LEARNING IN THE LEGACY YEAR!
“Growing Ourselves to Impact a Community”

Engage West LDI – August 24, 2018 – 9:00 a.m. – 2:30 p.m.

As we continue our journey to be the best comprehensive university in America—sought after as the best place to work, learn, and succeed—we must dig deeper into our individual and organizational development. Legacy, as we have defined it, “an expectation of excellence and accountability,” will only be achieved if we foster an environment of continued assessment and improvement. As we invest and focus on developing leaders and improving our individual and organizational maturity, we do so to impact those we lead and the community we serve. Our ultimate goal in this endeavor is to grow ourselves and impact others...our internal and external communities. In this, the beginning of our fifth year of Engage West! entitled Learning in the Legacy Year, we will strive to impact and influence our greater communities.

Goals of the LDI:
1. To further identify and define our individual growth development to impact others.
2. To define mutually beneficial community engagement.
3. To inventory, assess, and identify how we will impact our community.

Agenda:
9:00 a.m. Welcome, defining our theme year, and goals for the day! Kyle Marrero
