

ABOUT THE MAJOR

The BIS Social Entrepreneurship Pathway integrates coursework from Management, Sociology, and a variety of additional disciplines to address complex social problems confronting our neighborhoods and communities. Students will learn how to combine social science and business methodologies to analyze social problems as a means of developing a holistic understanding of the causes that underpin these problems and ways of addressing them. This integrative program provides a broad foundation while allowing students to tailor their degrees to a specific area of interest. Graduates can pursue careers in community-based organizations, non-profit management, and local government agencies.

ABOUT THIS MAP

The Four-Year Plan is designed only as a guide. It does not guarantee; 1) that all courses listed will be offered during a given semester, or 2) if they are offered that the scheduling will not conflict. Estimated time of completion is based on 15 hour semesters, with no summer classes. A change in hours or courses taken during the summer will either reduce (taking 18 hrs or summers) or extend (taking less than 15 hrs) the time needed. Use this map to help plan and guide your experience at UWG, including academic, co-curricular, and discovery opportunities. Everyone’s experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.
