

## **5. Psychologies of Language and Narrative**

This Concentration focuses on language as an activity, as a performance, and allows students to explore how language-in-use is practical, situated, and psychologically important. Methods of research (e.g., critical discourse analysis narrative inquiry) are also a Concentration emphasis, with application to identity and self, language-based thinking, and negotiation of various interpersonal contexts.

***Students interested in this Concentration area should be aware of and enroll in courses such as:***
