CISM 4390
MIS Senior Project: RCOB 2327
Section 01: Monday/Wednesday from 2:00 - 3:20

1. Professor Information
2. Prerequisites
3. Learning Goal
4. Course Description
5. Grading
6. Course Policies
7. Final Notes

Professor Information

- Bradley J. Prince, Ph.D.
- Office Hours:
  - Monday from 9:00 - 12:00
  - Tuesday from 9:00 - 12:00 online
  - Wednesday from 9:00 - 12:00
  - Thursday from 9:00 - 12:00 online

Please keep all communication in CourseDen. I prefer to use the discussion boards for questions so the entire class can benefit from the answer. If you must contact me privately about something, please email through CourseDen. If there is an absolute emergency (computer shut down during a quiz, accident, hospitalization, etc.) please call 256-405-9864 and leave me a message.

Prerequisites

- CISM 3340
- CISM 4310

Learning Goal

"MIS majors will demonstrate the ability to use their skills to complete a comprehensive project related to their discipline."

To meet this goal, I have established the following objectives.
1. Using new technologies for developing online systems, you will ultimately design and build your own system. In completing this project, you will apply knowledge gained in your previous courses (MIS prerequisites and other business courses) to create a system for one of two real-world business problems. (BBA 3, MIS 2)

2. You will be required to demonstrate a working knowledge of Joomla, SWOT analysis, project management, and case study analysis. (BBA 3, MIS 1, MIS 2)

3. You will be required to demonstrate the ability to work in a group setting in completing the project. This will consist of brainstorming sessions, project development, and presentation skills. Your final project, however, will be an individual effort. (BBA 1, BBA 3, MIS 2)

**Course Description**

This course will be divided into a few different sections. Your grade will be based on your participation in each of these. Some of them require deliverables (paper, presentation, or other item to submit for grading) while others simply require attendance. The general outline for the course is as follows:

- Introduction to Payment Systems
- Competitive analysis (SWOT) -
  - Technology analysis
- Team brainstorming and individual proposals
- Project development (about 3-4 weeks)
- Project submission and presentation

**Grading**

- Project Title - 5 Points
- SWOT Analysis - 15 Points
- Technology Analysis - 5 Points
- Project - 25 Points
- Final Exam - 30 Points
- Attendance - 10 Points

Section 01: Monday/Wednesday from 2:00 - 3:20

Course Policies

- Attendance is required for certain days in this course. Please see the course calendar.
- Any students with special needs or requirements are encouraged to contact me privately.
- Make-up assignments will NOT be accepted under any circumstance. It is YOUR responsibility to keep up with the due dates and the work. WORK AHEAD!!!

Final Notes

- I reserve the right to modify any part of this document. Appropriate prior notice will be given to students in the event of modification.
- The State University of West Georgia Academic Honesty Policy will be enforced. You can read this policy at http://www.westga.edu/~vpaa/handrev/207.
- Your UWG e-mail account will be the official communication method at UWG. You can access this through http://myuwg.westga.edu. You are responsible for checking this e-mail account on a regular basis.
