

ABOUT THE MAJOR

The psychology program at the University of West Georgia is unique in that our theoretical roots are in humanistic, transpersonal, and critical psychology. Our courses range from classically humanistic concerns - like the centrality of human subjective experience in psychology, holistic approaches to psychological understanding, human growth and development, and the enhancement of human potential - to contemporary attention to transpersonal and spiritual horizons. Themes such as the meaning of genuine community, sociality, understanding oneself and others, and the myriad ways through which we grow and develop are central to our academic learning environment.

ABOUT THIS MAP

This program map is intended ONLY as a guide for students to plan their course of study. It does NOT replace any information in the Undergraduate Catalog, which is the official guide for completing degree requirements. Use this map to help plan and guide your experience at UWG, including academic, co-curricular, and discovery opportunities. Everyone’s experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.
