementation and maintenance of an administratively approved program of continuing institutional studies to provide a steady flow of information in support of the West Georgia College institutional planning process. The Institutional Research staff prepares (a) enrollment projections, (b) admissions and retention studies, (c) institutional cost analysis, (d) student, faculty, administration, and program studies, and (e) formal written reports on projects conducted. The staff routinely reports to various external agencies as requested.

The Institutional Research Office provides information and data used in planning and evaluating the institution's success in carrying out its purpose. The unit engages in continuous study, analysis and appraisal of West Georgia College purposes, policies, procedures and programs. The Office projects future information needs of the University System, President, Executive Council, the faculty and staff, and external agencies. Institutional Research assists academic and administrative units in establishing assessment systems and in evaluating institutional effectiveness under the Southern Association of Colleges and Schools (SACS) *Criteria for Accreditation*.

The SACS *Criteria* has become a major influence on the

Institutional Research function at West Georgia College, as well as throughout the South. West Georgia College has been actively engaging in the activities required by SACS for many years. Present efforts of the Institutional Research Office have been re-emphasized by the new requirements. While SACS traditionally has examined the resources and processes of education (such as faculty and student qualifications, physical plant, and fiscal resources), its new focus is the effectiveness of the educational program. SACS requires all institutions to establish adequate procedures for planning and evaluation, including defining expected educational results and describing how the achievement of these results will be ascertained. In addition, each institution must periodically determine the change in academic achievement of its students. The Office of Institutional Research is instrumental in the successful conduct of these activities.

Institutional Research Goals

The goals of the Office of Institutional Research at West Georgia College are:

1. To promote the improvement of the College planning process.
2. To improve information usage in the planning processes utilized at West Georgia College.
3. To provide a decision support system to the executive and administrative officers of the College.
4. To provide a systematic collection and reporting of standard information.
5. To reply promptly to spontaneous requests for descriptive information.
6. To promote professional development activities.

Major Projects Completed in Fiscal Year 1988

The Institutional Research Office completed several major projects in Fiscal Year 1988. The Director and professional staff prepared and submitted the West Georgia College *Fifth-Year Report* to the Southern Association of Colleges and Schools. The *Report* describes the current status of West Georgia College and charts progress made toward achieving institutional effectiveness as defined by the *Criteria for Accreditation*.

Institutional Research and the Office of Placement and Cooperative Education conducted an Alumni Study to provide a self-evaluation for Placement/Cooperative Education. Study results were two-fold. It documented

Placement/Cooperative process, it updated contacts for the Office of Alumni Services.

The College Preparatory Curriculum (CPC) Study utilized transcripts of current students and those of accepted applicants for admission. The study assessed the impact of the new CPC requirements on enrollment at West Georgia College during Fall Quarter 1988.

The Office of Institutional Research produced an Institutional Student Retention Study in 1980 and annually since 1984. The reports document student retention and graduation rates, causes of attrition, retention strategies, and evaluation of those strategies.

The West Georgia College *Fact Book*, published annually by the Division of Budget and Research Services since 1981, is designed to increase knowledge and understanding of West Georgia College and is used as a point of reference for institutional self-study and planning.

udy was conducted using an American College Testing Program questionnaire to survey one thousand students. The purpose was to aid the West Georgia College Academic Policies and Procedures Committee in recommending ways to improve the current system, and to address institutional effectiveness.

The Office produced an "Analysis of Faculty Research Grants, FY 83 - FY 86, and Their Impact." The study identified and assessed the strengths and weaknesses of the Faculty Research Grants program.

In addition, Institutional Research staff prepared enrollment projections, a faculty salary study, an entering-student study, a declared major analysis, a degrees conferred analysis, department fact sheets, an analysis of student achievement on the SAT and other mini-reports. The Office responded to numerous data requests from faculty, staff, and students, as well as many surveys and questionnaires from outside agencies.

⁴Conducted annually since FY 1985.

Five-Year Planning Cycle

The Division adopted a five-year schedule for Institutional Research projects to prepare the College for the Southern Association of Colleges and Schools' review

in 1993. The cycle provides elements for continual assessment vital to the health of the institution. The five-year plan is flexible and can be modified as needed.

ALUMNI ASSOCIATION

West Georgia College Alumni Association

The West Georgia College alumni are the largest single constituency related to the institution. The experience and the ability of each alumnus represent a valuable resource for service to the College. Services and programs of the Alumni Association form an integral part of the College's institutional advancement activities.

Membership in the West Georgia College Alumni Association is automatically conferred upon all graduates of West Georgia College, Bowdon College, or the 4th District A&M School. All former students of these institutions who have attended at least three quarters are eligible for membership upon request. The telephone number of the Alumni Office is (404) 836-6582.

Through activities of the Association, alumni are informed of institutional plans, progress, opportunities,

and needs. *Perspective*, the alumni newspaper, is sent to alumni and friends on a quarterly basis.

Major activities include Homecoming and the Annual Meeting of the Fourth District A&M Alumni Association. Alumni clubs and class reunions involve hundreds of individuals each year.

West Georgia College Foundation

The West Georgia College Foundation, Inc., is a non-profit organization founded and operated for the benefit of West Georgia College. Its functions include receiving and administering private funds and providing other services for the advancement of the College. The policies of the foundation are established by a Board of Trustees, composed of outstanding business and professional leaders, and by officers elected by the trustees.

The unrestricted gifts received by the foundation are being used currently to:

1. Underwrite an extensive program of student aid.
2. Provide equipment and services which cannot be funded by state appropriations, but which are necessary for institutional advancement.
3. Benefit the college in other ways subject to the approval of the Foundation's Board of Trustees.

The Foundation encourages unrestricted contributions which can be used in a manner deemed most beneficial to the College. Gifts, received for specific purposes that are approved by the College, are used where designated by the donor.

PLANT OPERATIONS

The mission of West Georgia College Plant Operations is to provide services which will create and maintain an environment that is conducive to student life, teaching and research at West Georgia College. Of utmost importance, is positive communication among faculty, staff and Plant Operations with a clear understanding of the services needed and the quality of the services to be provided. Plant Operations is divided into three major divisions with 139 employees.

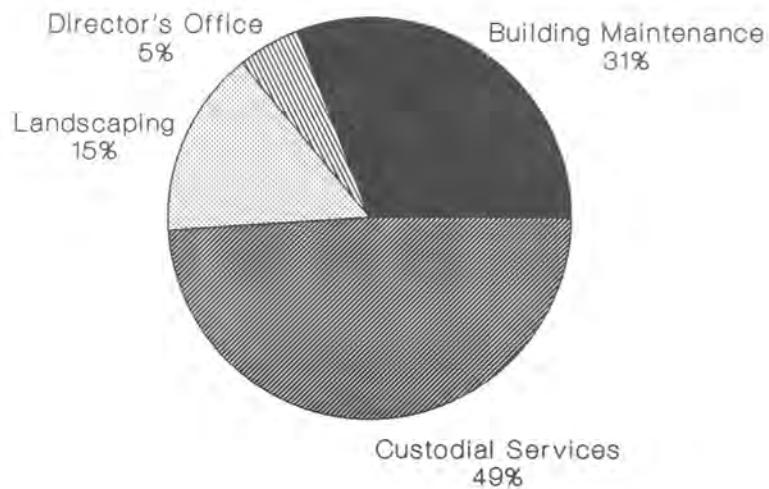

Building Maintenance has a responsibility of maintaining a comfortable environment to satisfy the needs of the faculty, staff and students. To this extent, the department maintains all boilers, chillers, air handling units, lighting, plumbing, doors, windows, fire safety equipment, furniture repair, material handling, and renovation and construction.

The Landscaping Department provides regular maintenance for lawns, shrubs, trees, and flowers, to include fertilizing, cutting, pruning, weeding, and trash and leaf removal from our campus. They also maintain a nursery to provide plants, ferns and flowers for special events; and construct all curbs, gutters, sidewalks, athletic fields, irrigation, etc.

The primary service provided by the Custodial Department is to provide cleanliness and trash removal for some 50 buildings. This includes removing trash from buildings, cleaning of classrooms, hallways, toilet facilities, dormitory rooms not in use, shower areas, and on certain occasions, the clean-up of special events, such as graduation, basketball games, plays, etc.

In essence, Plant Operations functions as if it were maintaining a small town.

LIBRARY

IRVINE SULLIVAN INGRAM LIBRARY

The Library is one of the most important centers on any campus and West Georgia College's Irvine Sullivan Ingram Library is one of the most modern library facilities in the state of Georgia. The first phase of this four story structure was built in 1968 and the addition was completed in 1980 to provide over 85,000 square feet of usable research/storage areas and over 1,000 seating spaces for students and faculty.

The library presently contains seminar and conference rooms, lockable faculty carrels, hundreds of individual study carrels, a room for microform reading, the Annie Belle Weaver Special Collections Room, large areas for reference, periodical materials, maps and the circulating book collection. Computer terminals, Compact Disc (Read Only Memory) Computer Programs, video receivers, typewriters, and copy machines are also available to assist students and faculty with their study and research.

The Irvine Sullivan Ingram Library presently houses approximately 272,000 bound volumes, 19,600 reels of microfilms, a limited audiovisual collection and more than 794,000 pieces of microform as well as 15,310 maps and charts and 19,100 volumes/pieces of special collection material. The Library currently subscribes to over 1,500 magazines and newspapers and is also the Sixth Congressional District selective depository for over 134,000 United States government publications.

The Library's automated circulation system is fully operable and faculty and graduate students also have automated access to materials in other United States libraries via SOLINET's on-line interlibrary lending system and may also apply for a Joint Borrower's Card which can be utilized to check out library materials from any of the other thirty-three University System of Georgia institutions' libraries. Materials from other libraries can now be obtained more quickly via the library's FAX equipment. Literature searches in all disciplines are available through the automated Dialog Information Retrieval Service and the library also has automated book order and cataloging services to insure maximum efficiency of its material processing operation. During FY 1989, the Ingram Library's On-Line Public Access Catalog (OPAC) will be implemented and will replace the card catalog with computer access to the library's book, microform and non-print media holdings.

The Learning Resources Center (LRC), located on the ground floor of the Geography/Learning Resources Building with an extension in the Education Center,

assists faculty members from all departments in improving instruction through the use of audio-visual equipment and materials. A well trained staff is available to provide professional services and consultation in developing more effective means of instruction. Services include production of color slides, B&W film and prints, charts, graphs, dry mounting, laminating, transparencies, audio tape production and dubbing, and film procurement from various film libraries. Equipment includes cassette recorders, record players, overhead, opaque, slide, filmstrip, and motion picture projectors. The LRC is equipped with a modern television facility located in the Education Center to provide the faculty with up-to-date color video taping capabilities. WWGC, the College's educational FM radio station, is maintained by students and operated under the supervision of the LRC.

The staff of the Library and the Learning Resources Center are comprised of thirty-two full-time employees. Fifty-four percent (54%) of the staff members of the Ingram Library are professional librarians holding faculty rank with appropriate graduate degrees in Library Science from accredited library schools.

The Ingram Library is currently providing library materials, CD-ROM computer programs, reserve book collections and courier interlibrary loan service to the West Georgia College centers in Dalton and Newnan. Materials are being selected for both library collections by WGC teaching faculty and soon FAX service will be available at both centers to insure rapid access to the Ingram Library's periodical/serials collection.

A compilation of the Library's Acquisition and Services statistics for the past five years is provided in the table on the next page.

COMPUTER RESOURCES

COMPUTER CENTER

The West Georgia College Computer Center operates two IBM 4341 mainframe processors, a Texas Instruments 990-20 minicomputer, the University System of Georgia Computer Network's CDC CYBER 180/850 and IBM 3090. The table below lists additional equipment in the Computer Center.

HARDWARE	
Description	Quantity
MICROCOMPUTERS-These support three campus microlabs as well as individual departments.	
Apple II Plus/Apple IIe/ Apple IIc	63
Apple Macintosh	38
Tandy M-12/TRS80	2
IBM PC and Compatibles	213
AT&T 3B2/300 super microcomputer with 6 ports	3
CRT TERMINAL STATIONS	
AMPEX 230	55
Televideo 950	38
IBM 3101	16
LIBERTY FREEDOM/1	8
PRINTERS	
GENICOM 4440 (600 lines per minute)	4
GENICOM 3410 (400 characters per second)	4
T. I. 800 Series	6
CENTRONICS 1250 (1200 lines per minute)	1
DEVELCON Dataswitch with 224 async ports and 36 sync ports	1
IBM 3272 Emulator and Protocol Converters	
Commtex Cx-80 with 20 ports	3
Hydra II with 64 ports	2
COMMEX CMC-4 Units - controls the flow of information between IBM CPUs and remote controllers (4 synchronous ports)	2
INTERACTIVE TERMINALS	
Decwriter (three have APL features)	6
MULTIPLEXORS	
Halcyon 4200 stat multiplexors (1) supports terminal sessions to any of the University of Georgia Computer Network's computers; (3) support the data communications network on campus	4
Micom time division multiplexor pairs support the data communication network on campus	17

MAINFRAME SOFTWARE

Title	Description
SAS	Statistical Package
SPSS	Statistical Package
Easytrieve	Information Retrieval and Data Management Package
TOTAL	Data Base Management System
MANTIS	Online application development system
LMS-II	Text Editor and File Management Package
ENVIRON/1	Communications monitor for the IBM 4341 processors
ENTIRE	Front-end security and utilities package of ENVIRON/1
CA-SORT	A general sort package for IBM 4341 system
SIDES	A key-to-disk data entry and job submission package for the IBM Series-1
OS/VS-1	Operating system for the IBM 4341 processor
ASSIST	Assembly language interpreter
WATFIV	University of Waterloo FORTRAN version 5 interpreter
COBOL	IBM COBOL U compiler
PL1 OPT	IBM PL1 optimizing compiler
UNIX	Operating system for the AT&T 3B2/300 computers

SOURCE: Computer Center

The West Georgia College Computer Center provides support for instruction, research, and administration daily. The chart below depicts the amount of computer time used for each activity.

MAINFRAMES UTILIZATION

User	Percent of Total CPU Time Used	Number of Jobs Run	Percent of Total Jobs Run
Administration	83.5	25,173	64.4
Instruction	7.3	10,151	26.0
Faculty and Institutional Research	6.7	2,438	6.2
System Maintenance and Miscellaneous	2.3	1,316	3.4
Totals			
Fiscal Year 1987		39,078	
Fiscal Year 1986		41,512	
Percent Increase/(Decrease)		(5.9)	

Computer Center staff provides programming and technical support for West Georgia College computer users. Workshops, seminars, and tours are conducted by Computer Center personnel. Also they assist students, faculty, and staff to become more professional in the use of College computer resources.

MICROCOMPUTERS

FACILITIES

West Georgia College students, faculty, and administrators rely on microcomputers as resources for instruction, research, and administration on a daily basis. Microcomputers are located in most major offices on campus and are available for student and faculty use at the following locations:

1. The Mathematics/Physics Laboratory (contains 16 IBM PC-XT compatibles and an IBM PC-AT compatible in a Network and 8 AMPEX CRT workstations to assist instruction)
2. The Social Sciences Laboratory (contains 17 IBM PC-XT's and an IBM PC-AT in a Network to assist instruction)
3. The School of Business Homework Laboratory (contains 14 IBM PC-XT's and an IBM-AT)
4. The School of Business Classroom Laboratory (contains 28 IBM PC-XT's and 2 IBM PC-AT's in a Network to assist instruction)
5. The School of Education Apple Laboratory (contains 2 Apple IIe's, 3 Apple IIg's, and an IBM PC-XT)
6. The Library Terminal Laboratory (contains 6 AMPEX CRT workstations)

SOFTWARE

West Georgia College provides current microcomputer software for student, faculty, and administrative use. Software currently available on campus include the following (this list may be incomplete because of upgrades to or replacement by more current software):

Word Processing

Applewriter
Foxwriter
MacWrite
Microsoft Word
SAMNA
Total Word
Word Perfect
Wordstar
Wordstar 2000+

Spread Sheets

Lotus 1-2-3
Lotus Jazz
VP Planner

Statistical

SAS
SPSS

Data Management

DBXL
DBase III Plus
Excel
Foxbase
PSS

Graphics

Harvard Business Graphics
MacDraw
MacPaint
Superpaint

Integrated Applications

Lotus Symphony
Microsoft Works
Smart

STUDENT SERVICES

available through which mail may be forwarded to students and faculty on campus free of charge.

Public Safety

The Department of Public Safety provides 24-hour protection of the campus to insure the safety and welfare of all persons and property at the College. Public Safety and the traffic control officers are responsible for enforcing in a fair and impartial manner the College's traffic code and codes of conduct as well as ordinances and statutes of the City of Carrollton and the State of Georgia. Officers of the Department have full police powers of arrest.

In addition, the Department of Public Safety provides an emergency information, assistance and locator service on a 24-hour basis and maintains a liaison with local, state and federal law enforcement and public safety agencies.

Recreational Facilities

Excellent athletic facilities are available including a Health-Physical Education Complex, football field house, tennis courts, track, baseball diamond, indoor pool, weight room, and numerous practice and playing fields. The gameroom in the Student Center features billiards, foosball, ping pong, pinball machines, and games. A one and one-half mile fitness trail is located in the area around the track, and is open year-round to all members of the college community. The Student Recreation Center is the main facility scheduled for open recreation.

Religious Groups

Several religious organizations exist on the West Georgia College campus, including the Baptist Student Union, Campus Outreach, Wesley Foundation, United Voices Gospel Choir, and World Changers Ministry.

Student Activities Council

The Student Activities Council provides a variety of social, cultural, and educational programs and co-sponsors events with other campus organizations. In addition to providing entertainment at least three nights a week, the SAC plans major events each quarter.

Students are encouraged to offer suggestions and join the various committees which make up the SAC. The committees include contemporary music, films, recreation, special events, publicity, lyceum, and the technical committee.

Student Government Association

Any full-time undergraduate or graduate student is eligible to participate in the Student Government Association. The SGA enacts legislation which is necessary for the general welfare of the students. It receives student complaints, investigates student problems and participates in decisions affecting students.

SGA is composed of an executive, legislative and judicial branch and the Freshman Council. The student body elects a President, Vice-President and Judiciary Chairman. The constitution calls for a Student Congress consisting of seventeen voting representatives. Five of these are from the student body at large and three each are from the four schools.

Student Publications

The West Georgian is the student edited and managed campus newspaper, distributed free at various campus locations weekly. All students are invited to work on the staff in news, sports, arts and photography.

The Eclectic is a literary magazine published each spring quarter. It contains original student poetry, prose, art, and photography.
