West Georgia Technical College-UWG Core Curriculum Program Sheet

This is an abbreviated version of the University System of Georgia Core Curriculum to which the University of West Georgia adheres. The UWG core courses listed within each area A-E are the courses that have been determined to have a transferable class(es) from West Georgia Technical College. *You should enroll in one of the transferable WGTC course to satisfy the UWG Core Area A-E requirements until you either:*

1. Have completed and/or registered in **24** transferable semester hours with a 2.0 GPA
OR
2. Earn your Associate of Science degree at West Georgia Technical College

Based on the UWG Core Curriculum, this program sheet gives you the opportunity to earn a *maximum* of **42 transferable credits** from Areas A-E.

PLEASE NOTE:

*Institutions may not permit the completion of any course to fulfill requirements in more than one Area A–F. Where the same course is authorized in more than one Area A–F, the student completing the course to meet the requirements of one area must take another course in the second area to meet the requirements of the second area

*Final transferability of courses will be determined by the University of West Georgia Registrar’s Office, if transfer admission to UWG is offered

*We highly recommend meeting with a WGTC adviser in order to determine which of the listed WGTC courses are most applicable to your selected WGTC major/degree.

*In order to transfer to UWG, you must have taken and passed:

- ENGL 1101
AND
- MATH 1001 or higher
OR
- Satisfy English and Math proficiency through either SAT, ACT, or COMPASS test scores
