 - a. Donna Haley explained that this pertains to students on exchange programs not taught by UWG faculty. Their credit comes back as transfer credit. However, a statement can be added to the catalog counting it as institutional credit.

 - c. Discussion of how credit is assigned in programs that have their own study abroad programs, such as the School of Education.

 - f. The committee requests more feedback on the exact wording of the necessary statement.
- III. Time period between when courses are approved and when they are offered.
