## Presentation:

Permission was sought by Dr. Sethna to address the Faculty Senate as regards the governance of this body. Dr. Sethna quoted from an excerpt from the Board of Regents manuals which states, "the president or president's designee may chair such body." He then spoke to two aspects of this issue:

1. the symbolism of a faculty member as this designee. Dr. Sethna reminded the Faculty Senate that over the past twelve and one-half years, every single item passes by the UWG Faculty Senate has been acted upon and approved by the university's President. He reiterated that $100 \%$ of everything passes by the Faculty Senate was acted upon and passed by the President.
2. the belief that the Faculty Senate function on its own and send items on to the President's office. He further stated, "I believe in a collaborative mode" and that conversation in the creative stage gets us farther through difficult issues.
Discussion then ensued between the President and the Faculty Senate as to beginning an extended discussion which might lead to a larger role for the Faculty Senate in terms of its own governance.

## Presentation:

Dr. Denise Overfield representing the Committee of Alternative Dispute Resolution made a PowerPoint presentation to the Faculty Senate as to the findings of the campus-wide Campus Culture and Climate Survey. Audience participation was encouraged at the end. Adjournment: Motion was made seconded by the departure of the members of the Faculty Senate at 4:52 p.m.

Respectfully submitted by Ron Reigner, Executive Secretary.
