UWG Site Approval - List of Administration Approvers

Instructions: A signed UWG Site Acknowledgement Letter must be submitted with any IRB application with a subject population that targets UWG faculty, staff, or students. The list below identifies the individuals who are responsible for approving such research requests to use UWG students, faculty, or staff. The PI should complete the form and submit it to the appropriate administrator listed below depending on their sample for approval. The PI can expect a turnaround of 3-5 business days on site approval requests. If the study is led by a student researcher, the faculty PI should contact the administrator with the request for approval after they have approved the form completed by their student.
