Students! Do you have an innovative invention, product, application or device that you think would make it on Shark Tank? If so, you’ll want to compete in the inaugural Wolves Innoventure Competition.

Any undergraduate student or group of students may compete by submitting your invention for consideration. There will be three rounds of competition:

- Preliminary Concept Entry - deadline December 3, 2019
- Intermediate Presentations (Judged Elimination Round) - January 14, 2020
- Innoventure Competition - February 11, 2020

The winner of the Wolves Innoventure Competition will receive the President’s $5,000 prize and be entered for the Georgia Inventure Prize competition LIVE on GPB TV in Spring 2020.

Team Eligibility Requirements
Each team member must meet all the eligibility requirements listed below:

- Each finalist team must be comprised of full-time, degree-seeking undergraduate students or recent graduates of the university within one year of graduation from their undergraduate program.
- If a team member is a recent graduate of the university, the idea for the invention must have been initially conceived while the student was enrolled as an undergraduate.
- Entrants should be the original creators, inventors, or owners of the intellectual property (IP) underlying their invention.
- A team whose idea or invention qualifies as university-owned IP is not eligible.
- Teams with generated revenue or venture capital funding in excess of $100,000 are not eligible to compete. This includes funding from both institutional and non-institutional sources (contests, grants, friends and family, bank loans, etc.)

Intermediate Presentation and Innoventure Competition Judges will include UWG faculty/staff outside competing teams’ colleges and area business leaders and potential investors.

Judging Criteria
- Idea validity, novelty, and potential social impact.
- Business Model with sound value proposition, cost structure, key resources, customer discovery, and marketability.
- Entrepreneurship vision, team commitment and culture, team expertise and knowledge, and pitch delivery.
- Probability of becoming a successful, competitive invention and receiving investment.

Preliminary Concept Entry
Submit the attached form no later than midnight, December 3, 2019, to dlackey@westga.edu.
For additional information contact the Office of Community Engagement, 678-839-2232.
Preliminary Concept Entry:

Invention/Team Name ____________________________________________

Short Invention Concept Description (one sentence)
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Paragraph Invention Concept Description (<250 words)
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

_________________________________ (team name), certifies that we have read all requirements and each of our team members understand all Team Eligibility Requirements.

Lead Team Member's Name (printed) ____________________________________________
Signature of Lead Team Member _____________________________________________
Primary Contact Email ______________________________________________________
Primary Contact Cell Number _________________________________________________
Number of Team Members _________________________________________________
Faculty Advisor (if applicable) ______________________________________________

DEADLINE TO SUBMIT THIS ENTRY FORM - MIDNIGHT, DECEMBER 3, 2019
to dlackey@westga.edu. Questions, call 678-839-2232.
