Knowledge of the accounting cycle will be reinforced through the completion of an individualized practice set. Included in this module are coverage of accrual accounting and the need for periodic income measurement and the presentation of financial position.
- Following coverage of the basic financial statements, the measurement, disclosure, and reporting problems of the major captions under current assets (cash, receivables, inventories) are discussed and illustrated. Relevant professional pronouncements are discussed throughout the course.

**Instructional Methods:**

- **Lecture and Problem Solving:**
  - Each module within the chapter material will be discussed, but reading the material *before* you come to class is vital for you to understand the class discussion and to be able to ask questions. In addition, problems and exercises will be worked in class to demonstrate the particular concepts involved.

- **Spreadsheet Assignments:**
  - Two assignments utilizing *EXCEL* will be completed. These assignments will enhance student skills and give practical application to specific accounting concepts.

- **Computer Practice Set Project:**
  - Students are required to purchase and complete an online practice set that will count towards the overall grade. The practice set has been designed to provide students with experience in the practical and technical skills essential to accounting, through the completion of a one month accounting cycle for a fictional business.
  - Students may purchase the practice set and register for the UWG section Perdisco ([http://www.perdisco.com](http://www.perdisco.com)). The name of the practice set is "Specialty Sports Store," and the cost is $24.95.

- **Written Assignment:**
  - Chapters one and two provide introductory material that is the foundation for the detailed topics to follow. A synopsis of these two chapters (approximately 1500 words) is required. You should use WORD for your final document (no handwritten papers will be accepted). *Do a spell check before printing the final copy, and include the following on a cover page: Your name, date, and word count.*
o **Homework:**
  o A number of homework exercises and problems are assigned. You will need *WileyPlus* to work the homework on the computer. You are expected to attempt all of these assignments. You will be given three chances to complete the homework by the due dates to be announced.

The University of West Georgia maintains and monitors a confidential Academic Dishonesty Tracking System. This database collects and reports patterns of repeated student violations across all the Colleges, the Ingram Library, and the School of Nursing. Each incidence of academic dishonesty is subject to review and consideration by the instructor, and is subject to a range of academic penalties including, but not limited to, failing the assignment and/or failing the course. Student conduct sanctions range from verbal warning to suspension or expulsion depending on the magnitude of the offense and/or number of offenses. The incident becomes part of the student’s conduct record at UWG.

Additionally, the student is responsible for safeguarding his/her computer account. The student’s account and network connection are for his/her individual use. A computer account is to be used only by the person to whom it has been issued. The student is responsible for all actions originating through his/her account or network connection. Students must not

The purpose of the official use of the student e-mail account is to provide an effective means of communicating important university related information to UWG students in a timely manner. It is the student’s responsibility to check his or her email.

**Credit Hour Policy**

The University of West Georgia grants one semester hour of credit for work equivalent to a minimum of one hour (50 minutes) of in-class or other direct faculty instruction AND two hours of student work outside of class per week for approximately fifteen weeks. For each course, the course syllabus will document the amount of in-class (or other direct faculty instruction) and out-of-class work required to earn the credit hour(s) assigned to the course. Out-of-class work will include all forms of credit-bearing activity, including but not limited to assignments, readings, observations, and musical practice. Where available, the university grants academic credit for students who verify via competency-based testing, that they have accomplished the learning outcomes associated with a course that would normally meet the requirements outlined above (e.g. AP credit, CLEP, and departmental exams).
