

**Amazing things happen when you Go West.**

**Winter 2016**

**Who we are:** The Council is an advisory body to the University President on behalf of the staff of the University of West Georgia. The Council advises on issues where there is a need for uniform policy throughout the University that affects classified staff. All actions of the Council which impact on the operation of the University are subject to the approval of the President of the University.

**What we do:** The Council supports both full time and part-time benefited staff at the University of West Georgia. The Council deals with issues such as benefits, staff recognition, professional development, and any other such matters that directly affect staff. In addition, the Council gives back the community and supports such efforts as the UWG Toy Drive.

**Why should you care:** A problem that is not voiced is a problem that cannot be solved. The Council acts as an advisory body providing a home for your voice. Although not every problem has an immediate solution, this forum allows us to keep in contact with each other and to improve communication with the University.
