## How to set up your Windows Phone to use the UWG wireless network

If you were connected to the UWG wireless network previously, you may be able to reconnect easily by opening your "Wifi" settings page and tapping on "connectWestSEC" and accepting the new certificate.

## If you weren't connected previously, or if the above instructions do not work:

From the Start Screen, swipe down from the top to open the Action/Notification Center, then click "All Settings"

## Search for "Wifi" at the top, or tap "Network & Wireless" then tap "Wi-fi"

If you have connected previously, tap and hold "connectWestSEC" and choose "Delete"

Now you should be at a state where your phone thinks it has never connected to the UWG wireless network. Tap "connectWestSEC" to connect and you should see the following screen:

Îıll LTE <sup>2</sup> G	ail lte <sup>2</sup> [∂
ဆြို့ Wi-Fi	Sign in
Wi-Fi networking On	Connect using
Available Wi-Fi networks	User name & password User name
<pre>connectWestSEC     Secured</pre>	
Connecting	Password
HP-Print-A5-Officejet Pro 86	Server certificate validation Always ask me
ConnectWest	EAP method PEAP MS-CHAP v2
Wi-Fi Sense	Done Cancel

You don't need to change any of the settings here. Simply type in your UWG ID (first part of your UWG email address) and your UWG password, then hit "Done" and accept the certificate when it pops up.

Îıll LTE Ω 🗐 🧰 9:28	îıl  lte î@ 🗐 🔲 🔲 9:28

PEAP MS-CHAP v2	ISAL INSTITUT
	PEAP MS-CHAP v2
Done Cancel	

Now your device is set up and should connect automatically while on campus.

You can now open your browser and surf the internet.
