West Georgia College

Carrollton, Georgia 30118

A SENIOR COLLEGE IN THE UNIVERSITY SYSTEM OF GEORGIA

404-836-6442

OFFICE OF THE PRESIDENT

Dear Colleagues:

West Georgia College is firmly committed to making the best possible use of the resources allocated through the Board of Regents and the State Legislature, and we are well aware that careful planning is necessary for this process to be successful.

One of the essential ingredients in institutional planning and in the assessment of institutional effectiveness is the compilation, analysis, and use of statistical data and other information relating to the function of the College. This document is designed to help meet that need.

For the ninth consecutive year, the Division of Budget and Research Services, with the assistance and cooperation of offices throughout the campus, has collected, published, and distributed this Fact Book which profiles many aspects of the institution's work.

Its purpose is two-fold: the central focus is to get accurate, timely information in the hands of the College's organizational units for internal institutional assessment; a secondary purpose is to acquaint outside constituencies with a measure of the successes of the College in achieving its goals and objectives.

The past and the present are important ingredients in the formula that will evolve into what the institution becomes in the future. It is essential that appropriate personnel in and out of the College be aware of these distinguishing features as the path for the future is charted. I feel confident this document helps fulfill that need.

Sincerely,

Maurice K. Townsend
President

West Georgia College Fact Book

Preface and Acknowledgements

The Division of Budget and Research Services is proud to offer the 1989-90 edition of the West Georgia College *Fact Book*. It is our hope and intent that this volume continue the tradition of providing reliable statistical data and summary information designed to answer the most frequently asked questions about the College. Based on sound institutional research, the *Fact Book* serves as a good first point-of-reference for institutional assessment, self study, and planning. In total, it projects an institutional profile for our many publics.

Mr. Edward B. Barnes, Coordinator of Institutional Research, who joined the staff in September, 1989, inherited the responsibility of editing the 1989-90 *Fact Book*. With assistance from Ms. Teresa C. Stamps, Research Analyst II, and a veteran institutional researcher, the task was accomplished in an expeditious and efficient manner. Mr. Blake Lanier, Coordinator of Budgets and Ms. Charcie C. Inman, Budget Analyst III, compiled and updated the Financial Information section. Mr. Lanier was our chief photographer during the year. Each member of the Division of Budget and Research Services contributed to the project.

In addition, individuals representing many different College units provided data, information and suggestions that contributed to the improvement of the *Fact Book*. Special thanks and appreciation are extended to Mr. Dan Minish, Director of Publications and Printing, who managed the technical production of this volume. Through hard work and professionalism, these individuals and others, have made possible the 1989-90 West Georgia College *Fact Book*.

Dr. Richard A. Folk
Director of Budget and
Research Services

GENERAL INFORMATION

THE COLLEGE

History

West Georgia College is a coeducational, residential, liberal arts institution located in Carrollton. A senior college unit of the University System of Georgia, it enrolls students from most counties in Georgia, as well as from other states and several foreign countries.

The College is situated on the western side of Carrollton, the county seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton serves a regional population of more than 100,000 as a center for retail shopping, medical and educational services, entertainment and recreational activities, and financial services. Carrollton is an hour's drive from Atlanta via Interstate 20 and a four-lane connector.

West Georgia College originated in 1906 as the Fourth District Agricultural and Mechanical School, one of twelve such institutions established by the State of Georgia between 1906 and 1917. Twenty-seven years later, Carrollton's A & M School became West Georgia College, a junior college established by an act of the Board of Regents of the University System of Georgia. Dr. Irvine S. Ingram, who had been principal of the A & M School, was named the institution's first president.

In 1939, the College was authorized by the Board of Regents to add a three-year program in elementary education. In 1957, the institution was authorized to confer the B.S. degree in Education, making it a four-year senior college unit of the University System of Georgia. Two years later, West Georgia College added the Bachelor of Arts degree in the fields of English, history, and mathematics.

During the following years, West Georgia College became one of the fastest growing institutions of higher learning in the South. From an enrollment of 576 in 1957, the institution's student body now numbers more than 7,200 students. West Georgia offers nine undergraduate degrees, the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Business Administration, Bachelor of Music, Bachelor of Science in Recreation, Bachelor of Science in Earth Science, Bachelor of Fine Arts, and Bachelor of Science in Nursing. Majors in nearly fifty different fields provide students a wide range of options.

In 1967, the Board of Regents authorized the initiation of a graduate program at the master's level. The following six Masters degrees are offered in a combined total of 29 areas of study: Master of Arts, Master of Business Administration, Master of Education, Master of Music, Master of Public Administration, and Master of Science.

The Specialist in Education degree is offered in nine areas of study.

The Associate of Applied Science, with majors in computer science, criminal justice, and office administration, and the Associate of Science in Nursing are all offered as two-year programs.

To accommodate the College's growth, a multi-million dollar building program has increased the value of the College's physical facilities to more than \$107.3 million. From a beginning of three small buildings, the College has grown to include more than 60 structures of learning, living, and recreation on its 394-acre wooded campus.

Purpose of the College

West Georgia is a multi-purpose public institution providing a liberal arts experience for all its students as a base for their entire educational program. It provides educational preparation in the liberal arts and for professional careers, community college terminal instruction for students from the local geographical area, and special academic options in honors, general and transitional program areas. It seeks to provide a distinctive and realistic educational environment wherein each student may attain a disciplined and open mind, a capacity for self development, and the knowledge and skills essential for living in a free society. This environment includes the opportunity for original thinking, the exchange of ideas, and scholarly involvement with one's natural and cultural heritage.

In the fulfillment of this purpose, the College asserts its faith in higher education, liberal and otherwise, for all who earnestly seek it and can profit from it. The College emphasizes creative teaching, encourages research, and promotes the general advancement of knowledge through undergraduate and graduate programs within a broad spectrum of studies. Programs and services vital to student life, including attention to physical and mental well-being and the problems of adjusting to societal mores, are provided to complement these academic aims. The College also seeks to serve as a center to promote the development of human and natural resources through continuing education and public service programs.

Accreditations and Affiliations

West Georgia College is fully accredited through the master's level by the Southern Association of Colleges and Schools. All programs preparing teachers through the master's level are accredited by the National Council for Accreditation of Teacher Education, and the undergraduate School of Business

programs are accredited by the American Assembly of Collegiate Schools of Business. The College's work in the field of teacher education is fully recognized and accredited by the Georgia State Department of Education. Women graduates of the institution are eligible for membership in the American Association of University Women.

The College holds institutional membership in the following:

- American Assembly of Collegiate Schools of Business
- American Association of Colleges for Teacher Education
- American Association of State Colleges and Universities
- American Council on Education
- Conference of Southern Graduate Schools
- Georgia Association of Colleges
- Georgia Board of Nursing
- National Association for Foreign Student Affairs
- National Association of Schools of Music
- National Business Education Association
- National Commission on Accrediting
- National Council for Accreditation of Teacher Education
- National League for Nursing
- Southern Association of Colleges and Schools

The Campus

The campus is a unique blend of the old and the new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900's, as well as buildings exemplifying contemporary architectural styles.

On the front or "Old Campus" as it is sometimes called, a three-block-long expanse of rolling hills shaded by scores of old, towering oak, elm, and maple trees surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia College began as an A & M School in 1906.

Beyond the "Old Campus" is a modern academic complex composed of a library, social science, humanities, and math-physics building. A new business school annex was added in 1985. A performing arts center, containing two theatres which seat 250 and 500 respectively, was completed in 1989. Alumni and friends of the College have contributed over \$450,000 to outfit it with the latest equipment and furnishings. Other buildings in the area include a three-

story student center, a health and physical education center featuring a 3,000 seat gymnasium and an indoor pool, and one of the most modern college infirmaries in the state.

Much of the College's recent physical development has occurred on the west side of the campus. The Education Center, a structure unique in the University System, contains five large lecture-demonstration rooms which can be changed into a 1,000 seat auditorium by sliding partitions. It also features an instructional materials center, television and sound recording studios, audiovisual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas for independent study.

Adjacent to the Education Center is the Biology-Chemistry Building, a facility which includes numerous laboratories, classrooms, lecture halls, and the latest scientific equipment. Other buildings in the area: Tyus Hall, a five-story residence hall which houses upperclassmen, graduate students and married students; a multi-structure plant operations compound; a large food service and activity center; and a well-equipped observatory.

Eleven residence halls are located on the campus. Bowdon Hall, one of the newest, was named in honor of Bowdon College, a West Georgia College predecessor.

Kennedy Interfaith Chapel, named in honor of the late President John F. Kennedy, and Bonner House are two of the oldest and most treasured buildings on campus. The Chapel was owned first by the Episcopal Church, later by the Catholic Church. When the local parish built a new church, its members donated the Chapel to the College for non-denominational use. In 1966, the late Robert F. Kennedy dedicated it to the memory of his brother.

Bonner House, constructed in 1843 as a plantation home, is the oldest building on campus. The frame colonial structure served various purposes through the years. After complete restoration, it houses the Office of Public Relations. Because of its historical significance, the Georgia Historical Commission placed a marker on the site outlining the history of the College.

ADMINISTRATIVE ORGANIZATION

West Georgia College is governed by the Board of Regents of the University System of Georgia, which is a State Constitutional Board responsible for the government, control, and management of the University System of Georgia and all of its institutions. Members of the Board of Regents, one from each congressional district in the State, and five from the State-at-large are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents.

The President of West Georgia College has general responsibility for the operation of all aspects of this institution. The Executive Council is the immediate advisory body to the President and consists of the President, Vice President and Dean of Faculties, Vice President for Student Services and Dean of Students, Vice President for Business and Finance, Director of College Relations, and the Director of Budget and Research Services. The Executive Council advises the President on daily operations of the College.

The Administrative Council is the chief advisory body for administrative activities in the academic operations of the College. It is chaired by the Vice President and Dean of Faculties and consists of the Vice President for Student Services and Dean of Students, the academic deans, various administrative directors, and the President of the Student Government Association.

The Planning Council is an advisory body to the President on long-range development of the College. It oversees the creation of a variety of plans extending three or more years into the future. Members of the Council are appointed by the President from the administration, faculty, students, alumni, and the community.

The instructional components of the College are organized into four schools: the Graduate School, the School of Arts and Sciences, the School of Business, and the School of Education. Each is supervised by a Dean who coordinates instruction and research within the school. Academic Schools, with the exception of the Graduate School, are divided into departments appropriate to their respective areas of academic responsibility. A department chairman is responsible for the daily operation of his/her department.

ORGANIZATIONAL CHART

West Georgia College
January 1990

STUDENT INFORMATION

WGC STUDENTS

The Typical West Georgia College Student:

- has an average SAT score of 824. This score is gradually rising each year.
- is a female caucasian. Nearly sixty-three percent of the student body are women and eighty-four percent are caucasian.
- lives within fifty miles of the College. Almost three-fourths of the student body are from nearby counties, including fifteen percent from Carroll County, and twenty-nine percent from metro-Atlanta.
- attends full-time. Fifty-eight percent of the students enroll in a full load of courses (fifteen quarter credit hours).
- is twenty-five years old. The average age of undergraduates is twenty-two. Graduate students are an average of thirty-five years old.

CONTINUING EDUCATION/PUBLIC SERVICE

The Continuing Education Unit (CEU) is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in and an institution's production of non-credit programs. Non-credit programs are classified into three categories depending on the nature of the program and the objectives of the participants.

History of Continuing Education Programs for Fiscal Years 1980-1989 Categories I and II

Year	Programs	Participants	CEUs
1979-80	215	3,736	7,589
1980-81	275	4,752	7,029
1981-82	247	4,195	6,452
1982-83	314	5,899	9,039
1983-84	333	6,643	10,547
1984-85	351	6,018	13,576
1985-86	353	7,474	11,395
1986-87	352	6,917	10,916
1987-88	333	7,569	10,339
1988-89	353	7,398	10,667

Report combines Category I and II programs which are conducted through the Division of Continuing Education/Public Services. Category I activities are designed to enhance occupational skills, and individual permanent records and transcripts are maintained. Category II programs are designed primarily for personal enrichment and are social, cultural or recreational in nature. No permanent individual records or transcripts are maintained.

OFF-CAMPUS PROGRAMS

West Georgia College, as authorized by the Board of Regents of the University System of Georgia, offers various degree and non-degree programs at off-campus locations. Off-campus degree programs include the External Degree Program at Dalton College, the External Degree Program at West Georgia College Newnan Center, and a Joint Graduate Degree Program in cooperation with Columbus College.

In addition, the Board of Regents established a Regional Center for Teacher Education administered by the School of Education to offer off-campus, non-degree programs which benefit regional educators through increasing the effectiveness of teacher education practices, policies, programs, and pedagogy for school systems in under-served areas of the State. West Georgia College continues to fulfill its regional mission through these programs.

GRADUATE SCHOOL

The Board of Regents of the University System of Georgia created a graduate division at West Georgia College in 1967. Six years later, again by Board of Regents action, the College elevated its graduate division to the status of Graduate School in accordance with the institution's new organizational structure. Since that time, the Graduate School has matured into a comprehensive academic unit serving a forty-two county area in western Georgia. Over twenty-two percent of all students enrolled at West Georgia College during Fall Quarter 1989 pursued graduate study.

In 1967 the West Georgia College graduate division offered a Master of Education degree in six areas of study and a Master of Arts degree in three academic fields. During the next two decades, the College developed a comprehensive Graduate School offering:

Degree	Number of Fields
Master of Arts	4
Master of Music	2
Master of Public Administration	1
Master of Science	1
Master of Business Administration	1
Master of Education	11
Specialist in Education	9

In addition, the University of Georgia, in cooperation with West Georgia College, offers a doctoral degree in Educational Leadership in the program areas of Educational Administration, Curriculum and Instruction, and Supervision.

The West Georgia College Graduate School provides the student an opportunity to strengthen the knowledge and skills essential for success as a professional. It provides programs for members of the teaching profession who wish to enhance their competencies and increase their knowledge. Graduate study at West Georgia College equips superior students for advanced research and inquiry. To be successful, a graduate student at West Georgia College must acquire a broad knowledge of literature in the appropriate academic discipline, be capable of sustained study, exhibit the power of independent thinking, and demonstrate mastery of appropriate research skills. Graduate study at West Georgia College requires more than passing a prescribed course of study and meeting minimum requirements.

In both enrollment and the number of graduate degrees conferred, the West Georgia College Graduate School

leads all senior institutions in the University System of Georgia. This premier status is no accident. Success is a direct result of West Georgia College's concerted effort to address the educational and professional needs of citizens in its service area. The Dean of the Graduate School, with faculty assistance has conducted a vigorous recruitment effort. Attracting qualified minorities for graduate study is a top priority at West Georgia College. Escalating enrollment patterns and increasing numbers of graduate degrees reflect the results of such efforts. During Fiscal 1988-89, the Graduate School conferred 300 masters degrees, 152 specialist degrees, and three students completed joint doctoral programs through the University of Georgia.

FINANCIAL INFORMATION

BUDGETS

West Georgia operates* under three major budgets: the Resident Instruction Budget, the Auxiliary Enterprises Budget, and the Student Activities Budget. Each serves a distinct purpose.

The Resident Instruction Budget is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction Funds support instruction, research, libraries, the computer center and laboratories, Student Services (including the Black Achievement Program, Student Development, Residence Life, Placement and Cooperative Education, Financial Aid, Admissions, and the Registrar), the administrative and service offices of the College, a portion of the maintenance of the physical plant, academic scholarships and fellowships.

The Auxiliary Enterprises Budget is self-supporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health fees, refrigerator rentals, parking fees and parking fines. Auxiliary Enterprises funds support the operation of the residence halls, dining rooms, the College Bookstore, vending machines, bus service, health services, traffic operations, and provides

funds necessary to maintain a portion of the College's physical plant.

The Student Activities Budget is funded by Student Activities Fees, athletic-special event ticket sales, tournament entry fees, commissions from advertising and concessions. Student Activities funds support various activities including choral and instrumental organizations, art exhibits, the debate team, the jazz ensemble, the College Program Board, the College gameroom, Student Government, College publications such as the *West Georgian* and *Eclectic*, Minority Enrichment, intercollegiate athletics, intramural athletics, cheerleaders, sports medicine, and athletic scholarships.

In addition to the three budgets, the **West Georgia College Foundation, Inc.**, a non-profit corporation dedicated to the advancement of West Georgia College, provides funding for scholarships, equipment, and services not funded by state appropriations. The Alumni Association section of the *Fact Book* supplies additional information about the West Georgia College Foundation.

*By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.

(a) Costs of operating and maintaining the College's physical plant are divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based upon the square footage of the physical plant occupied by cost centers in each budget. These costs are budgeted as Operation and Maintenance of Plant in the Resident Instruction Budget and Indirect Operating Expenses in the Auxiliary Enterprises Budget.

(b) The Lapse Estimate is a budgeted estimate of the amount of funds that may be transferred from personal services to non-personal services during a fiscal year.

(c) The Equipment Replacement Reserve is required by the Board of Regents and is based on 5% of Auxiliary Enterprises Revenue except for Student Transportation Revenue which is the excess of income over expenses.

(d) The Unassigned Balance represents a contingency fund reserved to provide for unexpected expenditures.

West Georgia College
Budget Distribution of the Student Dollar
Full-Time Students, Fall Quarter 1989

Each dollar of student tuition and fees is distributed to the three institutional budgets. Based on fees paid by regular, full-time students during Fall Quarter 1989, the distribution was:

Distribution of Full-Time Student Fees

Resident Instruction (From Matriculation)	Auxiliary Enterprises (From Health Fee)	Student Activities (From Student Activities Fee)	TOTAL
\$397/78.15%	\$36/7.09%	\$75/14.76%	\$508/100.00%

SPONSORED PROJECTS and FACULTY RESEARCH

SPONSORED PROJECTS

West Georgia College attracts grants, gifts, and contracts from federal, state, and local governments, and from private foundations.

This external funding together with other revenue enables the College to fulfill its official mission to emphasize creative teaching, to encourage research, and to promote the development of human resources through public service programs.

Sponsored Operations Five Year Assessment of Data Reported on June 30 of Each Fiscal Year

²In a number of cases, only a portion of the total amount awarded was actually received or spent during Fiscal Year 1989.

FACULTY RESEARCH

West Georgia College Faculty Research Grants Fiscal Year 1990

In addition to resources acquired from external sources, the College budgets state-allocated funds to assist faculty research efforts through the Faculty Research Grant program. Established in 1967, the Faculty Research Grant program provides limited funding for approved faculty research projects.

Each Fiscal Year, faculty members submit formal proposals to the Learning Resources Committee of the Faculty Senate requesting College support. Committee members evaluate proposals and make funding recommendations to the full Senate for its review. The Faculty Senate approves proposals and suggests levels of funding to the President, who subsequently allocates funds to the Grant recipients. The President delegates fiscal management and daily administration of the Faculty Research Grant Program to the Director of Budget and Research Services.

In compliance with these procedures, President Maurice K. Townsend awarded Faculty Research Grant funds for Fiscal Year 1990 as follows:

Grant #	Amount Awarded 7/1/89	Name/Department	Project Title

INSTITUTIONAL RESEARCH and PLANNING

Institutional Research and Planning

History

West Georgia College established the Office of Institutional Research in 1967 with three full-time employees, several part-time graduate and student assistants. Over the years, it has evolved into the Division of Budget and Research Services with eight full-time employees. Of these, two professionals are involved exclusively in the Institutional Research function. Secretarial support is available, and the Director supervises the activities. The function is fully funded. A wide range of computer resources is available within the department.

Mission

The Office of Institutional Research at West Georgia College provides significant information on all phases of the College: students, faculty, and programs. The Office provides vital data for institutional planning and assessment of institutional effectiveness.

The Coordinator of Institutional Research assists in the design, implementation and maintenance of an administratively approved program of continuing institutional studies which provide a steady flow of information in support of the West Georgia College institutional planning process. The Institutional Research staff prepares enrollment projections, admissions and retention studies, institutional cost analysis, student, faculty, administration, and program studies, and produces formal, written project reports. The staff routinely reports to various external agencies as requested.

The Institutional Research Office provides information and data used to plan and evaluate the institution's success in accomplishing its purpose. The unit engages in continuous study, analysis and appraisal of West Georgia College purposes, policies, procedures, and programs. The Office projects future information needs of the University System, President, Executive Council, the faculty and staff, and external agencies. Institutional Research assists academic and administrative units in establishing assessment systems and in evaluating institutional effectiveness under the Southern Association of Colleges and Schools (SACS) *Criteria for Accreditation*.

The SACS *Criteria* strongly influence Institutional Research efforts at West Georgia College (and at other colleges throughout the South). SACS historically examined the resources and processes of education (such

as faculty and student qualifications, physical plant, and fiscal resources). It currently examines educational program effectiveness. SACS requires all institutions to establish adequate procedures for planning and evaluating educational outcomes: defining expected educational results; describing how to determine student academic achievement; describing changes in students' academic achievement. The Office of Institutional Research successfully conducts these activities for West Georgia College, and has a long tradition of meeting SACS expectations.

Institutional Research Goals

The Office of Institutional Research adopted the following goals to **encourage** institutional effectiveness and foster mechanisms to assess results:

1. To promote the improvement of the College planning process.
2. To improve information usage in the planning processes utilized at West Georgia College.
3. To provide a decision support system to the executive and administrative officers of the College.
4. To provide a systematic collection and reporting of standard information.
5. To reply promptly to spontaneous requests for descriptive information.
6. To promote professional development activities.

Major Projects

The Director of the Division of Budget and Research Services chaired the University Status Committee whose members wrote *Prospectus for Change of Status to Regional University*, the most significant institutional research product of Fiscal Year 1989. Many key West Georgia College personnel, as committee members, engaged in sound institutional research methods to complete the project. The Office of Institutional Research coordinated preparation of the resulting document.

The study assessed West Georgia College's readiness for change of status from four-year college to regional university following University System of Georgia Board of Regents' criteria. First, Needs Assessment evaluated student demand, regional impact, and regional/community support. Second, Program/Curricular Structure, examined critical mass (student-faculty population), appropriate emphasis on upper division and graduate studies, faculty qualifications, research, student

quality, library resources, and professional accreditation. Third, Cost assessed current effective use of resources, funding for research, changes precipitated by university status, and overall economic impact of all three criteria.

The Fiscal Planning, Management, and Assessment Guide is an evaluative instrument produced as a pilot project in Fiscal Year 1988 which developed into a forceful assessment tool in Fiscal Year 1989. It assists the President and Executive Council to evaluate budgeted funds, budget adjustments, actual expenditures, and funding surpluses or shortfalls in order to demonstrate departmental, school, and divisional fiscal performance.

The Continuing Student Study determined and reported West Georgia College student perceptions of college life, their changing goals and ambitions, and progress during the past academic year. This on-going assessment process (FY 1984, 1985, 1987, 1989) evaluates institutional effectiveness, documents causes of student attrition/retention, and prepares the College for the Institutional Self-Study Report to the Southern Association of Colleges and Schools in 1993.

The Office of Institutional Research produced an Institutional Student Retention Study in 1980 and annually since 1984. The reports document student retention and graduation rates, causes of attrition, retention strategies, and evaluation of those strategies.

The West Georgia College *Fact Book*, published annually by the Division of Budget and Research Services since 1981, is designed to increase knowledge and understanding of West Georgia College and is used as a point of reference for institutional assessment, self-study and planning.

In addition, Institutional Research staff prepared enrollment projections, a faculty salary study, a declared major analysis, a degrees conferred analysis, department fact sheets, an analysis of student achievement on the SAT and other mini-reports. The Office responded to numerous data requests from faculty, staff, and students, as well as many surveys and questionnaires from outside agencies.

West Georgia College Institutional Research Major Studies Completed FY 1985-FY 1989

⁵Conducted annually since FY 1987.

Five-Year Planning Cycle

The Division adopted a five-year schedule for Institutional Research projects to prepare the College for the Southern Association of Colleges and Schools' review

in 1993. The cycle provides elements for continual assessment vital to the health of the institution. The five-year plan is flexible and can be modified as needed.

West Georgia College Institutional Research Five-Year Plan FY 1990-FY 1994

ALUMNI ASSOCIATION

West Georgia College Alumni Association

The West Georgia College alumni are the largest single constituency related to the institution. Their experience and ability represent a valuable resource for service to the College. Services and programs of the Alumni Association form an integral part of the College's institutional advancement activities.

All graduates of West Georgia College, Bowdon College, or the 4th District A&M School are eligible for membership in the Alumni Association. Former students of these institutions who attended a minimum of three quarters may request membership. The Alumni Office telephone number is (404) 836-6582.

The Association informs alumni of institutional plans, progress, opportunities, and needs. *Perspective*, the alumni newspaper, is sent to alumni and friends on a quarterly basis.

Major activities include Homecoming and the Annual Meeting of the Fourth District A&M Alumni Association. Alumni clubs and class reunions involve hundreds of individuals each year.

West Georgia College Foundation

The West Georgia College Foundation, Inc., is a non-profit organization founded and operated to benefit West Georgia College. It receives and administers private funds and provides other services which foster advancement of the College. A Board of Trustees, composed of outstanding business and professional leaders, and by officers elected by the trustees establish Foundation policies.

The unrestricted Foundation's gifts are currently being used to:

1. Underwrite an extensive program of student aid.
2. Provide equipment and services which cannot be funded by state appropriations, but which are necessary for institutional advancement.
3. Benefit the College in other ways subject to the approval of the Foundation's Board of Trustees.

The Foundation encourages unrestricted contributions to be used in a manner deemed most beneficial to the College. Gifts, received for specific purposes that are approved by the College, are used where designated by the donor.

PHYSICAL PLANT

PLANT OPERATIONS

West Georgia College Plant Operations maintains an environment conducive to student life, teaching, and research. Plant Operations consists of three major divisions employing 146 people.

Building Maintenance sustains comfortable conditions for faculty, staff, and students. The department services all heating, ventilation, air conditioning, electrical, and plumbing equipment, structures, fixtures, and furnishings.

The Landscaping Department cares for the lawns, shrubs, trees, and flowers: fertilizing, mowing, pruning,

weeding, removal of trash and leaves. They operate a nursery which provides plants for landscaping and to decorate special events. In addition, they construct all curbs, gutters, sidewalks, athletic playing fields, and irrigation systems.

The Custodial Department is responsible for some 50 buildings. They clean offices and public areas, unoccupied dormitory rooms, and remove trash from buildings. On occasion, their personnel clean up following special events.

LIBRARY

IRVINE SULLIVAN INGRAM LIBRARY

The Library is one of the most important centers on any campus and West Georgia College's Irvine Sullivan Ingram Library is one of the most modern library facilities in the state of Georgia. The first phase of this four story structure was built in 1968 and the addition was completed in 1980 to provide over 85,000 square feet of usable research/storage areas and over 1,000 seating spaces for students and faculty.

The Library presently contains seminar and conference rooms, lockable faculty carrels, hundreds of individual study carrels, a room for microform reading, the Annie Belle Weaver Special Collections Room, large areas for reference, periodical materials, maps, and the circulating book collection. Computer terminals, Compact Disc (Read Only Memory) Computer Programs, video receivers, typewriters, and copy machines are also available to assist students and faculty with their study and research.

The Irvine Sullivan Ingram Library presently houses approximately 276,857 bound volumes, 19,720 reels of microfilms, a limited audiovisual collection and more than 799,000 pieces of microform as well as 16,876 maps and charts and 20,000 volumes/pieces of special collection material. The Library currently subscribes to over 1,500 magazines and newspapers and is also the Sixth Congressional District selective depository for over 134,000 United States government publications.

The Library's Unicorn Collection Management System provides totally automated services to its patrons. The functions of acquisitions, cataloging, circulation, reserves, interlibrary loans, Special Collections, government documents, and serials are all available through the Unicorn public access on-line catalog terminals so that materials can be located from the time an order is placed until the material is received, processed, and cataloged. A remote Unicorn terminal at the College's Newnan Center provides the same access to patrons there.

Patrons also have automated access to materials in other United States libraries through SOLINET's on-line interlibrary lending system. Joint Borrower's Cards are issued to students who wish to check out materials from any of the other thirty-three University System of Georgia libraries. Materials from other libraries can now be obtained more quickly via the library's FAX equipment. Literature searches in all disciplines are available through the automated Dialog Information Retrieval

Service and the Library also has automated book order and cataloging services to insure maximum efficiency of its material processing operation.

The Learning Resources Center (LRC), located on the ground floor of the Geography/Learning Resources Building with an extension in the Education Center, assists faculty members from all departments in improving instruction through the use of audio-visual equipment and materials. A well trained staff is available to provide professional services and consultation in developing more effective means of instruction. Services include production of color slides, B&W film and prints, charts, graphs, dry mounting, laminating, transparencies, audio tape production and dubbing, and film procurement from various film libraries. Equipment includes cassette recorders, record players, overhead, opaque, slide, filmstrip, and motion picture projectors. The LRC is equipped with a modern television facility located in the Education Center to provide the faculty with up-to-date color video taping capabilities. WWGC, the College's educational FM radio station, is maintained by students and operated under the supervision of the LRC.

The staff of the Library and the Learning Resources Center are comprised of thirty-two full-time employees. Fifty-four percent (54%) of the staff members of the Ingram Library are professional librarians holding faculty rank with appropriate graduate degrees in Library Science from accredited institutions.

The Ingram Library currently provides library materials, CD-ROM indexes to materials in education, business, general subjects, and U.S. Government Documents. Reserve book collections and courier interlibrary loan services are provided to the West Georgia College centers in Dalton and Newnan. Materials are being selected for both library collections by WGC teaching faculty and FAX service is available at both centers to insure rapid access to the Ingram Library's periodical/serials collection.

A compilation of the Library's Acquisition and Services statistics for the past five years is provided in the table on the next page.

COMPUTER RESOURCES

COMPUTER CENTER

The West Georgia College Center for Information Technology Services operates two IBM 4341 mainframe processors, a Texas Instruments 990-20 minicomputer, and has access to the University System of Georgia Computer Network's (USCN) CDC CYBER 180/850 and the University of Georgia's IBM 3090. The table below lists additional equipment supported by the Computer Center.

HARDWARE	
Description	Quantity
MICROCOMPUTERS-These support three campus microlabs as well as individual departments.	
Apple II Plus/Apple IIe/ Apple IIc	63
Apple Macintosh	38
Tandy M-12/TRS80	2
IBM PC and Compatibles	252
AT&T 3B2/300 super microcomputer with 6 ports	3
CRT TERMINAL STATIONS	
AMPEX 230	55
Televideo 950	38
IBM 3101	16
LIBERTY FREEDOM/I	8
PRINTERS	
GENICOM 4440 (600 lines per minute)	4
GENICOM 3410 (400 characters per second)	4
T. I. 800 Series	6
CENTRONICS 1250 (1200 lines per minute)	1
DEVELCON Dataswitch with 224 async ports and 36 sync ports	1
IBM 3272 Emulator and Protocol Converters	
Commtext Cx-80 with 20 ports	3
Hydra II with 64 ports	2
COMMEX CMC-4 Units - controls the flow of information between IBM CPUs and remote controllers (4 synchronous ports)	2
INTERACTIVE TERMINALS	
Decwriter (three have APL features)	4
MULTIPLEXORS	
Halcyon 4200 stat multiplexors	3
(1) supports terminal sessions to any of the University of Georgia Computer Network's computers;	
(3) support the data communications network on campus	
Micom time division multiplexor pairs	22
support the data communication network on campus

The West Georgia College Computer Center provides support for instruction, research, and administration daily. The chart below depicts the amount of computer time used for each activity.

MAINFRAMES UTILIZATION

User	Percent of Total CPU Time Used	Number of Jobs Run	Percent of Total Jobs Run
Administration	83.0	24,579	65.0
Instruction	4.0	9,096	24.0
Faculty and Institutional Research	10.0	3,146	8.0
System Maintenance and Miscellaneous	3.0	653	3.4
Totals			
Fiscal Year 1989		37,474	
Fiscal Year 1988		39,078	
Percent Increase/(Decrease)		(4.1)	

Computer Center staff provides programming and technical support for West Georgia College computer users. Workshops, seminars, and tours are conducted by Computer Center personnel. Also they assist students, faculty, and staff to become more proficient in the use of College computer resources.

MICROCOMPUTERS

FACILITIES

West Georgia College students, faculty, and administrators rely on microcomputers as resources for instruction, research, and administration on a daily basis. Microcomputers are located in most major offices on campus and are available for student and faculty use at the following locations:

1. The Mathematics/Physics Laboratory (contains 16 IBM PC-XT compatibles and an IBM PC-AT compatible in a Network and 8 AMPEX CRT workstations to assist instruction)
2. The Arts and Sciences Microcomputer Laboratory (contains 16 IBM PC-XT's and 2 IBM PC-AT's in a Network to assist instruction)
3. The School of Business Homework Laboratory (contains 14 IBM PC-XT's and an IBM-AT)
4. The School of Business Classroom Laboratory (contains 28 IBM PC-XT's and 2 IBM PC-AT's in a Network to assist instruction)
5. The School of Education Apple Laboratory (contains 2 Apple IIe's, 3 Apple IIg's, and an IBM PC-XT)
6. The Library Terminal Cluster (contains 6 AMPEX CRT workstations)
7. The Library Microcomputer Laboratory (contains 4 MacIntosh SE's and 5 IBM PC-AT compatibles in a network)

SOFTWARE

West Georgia College provides current microcomputer software for student, faculty, and administrative use. Software currently available on campus include the following (this list may be incomplete because of upgrades to or replacement by more current software):

Word Processing

Applewriter
DisplayWrite
Foxwriter
MacWrite
Microsoft Word
PC Write
SAMNA
Total Word
Volkswriter
Word Perfect
Wordstar
Wordstar 2000+

Spread Sheets

Excel
Lotus 1-2-3
Lotus Jazz
VP Planner

STUDENT SERVICES

WGC STUDENT SERVICES

DIVISION OF STUDENT SERVICES

West Georgia College offers a full range of services and extracurricular activities to its students. The Division of Student Services, as a complement to the academic program of the College, provides a variety of educational services, developmental programs, and student activities designed to enrich the students' college life.

Admissions

Members of the Admissions Office staff travel the state to contact high school and junior college students, show visitors around campus, sponsor visitation days, work with orientation, and process applications for admission.

Financial Aid

The Financial Aid Office coordinates financial assistance for approximately forty percent of West Georgia's Students. Federal and state governments, the College, the WGC Foundation, companies, and individuals provide these funds.

Health Services

The Student Health Center, which houses both an outpatient clinic and the infirmary, is under the supervision of a full-time physician. Nurses are on duty 24 hours daily. The Center is open weekdays from the day residence halls open through the last day of exams each quarter.

Students may be admitted to the infirmary for observation and minor illnesses. For serious illness or injury, students are referred to other medical personnel or facilities for special services such as x-ray, surgery and dentistry. Often, medication necessary for treatment is available in the Health Center. In addition, many tests done within the Health Center laboratory are included in the students' health fee.

Intramural Program

The College provides opportunities for recreation, social contact, and healthful exercise through an excellent intramural program. Intramural competition includes football, softball, basketball, volleyball, tennis, track, bowling, swimming, aerobics, and numerous individual gaming and sporting events.

Placement and Cooperative Education

The Office of Placement and Cooperative Education provides a centralized placement service for all departments at West Georgia College. The Office serves students and alumni who are seeking full-time, part-time, or summer employment by providing a job listing

service where students and alumni may keep their resumes, recommendations and related materials on file for prospective employers. Campus interviews are scheduled throughout the year with representatives from companies, government agencies and school systems. In addition to maintaining current information on government jobs, the general employment market, and various companies, the staff also conducts workshops on resume writing and interviewing techniques. This Office coordinates the Co-Op program for students who work and attend college during alternating quarters. It also provides application forms and information about internships for students in business, public service agencies, and governmental institutions.

Registrar's Office

The Registrar's staff conducts all registration activities. The Office publishes the quarterly bulletin of course offerings, records all grades, and sends transcripts in response to student requests. An early registration system enables students to obtain confirmed schedules for the next quarter weeks before the new quarter begins.

Residence Life

Twelve residence halls house approximately 2,500 West Georgia College students. Unmarried freshman, who do not reside with parents are required to live on campus. Many upperclassmen choose to do so. Some halls are for men or women only. Others are co-educational with separate wings for men and women. The central Residence Life staff supervises resident advisors and hall directors. The central office staff processes all housing applications and makes hall and room assignments. Residence halls provide comfort, safety, and attractive surroundings and community living experience which fosters development of disciplined minds, social consciousness, and responsibility for governing group affairs.

Student Activities

The Student Activities staff plans and directs the many phases of college life not directly related to the classroom. They coordinate offerings of the College Program Board, serve as advisors for Greek Organizations, Student Government and other student groups, and organize Homecoming and many other activities.

Student Development Center

The Student Development Center offers a variety of services to all West Georgia College students. In addition to professional counselors who help students cope with personal problems, the Center conducts workshops on a regular basis to assist students in planning for their futures and in dealing with other concerns about college life. Career counseling is available for individuals and for groups exploring options. A computerized career guidance program is available to help students determine interests and preferences. The Center also provides a tutorial service and achievement programs for students with study or learning problems. Disabled students or those with special needs can utilize services provided by the Center. International students can obtain assistance and advice regarding housing, immigration matters, finances, personal adjustment, and referrals to appropriate members of the College and the Carrollton community.

OTHER STUDENT SERVICES

In addition to the assistance provided by the Division of Student Services, many other services and activities are available to the students.

Arts

From Broadway plays to opera to jazz bands, West Georgia College's fine arts departments offer many opportunities for student performance and cultural enrichment. Both musical and theatrical productions are scheduled year-round with many active performance groups. The Concert Choir, Chamber Singers, Marching Band, and Opera Workshop are available to students interested in music. *Native Son*, *Diary of Anne Frank*, and *The Death of a Miner* are among past theater productions.

Several areas in the Humanities Building are used for frequent student, faculty, and occasional traveling exhibits.

Black Achievement Program

This program is designed to provide academic and personal support services for new black students on a group basis. Components include freshmen enrichment programs, special assistance to those experiencing academic difficulties, personal and peer counseling.

Bookstore

The College bookstore stocks textbooks and supplies necessary for classes and, a number of other items such as gifts, toiletries, gym shorts, jerseys, and records and tapes.

Debate

West Georgia College has an outstanding debate program. In 1979, the college's top team ranked third in the entire nation, and in the 1980-81 season, two West Georgia teams received first round bids in the National Debate Tournament, the second southeast school to receive two first round bids. For sixteen consecutive years, the College has been invited to compete for the national championship, and has placed in the top ten seven times. The debate coach is a former winner of the National Coach of the Year award, presented by the Philodemic Debating Society of Georgetown University.

Food Services

The student cafeteria serves all meals to hall residents with meal tickets and others who buy meals on a cash basis. A private dining room and a large multi-purpose area suitable for parties, movies, coffee houses and other types of entertainment are in the Food Services Building.

Intercollegiate Athletics

West Georgia College is extremely proud of its successful intercollegiate athletic programs. Women participate in basketball, cross country, softball, tennis and volleyball and men in baseball, basketball, cross country, football, golf and tennis. The men's teams are affiliated with Division II of the National Collegiate Athletic Association (NCAA). Women's teams are members of the NCAA and the National Association of Intercollegiate Athletics (NAIA). Athletic grants-in-aid are available in all sports.

The women's basketball team was runner-up for the national championship in 1976 and won the state title in the 1981 and 1982 seasons. Volleyball teams have been equally successful, having won numerous state championships. West Georgia College men were national collegiate basketball champions in 1974 and national football champions in 1982.

Post Office

The College Post Office provides all U.S. Mail services: registered, certified and insured mail, and money orders. An interoffice service provides free campus delivery for students and faculty.

Public Safety

The Department of Public Safety insures the safety and welfare of persons and property at the College on a

24-hour basis. Traffic control officers enforce the College's traffic code, codes of conduct, city ordinances, and state statutes. Departmental officers have full police powers of arrest.

In addition, the Department of Public Safety provides 24-hour emergency information, assistance and locator service and is a liaison with local, state and federal law enforcement and public safety agencies.

Recreational Facilities

Excellent athletic facilities are available including a Health-Physical Education Complex, football field house, tennis courts, track, baseball diamond, indoor pool, weight room, numerous practice and playing fields. The gameroom in the Student Center features billiards, foosball, ping pong, pinball machines, and games. A one and one-half mile fitness trail near the track is open year-round to all members of the college community. The Student Recreation Center is the main facility scheduled for open recreation.

Religious Groups

Several religious organizations exist on the West Georgia College campus, including the Baptist Student Union, Campus Outreach, Canterbury Club, Presbyterians in Action, Wesley Foundation, United Voices Gospel Choir, and World Changers Ministry.

Student Activities Council

The Student Activities Council provides a variety of social, cultural, and educational programs and co-sponsors events with other campus organizations. In addition to providing entertainment at least three nights a week, the SAC plans major events each quarter.

Students are encouraged to offer suggestions and join the various committees which compose the SAC, which include contemporary music, films, recreation, special events, publicity, lyceum, and technical committees.

Student Government Association

Any full-time undergraduate or graduate student is eligible to participate in the Student Government Association. The SGA enacts legislation for general student welfare. It receives student complaints, investigates student problems, and participates in decisions affecting students.

SGA is composed of an executive, legislative, judicial branches, and the Freshman Council. The student body elects a President, Vice-President and Judiciary Chair-

man. The constitution calls for a Student Congress consisting of twenty voting representatives.

Student Publications

The West Georgian is the free, weekly campus newspaper, edited and managed by students, distributed at various campus locations. All students are invited to work on the staff in news, sports, arts and photography.

The Eclectic is a literary magazine published each spring quarter. It contains original student poetry, prose, art, and photography.
