Master of Science in Applied Computer Science

24-Month Course Prerequisite Flowchart and Cohort Rotation

100% online program • 6 credit hours per semester • 24 months

NOTES:

- All courses are 3 credit hours except CS 6920 (Project II). CS 6920 is a 6-credit hour course.
- Arrows between courses are indicative of the course prerequisite structure (e.g., CS 6311 is a prerequisite to CS 6312). Multiple arrows leading to a solid bar indicate multiple courses must all be completed as prerequisites for the class following the solid bar (e.g., CS 6312 and CS 6252 are prerequisites to CS 6910 as well as CS 6261; similarly, CS 6232 and CS 6242 are prerequisites to CS 6920).
- To learn more about a course, click on the course block above. From the resulting web page, you can also access archived course web sites for previous offerings of the course. When you are prompted to login to access a course on Moodle, click the “Login as a guest” button.
- To enroll in a course, you must complete the prerequisite(s) for the course (as shown above and as listed in the UWG Graduate Catalog). There are no exceptions to the course prerequisite rules.
- Courses will be offered each semester to honor the cohort rotation shown above.
- The program is designed to be completed in 24 consecutive months as shown above. Per the UWG Graduate Catalog, students must complete the program within 3 years.
Master of Science in Applied Computer Science
Accelerated 15-Month Course Prerequisite Flowchart and Cohort Rotation

100% online program • 6 credit hours per 8-week session • 15 months

NOTES:
• All courses are 3 credit hours except CS 6920 (Project II). CS 6920 is a 6-credit hour course.
• Arrows between courses are indicative of the course prerequisite structure (e.g., CS 6311 is a prerequisite to CS 6312). Multiple arrows leading to a solid bar indicate multiple courses must all be completed as prerequisites for the class following the solid bar (e.g., CS 6312 and CS 6252 are prerequisites to CS 6910 as well as CS 6261; similarly, CS 6232 and CS 6242 are prerequisites to CS 6920).
• To learn more about a course, click on the course block above. From the resulting web page, you can also access archived course web sites for previous offerings of the course. When you are prompted to login to access a course on Moodle, click the “Login as a guest” button.
• To enroll in a course, you must complete the prerequisite(s) for the course (as shown above and as listed in the UWG Graduate Catalog). There are no exceptions to the course prerequisite rules.
• Courses will be offered for each 8-week session to honor the cohort rotation shown above. All courses will be offered each of the following 8-week sessions:
  • Fall: Sessions I (August – October) and II (October – December)
  • Spring: Sessions I (January - March) and II (March – May)
  • Summer: Session II (June – July)
• The accelerated delivery of the program shown above is a compressed offering designed for highly motivated, full-time students. Students who are interested in working while pursuing the degree are strongly encouraged to consider the traditional 24-month offering.
• The program is designed to be completed in 15 consecutive months as shown above. Per the UWG Graduate Catalog, students must complete the program within 3 years.
