We also provide educational and social opportunities and strive to make living on campus a positive and memorable experience.

# LIVING-LEARNING COMMUNITIES

Living Learning Communities (LLCs) are specialized learning environments that connect students with experiences both inside and outside the classroom. Each LLC is unique, but all are centered on a distinctive theme or academic interest area. Students who choose to live in an LLC have a direct connection to their classroom experience, access to intentional events and programs, and dedicated staff members who work to make the community a success.

As a member of an LLC you will:

- Get to know your instructors in classes specific for your LLC
- Develop strong connections with your fellow neighbors, who are also your classmates
- Have access to special resources, programs and activities

While completing your housing application, you will be asked to submit a short essay (around 250 words) about what you hope to gain from living in the LLC of your choice and what you plan to contribute to that LLC. Acceptance into an LLC directly impacts your housing assignment. Roommate requests can be honored only if your requested roommate has been accepted into the same LLC. The 2021-2022 LLC options are: Honors College, Music, uwGaming & Esports, and Ways of the Wolf (WOW).
